## MINING, BUSINESS AND STOCKS

## SOME CHANGES IN OHIO COPPER

Out to Shareholders of This Company Today.

OFFICERS WILL BE MOVED.

Rooms Now Occupied Will Be Vacated Tomorrow-Activity of Thomas Welr.

Notices have been sent out to sharenolders of the Ohio Copper company calling attention to the next annual meeting which is scheduled for the 16th inst., at which time, aside from the election of a new board of directors, the proposition of changing the articles of incorporation so as to permit of a bonded indebtedness of \$650,000 and the re-incorporation of the company under the laws of some other state will come up for consideration.

Secretary Henry Catrow when asked to state a reason for the proposed changes replied that while the articles of incorporation permit the company go into debt to the extent of \$500,000, some of the shareholders deemed it advisable to make it more than that sum, which would give the manage-ment just that much better show to speedily and systematically carry forward its proposed campaign of development and improvement. As to the matter of reincorporating, Mr. Catrow stated that the company is now operat-ing under the laws of the state of Nebrasks; which are not altogether fa-vorable for the operation of mining companies, the most objectionable feature being the clause in the statute books which makes officials of the company personally liable for the debts of the corporation.

Although Mr. Catrow would not commit himself on the subject, it seems highly probable that the proposed changes are in accordance with the wishes of F. Augustus Heinze, who holds an option on a majority of the stock of the Ohio Copper company, Another significant move in connection with Ohio Copper affairs, one which indicates that the original owners of the company will no longer have upon their shoulders the responsibility of the development and operation of the property, came to light today through the notice mailed to shareholders in which it was stated that the coming meeting would be held at room No. 306 Dooly block. This particular room is the one which has been occupied by Thomas Welr for sometime as his office. It was learned, also, that the offices now occupied by the Ohio Copper company would be vacated tomorrow.

There is still an air of mystery sur-

rounding Mr. Weir's connection with the Ohio and some of the events which have taken place during the past few weeks leads to the supposition that it is just possible the well known mining man is closer to Mr. Heinze than some would naturally suppose and that it is through Mr. Welr that an im-mense lot of territory between the Ohio's mense lot of territory between the Onio's domains and the Eingham Consolidated's Driton & Lark mine has been acquired by option or otherwise.

Even down below the Dalton & Lark Mr. Weir has been busy. Among the properties fied up there is the Badger group. The option on this property

group. The option on this property was to have expired several days ago, but it is said the owners were willing to give an extension, if they have not already done so, for a reasonable length

of time.

Mr. Weir, accompanied by Werner Zeigler, mine superintendent, went out to Bingham this morning to look over the situation and decide on the campaign to be carried on in the future.

#### NEW MINING CONCERNS.

Nebo Central and Strawberry Companies Candidates for Honors.

The Strawberry Mining company of Heber City filed a copy of its articles of incorporation with the secretary of state today. The capital stock of the state today. The capital stock of the company is \$25,000, divided into shares of the par value of 10 cents each, J. H. Clegg is president; Joseph Cummings, vice president; H. J. Clegg, secretary and treasurer; E. J. Cummings, general manager. The company owns some claims in Wasatch county.

A copy of the articles of incorporation of the Nebo Central Mining & Millson of the Nebo

ing company of Mtr Pleasant was filed in the secretary of state's office today. Its capital stock is \$240,000, divided into shares of the par value of \$1 each D. Simpson is president; C. A. Hyde, vice president; Thomas West, treasurer; Web Greens, secretary. The comclaims located in the Mt. Nebe district. Juab county.

#### DAVIS-DALY ORGANIZATION. A message from Boston bears the

of the directors of the Davis-Daly Estates Copper company, the following organization was effected: President. J. A. Coram; vice presidents, G. W. Davis and N. W. Bumstead; treasurer, R. A. Cornachan, assistant treas-urer, W. J. Freeman, chairman of the urer, W. J. Freeman, chairman of the executive committee. F. Augustus Heinze; members of the executive committee, F. Augustus Heinze, J. A. Coram, C. H. Palmer, W. J. Woltman and Karl Roebling, J. A. Coram, C. R. Leonard and Capt. C. H. Palmer were elected directors of the company. Among the other directors of the company are F. Augustus Heinze, W. J. Woltman of J. S. Bach & Co. Henry Mueller of Butte, George Wesley Davis of the Devis estate, Karl Roebling of

of the Devis estate, Karl Rocbling of J. A. Roeblings Sons Co., S. S. Rosen-stamm, W. W. Bumstead, M. S. Largey of the Largey estate of Buile and Mayor John MacGinnis of Buile.

