

A SWEEPING CURRENCY REFORM

House Committee on Banking Recommends Passage of the Fowler Bill.

RE-COINAGE OF SILVER DOLLARS

Clean Money Can Only Be Had by Substituting Subsidiary Coins For Small Bills.

Washington, April 11.—A report from the house committee on banking and currency recommending the passage of the bill "to improve currency conditions" was filed in the house today by chairman Fowler. The first section of the bill repeals the law which prohibits customs receipts from being deposited in national banks.

The result of the present law in this matter, the report says, is unnecessary to tie up the money of the country. The report says that if states and municipalities should lock up the proceeds of local taxation as the national government locks up its receipts the effect would be disastrous, and yet there is as much reason for such a course in the one case as in the other.

The second section repeals the monthly three million dollar limit on bank note retirement. The report says the repeal of this restriction will give to the national bank note circulation all the elasticity which it is possible for a bond-secured circulation to have.

The recoinage of silver dollars into subsidiary silver coins is provided in the third section of the bill. The limit of \$100,000,000 as the total amount of subsidiary silver coins that can be in circulation at any time is repealed by this section.

The report says that on July 1 next the bullion from which the subsidiary coins may be made will be exhausted. The bill in the treasury 578,012,939 silver dollars, or, says the report, according to Secy. Shaw, 500 carloads of 10 tons each. It would cost \$100,000 to recast this money, and the secretary says that it is worth in bullion less than \$100,000 of its face value in dollars. It is this money that the bill proposes to recast into subsidiary silver as rapidly as the secretary shall order. In this recast there is estimated a profit to the government of seven cents on each dollar.

Relief to the treasury department in its inability to meet the demand for small bills, owing to the manner in which the present law limits their issuance, is sought to be remedied by the removal of these limitations. On this point the report says:

"It is probably true that the inability of the treasury to meet the demand for small bills, combined with the shortage in subsidiary coin in recent years, has compelled the retention of small bills in circulation until much of that form of money has become ragged and filthy and has produced conditions which have fully justified the vigorous crusade for 'clean money' which has recently been inaugurated. It is believed, however, that with the large donation given to the treasury and the national banks under the provisions of this bill, supplemented by an abundant supply of subsidiary coin, much of the cause for complaint will be removed."

"An ideal sanitary currency, however, can only be secured by the substitution of subsidiary coins for all \$1 and \$2 bills, and improved methods of redemption for paper money of denominations of \$5 and upward."

Poor Place for Photographers.

Victoria, B. C., April 12.—A. D. Ashlin, special photographer for a leading New York agency, arrived on the Northern Pacific yesterday from Japan, utterly disgusted with conditions there. He says that everything worth photographing is zoned and guarded by military or naval sentries. He succeeded in securing a few good pictures of military movements, but says it is useless wasting time in Japan at present. The censorship is exceedingly strict and very few correspondents have been allowed to go to the front.

Supplies for Russian Ports.

San Francisco, April 12.—The steamship Redondo, owned in this city, has been chartered by the Kamchatka Commercial Industrial company to carry supplies for one of Russia's Pacific ports. The Redondo's cargo, which includes a large shipment of flour, is destined to be used by the company's stations at Cape Reliance, Bering Sea, and Cape Petropavlovsk. The Redondo will bring home the season's collecting material and, after another trip, bring the season's seal skin catch. The flour and seal skins, hitherto forwarded to London by way of Yokohama, will be shipped to England by Roth, Blum and Company.

Baron von Bruggen of St. Petersburg

EVER HAVE IT?

If You Have, The Statement of This Salt Lake City Man Will Interest You.

Ever have a "low-down" pain in the back? In the "small" right over the hips? That's the home of backache. It's caused by sick kidneys. That's why Doan's Kidney Pills cure it. Salt Lake City people endorse this. Read a case of it:

Mrs. Robert C. Kirkwood, wife of R. C. Kirkwood, engineer on the Oregon Fourth South, says: "An advertisement Doan's Kidney Pills so impressed me that I asked Mr. Kirkwood to call at the R. J. Hill Drug Co.'s store for an examination. I wanted to try the pills because I had heard it would act as other forms what it promised. After an attack of the grip my kidneys were weakened and easily affected. The pain was particularly severe, rendering sleeping and the act of lifting anything very painful. My physician told me it was kidney trouble, so that I had no doubt, but that a remedy should have some effect upon those organs. Doan's Kidney Pills certainly pleased me. I will be only too pleased to recommend the medicine whenever opportunities present themselves."

