Silk Culture.

Provo, June 22, 1888.
 Editor Deseret News:
 Having been requested by the Department of Agriculture at Washington to forward all the information I can of the silk industry of this Territory, I did so, and last April I received fifteen mulberry trees of a new variety, sent from Italy to experiment with, which are doing well. The foliage, in my opinion, is fuller of silk than any other variety that has come under my notice. Senator Chandler is bringing before Congress a bill to establish experimental stations for the development of silk culture. I would like to receive answers to the following questions:
 How many mulberry trees in your county or district? How many understand the handling of the worms? How many cocoons have been raised in your county? That is to say, annually?

Yours respectfully,
 D. GRAVES.
 Territorial papers please copy.

Supreme Court.

At 2:40 this afternoon the Territorial Supreme Court met, all of the justices being present.

S. C. Haller, ex rel. v. N. W. Clayton. This is the case in which the validity of the acts passed and approved at the last session of the legislature, after it had sat sixty days, is in question. The court holds that it cannot go behind the legislative record, that that record can not be impeached by parol evidence, and that the acts are valid. The opinion was delivered by Chief Justice Kane, and is fortified by citations of numerous authorities.

The case also involves the validity of the appointment of the next commissioners, and a phase of the appointive power of the Governor. It holds that the commissioners were legally appointed, and sustains the statute under which they act.

The opinion in the case of the Promissory Stock Company vs. D. D. Houtz et al. was being read when we went to press.

Southern Notes.

The thermometer has run up to 102 in the shade in the land of Dixie.

Beaver is principally adapted for a manufacturing town, and will undoubtedly become one of some importance before many years.

The City Marshal asked for an advance of salary last Saturday. He can not keep up his position on \$30 per month. No action by the council was taken on the motion.

Not a few people hereabouts disputed the statement made by the *Unionist* a few weeks ago relative to the grape crop at St. George. We now repeat that it will be larger than usual.

D. F. Tobbs, of Tooele, was arrested and brought in before Commissioner Wilkins yesterday morning on a postal indictment. He gave bonds and was released. J. B. Murdoch and William Greenwood became sureties.

The good people bordering on and using water from South Creek are suing for an injunction to restrain the parties at Fremont, and who have recently located there, from taking water from the supply of that creek. The Fremont parties now come in and claim certain rights and privileges which the South Creek people say they have used for over twenty years.

A communication from W. O. Orton, of Panguitch, states that he has saved a little from the fire at his place recently. All the family's clothing was destroyed, as also was the house. Only one child, instead of 5, was in bed at the time the fire broke out. Mr. Orton desires to restrain thanks to Mr. Orton from the family, James Yeater, F. McEwan, Timothy Robinson and family of Silver Valley, and the good people of Panguitch generally, who so kindly and generously came to his aid in this emergency. He desires also to remember his friends Mr. and Mrs. Fred C. Harris of this city, who also rendered assistance. —*Beaver Unionist*, June 22.

MRS. JULIA WARD HOWE.

Lecture by a Talented and Distinguished Lady.

One of the most distinguished women from America has produced, Mrs. Julia Ward Howe, will lecture this evening in the Congregational Church, at 8 o'clock, her subject being, "Is polite society polite?" Mrs. Howe is a native of New York City, and the daughter of Samuel Ward, a banker. At an early age she displayed remarkable literary ability, writing plays and poems. She received a thorough education, and became an accomplished linguist. For some time prior to the war she was associated with her husband, Dr. Howe, in the conduct, at Boston, of the *Commonwealth*, an anti-slavery publication, in which cause she was as ally of such men as Wm. Lloyd Garrison and Wendell Phillips. In 1860 she became identified with the woman suffrage movement, and for many years has been president of the New England Woman's Club.

In her literary work she has shown remarkable versatility, as well as a talent which has brought her enduring fame. She has produced philosophical essays in which broad and deep thought is displayed, numerous poems of great merit, dramas and prose works. On the lecture platform she is a talent which has brought her enduring fame. In the North.

Mr. James Unsworth was arrested in town yesterday on the charge of unlawful cohabitation. He gave \$1000 bonds for his appearance in court. He also gave \$500 bonds for the appearance as a witness of William A. Orell, the alleged second wife.

On Tuesday evening two boys, one a son of Andrew Jensen and the other a son of widow Westenberg, of Hyrum, were riding a horse which they fell from it. They were both hurt somewhat, and the younger boy had one of his shoulder bones broken.

Jacob Fuhrman, of Providence, who was arrested on the first of the week on the going charge by Deputy Westenberg and Legation, had an examination in the Commissioner's court on Thursday. He was bound over to the sum of \$1000 to await the action of the grand jury. His alleged second wife and his daughter were bound over in the sum of \$200 each to appear as witnesses when wanted.

A stranger who came into town a few days ago has been deceiving quite a number of our citizens by promising to buy horses from them. He would see the horses, at a time of his own choosing, and when the time came fail to keep his word. He got a vehicle from Walter Reese to go to one of the settlements and left a gold pin as security for the pay. On returning he got into a controversy regarding the pin and in the night he left.

