WORDS FAIL "Words fail to express my gratitude," says Mr. SELBY CARTER, of Nashville, Tenn., "for the benefits derived from

Ayer's Sarsaparilla.

Having been afflicted all my life with Scrofula, my system seemed saturated with it. It came out in Blotches, Ulcers, and Mattery Sores, all over my body." Mr. Carter states that he was entirely cured by the use of AYER'S SARSAPARILLA, and since discontinuing its use, eight months ago, he has had no return of the scrofulous symptoms.

All baneful infections of the blood are promptly removed by this unequalled alterative.

XLVIII CONGRESS.

SENATE.

WASHINGTON, 10. — A memorial was presented from Mexican veterans, asking for pensions.

Standing and other committees were then appointed.

Bills introduced:

Hill, providing for a coinage branch mint at Denver.

Cameron (Wis.), to regulate the action of Representatives in Congress, and punish violations thereof.

Ingalls, to prevent unlawful enclosures of public lands.

The resolution of Voorhees was agreed to, authorizing the committee on military affairs to inquire into the expediency of purchasing an encampment on grounds occupied by the Revolutionary Army at Valley Forge for a national Park.

He also offered the following, which he asked to have printed:

Resolved, in the judgment of the Senate, a public debt is not a public blessing; and any measure of financial policy looking to to the perpetuation of the present interest-bearing National debt for the purpase of National banking or on any other account, meets the disapprobation of this body, and should be viewed with alarm by the taxpayers of the United States.

Hill called up his resolution asking the Secretary of the Interior to furnish copies of all papers relating to the transfer of the land grant of the New Orleans, Baton Rouge & Vicksburg Railroad Company to the New Orleans Pacific Railway Co. He said about 2,000,000 acres are at stake in this matter. The land had been granted in 1871. The terms of the act lapsed five years ago. At that time the road was not being built, and there is now an attempt to transfer it to the New Orleans Pacific Railway.

Ingalls said the matter had been before the Attorney General, who had given an opinion that the grant is in the present, and vested in the company an interest in the lands; but the grant need not acquire precision and attach to any specific lands until the route of the road is definitely located. The proviso requiring the road to be built in five years was merely a condition subsequent, which did not forfeit, but enabled the United States to declare a forfeiture by proper judicial proceeding. Until such declaration of forfeiture, the grant remained in the grantee, and the Baton Rouge Company had the right to transfer its interest to the New Orleans Pacific Company. Such was the syllabus of the Attorney General's opinion. Mr. Ingalls stated that he had heard this session would be characterized by an onslaught on the Department of the Interior. He did not know whether the Senator from Colorado (Hill) shared this opinion, but Ingalls thought this the first of a series of assaults intended to be made on the administration of that Department. He was informed and believed that this is to be followed by assaults on the administration of the Pension Bureau, General Land Office, and Indian service. The Secretary of the Interior, he said, invites the utmost scrutiny of his acts.

Hill said he was merely performing a duty in the matter. The facts are, during the five years allowed not one foot of railroad was built. He believed the sources of his information as good as those of the gentleman from Kansas, and believed the statement that the land in question is 2,500,000 acres is substantially correct. In regard to the public impression, referred to by the Senator from Kansas, he (Hill) had heard that the onslaught would rather be made by the railroad companies, not only to prevent legislation against the interests of the people, and in favor of the corporations.

Resolution was agreed to. Adjourned.

HOUSE.

WASHINGTON, 10.—In the call of States Gen. Rosecrans introduced 53 bills, or, as he said, a full deck and a joker. Among the important bills is one providing for the appropriation of $700,000 for a public building in San Francisco; also, to relieve officers of the army who have served 20 years; provided they are first and second lieutenants for that period, they shall be entitled to the pay and allowance of the next higher grade.

By Budd, a bill to protect the commercial interests of California, and improve the navigation of its rivers and harbors. It provides for the appropriation of $100,000 to improve the San Joaquin and its tributaries.

By Glascock, granting to California five per cent. of the net proceeds of the sale of public lands in that State. It is asserted that heretofore the State has not received any per cent. of the net proceeds of public land sales.

By Henly, for the relief of California, appropriating $38,180, being 15 per cent. of the state's quota of direct tax assessed August 5th, 1861.

By Rosecrans, indemnifying California for expenses incurred in Indian wars; also, to prevent undue discrimination in railway transportation; also, to incorporate a Maritime Canal Company at Nicaragua.

