

STRIKE BREAKERS JOIN WITH UNION

Men Imported from Kansas City Say Things Were Misrepresented.

THEY WERE TO REPLACE JAPS

Such, They Claim, Was the Understanding They Had When Hired — Carpenters Go Out Today.

Around the union headquarters this afternoon there is a hopeful feeling that by night all the difficulties existing between the local union of the structural ironworkers and the Minneapolis Steel & Machinery Co., the sub-contractors on the new Commercial club building, will be satisfactorily adjusted, and that probably by tomorrow local unionism will be at work on the building.

This settlement is expected to follow a meeting of the building trades council to be held this afternoon, and while no information is given out from official sources, either on the part of the union or the contractors, it was intimated in authoritative sources that the union will waive several of its demands relating to the hiring of labor, while the contractors will accede to the wage scale demand of \$4.50 per day.

ANOTHER STRIKE TODAY.

Today's operations on the new home of the Commercial club, and the scene of the labor trouble, was marked mainly by the no serious hand-pick at this time, and the contractors expressed themselves as satisfied with the manner in which the work is now progressing.

THREE JOIN UNION FORCE.

Three men of the force brought from Kansas City yesterday and who began work at noon yesterday, deserted the contractors and went to the union's headquarters. They were alleged to have been enticed here under false representations as to the actual conditions, one of them saying that he had been told that there was no union here and that they were to come here to take the place of Japanese labor.

About 20 men were employed on the building today, and it was said that even additional workers were expected by the contractors today, while 25 more men are on their way to Salt Lake from points farther east.

HIGH FENCE BUILT.

The determined attitude of the sub-contractors taken toward conducting the work in face of the opposition of the union was evidenced this morning when the building lot was surrounded by a new board fence 10 feet high. The former fence was only five feet in height, and the only purpose of the new barricade is to prevent the union men and their sympathizers from loitering about the site. The fence, however, was used as a vantage point by the idlers this morning, and were surrounded by a throng that the special officers and watchmen had difficulty in keeping back. There was no attempt at disturbance, however, and the workers were unmolested, except for an occasional jeering laugh or taunting remark.

GAMBLING HOUSES AND SOLOONS ARE BLAMED

Nevada Financially Flat Following Their Traffic—Contrast Story In Idaho.

Rev. L. S. Fuller, superintendent of the Anti-saloon league work in Utah, has returned from a speaking tour of Idaho and Nevada. He is much pleased with the outlook in Idaho where there is a good local option law, and considers the situation there well in hand. In Nevada the liquor and gambling interests have practically done their own graves by overreaching themselves. He says that in Nevada the saloon to every 20 adult males, and one professional gambler to every 10 adult males. The result is that the state of Nevada is financially flat, and the saloon, having flattened out the state so that there are 2,000 empty rooms there, Mr. Fuller says:

"Citizens of the state are satisfied that there is no genuine growth in boom, no prosperity for any city or state that harbors whisky and gambling. The gamblers are a shifting, irresponsible class, who come to a town and then move on, leaving only desolation behind. The saloonkeeper harvests the crop, and then sends the great bulk of it east to the distilleries or breweries. Thus it is that two sets of holdups are robbing the state of Nevada of its much needed funds, leaving bona fide residents in hard straits."

It has taken time and hard experience for the people of Nevada to learn the lesson, but they appear to have done so, and are ready now to co-operate with the anti-saloon league and drive the liquor and gambling interests out of the state. Mr. Fuller calls attention to the fact that on July 25 next, there will be a mass meeting in the interest of temperance in the city of Reno, Nevada, when the Rev. Dr. Baker of Columbus, general superintendent of the Anti-saloon league, and General Attorney Wayne B. Wheeler, also of Columbus, will be present to speak. They will be coming from attendance on the Epworth league convention in Salt Lake to take part in this meeting.

FLOOD IN PROVO CANYON.

Word was received at the local offices of the Denver & Rio Grande railroad that another section of track in Provo canyon had been washed out by the floods this morning. The work of the flood is working on the track, but in the face of the fact that no much progress can be made, the regular Sunday train will be called off on account of the floods this week.