For sale by all dealers. Price 20 cents. Write to J. C. Doan, Buffalo, N. Y., sole maker for the United States. Remember the name—Doan's—and get no substitute.

SCOTT'S EMULSION

is the great flesh producer. Thirty years have proved its efficiency in throat and lung troubles and all wasting diseases.

Do not try substitutes, especially now, when cod liver oil is so scarce and high. They are mostly all adulterated with seal or other cheap oils.

Scott's Emulsion is always the same. The cod liver oil used is absolutely pure; all the other ingredients are also carefully selected and of the finest quality.

will have charge of the expedition as those interested term the business for which the Redondo has been chartered. Capt. Boedde, whose steamship, the Kotik, was at Nagasaki when the war commenced and was seized by the Japanese, will sail on the Redondo.

Bark Lost, Crew Saved.

San Francisco, April 12.—The Russian barkentine Bering, according to report, was lost at sea on or about Feb. 1, two days after leaving Yokohama for this port. All hands were saved and reached the Japanese coast in the life boats. She was a vessel of 377 tons register and was built in 1894. She was owned at St. Petersburg.

DEMOLISH CASE.

It is Alleged There Was a Conspiracy to Murder Him.

Pueblo, Colo., April 11.—The police claim that evidence of a sensational nature was unearthed today in the Francheschio case, who trial for the murder of a man whose name the police refuse to divulge has been found who claims to have overheard the discussion of the conspiracy against the life of Demolish, but he is unable to identify the men who were talking. The victim of the assault is recovering rapidly from his wound.

First Fight at the Polls.

Birmingham, Ala., April 11.—B. C. Comer, candidate for president of the railroad commission, and E. A. Defuniak, agent for the local freight department of the Louisville & Nashville railroad, engaged in a fist fight in one of the polling places today. Both were bruised but not seriously. The trouble grew out of an affidavit made by Defuniak in regard to the statements made by Comer, which the latter characterized as false.

Ninety-Nine Year sentence.

Butte, Mont., April 11.—Salvatore Francheschio, whose trial for the murder of Deputy Sheriff Joe Lazzari at Meadville on June 25 last, ended today, was found guilty of murder in the second degree and his sentence fixed at 99 years in the penitentiary by the jury. The defense introduced a great amount of evidence tending to show that Francheschio was insane, it being claimed that his mother and sister had been confined in asylums for the insane in Italy. Francheschio seemed to be unimpaired by the result of the trial. Both men were Italians.

Two Burned to Death.

Oakland, April 11.—William Davis, laborer, and William Dunn, plasterer, were burned to death in a fire that destroyed the Model lodginghouse and several other wooden structures late last night. The bodies were burned to a crisp and unrecognizable. Both men were lodgers in the house.

Heinze Petition Denied.

Washington, April 11.—By denying the petition of E. Augustus Heinze of Butte, Mont., for a writ of certiorari, the United States supreme court today refused to review the findings of the circuit court of appeals for the Ninth circuit in the case of the Butte & Boston Consolidated Mining company vs. the Montana Ore Purchasing company, and others, involving the quartz lode, known as the Michael Davitt.

Attempted Assassination.

Pueblo, Colo., April 11.—C. A. Smith, a foreman at the steel works, was shot in the head by an unknown party this evening and will probably die as a result of the wound. His assailant is supposed to have been one of a number of men with whom he had a quarrel over the subject of using coal mined by non-union men. Smith was about to board a train at Bessemer Junction when he was shot. The police are at work on the case, but so far have secured no evidence as to the person who fired the shot.

FRAUD GOES FREE.

No Punishment for Crimes Against Ballot at Colorado Elections.