Sumner, to fix and establish a maximum rate of fares on the Union Pacific and Central Pacific railways. It provides that 40 days after the passage of the act it will be unlawful for those companies to charge more than three cents per mile for first-class passengers, two cents for second-class, one and a half for third-class.

Tully, to declare forfeited all the unearned land grants in California.

Payson, declaring forfeited land grants in large numbers, involving many millions of acres of land. The names of roads and amounts involved are as follows: Texas Pacific, 15,000,000; California, Arizona & New Mexico, Gulf & Ship Island, Tuscaloosa & Mobile, Mobile & New Orleans, aggregating 1,500,000 acres; Savannah & Albany, involving 1,200,000; Iron Mountain, Ark., 180,000; Memphis & Charleston, 800,000; Mobile & Cape Girardeau, 482,000; Ontonagon & State Line, 142,000; Oregon Central, 130,000; Elyton & Beardsbluff, 800,000; Oregon & California and California & Oregon, unpatented land, 4,168,000; part Northern Pacific, from Wallula to Portland, 5,500,000; New Orleans & Jackson 1,000,000; part Atlantic & Pacific, east of Albuquerque and west of Mojave, 15,000,000.

Springer, proposing a Constitutional amendment prohibiting special legislation; also, facilitating the promotion and retiring from active service on application of officers of the army who served in the rebellion as general officers or volunteers.

Belford, to regulate railroad traffic; also, to authorize the appointment of special Commissioners promoting commercial intercourse between the United States, and South and Central America; also, providing for the deposit of silver bullion in the treasury and issue of certificates therefor.

Wait, to limit the purchase of silver by the Secretary of the Treasury.

Clements, to repeal the internal revenue laws.

Henderson to establish a board of commissioners of inter-State commerce.

Townshend, to abolish postage on second-hand mailable matter, and reduce postage on transient newspapers; also, authorizing the President during the recess of Congress to prohibit the importation of articles injurious to the public health, from countries which on the same ground prohibit the importation of American goods; also, to place salt for curing meats on the same footing as that used for curing fish.

Finerty, for the construction of four gunboats and three additional cruisers for the navy.

Caleb, to equalize pensions; also, to prevent the Secretary of the Interior issuing patents to lands granted in aid of the construction of railroads when the railroads are not completed at the time fixed by law.

Holman, to limit the disposal of public lands adapted to agriculture to actual settlers under the homestead laws.

Calkins, proposing a constitutional amendment providing that no State, public or private corporation, or person shall deprive any citizen of the equal protection of the law, nor abridge their rights, privileges or immunities on account of race, color, or previous condition of servitude.

Lowry, repealing the limitation of time of filing claims for pensions; also a resolution requesting the President to communicate to the House any correspondence that had taken place between this Government and Great Britain in reference to the trial of Patrick O'Donnell, a citizen of the United States, for the alleged murder of informer Carey.

Anderson, to prevent undue discrimination by railroad companies, and subjecting them to the control of States under certain circumstances; also, to create an Agricultural Commission; also to create a postal telegraph; also to reduce the postage on drop letters to one cent; also, a resolution calling on the Secretary of the Interior for information whether the Union Pacific had complied with the provisions of the Thurman act.

Willis, authorizing the withdrawal from distillery warehouses without tax, spirits to be used in industrial pursuits; also, to establish a Bureau of Statistics of Labor and Industry.

The call was interrupted to allow Hewitt to offer the following resolution: That this House bring to the notice of the President the case of Patrick O'Donnell, claiming to be a citizen of the United States, now under sentence of death in Great Britain, in hope that the President will secure such reasonable delay in the execution of his sentence as will enable the President to ascertain whether said O'Donnell is a citizen of the United States, and if so, whether he was tried and convicted in accordance with the municipal laws of Great Britain and the requirements of international law. Adopted.

The call was continued.

King, to equalize the pay of males and females in government employ.

Dingley, to remove certain burdens from the merchant marine; also, to constitute a Bureau of Commerce and Navigation; also, to encourage American ship building.

Blanchard, to provide when the terms of Congressmen begin and end, and when Congress shall meet. The object of the bill is to have Congress meet immediately after the election of members of the new Congress instead of 13 months after, and provide two long sessions of each Congress, instead of one long one and one short one as now.

Morse, repealing the act for the coinage of standard silver dollars.