FEAR WARM DAYS ALONG WATERWAY

Creeks and Rivers Now Carry All Their Banks Will Stand.

BIG GANGS ARE AT WORK.

City and County Officials Are Taking Every Precaution to Protect Homes in Lowlands.

A further drop in the height of the water is recorded today in the flooded districts in the city, due to a shrinkage of the volume of water pouring into the Jordan river from the Cottonwood and Parley's canyons. The cool days and nights have been a boon to Street Superintendent J. T. Raleigh, who has done such efficient service in controlling City Creek in North Temple, though their effect, in relieving the distress of the citizens is very slight.

Road Commissioner Willard Snow has been making daily trips to Cottonwood canyon and elsewhere this week in the endeavor to repair the breaches and prevent further damage. He has been using, it was said this morning, all the men available in Cottonwood canyon, assisted by the Maxfield Mining company in the canyon, which has placed a number of men and teams at his service. Mr. Snow, road supervisor, is also assisting in the work, and has been put in the bridges which have been washed away. Six bridges are reported to have gone out west of the power plant. The conditions in the canyon is said to be much better today as there is a drop of fully 2 feet in the water near the old paper mill.

Mr. Snow has also a force of men working on Parley's creek, endeavoring to get things in good shape for the raise that will come with the rising temperatures of today.

Speaking of conditions around Tenth South today, Pauper Clerk James Sabino said he visited all the districts yesterday afternoon and found three families in the water. He said that he should be out of them, as the water in each case is over the floors of most of the houses. Two of them live in Glendale avenue. They are H. Fuller and Mrs. Susie Wilson. The other case is that of John Morgan, living in Tenth West.

Sabino is of the opinion that with the approach of warm weather there will be similar scenes enacted as have been witnessed during the past week. Most of the water, he says, is still in the mountains, as is shown by the late report from Brighton, which state that there is still five feet of snow on the level up there. As soon as the hot days come again these melting snows will again swell the creeks and floods may again be looked for in the opinion of Mr. Sabino.

Theodore McKean, who lives in north Twelfth West, says that the water in the flooded districts north of the city has receded about six inches, but it does not mean a recurrence of the extremely high level of the 8th inst. There are in that vicinity about half a dozen houses surrounded by water, but it has not reached the floors of the houses. Mr. McKean has returned from Utah lake and he reports the dam completely covered at the foot of the dam, and the river is carrying all the water it can. It would seem that as soon as warm weather comes again, augmenting the flow from Cottonwood and Parley's canyons, the river must rise again.

Street Supervisor J. T. Raleigh, has a number of men at work in North Temple clearing out the ditch, and have been working on the creek, clearing the rocks and gravel out of North Temple, cleaning out the creek, putting the bridges to replace those washed out.

A party of 20 women students of the Raynor school at Nashville, Tenn., arrived in this city this morning over the Salt Lake route from Los Angeles. The women, chaperoned by Prof. and Mrs. Esham of the college, are making a tour of the state, and are expected to be spending some time on the Pacific coast. Upon arrival here they were taken to the hotel where they are staying. The party is composed of the Denver & Rio Grande, and put aboard seeing cars, in which the party attended the organ recital in the tabernacle. They will leave for their tour of the Pacific coast, via the Denver & Rio Grande.

TWO WIFE BEATERS.

Two fellows with a penchant for beating and abusing their wives, were taken into custody by the police last night after they had been indulging in what has become to be a pastime for them. They were taken into custody at the corner of South street, and Tom A. Hemingway of 411 east Seventh south street. Brown is still held in custody at the city jail, but Hemingway secured his release this forenoon by depositing bail money for his appearance.

PRICE OF SUGAR REDUCED.

New York, June 11.—All grades of refined sugar were reduced 10 cents a hundred pounds today.

SMITH PEGGED UP A NOTCH.

Trainmaster on Salt Lake Route Promoted to Assistant Superintendent.

