

CLIPPINGS.

—A bibulous citizen, who after driving his family to church, at Dubuque on Sunday, is in the habit of making the rounds of certain bar-rooms till church is out, recently was absent in the church longer than usual: the sagacious horse, thinking something must be wrong, started, made his succession of calls, and brought up at the proper time at the church door, where his master found him.

—The defalcations of the Louisiana State Tax Collectors during the last thirty years have, it is said, swindled the treasury out of \$356,000.

—Norwich, England, is a city of churches, having nearly forty, for a population of from 60,000 to 80,000, a proportion which probably obtains in no other large town in the kingdom. Twelve of the old churches, built in the old days, contain peals of bells.

—Over the house assigned in Pekin to Mr. Ward, the American Ambassador, the Chinese authorities placed the following inscription: "Lent to the American Barbarian Ward, Tribute Bearer."

—On the 26th of September last, a farmer in the North of England lost a large and valuable pig—bills were circulated offering two pounds reward for her, but she could not be found anywhere. On the 29th of October some of the men of the farm began to cut into a straw stack, when to their astonishment they found the lost pig, embedded eight or nine feet in the straw, where she had existed for thirty-three days without food or water. When found she had lost several stone in weight, but otherwise seemed perfectly healthy.

—It is alleged that Victor Emanuel is more of a soldier than a King, and has seen enough to know it. Before he gave his orders for the advance of a Piedmontese army into the Marches, he is reported to have said to a counselor, who ventured to point out that he was putting his crown in jeopardy, that he cared not; he could always find employment, somewhere or other as Colonel of cavalry, and that was the position he in his heart preferred, even to a throne.

—It is proposed to employ a new kind of composition for splitting rock—a compound of nitrate of soda, spent tan, and powdered sulphur, in certain proportions. The nitrate of soda is dissolved in a sufficient quantity of water, over a fire, and boiled, the tan is then mixed with the solution, until every portion is impregnated with it, and then the sulphur in the same manner. When dried, it is ready for use.

—In Perry, Wyoming County, N. Y., a minister, the Rev. J. B. Page, sued a clerical brother of another denomination, the Rev. J. B. Wentworth, for the recovery of two sermons which he (Page) the plaintiff lost about two years ago, and which came into the possession of the defendant, who would not surrender them on demand. Verdict for plaintiff \$50, with costs, which amounted to \$200.

—The Elizabethtown (Ky.) Democrat says that a lady in Hardin county, recently gave birth to four children and a colt! The first twins were alive, and remained in perfect health for several days after birth, when one of them expired, the other still living. The other pair were seated upon the almost perfect form of a colt, but life was extinct when the strange trio were ushered into this world. The two children and colt were connected together.

—An amusing incident occurred at Wells-ville, Ohio, during Mr. Lincoln's journey to Cleveland. A large crowd had assembled and Mr. Lincoln went out on the platform. He excused himself from making a speech, having made a few remarks on the previous day. At this moment a man stepped forward and offered a couple of apples to the president elect. A little boy in the crowd yelled out, "Say, Mr. Linkin, that man is running for Postmaster!" The donor of the apples collapsed amid screams of laughter.

—After two years work at the tomb and house of Napoleon, at St. Helena, they have been comfortably restored, and an officer of the French engineers, with two aids, has returned to France.

—The effect of climate on the human system is shown in a striking manner by the inhabitants of Australia, who in the course of two or three generations, lose the corpulent character of Englishmen, and become a tall, gaunt, rawboned race, like the inhabitants of our southern States.

—It is stated that ex-President Pierce has sold out all his bank stock and stocks of every description, and converted the proceeds into specie, which he has deposited specially in a bank at Concord.

—Rain of a red color has fallen plentifully in Europe during the past winter.

—"Japanese Tommy" (Tateish Onejeiro) has come to an untimely end. The Japanese say he died of delirium tremens, but the Americans in Japan believe that his head was cut off.

—Hon. Allen Ayrault, Genesee, N. Y. recently deceased, bequeathed to Hobart College, Geneva, to found a professorship of agriculture, \$20,000; to American Bible Society, \$10,000; to the Foreign and Domestic Missions of the Protestant Episcopal Church \$5,000.

—The Cincinnati Press says that Governor Floyd fulfilled one of the old prophecies with a slight variation. He didn't turn the government arms into hooks, but he hooked them.

—Rev. Francis O'Shea, of St. Paul's Cathedral, Pittsburgh, Pa., deposited, not long since, with the U. S. depository of public moneys in that city, \$100, to the credit of the United States, the same having been received by him through the confessional.

Save your Paper Rags.

The inhabitants of Utah are requested to gather up and save their worn out wagon covers, and every description of cotton and linen rags for paper making, and deliver them, from time to time, to the Bishops of the several Wards, or the "News" and "Mountaineer" Offices or their agents, for which, when clean, they will be allowed five cents a pound.
