

FIGHTING AND NOT PRAYING THAT WINS

Gen. Miles Says the Russian Soldier is Courageous in Saying His Prayers.

PRAISES THE AMERICAN ARMY.

Dewey Says U. S. Navy Has Best Ships, Best Officers and Best Men in the World.

New York, May 13.—"The Russian soldier is courageous in saying his prayers before going into battle, and the same thing may be said of the soldiers of the sultan; but I have found that on the battlefield it is the fighting and not the praying that wins," said Gen. Nelson A. Miles tonight, in explaining the success of Japanese soldiers against Russia. Gen. Miles was speaking at a dinner to members of the Order of the Founders and Patriots of America, of which Admiral George Dewey today was elected governor-general.

"It has been my privilege," said Gen. Miles, "to see most of the armies of the world. I have studied carefully the armies of Japan and of China and the soldiery of Russia, and the men in the east today of the soldiers of the mikado is due to their wonderful skill, the faithful performance of their duties and their remarkable enterprise."

"Of all the armies of the world," continued Gen. Miles, "ours seems to offer in that they are most worthy for principle. Our men seem to feel that they are working for a free people for a republic in which every man is a sovereign and every woman a superior of a sovereign. Our flag represents the sovereignty and the freedom of mankind. It is in pleasure as well as honor to serve under it. I know that from my forty years' experience as a soldier. In all that time there never was an hour of the day that it was not a pleasure to me to be in the service."

CROP CONDITIONS.

Resume of Condition of Crops Throughout the World.

Washington, May 13.—The foreign crop department of agriculture, issued today, gives the following resume of conditions in various parts of the world:

Russia.—Several experts agree that the season is two or three weeks later than usual. Odessa reports that many grain fields had to be plowed and resown. The tenor of many unofficial reports regarding the general crop situation in Russia has been decidedly unfavorable, but more hopeful views are held in some commercial quarters. The military demands on the railroads have contributed largely to holding back the supplies.

Germany.—The three principal cereals are all rated materially higher than a year ago, the difference being especially marked in the case of wheat and rye. The report on the spring crops is backward in many localities, owing to cold weather.

Austria.—The fall-sown crops in most provinces wintered well, and with rare exceptions their condition affords ground for the best hopes.

Hungary.—The official reports are generally favorable, but the confidential reports from Transylvania which the outlook is rather poor because of lack of snow cover during the winter and spring. The spring crops were mostly satisfactory.

Roumania.—Crop reports are generally favorable.

Bulgaria.—The latest reports are favorable, no spring sown and winter crops generally are doing well.

Turkey.—The latest available report indicates that the grain crops in eastern Turkey were not injured by the cold wave there, and in the Smyrna portion of Asiatic Turkey crops are in good condition.

Italy.—Crop reports are favorable and crops growing rapidly.

Spain.—Crops generally satisfactory.

France.—Cereal crops are said to be progressing as well as could be desired, the complaints being from rodents and weeds only. Fruit prospects are good.

Belgium.—Fall-sown crops are generally satisfactory.

The Netherlands.—The reports on spring sowing are favorable. Area smaller than in previous years and the condition varies.

Great Britain.—Winter wheat has improved, but is still far from satisfactory. Spring wheat already up is generally favorable.

THE NIPSIC.

About Last of Wooden Ships Ordered Out of Commission.

Washington, May 13.—The Nipsic, one of the old wooden vessels of the navy, has been ordered out of commission at the Puget Sound navy yard, where she has been serving as a receiving ship. The vessel is one of the few remaining few government-built vessels, being almost the last timber ship constructed for the navy. She was launched in Washington in 1879, and saw much service in all quarters of the world. In the great hurricane at Samoa she was the only American ship to remain in the American fleet. After that experience she was scarcely worth salvaging, but as

FALLING HAIR STOPPED.

Baldness Cured by Destroying the Parasitic Germ That Causes It.

Baldness follows falling hair, falling hair follows dandruff, and dandruff is caused by a germ destroying its way into the scalp. To the men of the world where it says the vitality of the hair. To destroy that germ is to prevent as well as cure dandruff, falling hair, and baldness, baldness. There is only one preparation known to do that, Newber's Herpicide, an entirely new, scientific discovery. Wherever it has been tried it has proven a complete success. It can't be otherwise, because it utterly destroys the dandruff germ. "You destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Z. C. M. I. Drug Co., Special Agents.

CHINESE BANDITS ARE DEPREDATING.

Have Kidnapped Several Rich Persons Who Have Been Ransomed.

RUSSIAN DIPLOMATS ARE BUSY

Are in Pekin Trying to Get Chinese To Take Over the Newchwang Section.

Newchwang, May 13 (via Tien Tsin).—Chinese bandits are committing depredations in the vicinity of Yin Kow. Several rich relatives who were kidnapped by them from Newchwang have been ransomed.

SATOLLI'S MISSION.
It is Not to Settle Disputes, Which Do Not Exist.

Washington, May 13.—Monsignor Falzon, the papal representative at Washington, today made the following statement regarding the proposed visit of Cardinal Satolli to America:

"We are authoritatively informed that there is no truth whatever in the current report regarding the object of Cardinal Satolli's proposed visit to America, namely, to settle disputes which have arisen in ecclesiastical circles on account of the alleged American policy of liberty and the abolition

of the papal infallibility."

"There is no friction whatever between the apostolic delegate and the American hierarchy. The American bishops are united and in perfect accord. Rome is apprehensive that they will ever be otherwise."

JUMPED FROM STEAMER.
Man Named Snell Leaps Into the Waters of Lake Erie.