W. H. Smith, formerly trainmaster on the Salt Lake division of the Salt Lake route, has been appointed assistant superintendent of the same division, the appointment being effective today. Mr. Smith has been identified with the Salt Lake route since 1900, when he came over with R. E. Wells, who was then general manager of the Santa Fe, Prescott & Phoenix railroad. Mr. Smith was then clerk to Mr. Wells, and in the transfer still remained chief clerk when Mr. Wells became general manager of the Salt Lake route. Mr. Smith for the last three years has been trainmaster of the eastern division of the route, and his appointment as assistant superintendent was strongly recommended by Supt. Van Housen. Mr. Smith is a very capable railroad man, and is respected by his men, as well as by his superiors in office.

AWAKENING IN INLAND EMPIRE

Convention Called by Weber Club Of Ogden of All Shippers In the Region.

DEMAND ONLY FAIR PLAY.

Discrimination Favoring Coast Cities In Freight Rates from Eastern Points Must Stop.

(Special to the "News.")

Ogden, June 11.—A convention of wholesale and retail merchants of all the states west of the Missouri river will be called to meet in this city at the near future. The purpose of the convention is to take some united action in the matter of freight rates. All freight shippers and everyone interested in the matter of securing just and equitable rates for the shippers of the "inland empire" will be invited to attend.

"The call will be issued in a few days," said Secy. Reynolds of the Weber club, under the auspices of which the convention will be called, "and every shipper and merchant as far east as the Missouri river, as far north as Canada and as far south as Mexico—in fact all wholesalers and shippers in that section, known as the 'inland empire' will be invited to participate in the convention. The object of the gathering will be to co-operate in enforcing a demand that railroads shall not discriminate in favor of the coast cities in the moving of freight from eastern points. Delegates are expected from every city of consequence in the inland empire, and representatives from smaller cities will also be welcomed. President Woodward of the Weber club has just returned from the east, and details of the convention will be planned at once, when the call will be issued. The convention will be held probably early in September."

G. V. WILKES OF UTAH RECEIVES HIS DIPLOMA

West Point, N. Y., June 11.—At commencement day exercises at the U. S. Military academy today Secy. of War Dickinson presented the members of the graduating class with their diplomas. He first witnessed a review of the entire cadet corps.

Secy. Dickinson in presenting the diplomas reviewed the achievements of the military academy.

General Porter, who graduated from West Point in 1860, spoke in glowing terms of the efficiency of the American military academy, and of the achievements of the graduates of the academy. There were 103 members of the graduating class, including two Chinese, Wen and Chen, and a Hawaiian. Originally the class numbered 105, but many were dropped for deficiency.

When the name of G. V. Wilkes of Utah was called, Gen. Marshall, chief of engineers, asked and was given permission to deliver the diploma. Wilkes is 32 in the class, while Chen was 103. The Hawaiian is A. K. B. Lyman, who is number 15, and will get a platoon in the engineering branch of the service. Wen and Chen were heartily applauded when their names were called.

The young cadet graduate, G. V. Wilkes of Utah, is a son of Major Edwin Wilkes of this city. General Marshall is a close friend of the Wilkes family.

NEW TRIAL FOR ARTHUR BROWN

Arthur Brown, who was convicted of forging the name of W. C. Orem, general manager of the Apex Mining company, on May 26, 1906, to two checks amounting to \$9,562.50, was declared to be insane at the time the crime was committed, and was granted a new trial this morning by the supreme court. In the opinion, which was handed down on Brown's appeal, it is set forth that the verdict of the lower court was not supported by the evidence, and contrary to law. The jury disregarded the undisputed evidence of insanity, which was the sole defense, the opinion reads, and the judge should have instructed the jury to reconsider its verdict. The decision further states that an insane person cannot legally be guilty of criminal intent.

The opinion reviews at length the case, which was heard before Judge George W. Armstrong in the Third district court. It is shown that Brown had a mania for money and that he was a victim of hereditary insanity. In reversing the decision of the lower court the five-year sentence imposed by the lower court was repealed. It is understood that the defense will ask for a rehearing of the case as soon as possible.

The opinion was written by Justice Erick and concurred in by Chief Justice D. N. Straup and Justice W. H. McCarty.

TWO WAYWARD GIRLS.

