TRUTH AND LIBERTY

RESHID PASHA GOT THE SACK.

Nazim Pasha Has Been Substituted for Him as the Vali of Beirut.

LEISHMAN DEMANDED CHANGE.

He Was Seconded by Representatives of Other Powers in His Efforts for the Removal.

THE NEW VALI SEEMS VIGOROUS.

His Presence in the Office Has Inspired Confidence that the Disturbances Will Soon be Subdued.

Berlin, Sept. 10.—A dispatch received here from Constantinople says Nazim Pasha has been formally appointed valil of Beirut in place of Reshid Pasha, who has been dismissed.

INFORMS WASHINGTON.

Washington, Sept. 10.—Minister Leishman cabled the state department from Constantinople that the French ambassador has demanded the removal of the governor of Beirut and that other foreign representatives probably will do the same.

Mr. Leishman is vigorously urging the sublime porte to replace the governor by one more capable of preserving order and giving more efficient protection to American citizens and interests. In this course he has the approval of the state department. Nothing is said in his telegram of further disorders at Beirut.

NAZIM PASHA IS VIGOROUS.

Paris, Sept. 10.—Advices received by the foreign office from Beirut say that Nazim Pasha, the valil of Syria, is making a thorough investigation of the causes of the recent disorder at Beirut and that he has given assurances to the foreign consuls that he will severely punish the guilty persons. Under the circumstances, it is added, the French, British and Italian consuls have decided not to ask for the landing of American marines as contrary to the Constantinople cablegram, which had been interpreted as giving hope and confidence to the Christian refugees who fled are returning to their homes.

The investigation thus far made into the outbreak has shown that the police were inefficient in keeping the rioters out of the city, and that the rioters, the former valil, Reshid Pasha being unable to control the police.

LEISHMAN'S DEMANDS.

Constantinople, Sept. 10.—United States Minister Leishman has presented a demand to the Turkish government for the dismissal of Reshid Pasha, valil of Beirut, on the ground that so long as he is retained in office the lives and property of Americans in Beirut are insecure. The porte has not yet replied to the demand nor has there been any development in connection with other American claims.

FAVORABLY VIEWED.

The dispatch of Nazim Pasha to Beirut from his post at Damascus is considered to be a preliminary step toward a settlement. Nazim Pasha received an enthusiastic reception upon his arrival at Beirut, a crowd at the railway station cheering him repeatedly. The town was then perfectly tranquil. According to the latest telegrams, however, the consuls continue to transact their business with Reshid Pasha, valil of Beirut.

EXODUS CONTINUES.

Beirut advices received here late yesterday stated that thousands still prevailed among the Christians there, and that the exodus to the mountains continued but no fresh disturbances had occurred.

Rear Admiral Cotton confirms the reports that he can land 500 marines and blue jackets from the Brooklyn and San Francisco in case of urgent necessity.

Nothing is known here as to any arrangement made by other powers for sending warships to Beirut.

ALBANIAN PILLAGING.

Private advices from Kirk Killish state that while the Turkish regular troops are conducting themselves well the Albanians are in subordinate and are pillaging and burning villages and are even threatening their own officials when they are ordered not to plunder.

Up to Sept. 7, 27 battalions of troops had been concentrated in the Kirk Killish district.

An imperial trade has been issued ordering the repair or re-construction of fortifications at Adrianople, Chatalja, Erzerum and the Bosphorus.

CONFIDENCE RESTORED.

Washington, Sept. 10.—The navy department has received the cablegram from Rear-Admiral Cotton, dated Beirut yesterday, stating that the arrival of the Turkish governor-general from Damascus has restored confidence. The governor-general has been warned by the local authorities that he will hold them responsible for disturbances. Rear-Admiral Cotton says that the city was quiet Tuesday night and business improving.

SECURES A RELEASE.

Minister Leishman has cabled the state department that he has secured the release of Abdul Kader Mathaney, a naturalized citizen of the United States, born at Tripoli, Syria, who, soon after returning to his native country in 1901, committed an offense for which he was sentenced by the consular court of the United States at Beirut to a term of six months in the current year. He was arrested at Tripoli for the same offense to three and a half years' imprisonment. Minister Leishman promptly protested against his violation of the rights of an American citizen.

EUROPE ON A PRECIPICE.

