Having obtained the Agency of the

CELEBRATED SMITH'S AMERICAN ORGANS, WE desire to inform the public that by the judgment of all competent musicians, these instruments are unsurpassed by any over manufactured. We are aware of the arrogant tone ssumed by certain agents, but we know that

any disinterested person who examines the American Organ will smile at the efforts to dereciate them. The Smith Company has made and sold 35,000 instruments. They make none under \$125, leaving to others the business of putting forth the little fifty dollar organs; and they consume more black walnut lumber, the indispensable easing of the best lustruments, than any home in Americ. Their sunual production of organs is not exceeded by any establishment whatever. And this business they have built up by the latthful labors of twenty years, without drumming for testimonials, and without making baseless claims to honors on either nide of the water. It is the perfection of workmanship, the excellence of materials, the smooth and solid tone, the prompt touch, and the facility for The Smith Company has made and sold 35,000 solid tone, the prompt touch, and the facility for

We pledge our credit upon the statement that we can sell a better instrument for the price than can be had in Utab.