Night's Revelry at Warm Springs Leads to Prison Cell.

Two young girls, of respectable men left the police station this forenoon, earlier but wiser than when they were given into the care of Matron Gifford at midnight. They each left \$5 bail with the desk sergeant, but it is not likely that they will appear in court in an attempt to secure their return.

A night's revelry at Warm Springs in company with three male companions led to the girls being detained in jail over night and booked under a charge of drunkenness and disturbing the peace. The party consisted of Annie Bronger, Grace Cal, Caesar Brun, Charles Root and Charles Conley. They had gone out to Warm Springs during the evening, and the conduct of the party was such that several complaints were received by the police over the telephone from residents of that section. The girls were sent out and brought the party to the station, where the men promptly took advantage of the opportunity of freedom under bail, while the girls were given into the custody of the matron. They had but to submit to a severe lecture from Lieut. Hempel before they left the station.

HARMS' CHALLENGE PROMPTLY ACCEPTED

Department of Agriculture Rather Nettled Over Charges About E. St. Louis Packing House.

INSPECTORS ORDERED THERE

On Completion of Investigation the Facts Developed Will Be Sent To Secretary Wilson.

Washington, June 11.—The department of agriculture today accepted the challenge of J. F. Harms, a government meat inspector at St. Louis, who in tendering his resignation to Secy. Wilson, made serious charges against the meat inspection system at the national stock yards in East St. Louis, Ill., and demanded an investigation relative to his allegations. An immediate and thorough investigation into Mr. Harms' charge concerning the East St. Louis packing houses was today ordered and to that end two government inspectors have been ordered there. When they have completed their investigations, the facts developed will be reported to Secy. Wilson, who is at his home at Tracer, Iowa, but will return here next Tuesday.

The letter of Inspector Harms to the secretary making the charges and demanding an investigation has been received, but the resignation has not yet reached here. It was stated, however, that it would be accepted immediately upon its receipt. Dr. Alonzo D. Melvin, chief of the meat inspection service, under whose immediate supervision the meat inspection service comes, will today prepare a statement showing the conditions in the East St. Louis stock yards, particularly with reference to the number of animals slaughtered and condemned.

HARRIMAN'S WAYS WITH NEWSPAPERS

Each of His General Managers Takes All in His Territory, Has Them Tabulated.

SEMI-MONTHLY REPORT MADE

To Julius Kruttschnitt—Chicago Office Buys Them—So Touch With Public Sentiment Is Kept.

Chicago, June 11.—The way E. H. Harriman keeps constantly in touch with public sentiment was disclosed by Julius Kruttschnitt, director of maintenance and operation for the Harriman roads, who says that each general manager of the Harriman lines receives current issues of all newspapers and periodicals published in his territory. A competent employee in the office of every general manager, after a careful reading of the publications, tabulates and compiles a record showing the attitude toward railways and other corporations in each publication.

Twice a month each general manager telegraphs Mr. Kruttschnitt a brief synopsis of the public sentiment as reflected by the press. His report also shows the number of publications examined, the percentage favorable, the percentage unfavorable and the percentage neutral. He quotes also from criticisms, complaints, expressions of opinion from special articles as well as gives the trend of opinion as voiced in political and commercial matters.

The Chicago office of the Harriman lines briefs and consolidates the fortnightly reports of the general managers for telegraphic transmission to Mr. Harriman in New York. It is stated that Mr. Harriman regards the reports as valuable aids in detecting causes of friction between his railroads and the public and in applying corrective measures.

WESTON AT ROCK SPRINGS.

Rock Springs, Wyo., June 11.—Edmund Weston arrived here at 11:30 today and was met by Mayor Park who took him to a hotel for dinner. Weston is in good condition but his shoes are out of order and he has a headache. He expects to reach Peru tonight.

Weston was met here by a large crowd who followed him through town to the hotel.

UNIVERSITY CITY WON BALLOON RACE

New York, June 11.—The balloon university of St. Louis with John Berry and John McCullough aide was the winner of the national balloon contest. Official reports from the contestants were before the Aero Club of America today and show that the University City covered a distance of 382 miles, landing six miles south of Fort Payne, Miss.