Denver, April 11.—Judge Palmer, in the criminal division of the district court today, decided that there is no punishment prescribed by statute in this state for fraud committed at special elections such as the recent charter elections in this city. This decision frees 18 election officers who were charged with stuffing ballot-boxes.

Newton Marks Dead.

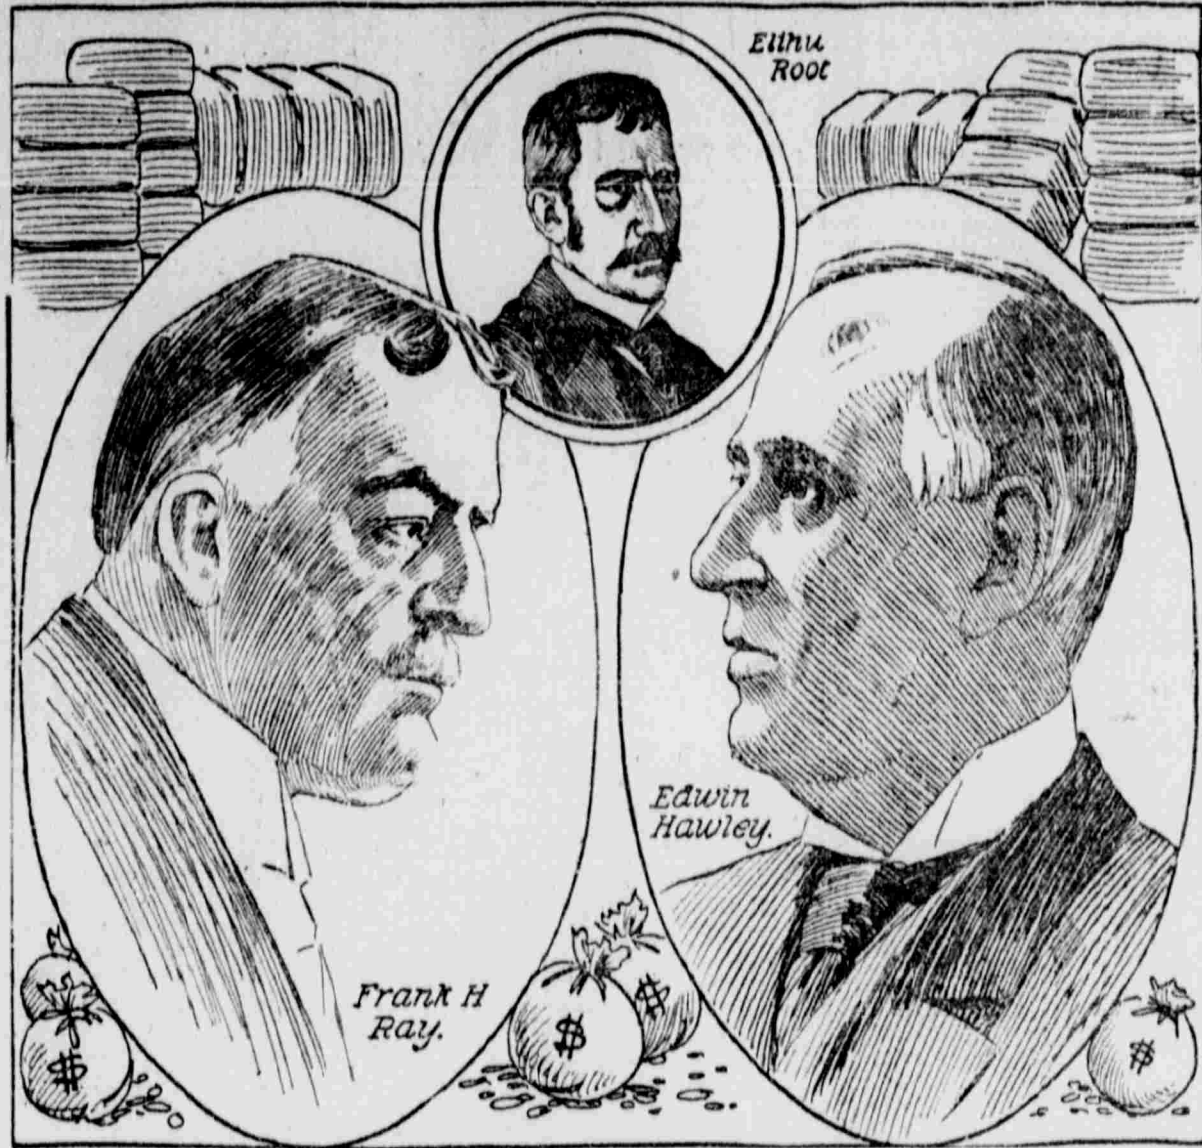

El Paso, Tex., April 12.—Newton Marks, a veteran circus and theatrical man, came here for his health and was found dead and badly mangled on the Rock Island railroad tracks near this city. For the past five years Newton Marks had resided in the west.

Carnegie Educational Gift.

New York, April 12.—Announcement has been made by the Educational alliance of a gift amounting to \$5,000 from Andrew Carnegie. This sum is to furnish the nucleus of an endowment. The allowance has for its object the moral and intellectual improvement of tenement dwellers on the east side.

Order in Ship Building Co. Case.

Trenton, N. J., April 11.—Judge Kilpatrick, in the United States court, today signed an order instructing Receiver Smith of the United States Ship Building company to admit the validity of the \$16,000,000 mortgage held against the company by the Mercantile Trust company of New York and the \$10,000,000 held by the New York Securities and Trust company. This order was made in consequence of a petition filed by Receiver Smith to the effect that there was no adequate defense to the proceedings instituted to foreclose these mortgages. In connection with today's order there was an affidavit by W. W. Lee, secretary of the reorganization committee, to the effect that there had been no effort with the committee all

IMPORTANT FIGURES IN THE COLLAPSED SULLY COTTON BUBBLE.

While the Daniel J. Sully cotton corner was "on" there were numerous published statements of millions earned to a day. Now that the investigation has developed the fact that at no time was Sully more than \$100,000 ahead of the game it begins to look as though these exaggerated statements were originated with a purpose. The investigation now in progress in New York is for the purpose of endeavoring to establish the connection as partners of Sully's associates in most