GREYHOUND RACE SOUNDS SPEEDY

O. P. Smith, Salt Lake Man, Has Worked Out Brand New Game.

THIS CITY TO BE ITS HOME.

Fastest Animals on Earth to Make Fast Horses Look Like Overgrown Snails.

Because its promoter regards Salt Lake as a great sporting center, this city will soon see an entirely new racing game. The game is greyhound racing and the promoter, O. P. Smith, identified with the dog game as prominently as any man in the state. Mr. Smith has been working on his scheme for several years. He has now what he believes will be a humane and exciting sport. A circular track is necessary. A stuffed rabbit, on a wire will be pulled around ahead of the dogs. It has been domonstrated that the hounds will follow the decoy as readily as if it were a real bunny. Great speed records are made. Time can be taken and it may be said that Mr. Smith's new sport will be followed all over the country.

Mr. Smith has his game covered with patents and a company has been organized to handle it. Articles of incorporation will be filed today with local men holding the bulk of stock. A track is to be built in this city and promoters hope to hold a 90-day meet beginning the first of August.

FIVE MOTORS SLATED TO CONTEST TONIGHT

The racing program announced for the Salt Palace bicycle saucer this evening comprises a five-mile motor race, open professional, with five motors slated to take part. The riders will be Samuelson, Heagren, Whittler, Turville and Hopper. Five speedy motors going around at once will be a real motor race. This event, alone, would draw a big crowd. The popular two-mile dap handicap will call out the professionals to take a grind while a five-mile lap amateur will look good to the youngsters. A one-half mile professional and a one-quartrer mile open amateur are other treats in store. All in all, or piece by piece, the program looks like a winner.

WEDNESDAY PROGRAM FOR LAKESIDE TRACK

Manager Chapman announces his next race for Wednesday evening. Mayer and Clarke are to meet Samuelson and Wilcox in a two-mile tandem race, with tandem pace. This is the feature of the card and sounds promising. A three-mile lap and a mile handicap are arranged for the pro's., and the youngsters will be seen in a half-mile handicap and a two-mile lap. This program has plenty of the spice of life, variety and sounds O. K.

LAWSON TO RIDE AGAIN.

Iver Lawson, whose absence from the saucer tracks has been a source of worry to the bicycle fans, is to ride at the Salt Palace Friday evening. The ankle he broke last spring is now in old-time condition and Iver says he will show up as of old—which means he's going to make 'em ride at all times.

SULLIVAN ARRIVES: LOOKS FOR QUARTERS

Pete Sullivan reached town from Los Angeles this morning and except for a colored left eye looks very little like a man who went through a hard grilling Saturday night. Sullivan and "Cyclone" Thompson meet in Ogden, July 4. Sullivan is looking up training quarters this morning and will get down to work right away. He is in trim, having been training a long while for his contest with Howard Baker. This was the fight event last Saturday night and proved a victory for Sullivan as he had his man all but out at the end of the fifteenth. Sullivan says he held himself until he got ready to sail in and then stars began to shoot for Baker. It will be remembered Baker led the roughing in the early part of the game.

"It's an old score between 'Cyclone' and me and its going to be a fight from the word go," says Sullivan. "I am in good shape right now but good enough isn't good enough. I'm out looking for training quarters and will be at work by evening." Thompson is training at Hot Springs, near Ogden. Both men are scrappers and in their former meet put up a good fight. Followers of the pillowed-mitt game look forward to the go eagerly.

BUCKLEN'S ARNICA SALVE WINS.

Tom Moore, of Rural Route 1, Cochran, Ga., writes: "I had a bad sore come on the instep of my foot and could find nothing that would heal it until I applied Bucklen's Arnica Salve. Less than half of a 25c box won the day for me by affecting a perfect cure." Sold under guarantee at Z. C. M. I. drug dept.

AMERICA'S TEAM IS MINUS THREE

Dray, Polevaulter, Whithall, Sprinter, and Rowe, Runner, Are Those Shy.

ALL FIT IN LINE-UP SNUGLY

So Absence of Any One Man May Be Felt, But Club is Still Enthused.