## DEAL CLOSED FOR THE SEDAN CLAIM

This Is Indicated By Notice Sent | Manhattan Property Taken Over By Professor J. L. Jenny Who Starts Development.

OGDEN MAN MAKES A STRIKE. IS BUILDING UP A SURPLUS

Elwood Madden Finds Good Looking Rock Near East Manhattan-Other News.

Manhattan, Nevada, July 29.-It is the Sedan claim, which opened up such high grade ore last week, has been copper at less cost than any other sold for \$45,000 and 100,000 shares of stock in a company to be immediately incorporated. Prof. J. L. Jenny, ex-U. S. geologist, consummated the deal with Bert L. Smith, one of the owners of the Sedau claim. Mr. Garrett, another of the owners, and the one made the wonderthi strike, has been retained as superintendent. A double compartment working south has been started, and at a depth of eight rest he ledge was again encountered, and is even richer than before. The whole bottom of the snaft is in high grade ore, and assays have been taken ruft-ning above \$500 per ton.

Drifting will soon be commenced on the 12 foot ledge, which was cut last week in the tunnel of the Manhattan Nevada Gold Mines Co. at Central. This ledge is identical to the one on the Manhattan Consolidated. The tun-nel is now in the hill 135 feet, the face being in a lime spar carrying values as high as \$40 per ton in gold

In the drift from the shaft on Lease No. 3 of the Manhattan Cowboy Min-ing Co., a vein four feet wide has been encountered, returning values of \$45 per ton in gold. This ore body trends northwest and southeast, and is be-lieved to be a continuance of the fa-mous Union No. 9 vein of the Manhattan Dexter. This vein will at once

Free gold in quantity is being taken from the tunnel on the Manhattan Mammoth at East Manhattan. The entire face is in ore that pans very high in free gold. A new ledge below the tunnel on the Mammoth has just been opened up and many fine free gold specimens taken from the workings. The owners of the Consolidated Manhattan, adjoining the Mammoth on the west, are eagerly watching de-velopments on this new yein, as it is

very close to their line.

Good ore has been opened on the
Manhattan Jumbo, northeast of the
town of East Manhattan, Elwood Maden, formerly of Ogden, Utah, and one of the owners of the property, while prospecting the company's holdings, which is covered with a capping, thought he would sink a shaft through it to see what was below. At this point, he had only to sink a few feet known when he ran into mineralized real and a few feet deeper disclosed a good sized vein which pans free gold it considerable quantity. Work will be continued on this vein and the prop-erty thoroughly opened up. Several pieces of rock that were al-

most solid gold, were brought into town yesterday by a prospector, who claimed to have found them on his property near Millett, 40 miles north of Manhattan, Considerable interes was aroused, to the end that severe parties left for the scene of the strik parties left for the scene of the attached this morning. The camp of Millet was located last spring, and is neather site of several old silver mine which were abandoned when the price of allver dropped. As most of thes properties were worked for silve alone, no attention being given to the gold values, it is believed that the can now be successfully worked for gold. Water is to be had in abun-dance, as well as fuel, and in all probability a permanent camp will be established this fall.

#### FURNACES UNDER FIRE.

Mr. Bennetts, Sup't, Getting Things Motion at Garfield Smelter.

At the offices of the American Smeling & Refining company in the Mo Cornick block this morning, a report was received from Supt. B. H. Bennett of the Garfield plant to the effect that he is getting the new works fairly u dear steam and that the fires have been kindled under the battery of reverbers

Within the next 48 hours Mr. Ber netts expects to have everything good running order and the treatmeof ore from the camps tributary to th Salt Lake valley actually in progress. The Garfield smelters have been course of construction just about months, during which time the man agement has expended over \$2,000,000 i providing the producers of this regio with one of the most modern ore re duction plants in the world.

#### UTAH COPPER SYNDICATE Organized an Exploration Company in This City Yesterday.

The Mines Exploration company, was the name of a new mining corporation launched in this city yesterday afternoon, of which the "Utah Copper crowd" are the prime movers. The president of the new organization is Charles M. MacNelli, president of the Utah Copper; the vice president is D. C. Jackling general manager of the Utah Copper, while Spencer Penrose, who holds the position of secretary of who holds the position of secretary of the big Ringham company, is named as secretary and treasurer of the ex-ploration syndicate. Completing the board of directors are: Edmund Jeus-sen, a mining engineer, and C. C. Hamilia, prominently identified with Colorado mining enterprises. The purpose of the new company is to carry on a general mining and

the purpose of the new company is to carry on a general mining and exploration business and it will send its scouts into any new field wherever anything is commended to it for investigation. The capital stock of the company will be \$550.000 divided into \$10,000 shares.