Buffalo, N. Y., May 13.—A man believed to have been a New York stock broker named Snell, jumped from a Cleveland and Buffalo steamer into the water about three hours after from Cleveland, according to a traveling man who refused to give his name, tells the following story of the suicide:

"I was sitting in the buffet about 10 o'clock, when a short, heavy, red-faced man entered. We got into conversation and he told me his name was Snell. He said among other things that he was financially embarrassed, and that he was going to kill himself because of his trouble. He threatened three times to take his life, and I urged him not to do anything rash. When we left the buffet I called the attention of a couple of deck hands to him. A minute later he leaped over the railing. I ran out but he had gone overboard. The captain at once ordered a lifeboat lowered and the swimmer was brought to a stop as quickly as possible."

"Snell went to Cleveland on the same vessel from Buffalo Wednesday night. The body was not recovered."

New York, May 13.—Nothing is known here of an alleged shooting in his account of a man named Snell, nor is there any broker in the city of that name.

DETECTIVE EMRICH

Found Guilty of Murder in the Second Degree.

Denver, May 13.—Samuel Emrich, a city detective, was today convicted of murder in the second degree for the murder of William Malone, a saloonkeeper, in 1894. Emrich's attorneys have been granted five days in which to file a motion for a new trial. Emrich shot and killed Malone in the latter's saloon after a quarrel with Mike Ryan, an acquaintance of the police commissioner. Emrich claimed self-defense. Malone at one time was well known on the turf, but he operated a string of trotting horses.

BUTCHER WORKERS.

Finally Decide to Let Members Become Members of Militia.

Cincinnati, May 13.—In the opinion of the Amalgamated Meat Cutters and Butcher Workers of North America today there was a lively discussion as to what action should be taken regarding the militia question. The rank-and-file members of the union prohibited from joining the militia. A resolution finally was adopted declaring that while the union did not favor its members joining the militia, yet it left them free to exercise their own judgment.

Gillespie Murder Case.

Rising Sun, Ind., May 13.—The postoffice at Glenn's Ferry was entered by robbers last night. They blew open the safe and took about \$600 in cash and stamps. Today a man was found about two blocks away with a broken leg. He was severely beaten, but on recovery he escaped. He tells an improbable story about having fallen off a train. The safe was torn to pieces, and it is the opinion of the authorities that the robbers put in too heavy a charge of powder, and one of the pieces broke this man's leg.

Jellies Generally Adulterated.

New York, May 14.—Witnesses before the United States commission to establish standards for pure foods which is sitting here, declare that jellies and jams are generally adulterated. Glucose and coloring material, they assert, are added to the jellies. One spokesman for the manufacturers of preserves, claimed that 60 per cent of the "jellies" made in the United States are imitations composed of glucose and coloring matter. No jellies, he said, contain fruit. None sell at all.

Another witness said that if the manufacturer of compound jellies by mixing of different fruits were forbidden 75 per cent of the factories in the United States would have to close. The committee will continue its hearings to day.

To Survey Alaskan Boundary.

Vancouver, B. C., May 14.—Prof. W. F. King, chief astronomer for the Dominion government, is making arrangements for the survey of the Alaska boundary according to the tribunal said. He will organize his party in Vancouver, working in conjunction with the United States commissioner Tillman. In discussing the work, Prof. King said:

"By the award certain mountain summits were decided upon as being the vertices of the line, and these are to be joined by a straight line to define the international line between Canada and the United States."

"The survey, of course, is a joint one and the Dominion and the United States each are sending three parties there. Two of these joint parties are to work on the Yukon river, the third will proceed on the Stikine river. These representatives of both governments will work in conjunction in all that they do in connection with the

boundary line."

Agricultural Year Book.

Washington, May 13.—The year book of the department of agriculture will be issued early in June. It will comprise an edition of 800,000 copies, of which 470,000 are reserved for the use of the senators, representatives and delegates in Congress, and the remainder is reserved for those connected with the department. It is a volume of 72 pages, illustrated with many lithographs, half-tones and text figures. The year book embraces 32 miscellaneous papers on agricultural subjects, written with two exceptions by experts of the department.

Diver's Fatal Dive.

Raleigh, N. C., May 13.—"Pete" Daniel, a young diver, dressed in flames tonight, dived to death in a 10-foot ladder. He made a miseration, his head and shoulders striking the side of a tank of water into which he intended to dive.

Falling Hair Stopped.

Baldness Cured by Destroying the Parasitic Germ That Causes It.

Baldness follows falling hair, falling hair follows dandruff, and dandruff is caused by a germ destroying its way into the scalp. To the men of the world where it says the vitality of the hair.

To Guard Mimic Theaters of War

Chicago, May 14.—One policeman, one fireman, one doctor, one volunteer school teacher, and one cavalryman will be on hand July 4 to guard each of several mimic theaters of war that have been arranged for by the managers of the public independence day celebration in Chicago.

The program of the day will begin at 10 a.m. with a march of the bands, followed by a grand fireworks display.

At 1 p.m. a topographical survey of the same region about 10 years ago obtaining information for the then coming setting of the tribunal. This also will be a joint survey and we secured pretty accurate information with regard to the territory that we are now proceeding to go over."

Lived Beyond Her Means.

New York, May 14.—Mrs. Marshall Rawlings, said to be connected with a well known Baltimore family, and formerly the wife of a Chicago resident, is reported to have committed suicide.

She is reported to have been unable to get along with her husband, and it is believed that she had disposed of similar paper for small amounts among many leading business houses and hotels.

The magistrate adjourned the hearing and remanded the body to the coroner's office.

It is expected that the coroner will be retained by the police court.

She is reported to have been a woman of means, and it is believed that she had disposed of similar paper for small amounts among many leading business houses and hotels.

The magistrate adjourned the hearing and remanded the body to the coroner's office.