of his deals. These two men, Edwin Hawley and Frank H. Ray, both millionaires, say that they were merely interested in specific deals, the profits on which were promptly paid to them, and that they were in no sense partners of the deposed cotton king. Ethel Root, who represents the creditors of the firm of D. J. Sully & Co., made his first appearance as a lawyer in this trial since his retirement from the secretaryship of war.

THE REVOLUTION OF SAN DOMINGO.

Gen. Jimenez, Morales' Opponent, Will Make Another Attempt Very Soon.

RACE FEELING HIGH.

A Houston, Tex., Negro Wantonly Murders White Man.

Houston, Tex., April 11.—News from Walter county, 60 miles north of here, indicates that race feeling is very high, owing to the murder near Hempstead of Tucker Pinckney, a brother of Congressman J. M. Pinckney of the Houston district.

It appears that Pinckney and a companion were riding by a negro church when they were fired upon. While the dead man's body lay in front of the church, a negro with a shotgun rode by and informed the crowd that he did the shooting, after which he disappeared. This negro had a finger shot off, which indicates that Pinckney and his companion returned the fire.

George Goss, who was with Pinckney, says he thinks the negroes mistook the dead man for him. Over 100 armed whites are in the field after the negroes. Congressman Pinckney wired that he would leave Washington today and arrive at home Wednesday. The dead man was one of the leading planters and stockmen of this section.

A REMARKABLE STRIKE.

Employees Went Out Two Years Ago and Are Still Out.

New York, April 12.—A remarkable strike has just passed its second anniversary at Monaca, N. J. Two years ago the union employees of a glass company there were called out and they are still on strike with the Glass Bottle Blowers' association maintaining busy headquarters opposite the works. The costs of the association have been heavy but the men declare they are determined to win in the end. There were 400 strikers, all placed on the association payroll and the leaders say not one has returned to work. The management maintains that full staff is operating the factory and that the strike does not worry them in the least.

More Bubonic Plague.