A balloon New York, manned by A. Holland Forbes and Capt. Harmon of New York was second in the distance contest, landing two and one-half miles south of Corinth, Miss., having a distance of 355 miles. The New York will be awarded the prize for the longest period in the air, being in flight 35 hours and 10 minutes unless a priest is made.

ORIGIN OF LIFE.

Prof. Jagger Believes It Is to Be Found In Volcanic Fire.

Honolulu, June 11.—Declaring his belief that the origin of life is to be discovered in volcanic fire, Prof. James Jagger, scientist, addressed the chamber of commerce today, urging the establishment of an observatory on the brink of the crater of Mount Kilauea for the purpose of pursuing investigations to that end.

GENERAL STRIKE ON GOULD SYSTEM

One in Southwest Not Improbable Outcome of Meetings of Brotherhood of Firemen.

TIMOTHY SHEA NOT HOPEFUL.

Among Demands Are Reinstatement Of Discharged Employee and Right Of Organization Representation.

Texarkana, Ark., June 11.—A call for a general strike on the Gould system of railways in the southwest is believed not an improbable outcome of the meetings of the general committee of the Brotherhood of Locomotive Firemen and Engineers in session here discussing controversies between the Texas & Pacific railway and the employees' organization.

Timothy Shea, vice president of the organization, who is presiding over the sessions, says efforts to adjust the several disagreements, involving a demand that a discharged employee be reinstated and the right of the organization to represent its members in disputes are recognized, give but small prospects for a settlement. Mr. Shea concludes a statement as to the situation with the declaration that "under the laws of our organization we have the right to involve the entire system of railroads in that jurisdiction."

ATTEMPTED MURDER FOLLOWS ATTEMPTED EXTORTION

Chicago, June 11.—Dr. Jennie A. Boardley, it was learned today, is the latest victim of an alleged "Black Hand" plot in Chicago. She was attacked by unknown parties with a razor as she answered a knock at the back door of her home at 6508 Pearl street, last night. Two detectives were called to the house to guard the woman against just such an attack. It was a steel ribbed corset that saved her life. The assassin struck her blows and escaped in the darkness before the detectives could reach the door.

Dr. Boardley, who is a practicing physician of middle age, received a letter several days ago threatening her life if she did not pay \$500 in a designated spot. The letter, which she turned over to the police, was signed with a rude imitation of a black hand and a skull and cross-bones. The letter threatened the woman with death in her own home if she did not "get busy" with the money.

Since the receipt of the letter a detective has accompanied her in her motor car as she made the rounds of visits to her patients, and two others have been concealed in her home.

CHARGED WITH MURDER OF HIS FATHER-IN-LAW

Rockport, Ky., June 11.—Charged with the murder of the father of the girl he is alleged to have betrayed, Clay Smith, aged 25 years, married, is held in the Michelsburg jail, guarded by a score of officers, as citizens have declared they will lynch him.

In an adjoining cell, named as an accessory to the murder, Bessie Kimble, aged 15 years, married, is said to have been ill-treated. On the night of May 16, M. J. Kimble was shot and killed when in his bed. Later his daughter Bessie was seen in three separate packages into a third. Officers recovered the packages and say they contain letters demonstrating Smith's guilt.

The letters had been written by Smith, it is said, and told of the intimacy between Smith and the girl, of her condition, and of his demand that she kill her father, as the latter would kill him when he learned the truth. The girl, who has the courage to kill her father, it is charged, that he would kill the father himself. Smith's wife is the girl's sister.

MARK TWAIN'S ADVICE TO GIRL GRADUATES

"Don't Drink—That Is, Don't Drink To Excess. Don't Marry—I Mean, to Excess."

Baltimore, Md., June 11.—Mark Twain came to Baltimore yesterday to talk to the girl graduates of St. Timothy's school.

Following Edward E. Martin of New York, he said that as Martin had advised them as to what they should do he could only tell them what they should not do.