London, Sept. 10.—"Europe is standing on the edge of a precipice," said a diplomat who is participating in

THE INTERNATIONAL NEGOTIATIONS IN CONNECTION WITH THE BALKAN QUESTION.

and no one can tell but that tomorrow may see Turkey and Bulgaria plunged in war, in spite of all the efforts made to prevent it, and though the powers separately have made strong representations to Bulgaria to desist from aiding the insurgents and are on the eve of making a joint demand for the observance of a policy of strict neutrality. In the meantime, Turkey is becoming encouraged by the attitude of the powers toward Bulgaria, and there is a strong feeling among the Mohammedans that the opportunity is at hand to take summary vengeance on the Bulgarian people. The porte has been warned against engaging in war and we believe hesitates to embark on a move which may result in the armed intervention of Europe. The only encouraging sign in the situation is the understanding between the powers, all of which we are sure upholding Russia and Austria in their efforts to maintain peace.

ALL THE ADVICES, OFFICIAL AND OTHERWISE RECEIVED HERE AGREE IN SAYING THAT THE TURKISH GOVERNMENT HAS NOW RESTORED TO BEATITUDE THE ATTITUDE OF THE PORT.

The only encouraging sign in the situation is the understanding between the powers, all of which we are sure upholding Russia and Austria in their efforts to maintain peace.

THE PORT HAS BEEN RESTORED TO BEATITUDE.

MINER IS GONE CABIN BURNED.

Mike Rogers, Living at Cameron, Near Victor, Colorado, Mysteriously Disappears.

WITNESSED STEWART ASSAULT.

Destruction of His Home Presumed to Have Been by Incendiaries—Patrick Burns Identified.

Victor, Colo., Sept. 10.—Mike Rogers, a miner, living at Cameron, has disappeared and his cabin has been burned. The fire is generally presumed to have been of an incendiary origin. Rogers is known by the authorities to have been the only man who saw the assault on James M. Stewart, the carpenter, 10 days ago.

Rogers has since protested that he did not recognize any of the men who accompanied Stewart from his home on the night when he was left at the roadside for dead.

The man found dead near Clyde, with a bullet hole in his body, has been identified as Patrick Burns, a railroad laborer. Whether he was murdered or accidentally shot is undetermined, but it is evident that the shooting had no connection with the strike or the presence of the military in the camp.

C. G. Kenniston, president of District Miners' Union No. 1, was struck in the face and knocked down on a car this morning by a non-union miner, who was on his way to work after a heated argument between the two men. Kenniston drew a revolver but was disarmed before he could shoot. No arrests were made.

CRIPPLE CREEK DOINGS.

Cripple Creek, Colo., Sept. 10.—The Elkhorn mine resumed work this morning with 23 men, the property being guarded by troops.

President Kenniston of District Union No. 1 was refused admission to the company's property by the guards. A permanent military camp of 45 men is established at the Elkhorn today. Lieut. McCalland and a scout brought two prisoners to Camp Goldfield today. "Slim" Campbell, who was arrested last week by the civil authorities for complicity in the assault on Justus of the Peace Hawkins, was arrested at Altman and H. H. McKinney at Independence. McKinney was formerly city marshal of Altman.

STRIKE A TOTAL FAILURE.

Seattle, Sept. 10.—The situation in the strike this morning remains unchanged. The company is giving a complete service during the day and up to 8 o'clock at night, after which a half service is given. This morning the company reports that only 55 men quit the service because of the strike order and that the company is rapidly breaking in new men. Within a day or two it is expected that the night service will be perfected and the effect of the strike will not be felt in the slightest degree. President Furth expects to receive authority from Boston to grant the increase in wages which he has assured the men he will endeavor to get for them. The strike is a total failure.

TOMORROW'S RECITAL.

At it Madame Jarvis and Miss Jessup Will Give Vocal Numbers.

