Now enterprise and expension that has never bene seen in this country before. Now with that I would not have you forget that there are certain responsibilities. We have had evils growing out of our presperity. It is a question of enforcement of the law. I think Mr. Roosevelt's course impressed upon the business community and those gentlemen who were prone to make the means of monopoly the necessity for observing a higher standard in business, and that they were willing to lay down those other methods.
