"HISTORICUS." WE publish to-day another communication from "Historicus" on the subthe "Mormons" and Temper-His former letter was in refutation of some untruths uttered by Governor Murray through the North Review. The present paper dered necessary by a violent and abusive article written and signed Hollister, and published in He said "the Church, the Mormon Territory, and the cities and

counties and prominent Mormons" were "all llars and hypocrites," in "claiming to be opposed" to intemperance and other vile things which have been introduced here by anti-"Mormons," and that the "Mormons" ought, 'in common decency, to stop their internal lying about these things. We said nothing about his intemper-

ate and backguard effusion at the time, but left if to "Historicus" to hoist the ex-Collector of Revenue with his own petard. It will be seen that the figures given by "Hisin the first instance, were made up from O. J. Hollister's own report. That report was published, at amearlier date, in the same sheet in which his violent attack and accompanying figures appeared. They be compared. It will be seen that "Historicus" was correct in hisfigures, or if he erred at all, gave a silvantage to the other side; while the ex-Collector stands self-convicted of the very offence which he is so ready to charge against the "Mormons," and which he classically denominates "internal lying."

But as this led to drinking use against "Mormon" temperance are strong and convincing evidence in their closed Feb. 1867. [Open 3 years and 2]

ritorial legislation and municipal ordinance have been rendered measurably abortive by executive or judicial interference. The facts are of record and the spirit and genius of the "Mormon" faith are in utter hostility to the vile practices which tend to demoralize and corrupt the community.

TEMPLES AS EDUCATIONAL INSTITUTIONS.

ONE of the specific uses of Temples does not appear to have such a conspicuous hold upon the minds of the people as the administration of Gospel ordinances for the living and the dead. Initial and terminal months; in my Not only are Houses of the Lord erect-present notes I count but one of these rites pertaining to time and eternity, but they are also institutions of learning. This educational phase of the work periaining to Temples is enjoined by revelation, and was exemplified in the course taken by the Prophet Internal Revenue office show."

Both, then, are from the Internal ed for the performances of sacred Joseph and the brethren who were associated with him. They entered upon and conducted various branches of and conducted various branches of up. How nicely they agree will be seen learning, such as the study of languages, history, astronomy, the laws, governments and usages of kingdoms, local social disorders, including, I

as the instrument to usher in the last dispensation, he made rapid progress in self-education and attained considerable advancement as a Greek and | legitimately, but supports the same

That the lately completed Logan
Temple, will be used for this progressive purpose is foreshadowed by the dedicatory prayer, uttered by President Taylor, in which specific mention was made of this beneficient object.
The acquirement of wisdom and knowledge is, according to the revelation, to be obtailed by research, study and be obtained by research, study and faith, and in no other place can studies be prosecuted or faith exercised to 1883, to May 1st, 1884: better advantage than in a Temple, where the Spirit of the Lord dwells continuogsly. When the intellectual powers age touched by that inspiring, quickening influence they are intensified and their grasp enlarged. Temples are necessarily houses of eduthe Church should take the key of progress from this essential feature. The object of the Gospel is the cultivation of the whole nature of man, physical, moral, intellectual and spiritual, and there should be a constant effort in the direction of advancement. It is iterated and re-iterated that no man can take part in building up the work of the Lord and be successful, except he be endowed with His Spirit. This is undoubtedly correct, but it is also true that that influence exercises with the greatest potency through a progressive mind. The Prophet Josephsaid: "If a person gains more knowledge and intelligence in this life through his diligence and obedience than another, he will have so much the advantage in the world to come." Not only is a man's sphere of use-fulness increased by an enlargement of understanding in this life, but correspondingly with the advancement made here will his position among the in-

telligences be in the future existence.

Mere inactive goodness or morality will not glorify man. Goodness should be allied to a progressive spirit, evinced by an effort to cultivate all the powers he bas inherited from his Maker. To this purpose will Temples be put, and from them, as educational centres, will a progressive influence constantly radiate to the body of the Saints composing the Church.

My animadversions are always and solely directed against the anti-"Mormons." have no quarrel with the honorable non-"Mormons," who are as much opposed to anti-"Mormon" methods and law-lessness as the "Mormons" well can be.