The following program will be given at tomorrow's organ recital in the Tabernacle:

Canticle NuptialeDubois
"With Verdure clad" Oratorio of the "Vocal solo" Madame Mary Deane Jarvis of New York.	
Gavotte, "Mignon".....Thomas	
Old Melody.....Selected	
"Do not know that fair lady".....Thomas	
(Vocal Solo) Miss Emily Catherine Jessup, Columbia University, '04.	
Overture to "Tannhauser".....Wagner	

The program is varied a little more than usual in the appearance of two singers. The first one, Mrs. Jarvis, has been studying at Milan, Italy, for a number of years, and returns to this country a finished vocalist. She was a pupil of Maestro Sebastiano Breda, who is well known in Europe, and whose instruction is highly valued. She is stopping at the Knutsford, with her sister, a transatlantic trip, and her singing will be appreciated by a Salt Lake music loving public. Miss Jessup is a senior in the Teachers' college at Columbia, a candidate for a degree in music, and has sung in several of the Tuesday Musical club of Denver. The overture to "Tannhauser" will be looked forward to with marked interest, both on account of its popularity, and exacting technical requirements. Prof. McClelland has been hard at work on it, and will do the music justice.

TO STOP BRUTALITIES.

Berlin, Sept. 10.—Paragraphs similar to the following appear almost daily in the provincial press:

"Cologne.—The court martial of the fifteenth division has sentenced Sergeant Schott to a year in prison and degradation for flogging privates and horse-whipping and kicking them. Twelve artillerymen were sentenced to short terms for assisting him."

There have been 80 convictions of sergeants for abuse of privates during the last three months, and about 200 court-martials are pending.

The administration of the army is making the most determined efforts to stop these brutalities which Herr Bebel, the Socialist leader, details in a ferocious three hours' speech in the reichstag in the spring. The weak reply of General Von Gieseler on the following day probably cost him his place as minister of war.

It has long been the theory of military men that a little rough treatment was good for privates and cultivated manhood in them. The emperor never shared these views nor countenanced the cruelties practiced in nearly every regiment.

BIG NEW DEPOT FOR RIO GRANDE.

Gould Will Build One Across Third South and Fourth West Streets in Near Future.

TO BE MODERN COST \$200,000.

Shops Costing an Additional \$25,000 Are to be Constructed South of Present Shops.

IMMENSE GENERAL IMPROVEMENT.

City Council to be Asked at its Next Meeting to Grant the Necessary Franchises.

WILL SPEND \$1,000,000.

Gen.-Supt. J. H. Young of the Rio Grande Western today announced to the "News" that it was proposed to present a petition for necessary franchises to the city council at the next meeting looking toward the expenditure of the Gould system in Salt Lake City of a sum in the neighborhood of \$1,000,000. Among the improvements contemplated and which will be undertaken as soon as permission is granted will be:

The erection of a depot on Fourth West, across the foot of Third South, to cost not less than \$200,000.

Rebuilding and enlargement of shops with an outlay of \$25,000.

Rearrangement of switching yards and removal of the old depot on Second South and Sixth West streets.

Doubling of the freight facilities and necessary extensive improvements to accommodate additional business.

Double trackage from Ninth South to Fifth North on Fourth West.

The erection of a big coal depot and unloading trestle on Sixth South, where 20,000 tons of coal will be stored.

The construction of a six rod street between Second South and Fourth South streets for the accommodation of street cars and traffic to and from the depot.

When seen in regard to the reported move on the part of the Rio Grande, General Superintendent J. H. Young said:

"This is no new thing. It has been part of the plans of Mr. Gould for the benefit of Salt Lake ever since he came here and looked over the situation. I have been working for a year past in trying to fix up the differences between the Oregon Short Line and ourselves over the Fourth West franchise. Last month it was finally adjusted and the contracts were signed. Now we are in a position to go ahead with the plans of Mr. Gould."

GIVE AND TAKE.

Several concessions have been made and the Oregon Short Line has relinquished its hold on the Fourth West proposition. In consideration we have taken out a crossing to the American Smelting and Refining plant south of the city, and we also have made arrangements so that the Short Line can reach the smelter on the west side of our tracks. Everything is now in shape to go ahead with out plans.

THE NEW DEPOT.

The grounds for the new depot on Fourth West was bought years ago. We are not asking for any closing of streets with the exception of Third South for one block, for it was closed some time ago. Even this block will not be closed until actual construction is commenced, and then we will cut a six-rod street through from Second to Fourth South, which will have the effect of enhancing the value of property in the vicinity."

HIGH THINKING AHEAD.

When asked what the Rio Grande needed with such a big depot Mr. Young stated that Mr. Gould had an eye on the future and that there were some big things in store for Salt Lake. Continuing he said that the shops would be enlarged and practically rebuilt so as to give work for more than 500 men over the present number on the payroll. Under the plans of Mr. Gould also, to say nothing of the rapidly increasing business.