New York, June 23.—Manager Mathew P. Halpin of the American Olympic team, states that when the steamship Philadelphia pulls out from her dock on Saturday the team will be minus three of its first string performers. They are: W. R. Dray of Yale, the crack pole vaulter; J. D. Whithall, the Pennsylvania sprinter, and Rowe of Michigan, the distance runner. The absence of Dray will hardly make much difference, as Gilbert, the other man from Yale, is nearly as good, though the pole vault department would have been much more secure with Dray along. In case of sickness or accident to any of the other three, his presence would be just the thing.

The most important thing with regard to Whithall is that he was an alternate for one of the 200-yard sprints, in the 1,600-yard relay, and would be a capital man for the position. Good men in the distance runs are scarce, so Rowe will be more or less of a loss. All the members of the team have sent the measurements for suits and caps, and every man who leaves on Saturday will have the official brand of racing togs stowed away safely in his kit.

Manager Halpin has been more or less anxious over Matt McGrain. Some time ago he injured the cartilage of his knee and was incapacitated for a while, but Dr. R. H. Sayre, the noted specialist on muscular trouble, took the big hammer thrower in hand and cured him of the trouble. On Saturday last he was out for the first time and sent the hammer 160 feet in his first attempt. He went at his work yesterday in real earnest and five times beat 171 feet. This means that he will be in his old trim in the English stadium.

CALIFORNIANS OFF TO JOIN OLYMPIANS

San Francisco, June 23.—Ralph Rose, the Olympic club world's champion shot putter, left yesterday for New York, where he will join the American team to the great Olympic games in London on July 13. Rose's departure was preceded by that of Sam Bellah, the Stanford pole vaulter, who was also selected as a memebr of the teamo f athletes who will compete against the best in the world next month. Rose and Bellah are the only Californians who will be on the American team. Oregon being represented by Dan Kelly, Forest Smithson and A. C. Gilbert, all of Portland.

THINKS IT SAVED HIS LIFE.

Lester M. Nelson, of Naples, Maine, says in a recent letter: "I have used Dr. King's New Discovery many years for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung complaints, and would no more be without a bottle than I would be without food." For nearly forty years New Discovery has stood at the head of throat and lung remedies: As a preventive of pneumonia, and healer of weak lungs it has no equal. Sold under guarantee at Z. C. M. I. Drug Dept 50 cents and $1.00. Trial bottle free.

NO WATER TO BE HAD.

Chicago Public Fountains Day on the Hottest Day.

Chicago, June 23.—On the hottest day of the summer, when thousands of persons were sweltering under the burning rays of the sun and the suffocating atmosphere in the canyon-like streets of the towering skyscrapers, not a public drinking fountain was to be found in operation in the heart of Chicago yesterday.

Men, women and children panted through the scorching thoroughfares. There were cafes where fountains splashed gratefully, but in no place was water to be had free except in the big department stores. There the women and children crowded in rows seven and eight deep waiting their turn at the cups.

The drinking fountain at the city hall was as dry as a bone. The bronze statute of Christopher Columbus glared in the burning heat. The four drinking basins were covered with the boards that had protected them all through the winter.

At the Woman's Temple, the bronze figure of a childd held out a cup invitingly, but no water flowed.

This is the fountain that in 1892 was given by 300,000 children of the United States, each contributing 10 cents, that the little children of Chicago might never go thirsty on a hot day. It was made by George Dade, a famous sculptor.

Another fountain is just inside the north entrance of the temple. The basin is surmounted by a little bronze boy holding a trident, but the figure guarded no precious water.

The only explanation obtainable for the lack of water at the fountains was that the matter had been neglected.

SENIOR BRITISH ADMIRAL.

Sir James Elphinustone Erskine Believes There Will be Bigger Ships.

San Francisco, June 23.—Sir James Elphinestone Erskine, senior, of the six admirals of the British fleet, arrived in this city yesterday on his way around the world, accompanied by his wife and family. In an interview, he is quoted as expressing the opinion that the Pacific will be the scene of the next great ocean warfare—though he would not say between what powers. He also expressed the conviction that still greater battleships than ever yet have been planned, would be laid down in future naval programs—that the vessels of the Dreadnought type had not yet reached their fullest development. The tendency, he said, was to put as many guns as could be on a single base. The admiral, who is making a two-years' tour, come here by way of the Straits of Magellan. After a stay of a few days, he will proceed on his way to the orient by way of British Columbia. Being 56 years of age, the admiral will go on the retired list next year.