Whiting, to remove all taxes on circulation of National Banking Associations upon deposits of bonds. It provides that the amount of circulating notes of any National Banking Association making deposit of bonds shall be entitled to receive from the Comptroller of Currency shall be 95 per cent of the market value of said bonds during the fiscal year previous to the deposit; provided such amount shall not exceed 95 per cent. of the current market value of such bonds, and at no time shall the total amount of such notes issued to any association exceed 95 per cent. of the amount at such time actually paid in as capital stock.

Rice, declaring the policy of the United States in regard to the Oceanic canal. It declares that the construction of an inter oceanic canal by means of foreign capital violates the established policy of the United States and is a violation of the spirit of the Monroe doctrine, and that the United States assert once control and supervision over such canal as is necessary to protect the National interests.

Adjourned until to-morrow, when the call will be completed.

AMERICAN.

WIRED FROM WASHINGTON.

WASHINGTON, 10.—The case of ex-Senator Kellogg, indicted for having received while United States Senator money for procuring increased pay on certain star-routes came up to-day before Judge Wylie. John A. Walsh was called as a witness, but did not respond, whereupon the Government moved to postpone the trial until he could be produced. This motion was vigorously opposed by counsel for Kellogg, the court took the papers, remarking he would decide the question to-morrow. Ingersoll, for Kellogg, claimed that the alleged offense is barred by the statute of limitation. Bliss was absent, and Attorney General Brewster appeared in his place. He assured the court that the Government desired a speedy trial, and acquittal of defendant if the charges were not proved.

With a view of settling the serious trouble, attended by murder and other crimes, existing between the Central Pacific Railroad Company and settlers upon the Mocsalanos grant in California, the Secretary of the Interior has requested the Attorney General to bring suit to set aside the patents in order to determine the question of title.

The Supreme Court has affirmed the judgment of the court below in favor of Jefferson Davis in the contested will case of Mrs. Dorsey, who left her property to Davis.

The issue of silver dollars for the week ended Dec. 8, $521,938; same time last year, $1,189,500.

Amos Webster, chief clerk of the treasury department, has tendered his resignation as adjutant general of the militia of the District of Columbia to the Secretary of War.

Agricultural reports will not be ready for publication until to-morrow.

The Representatives in Congress from Indiana held a conference to-night to agree upon the best means of presenting the National Republican Committee on Wednesday the claims of Indianapolis, Indiana, as the place for holding the National Republican Convention next year.

Depravity and Disaster.

CINCINNATI, 10.—The *Commercial Gazette* Delphos, Ohio, special says: Last night a large number of masked men appeared at the jail, took the keys from John Barrett, watchman, took out Rast and Hafhelmer, arrested for burglary, and demanded that they should give the names of their confederates in the numerous burglaries recently or be hanged. They refused, and were strung up. When nearly dead they were let down and were asked to give the names. They said they could not. They were strung up again, and the mob went away. The watchman is in a critical condition.

Boston, 10.—Relative to "graveyard" insurance at Fall River, it is claimed there has been collusion between two medical examiners, agents and others the past three years. Broken-down drunkards, consumptives and unhealthy persons have been insured for sums ranging from $1,000 to $5,000; the agents and others would hold the policies till death ensued, and then pocket the insurance, or sell the policies to rumsellers, who would give their victims enough rum to hasten their death, and then collect the insurance.

Little Rock, 10.—A Hot Springs special says: Hudgin's dry goods store was entered by two men who fired revolvers at Hudgin's head and made him give up the keys. They then robbed the store of $10,000.

San Francisco, 10.—Tombstone dispatch: Five mounted men raided the town of Bisbee last night, killed J. C. Tappener, J. A. Neily, D. T. Ometh, and wounded Mrs. Roberts, then robbed Castanada's store of $1,200. The whole business was accomplished so rapidly that no attempt was made at defense.

Advices since the above state that the men are believed to be the same who robbed the Southern Pacific train at Gage Station, Nov. 17. The robbers fled in the direction of Sonora.

New Orleans, 10.—*Times-Democrat* Greenville, Miss., special: There was a difficulty on Saturday night at a political meeting, between a colored man named Homer and Frank Montgomery. As usual on such occasions pistols were drawn, and shooting commenced; Sam Finley, white, was seriously injured; three negroes were shot, one dead, and one expected to die; others slightly wounded.

The coroner's jury found Homer was killed by Montgomery and Finley; local politics.