## UTAH CON. HOLDS WORLD'S RECORD

Big Bingham Company Produces Copper Cheaper Than Any Other Like Concern.

Which May Equal Nine Dollars a Share by Beginning of Next

The fact may not be generally known, but Utah Consolidated can reported on very good authority that show proof that it holds the record up to the present time of producing copper mining company in existence.

While the management has not been induced to make a statement to that effect, there are reasons to believe that the output of this big Bingham mine during July came very close, if not up to that of June, which was the record month in Utah Consolidated history. This fact, added to developments made n the northwestern part of the mine, where was disclosed recently the largest as well as the richest ore body ever found in this Bingham property, has been the occasion for much favorhas been the occasion for much favorable comment by financial papers of the east. It is pointed out that the output of the present year will come up to between 18,060,000 and 20,000,000 pounds of copper, and that the cost of producing tals copper will be under 5 cents a pound; after deducting the gold and silver contents. This figures out a net profit of 13½ cents a pound, or between \$2,500,000 to \$2,700,000, on an 18-cent copper market, which would mean from \$8 to \$9 a share. Unless the directors change the present dividend basis, \$5 a share per anent dividend basis, \$5 a share per annum, the company will not need to draw on this year's earnines to meet the dividend requirement and would probably have on hand as a surplus at the beginning of 1907, the equiva-lent of about \$3 a share.

#### ON MINING EXCHANGE.

Bulk of Forenoon Trading Done on The Open Board.

Again the open board session of the Self Lake Stock & Mining exchange did the bulk of the business of the regular orenoon call. Only four stocks participated in the regular call transac-tions and the record shows them to be: Montgomery Mountain, Grand Central. Beck Tunnel Consolidated and News York Bonanza.

On the open board, Columbus Consolidated sold down, as did Nevada Hills, while South Columbus, the Alta stock which has been attracting so much at. tention of late, remained steady at about yesterday's closing figures. The foreneon closing quotations and

PIOCHEITES ORGANIZE.

Citizens of Nevada Camp Have Formed Chamber of Commerce,

(Special to the "News.") Pioche, Nev., Aug. 3 .- The mining and business interests of this camp have organized a chamber of com-merce the purpose of which is to pro-mote the interests Pioche mining district. Ed. F. Freudenthal, one of the best known mining men in Nevada, has been elected president; A. A. Carman, merchant, vice president; Ben-jamin Cowan, secretary and treasurer and C. L. Horsey, gasistant secretary They, with J. G. Brown, E. P. Gordon and George Bethan, constitute the board of directors. Will C. Higgins, editor of the Salt Lake Mining Review, has been made an honorary member of the organization.

#### GREAT FALLS SMELTERS CLOSE.

Butte, Aug. 3 .- A Miner special from Great Falls states that the electrolytic smelters of the Boston & Montana company of the Amalgamated Copper com-pany closed down this evening as the result of a strike of the smeltermen, following the refusal of Supt. Wheeler. of the works, to recognize a committee for the mill and smeltermen's union which demanded that five discharged smelter men be reinstated. Posters have been tacked up about the plant notifying all smeltermen that a strike is on. Pickets have been posted to prevent any workmen from entering. Supt. Wheeler has issued a notice that ali must report for work Saturday as the company must know by that time if the men are to return to work. The strike affects 3,000 men in Cascade county, employed in the smelters, railroads, coal camps and other industries connected with the Amaigamated industry. About 3,000 miners in the Boston & Montana mines in Butte are affected, as it will be necessary to close down the property if the shut-down continues. The Boston & Montana electrolytic smelters are the largest in the world, handling about 4,000 tons of ore dally from the Butte

A message received from Butte over the Pollock wires today indicated that a settlement of the difficulty might be effected during the day.

#### CONCENTRATES.

W. C. Orem is expected home from the east next Tuesday. Clarence K. McCornick is expected to reach home next Sunday.

L. A. Jeffs went out to Bingham this norning on mining business. Bettles, chief metallurgist of the Newhouse mines, and family, ex-pect to leave tonight for southern

California for a few weeks' outling. ported late vesterday by McCornick & Company were: Crude ore and concentrate, \$32,160; base buillon, \$77,000;

W. J. Douglas and Clifford McClellan, prominent Nevada mining men, have returned west after spending a week in city and visiting several of Salt Lake's pleasure resorts.

Col. William A. Farish, formerly consulting engineer for the Majestic copper properties in Beaver county, was in the city en route to Denver and Mexico from a professional engagement in Nevada,

One hundred De Forest Wireless stock at \$3.00. Must be sold at once, so give us a bid, E. M. West & Co., Tel. 165. 327 D. F. Walker block.