Some days ago I wrote you as follows:

The 37 distilleries which Governor Murray untruthfully says were owned by the "Mormons" produced but 13! Again, the 33 non-"Mormons' have an aggregate term of 107% years to serve while the 13 prisoners credited to the "Mormons" were owned and operated by the following classes:

Six by, "Mormons," twenty-eight by non-"Mormons" most of them seceders from "Mormons," twenty-eight by non-"Mormons," and depraved were the crimes of the non-"Mormons' over the "Mormons," all of whom are without church fellowship and, without doubt, many were led astray) by the anti-"Mormons', who, secens, and nearly all were illicit and were promptly closed as soon as the civil authorities discovered them, as the following list shows:

13 ever even professed the "Mormons" faith.

The U. S. Census of 1880 put the number of non-"Mormons" of Utah under 17 per cent. of the total population. Yet this insignificant per cent. "Mormons" produced 33 convicts for the penitentiary while the 83 per cent. "Mormons' have an aggregate term of 107% years to serve while the 13 prisoners credited to the "Mormons are in for 26% years only. This, without further comment, shows how much more atrocious and depraved were the crimes of the non-"Mormons' over the "Mormons," all of whom are without church fellowship and, without doubt, many were led astray) by the anti-"Mormons', who, seems and corrupt.

If the 83 per cent. "Mormons, and the animer of non-"Mormons, and the same and the sam If the 83 per cent. "Mormons" of Utah were as lawless as the 17 per cent. non-"Mormons" their accredited criminals in the Penitentiary would criminals in the Penitentiary would have to serve an aggregate term of 524 years, instead of the 26% years allotted to them, and on the other hand if the 17 per cent. non-"Mormons" were as lawabiding as the 83 per cent. "Mormons" the term of itheir imprisonment would expire in 5% years, instead of the 107% years allotted to them and aside from the gravity of the anti-"Mormon" criminalities over the "Mormons," if the 83 per cent. "Mormons" were as lawless as the 17 per cent. non-"Mormons" they would have 161 prisoners in the Penitentiary instead of the comparatively small number of 13.

What a painful impeachment of the what a painful impeachment of the ever boastful anti-"Mormon" this exhibit alone makes. Nearly everyone of the very gravest crimes are charged up to their class. Is it doubtful that these 33 convicts belong to the anti-"Mormon" outfit? Fut Hollister up for some local office against the best "Mormon" in Utah, give these 33 crimnals the franchise and who does not know that they would your solid for know that they would vote solid for this unscrupulous anti-"Mormon." SALT LAKE CITY, May 15th, 1884

H. S. Eldredge, Esq., Supt. Z. C. M. I.,

DEAR SIR.—I am the owner of a Miller Wrought Iron Range, No. 18, with elvated oven shelf, which I purchased from you and consider it just capital. I believe it consumes less fuel than the ordinary No. 7 Stove; it is roomy, and large enough for a family of thirty persons; it bakes well and has the best attachments for hot water I ever saw, requiring no extra fuel to keep forty gallons at bolling heat, it takes up but little room, is plain, and consequently easily kept clean, in fact it is homelike and comfortable.

When in Cincinnati in January last, I learned from one of Mr. Miller's salesmen, they had just taken in exchange for a larger one, the first Range they ever made, which, after being in constant use for over sixteen years, was apparently as good as new.

I only know of three defects with it, it has to be set in place, it has to be cleaned occasionally, and you have to buy Coal or Wood for it; if you can find something that obviates these inconveniences, do so, if you cannot, then buy a Miller, and you will always find your wife happy, and your food well cooked.

Fours truly,

E. H. PARSONS,

SALT LAKE CITY, April 20th, 1884.

GENTLEMEN.—I cheerfully recommend the Miller Wrought Iron Range as by far the Best Cooking Range that we have ever used, our experience embracing several kinds. As an Economizer of Fuel it is apparently perfect, and as a Boiler Attachment Heater, I know of none so good.

Very truly yours,

BENJAMIN HAMPTON.

GENTLEMEN.—I take great pleasure in endorsing Mr. Hampton's Testimonial, from a grateful experience during the past year. GEO. T. ODELL, Twelfth Ward, Sait Bake City, of Grang, Odell & Co. Yours respectfully,