Vicksburg, 10.—*Herald* Clinton special: Albert Thomas, (negro) brute, was arrested yesterday by a posse of citizens for committing rape on a little daughter of B. L. Ingens, a prominent citizen of this county. While conveying him back to the neighborhood of the crime he attempted to escape, and was riddled with bullets.

Chattanooga, 12.—The Cass River furnace, Gadsden, Alabama, is burned. The fire was caused by a gas blower exploding near the furnace. The latter is a total wreck. The engine, boilers and 400 cars of coke were destroyed. Loss nearly $150,000; no insurance.

Detroit, Mich., 10. — The steam barge *Enterprise* sank in Lake Huron this morning; seven lives were lost.

La Crosse, Wis., 10.—Boys playing about a haystack in this city this afternoon discovered the emaciated but living form of Louis Anausson. It appears a stack fell on and buried him November 17th, and that he has been there ever since, through some very severe weather, without food or water. He is a mere skeleton, but able to speak, and it is believed will survive.

Detroit, 10.—The steam barge *Enterprise*, which sank in Lake Huron this morning at an early hour, coming down in tow of the tug *Baltze*, when this side of Port Austin signalled that she was sinking, and went down three minutes later. There were 18 men on board; six went down and were lost; seven others got aboard the *Baltze*, but the second engineer died soon after. She was of 300 tonnage, and at the time she went down, carried a cargo valued at $9,000.

Buffalo, 10.—Five men, hunting on Niagara River, were drowned, the boat capsizing.

Big Fire in Rockport, Mass.

GLOUCESTER, Mass., 9.—The Annkquaim mill at Rockport, burned this morning. Loss, $400,000; insurance, $300,000.

Later.—In the fire at Rockport, Mass., it is estimated that the kewill not exceed $200,000. The Rockport fire department were unable to cope with such an extensive conflagration, but with the assistance rendered from Gloucester and Salem, the picker room and storehouse, containing 400 bales of cotton, were saved. The mills were owned in Boston. Two hundred and thirty-five operatives were thrown out.

More Fires.

CLEVELAND, O., 9.—The Union Rolling mills are burning this morning; total loss $800,000.

Erie, Pa., 9.—This morning the Mount Hickory Rolling mills, of this city, were burned; loss $200,000; insurance $80,000; 250 men thrown

FOREIGN.

LATEST TRANS-ATLANTIC DISPATCHES.

O'Donnell's Brother.

LONDON, 10.—O'Donnell's wife has come to London to visit her husband. O'Donnell's brother will go from Letterkenny, Ireland, stating what O'Donnell had determined to say in court if permitted to speak was, "Carey drew his revolver after a heated discussion, which began by Carey cursing all Americans. O'Donnell struck the revolver from Carey's hand and the latter stooping to regain it, O'Donnell fired three shots instantaneously. Jas. Parish, steward of the *Melrose Castle*, who testified he was present when the fatal shot was fired, was not present during the quarrel but came upon the scene afterwards."

Guilty of Murder.

Sligo, 9.—Nine persons plead guilty to conspiracy to murder Martin Leyden of Commonau.

Another Infernal Machine.

Limerick, 9.—A vessel containing 20 pounds of gunpowder with fuse lying near was found here last night and conveyed to the barracks. A man named Jarvis was arrested.

A LEVELER.—"Whisky," said a considerable of a politician the other night, as he held up a glass of it, "is the typical American beverage. It is a kind of leveler that is characteristic of our glorious country. Take a view of this bar and tell me if I am not right. At one end is a United States Senator, with whisky in his tumbler, and here back of us stands a back-driver, whose glass has been filled from the same bottle. Is there anywhere else than a bar, or anything else than whisky, that puts men more on a level?" "No," responded a bystander, "there's nothing (hic) that'll put all grades of men onto the same level (hic)—so low a grade, that is, such a horizontal level (hic), as whisky."

Capt. O'Farrell, after whom O'Farrell avenue is named, and who is known to everyone in Chicago, said to one of our representatives: "I am only too happy to say that I did use St. Jacobs Oil; my right leg was crippled in a most awful manner with inflammatory rheumatism and my sufferings were extreme. I tried more physicians than I care to count, and they gave me no more ease and freedom from pain than if I did not have them in attendance. I heard about St. Jacobs Oil, used it and was cured.—*Chicago Times*

SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.

Yours respectfully, MRS. ANN O'BRIAN."

148 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known writer on the *Boston Herald*, B. W. BALL, of *Rochester, N.H.*, writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a *complete cure*. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.