(Continued on page two.)

AFTER A BRUTE.

Posee and Citizens Chasing Little Girl's Assailant.

Omaha, Neb., Sept. 10.—A large posse of citizens and officers, headed by Chief of Police Briggs of South Omaha, is searching the river bottoms south of the city for an unknown man who today assaulted a 11-year-old child, the daughter of Edward Kroeger. The child was on her way to school and was accompanied by a small brother who gave the alarm. The little girl was seriously injured.

BEVERIDGE ON FINANCE LAWS.

Moderation is the Word and There Will be No Radical Legislation Now.

RELIEF IN STRINGENT TIMES.

Although Changes May be for the Better They Must be Made Gradually To Preserve Stability.

South Bend, Ind., Sept. 10.—The seventh annual convention of the Indiana Bankers' association was addressed today by United States Senator Beveridge. Senator Beveridge has but recently returned from a visit to the president at Oyster Bay, and his positive assertions with regard to the actions of the coming session of Congress were given all the more weight.

MODERATION IS THE WORD.

"The coming session of Congress will not enact any radical or sweeping financial legislation. Except in great emergencies moderation is the word in all financial legislation. The stability of financial legislation even though imperfect, is more desirable than sudden and comprehensive changes, even though those changes are toward greater perfection."

RELIEF IN STRINGENCY.

"Some moderate financial legislation which will relieve the periodically recurring money stringency in the money centers is probably desired and may be enacted. But such legislation, if enacted, will be simple in its nature and will not disturb or alarm the business interests of the country. No legislation is possible at the coming session of Congress which will radically affect our entire currency system and cause the business world to pause in our present prosperity until it is seen how such legislation is going to work."

MAINTAIN CREDIT.

"The maintenance of credit is the only great financial question of always must be. And credit is only another name for confidence. Confidence is preserved by only a sure and permanent adjustment of business to the given lines of financial and commercial policy more than by all other things put together."

MUST BE STEADY.

"I do not mean that there should not be gradual changes in all of our laws as those laws have and there become out of date. But I do mean that it is better for business to steadily adhere to some settled line of policy than to suddenly and radically change it. Our whole financial and industrial legislation should be steady and not spasmodic."

MUTUAL CONSIDERATION.

"Within banking circles themselves the contention is that there is no natural antagonism between eastern and western bankers. Naturally their interests are the same. Bankers east and west are the financial servants of a big people under a single flag. If they are not able to take care of themselves, they need the money again. It is away and require the entire financial necessities of business in the west to be cared for by eastern bankers whose territory they have invaded. Western bankers should not object to a law which would relieve the eastern stringency which the western bankers themselves have caused. On the contrary, the eastern bankers should be the first to support the territory of the western bankers when eastern money is plentiful and thus invite reprisals in their own fields by the western bankers. There should be mutual consideration, each section taking care of the financial necessities of its own people as long as it has the money to do so and relieving the necessities of another section only when necessary. It is not able to take care of themselves. There never was a period when the tide of prosperity has risen so high as now; and its highest point is not yet reached."

BANKERS RESPONSIBLE.

"But upon the shoulders of the bankers of the country more than upon any set of business men depends the continuance of this fortunate condition. If without reason the bankers indulge in vague apprehensions they will themselves bring about the very thing which they fear. If the bankers begin to exercise cowardice instead of patience; if without any reason they begin to contract their loans and reduce credits that confidence upon which all business rests and of which the bankers themselves are the beneficiaries will be impaired. But this will not occur. The bankers of the republic are too intelligent, too brave, too patriotic."

SHOT BY SOLDIER.

Pittsburg, Pa., Sept. 10.—William Crowley of Monaca, Pa., was shot in the groin today by a soldier at the United States arsenal. He was removed to the hospital in a serious condition and a dispute is now on between the police authorities and the commandant of the arsenal concerning the arrest of the soldiers who did the shooting. Thefts of copper and lead from the roofs of the barracks have been frequent of late. It is alleged that Crowley with several others were detected removing the copper. Crowley refused to halt when commanded and the soldiers shot him. The others escaped. The police authorities demanded the arrest of the soldier but the commandant barred the gates and refused to surrender him.