New York, April 12.—Twelve new cases of bubonic plague were reported Sunday, cables the Herald's correspondent at Lima, Peru. All are in the lower part of the city called Overbridge. The districts will be closed by quarantine, and communication between Lima and Callao also will be forbidden.

Not Fatal.

No Matter What Doctors Say—We Know That Heart Trouble in Many Cases Can Be Cured.

There are seven main features of heart disease, viz: (1) Weakness or Debility; (2) Rheumatism or Neuritis; (3) Valvular Disorders; (4) Dilation; (5) Enlargement; (6) Fatty Degeneration; (7) Dropsy.

Documentary evidence will prove thousands of so-called "incurables" have been absolutely cured by Dr. Miles' New Heart Cure.

Patients often have no idea their disease is heart trouble, but ascribe it to indigestion, liver complaint, etc.

Here are some of the symptoms: Shortness of breath after exercise; Swooning spells; Pain in Chest, left Shoulder and arm; Discomfort in Lying on one side; Fainting Spells; Nervous Cough; Swelling of Feet and Ankles; Paleness of Face and Lips; Palpitation; Nightmare; Irregular Pulse.

"I have great faith in Dr. Miles' New Heart Cure, and speak of its merits whenever opportunity presents. I can now go up and down stairs with ease, walk one block. One year later, 'I am still in good health; the Heart Cure did so much for me, that I find it a far greater medicine than you claimed it to be.'—D. D. D., 697 Pine St., Natchez, Miss.

Money back if first bottle fails to benefit. FREE Write us and we will mail you a Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Rheumatism, Neuralgia, Headache, Toothache, Backache, Stomach Pain, etc. Send for your Free Trial Package today. Address: DR. MILES MEDICAL CO., LABORATORIES, ELKHART, IND.

Well, you ought to. Now you want that newspring SUIT and HAT. The merchant-tailored fabrics and make are called "Atterbury." They don't lose their shape.

Leggs 61-63-65 Main Street.

the cause of its poisonous effects upon animals, will be undertaken early in May by Dr. H. H. True, of the bureau of plant industry of the department of agriculture, who is now in Denver. In conjunction with Prof. W. L. Carlyle of the Colorado experiment station at Fort Collins and Secy. Johnson of the Colorado Cattle & Horse Growers' association, Dr. True and his force of experts from Washington will make a thorough investigation and report upon the effect of the plant upon different animals. From experiments already undertaken it is believed that the loco weed is without serious effect upon sheep.

SPAIN MUCH AGITATED.

Over France Acquiring a Firm Hold on Morocco.

Paris, April 11.—The agitation in Spain over France's acquiring a firm hold on Morocco under the Anglo-French colonial treaty, does not cause anxiety among the officials here, as it is believed the irritation will subside without straining the relations between the two countries. An official said today that Spain, after a lengthy possession of a number of military posts in northern Morocco, had been unable to extend Spanish authority or develop the country. She continued to hold the posts only through constant military activity. One of the chief causes of this was the hostility of the Moors, growing out of their expulsion from Spain. Moreover, the Moors are aware that the religious zeal of Spain would lead to an attempt to compel Morocco to give up Mohammedanism in case of Spanish authority being paramount, whereas it is the purpose of France not to introduce a religious element into her plans for the development of Morocco. Therefore, there is reason to believe that Morocco will assent to French supremacy.

THE LOCO WEED.

Its Nature to be Fully Investigated in Colorado.

Denver, April 12.—Practical investigations to determine the exact composition of the loco weed, which is the cause of much worry and expense to cattlemen throughout the west and to detect

STOP THAT COUGH.

Put an **Alcock's Plaster** high up on the chest. It won't cure you in a minute, but keep it on a reasonable length of time and you will feel the beneficial results.

For the aching back after a Grippy Cold, nothing will benefit you as much as an **Alcock's Porous Plaster**.

DON'T HACK PUT ON AN **Alcock's POROUS PLASTER**

REMEMBER—Alcock's Porous Plasters are equally effective for weak back, pains in the region of the kidneys, pains in the chest, sprains, stiffness of the joints, sore muscles or any trouble arising from taking cold or over exertion.

Alcock's—the only genuine porous plaster.