"There are three things, young ladies, I advise you not to do. Don't smoke—that is, don't smoke to excess. I am 73 1-3 years old, and I have smoked only 73 years of that time. Don't drink—that is, don't drink to excess. Don't marry—I mean, to excess."

NORWEGIAN LUTHERANS.

Dos Moines, June 11.—Chief interest in the Norwegian Lutheran church of America convention today centered about the election of its nominating committee. This committee has in charge half a dozen colleges, which are under the church's jurisdiction and recommends instructors for filling the vacancies which are found in the various faculties.

Treasurer Erik Walderman made his annual report and stated the value of the church property now amounted to \$1,611,418.33.

UNSUCCESSFUL ATTEMPT TO KIDNAP ABDUL HAMID

London, June 11.—A local news agency publishes a dispatch from Constantinople today saying that an unsuccessful attempt is reported to have been made by the reactionaries to kidnap Abdul Hamid, the deposed sultan of Turkey, from the house where he is residing in Saloniki. Several officers, the dispatch continues, were killed in the struggle.

PEACOGUES START TO PLAY

Church School Teachers Get Down to Athletics at Wandanmere This Afternoon.

BOOK OF MORMON LECTURE.

Elder Anthony W. Ivins Continues His Interesting Address on Subject of Lands Mentioned Therein.

The Church school teachers believe that "all work and no play makes Jack a dull boy." They are, therefore, pulling off a series of athletic contests at Wandanmere this afternoon.

The final session of the convention was held at Barratt hall this morning, where a variety of topics was discussed. Among the most important were, the unifying of credits in Church schools, the time and place of holding the annual convention, appropriate topics for discussion at the next convention, support of the Church teachers' college by the other Church schools, the advisability of having uniform high school diplomas and credits.

The music was furnished by students of the L. D. S. university; piano solo by Chas. Sheppard; vocal solo by Miss Winifred Smith; vocal solo by John Summerhays.

Yesterday afternoon some interesting sessions were held in the various departments of the convention. The science teachers listened to a lecture by E. S. Hinckley on "The Correlation of Theology With Science." Science, said Prof. Hinckley, is a well known, scientific, and divinely inspired code of laws. In answering the question whether or not there is a conflict between them, he said that the fundamental necessity is more light. Religion has condemned science, science has ventured even to question the existence of a god. This apparent conflict only proclaims the need of greater knowledge.

It is the business of man to collect data that prove what it will, he declared. The man who has the courage to accept the conclusions arrived at. We have not yet reached the millennium of scientific knowledge, or of religious truth, said the speaker. The truth in science and religion, comes only to those who are prepared for it. The word of God is eternal; falsehood will be weeded out, and the truth will be the victor. The hands of science and religion.

The paper was followed by a discussion, the principal topic being evolution. The section devoted to history, no paper was read, but a lively discussion was carried on by those present. The trend of all the talks was that by careful study of the divine element could always be seen, back of all historical events, not always immediately apparent, but manifesting itself in the great movements of the human race through the ages.

The English teachers in their discussion, brought out the points that whenever the subject matter throws light on the life and destiny of man, the connection with gospel principles should be made. On the other hand, false ideas and ideals, as they are met in literature, should be objected to, and the speakers pointing out wherein they are not true.

In the principal department, A. B. Christensen read a paper on "The Book of Mormon Lands." The speaker claimed that Book of Mormon lands, the area he made comparisons between the lands from which the Nephites and Lamanites came and the area in which they became known as the Nephites and Lamanites, and the custom of calling small sections "countries," and petty rulers over small cities, "kings."

Elder Ivins read numerous quotations from the Book of Mormon which indicated that Zarahemla and the surrounding country could not have extended over the land which is now occupied by most commonly accepted maps which located these places in South America. He called attention to the fact that by the days of King Benjamin, a ruler could send messages to all his people in the course of a day, and the people could gather together on a few hours' notice. He also pointed to the many references to "east sea" and "west sea" where there were many cities, between which there was communication.

The speaker claimed that there was far more evidence to show that Zarahemla was situated in Yucatan or Central America than in South America. The ruins of Yucatan bore evidences of Jewish builders and there is nothing to show that they are Jaredite ruins. Some interesting comparisons were made between the Book of Mormon ruins made by Stevens and Cartwright and those found in the Book of Mormon.