During the week at Blackfoot Joseph Hall was acquitted on the charge of unlawful cohabitation. Samuel H. Hall was fined \$50 and a Mr. Kane was given the full sentence, six months and \$200 fine. He took an appeal to the Supreme Court of the Territory. Is the case of Robert Hall still in the court? The four charges against President T. E. Ricks were all dismissed and he went north from Blackfoot last evening. The Cousins and Harrison cases complete the unlawful cohabitation cases for this term of court.

Rexburg Notes.

Walter Paul, Esq., writing from Rexburg, Idaho, says: "The prospects are very good for an abundant harvest, although it has been a pretty cold spring. We have had some splendid showers, which have made the grain on the range, the grain in the fields and vegetables in the gardens look green and nice."

"The programme committee which was appointed to get up something for the Fourth, has done well, and if the programme is carried out the celebration will be one of the grandest affairs that have ever taken place in this section of country."

"There is a cough prevalent amongst the children at present, similar to the whooping cough, only not quite so bad. It is the general opinion that the 'Mormons' will take the best oath and vote at our coming election, on account of it with the 'East'."

Our mail route is to be changed on the first of July, instead of Market Lake to Egna, it will pass from Egna to Rock to Egna and return three times a week. We are also to have a money order office started on the 1st of July. The last named change is a good one, good, as it is impossible to make schedule time at all seasons of the year on account of high water, etc. But it appears we have no voice in the matter but must take what they give us, whether it be palatable or not."

To Observe the Fourth.

The people of Pleasant Green, Salt Lake County, purpose to have a celebration and good time generally on the Fourth of July. With this object the affair was placed in the hands of a committee composed of John Hirst, Samuel Spencer, Richard Sutton, David Jones, Joseph Fields and Lorenzo Day. The committee arranged a programme, which is to be inaugurated at the Hunter precinct schoolhouse, by patriotic speeches, recitations, music, etc.

At the close of this division of the programme the amusements will begin, consisting of foot races, croquet, pig chase, horse racing, sack and other races, broncho riding, etc., for which prizes will be given. A game of base ball will be played in the afternoon, and a free dance will be given in the schoolhouse. In the evening there will be a dance, and a display of fireworks.

Washington County Notes.

The Stake Conference was held in St. George, June 16 and 17. Meetings were well attended and good instructions given.

The deputy marshals put in an appearance in St. George on Saturday the 16th, and on Sunday evening arrested Brother McKee of Washington, and during the night they arrested Bishop M. L. Lee of Ananda, both on charges of unlawful cohabitation. They were to appear before the commissioner next day at Silver Reef. The officers returned to St. George in the hope of more prey.

A fire this morning destroyed the S. L. Adams smelter in the suburbs of St. George. The cause of the conflagration is unknown, but it is supposed to be from boys playing with fire.

Postal arrangements in many places in the south are very bad and cause great dissatisfaction to the people.

First District Court.

Proceedings at Provo yesterday: Mary Ann A. McIntire against John J. McIntire; divorce; decree granted. The account of David Evans, Esq., assistant United States District Attorney, for \$318, in Territorial cases for the quarter ending June 30, 1888, was approved.

Springville City made application for a temporary injunction restraining James Hanley from interfering with the water in Hobbie Creek Canyon. Granted.

John M. Milburn asked for a decree of foreclosure of a chattel mortgage against B. H. Young for \$3500.25. Allowed.

Spanish Fork West Field Irrigation Co. makes motion to dissolve an injunction restraining it from the use of court by Spanish Fork City restraining the company from controlling the water in their ditch.

At the Theatre.

Last night at the Theatre a bouffon "The Humming Bird" was presented by the Salsbury's Troubadors. The presentation, a musical comedy, is something novel in its connection, in the drama, of music with the farce. The singlet was generally good, but the comedy is itself trivial. The humor is of the ridiculous kind; and the burlesque acting and incongruous situations afford no inconsiderable amusement.

Tonight the company will appear in the comedy "Three of a Kind."

Errata.

In the biographical sketch of Judge Elias Smith, which appeared in yesterday's News, two errors occurred. It was stated that his mother was Mary Duty, who was in fact his grandmother, being the wife of his grandfather, Daniel Smith. His father, also named Asabel, married Betsy Shillinger, who was his mother, and who was of Dutch descent. Instead of being a captain in Zion's Camp, he was one of the seven captains who led about six hundred Saints from Kirtland to Missouri, in 1839, and who were instrumental in the removal of the Church to that state from Ohio.

Concert at Pleasant Valley.

The black diamond diggers of this locality are able to create amusement for themselves, when occasion requires, in proof of this they gave a concert on the evening of the 22nd inst., to aid in emigrating the family of Brother R. T. Evans, at which a very good programme was well rendered. Brother Evans sends us an account of the affair which is very credit to T. M. and J. M. Richards, W. L. Jones and Wm. Lamph. Brother R. T. Evans desires his gratitude to be expressed to all who took part in the concert, or attended it.