STORY OF FAITHFULNESS.

New York, Sept. 10.—In a gloomy, old-fashioned house in Dean street, Brooklyn, the police who battered down the door have found the body of Mrs. Margaret May lying on a bed in an upper story. At her feet lay the body of a fox terrier dog. Until recently the old house had been the Mecca for the poor of that quarter. Since the death of Mrs. May's husband, who was quite wealthy, the woman distributed charity

HARMS FINDS NO TYPHOID GERMS.

Parley's Creek Water is of Ordinary Purity Where it Enters Distribution System.

TWO TESTS WERE "SUSPICIOUS."

But These Were From Water Far Above The General Intake at the Mouth of the Canyon.

STEWART'S THEORY EXPLODED.

Official Trip to the Bullock Ranch Convinced Dr. Odell That There Was No Typhoid There.

City Chemist Harms today completed the analysis of three samples of Parley's creek water, and only two out of the three contained traces of nitrates and were classed as of suspicious purity. None of the samples contained bacilli coli colonies, otherwise known as typhoid fever bacilli. One sample was taken from Lamb's canyon about 600 feet below Bullock's ranch. It was classed as being rather suspicious. It contained a faint trace of nitrate, .080 parts of free ammonia and .045 parts of albuminoid ammonia per million parts.

ELECT GRAND OFFICERS.

Grand Lodge A. F. and A. M. Closing at Boise, Idaho.

(Special to the "News.")

Boise, Ida., Sept. 10.—The grand lodge of the Ancient Free and Accepted Masons, in session here today, elected the grand officers of the order for the coming year as follows: Grand master, J. M. Cowen of Mountain Home; deputy grandmaster, A. W. Gordon of Kendrick; senior grand warden, J. W. Robinson of Boise; junior grand warden, Theron Sward of Lewiston; grand treasurer, Charles Himrod of Boise; grand secretary, Theo. Randall of Boise; grand lecturer, William H. Goodheart of Weiser. The last three are new to the order. The other being each promoted one step in the official ladder. These officers will be installed late Saturday afternoon, closing the grand lodge session.

LACK IN PACKING.

Utah Growers Have Plenty of Fruit But Fail in Handling It.

Local fruit experts say that there is a goodly quantity of fruit in the state this fall, and that it is of excellent quality. But what Utah growers are deficient in is knowing how to pack fruit in proper packages. Getting it in knacks and there is money in getting fruit into such a shape that it will readily market. Growers must learn how to grade and pack. It does not pay to put all sizes of fruit in the same package and moreover, fruit of the same degree of development only should be packed together. Another thing is to find a market. The shipping part is easy enough, as the refrigerator car companies will take care of the fruit, but the securing of suitable consignees calls for care and intelligence. With proper modes of procedure, there is no reason why all of Utah's fruit crop that can be spared should not find a ready market outside the state.

DALTON'S INJURIES.

Are of Such a Nature that He has but Slim Chances for Recovery.

Ed Dalton, the man who was so severely injured in a blast at the Elephant mine on Gold Mountain two days ago, was brought to this city last night and taken to the Keogh-Wright hospital for treatment. As stated in the "News" at the time of the accident, Mr. Dalton was badly hurt in the back and his condition is so critical that he has but a slim chance of recovery. Everything possible is being done for him, but the rock which struck him tore such a terrible gash in the main artery that it is hardly thought his life will be spared him.

FAMILY GREATLY WRONGED.

Dr. Odell further stated that in his opinion the Bullock family had been shamefully wronged. The condition of their premises was far from what it had been represented to be. The yard, he said, was comparatively clean, the outbuildings were far removed from the house, and the water supply was pure. The doctor also said that two years ago Mr. Roach, who lives in the canyon, had a serious case of typhoid and was attended by Dr. Joseph S. Richards. At that time there was no epidemic as a result, although there was just as much reason for one as there is at the present time, perhaps more. So far as he knew no typhoid bacilli had ever been discovered in the waters of Parley's creek.

POSTAL CHANGES.

Two Appointments Upon Resignations—Opening at Ithex, Utah.

(Special to the "News.")

Washington, D. C., Sept. 10.—Winter postoffice at Ithex, Millard county, will be opened October 1st.

These postmasters have been appointed: Idaho—Albion, Shoshone county, Charles W. Wor
