FRUITS AND OTHER EXHIBITS.

Arranging for an Immense Show
Of Products at Irrigation
Congress.

SESSION OF THE CITY COUNCIL.

Mrs. S. A. Estabrook Succumbs to
Heart Failure—Wedding Bells—
Weber County Affairs

The board of control of the Irrigation Congress has received a communication from Mr. A. L. Craig, general passenger agent of the Oregon Railway & Navigation company, stating that his company is going to secure a large fruit exhibit from Oregon and other states along its line, and asked that space be saved for them in the exhibit hall. Some very fine fruits are grown in Oregon and Washington, and the proposition of the O. R. & N. company to exhibit a state exhibit should be an incentive for California, Idaho, Wyoming, Colorado, Utah and the other states to make an exhibit also. Each state should take special interest in not alone the fruit but all other exhibits, and endeavor to surpass each other, if for no other purpose than to show the vast benefit derived from irrigation.

City Councilman H. P. Randall, Wm. Craig and David Moore will leave this week for Idaho, where they go in the interest of the fruit exhibit principally. These gentlemen, who belong to the fruit exhibit committee of the congress, will visit all parts of Idaho and endeavor to awaken a much greater interest in that state in the exhibiting line. Idaho raises some very fine fruit and should win some of the gold medals which are to be given to the best individual exhibitors.

Several sugar companies have sent word they will have some of their best on exhibition. Every department of the congress is progressing encouragingly.

CHARGED WITH HORSE STEALING.
A complaint was issued out of Judge Howell's court last evening by Charles H. E. Harden of Oregon against John Doe Slaterley and John Doe Locket, charging them with stealing a horse and buggy Aug. 22, 1932, at Baker City, Ore. The complaint alleges that the horses stolen are the property of James Harden & Sons of Baker City, Ore., valued at \$400, that defendants stole the said horses and brought them to Weber county, where they are now being held. The charge of horse stealing under our statutes is grand larceny. The warrant for the defendants' arrest was issued to the officers to serve. The date of hearing has not been fixed.

ENFORCE LAW AGAINST VICE.
At the regular meeting of the board of county commissioners the following business was transacted:
Chairman Stanford reported that from present indications the board will have sufficient vehicles at the county fair to take the irrigation congress delegates and expert engineers up Ogden canyon one day during the congress to visit the proposed reservoir site. The people from all parts of the county have taken great interest in the matter and have responded freely. The congress promoters are anticipating a great outing in the future. The board expects will be greatly appreciated by those who visit our city.

State Fish and Game Warden John Sharp sent a communication to the board asking them to be ready to receive 100,000 black spotted trout fry some time between Sept. 1 and Nov. 1. Commissioner Wilson, with County Game Warden John Grov, were appointed to receive the fish and plant them in Ogden river and her tributaries.

The matter of enforcing the curfew and anti-caveat laws, which were given considerable attention by the board, and it was decided to have the clerk have the laws printed on card-board and sent out to the justice and constable of each district in the county, and urge upon them the great importance of seeing that all violators of these laws be punished, painting, etc., of the various county officers were opened and the bid awarded to T. C. Morris, the lowest bidder for \$72.50. The other bidders were Lester Herrick and Chas. Summerville.

Janitor Burton asked for an increase of \$10 per month salary. Denied.
Some minor matters were also disposed of.

The suggestions of the mayor were favorably considered by the council, but the matter was referred to the committee. ST. GEORGE.

DISASTROUS FIRE AT HEBRON.

Harmans Lose Their Home—Death of Miss Schmutz—School Teachers.

St. George, Washington Co., Aug. 21.—Another Hebron family was burned out of home and home last Sunday at noon. Mrs. Tacy Barnum, says the Advocate, was cooking dinner, her husband being absent from home. She went to the spring for water (about 15 yards away) and on returning discovered the fire in the roof by the stove-pipe. She ran about a block to give the alarm to her father, Jefferson Hunt, but was in his father's kitchen, and she ran on to Frank Terry's. Finding him absent from home, she hurried over to Orson W. Huntsman's where she found several men and women. The alarm soon spread, and in the meantime Mrs. Mary Bowler, living across the street from the fire, had hurried to the house to rescue Mrs. Barnum's two little children, who were hiding from the fire behind the window blinds in the bedroom.

About a block away was a good stream of water which was soon on its way to the scene, together with buckets, tubs, and tin pans, but it was all too late. Some of the bedding, two sewing machines, and a few other valuables were taken out of the house. The stove was also gotten out, but it was badly broken. Their clothing, dishes and eatables were all destroyed.

The people all sympathize with Bro. Barnum and family, and performed various good deeds for them.

RIGBY, IDAHO.
TERRIFIC HAILSTORM.
Destroys Crops and Plays Havoc Generally—Local Improvements—Deaths.

Special Correspondence.
Rigby, Fremont Co., Idaho, Aug. 2.—This afternoon about 3 o'clock a terrific hailstorm passed over this settlement. The clouds seemed to gather in the west and then separated as though they would go around us. Then a wind came from the north and with it came rain and flooding the land almost instantly. Thousands of bushels of grain is thrashed out and where there is promise of excellent crops there is not enough grain left on the straw to pay for the sowing. The hail and rain leaves are swept from the trees and lucern and other vegetation present a sorry sight. The area of the storm extends over a large part of the valley miles wide and from one end to the other it reached to the eastward.

Mr. Geo. E. Hill is having a new brick house erected and it was completely destroyed. The house is entirely torn out and some other buildings are damaged by the storm.

Our harvesting has just fairly commenced and what one of the crops ever raised here, hence it is difficult to estimate the loss we have sustained. Prior to the storm the weather had been very hot for a few days.

LOCAL IMPROVEMENTS.
Our new bank building is almost completed; the Rigby Hardware & Lumber Co. is enlarging its buildings. Dr. Paxton has almost completed a very fine building for a drug store. Messrs. Geo. E. Hill, Jr., A. T. Johnson, Peter Lator, S. S. Lator, P. A. Pederson and others are having new residences. Vast Reclamation Project—Will Double Irrigation Area.

Boise, Idaho, Aug. 23.—F. H. Newell, chief engineer of the reclamation division of the geological survey, arrived here today after a long trip through Idaho. He was accompanied by Senator Dubois, D. W. Ross, engineer in charge of the work in Idaho, and Ensign H. W. Savage of Los Angeles. The party left the railway at Cody, Wyo., and were just two weeks in the saddle, reaching the railway again at St. Anthony, in this state. From Cody to Jackson Lake the party were accompanied by Director Charles D. Walcott, of the geological survey, Senator Clark, representative Mondell, Clifford Pinchot of the Forestry department, Charles H. Fitch and Jeremiah Ahern, in charge of the reclamation work in Wyoming. Mr. Savage joined the party in this state.

The party made an inspection of the proposed reservoir sites, in which water is to be impounded to reinforce the Snake during the low-water stage. The plan is to dam Jackson Lake, from which the Snake flows. Two other

lakes are to be dammed so that water may be impounded in them, to be turned into the Snake. Surveys for these works have already been made. In talking of the matter today Senator Dubois said the damming of these lakes would afford sufficient additional water during the low-water stage to bring the irrigated area along the Snake in Idaho.

The party will tomorrow inspect the project for diverting part of the waters of the Payette into the Boise valley.