Elder Ivins said that in his discussion of this subject, his object was to arouse an interest in the study of the Book of Mormon and its lands, that a more accurate correlation might be obtained.

The discussion of Elder Ivins' talk by other teachers ended by a motion, made by President Willard Young and carried, that it be suggested to the First Presidency that something be done by the Church looking to finding something definite on this question of Book of Mormon lands.

CHARITIES AND CORRECTIONS.

Buffalo, N. Y., June 11.—Today's session of the conference of charities and corrections was opened with an address by William de Lacy, of the juvenile court of Washington, D. C., his subject being "Juvenile Courts as an Aid to Good Citizenship."

At the general session of the conference, there was a noted football player with the University of Pennsylvania. His nomination was recommended by both factions in Alaska.

TO BE JUDGE IN ALASKA.

Washington, June 11.—President Taft today sent to the senate the nomination of Peter D. Overfield to be judge of the third judicial district of Alaska in place of J. H. Reid, resigned. Mr. Overfield is a Pennsylvanian, who has practiced law at Nome, Alaska, for three years. He was once a noted football player with the University of Pennsylvania. His nomination was recommended by both factions in Alaska.

MAN MURDERED, BODY DISMEMBERED

Torso and Limbs Placed in Two Parcels, Given in Boy's Charge, Head Subsequently Found.

POSSIBLY A LOVE TRAGEDY.

Victim's Sister Says He Was Greatly Depressed and Hood in Great Fear of Jealous Rival.

New York, June 11.—The dismembered body of a murdered man which, wrapped in oil cloth, was left by a stranger in the care of a boy in Catherine street last night, was identified today as that of Samuel Bersin, 22 years old, a painter of East Ninety-eighth street. Subsequently the man's head, which was missing last night, was found lying on a pile of refuse under the Brooklyn bridge some distance from the point where the body was left. Bersin came from Russia about two years ago. Robbery was at first believed to have been the motive, but the case took on a new phase today when it was learned that the murdered man's sister, informed the police that Bersin had been greatly depressed for the last month because a young woman, with whom he was in love, had forbidden him to call upon her. Mrs. Isaacson said that Bersin had a jealous rival for the girl's affections and stood much in fear of the man. Through this clue the police hope to solve the mystery. Meantime the police had been looking for the body of the man who had been found in the Brooklyn bridge and found the missing head today.

GIVEN TO A BOY.

Earlier in the evening a man had given a 14-year-old boy 5 cents to guard two bundles, saying he would return for them in a few minutes. For two hours the lad stood in front of a public school building in Monroe street, in the heart of the East Side and near to Chatham square. The victim had been stabbed to death, apparently, before his body was dismembered, and doctors said that life had not been in the body for many hours, thus placing the time of the murder at some hour during yesterday morning. On the wrapper of each parcel, one of which contained the torso, and the other the legs and arms, was boldly written the words "Black Hand." The boy who received the 5 cents for guarding the bundles has been able to give only a partial description of his employer, for whom a verbal score of policemen are searching.

EPISCOPAL APPEAL FOR JUST LAWS FOR POOR

New Port, Ky., June 11.—The Episcopal diocesan council of Lexington, Ky., at its annual conference at Newport for four days, adopted the following resolution, dealing with present economic conditions of the country:

"Whereas, we, the Protestant Episcopal church in the diocese of Lexington, state of Kentucky, being a branch of God's church and assembled in council, feel deep concern over conditions created and being perpetuated by harmful and unnecessary legislation, whereby the necessities of the lives of the needy are disproportionately taxed, and

"Whereas, such legislation is fast destroying the peace and harmony, so tending to anarchy; therefore, we, members of the council aforesaid, conscious of the trust of righteousness committed by the true God to plead with all men, and to exert our legislative power of our land—senatorial, congressional, legislative and executive—to give us laws right in the sight of God, just and true to all the people, call upon every citizen, and every member of our land to join us in this purpose and pleading."

AWARDS FOR AMERICAN HORSES

London, June