TO INVESTIGATE FISHING LAWS.

San Francisco, June 23.—President David Starr Jordan of Stanford university, has been appointed United States representative on the international commission, which will investigate the fishery laws governing the American-Canadian border waters. He will start for Eastport, Me., this morning to meet the British commissioner.

PIKE'S PEAK RESERVE FIRE.

Colorado Springs, Colo., June 23.—Fire, supposed to have originated from embers left by a camping party, swept over the Skelton ranch, 25 miles west of Colorado Springs yesterday, destroying $25,000 worth of property on the ranch and timber in the Pike's Peak forest estimated in value at twice that amount, making the total loss $75,000. This is the third disastrous forest fire in the Pike's Peak reserve within three weeks.

Philadelphia	23	27	.460
Boston	24	31	.436
St. Louis	24	34	.414
Brooklyn	21	33	.389

Pittsburg was shut out in the opening game of a series with Cincinnati yesterday. The score was 4 to 0. Despite this Pittsburg got 7 hits to Cincinnati's 6. St. Louis won from Boston yesterday by the splendid score of one to a goose-egg. It was largely a pitcher's battle between Raymond and Boultes with the former handling himself the better of the two men in critical moments. If Chicago doesn't brace up she will drop from the head of the league. Costly errors were made freely yesterday, letting New York pull down a third victory. Yesterday's score was 7 to 1. Philadelphia and Brooklyn also played ball yesterday—10 innings of 1 to 0 ball. Rucker and McQuillen did excellent work.

AMERICAN LEAGUE.

Philadelphia	25	30	.455
New York	24	31	.444
Boston	25	34	.424
Washington	20	35	.364

Chicago lost to Detroit yesterday by a score of 4 to 1. Cleveland proved easy picking for Philadelphia, the latter team winning hands down, 9 to 2.

WESTERN LEAGUE.

	Won.	Lost.	P. C.
Omaha	35	23	.603

Sioux City	33	27	.550
Denver	31	28	.525
Pueblo	23	35	.397
Des Moines	22	37	.373

In the ninth inning of the game between Sioux City and Pueblo (at Sioux City) the score stood 2 to 1 in favor of Pueblo. Two men were mowed down and it looked a certain victory for the steel workers but the Siouxs led by Chief Holmes, manager, made a stand and hammered out two runs, making the final, 3 to 2, in favor of the corngrowers. Lincoln made their home fans feel good yesterday by beating Denver. Plenty of hits kept the suspense at high tide, but pitchers were strong and fields were steady when most needed so the score was only 2 to 1. It was a slaughter, a barbecue, a spill-over—it was something almost nameless, and it all happened at Des Moines. That city beat Omaha, by getting 17 runs to 1, and making 21 hits to 1. "Warn't it arful?"

NORTHWEST LEAGUE.

Seattle weakened in the ninth yesterday permitting Butte to win, 6 to 5.

THE DOCTOR'S JOY RIDERS.

The doctor said: "I'm going to sell that touring car. It's too much for me.' So of course it was in order to ask: "How? Why?" and then to await an answer.

"Well, you see," said the doctor, "it is a seven-passenger car and, of course, a big one. Well, every once in a while I get out on the street with the tonneau empty and the first thing you know I see a patient. He or she hails me, and, of course, I have to stop. Then it is only the part of decency to ask the patient for a brief ride. Sometimes they're going somewhere just a little off my way, but they have no hesitancy in asking me to drop them off there. Actually, sometimes I have had the whole tonneau full of such riders. The worst thing happened one day when a couple who were out riding with me and were'nt going anywhere in particular announced that they were hungry. Well, it happened to be about lunch time and we stopped in at a resturant. I'm blessed if they did'nt expect me to settle the check, because neither one had money enough to buy a sandwich. After that I decided to get a runabout, just big enough to hold my man and myself."—New York Sun.

PATENTS

We desire to announce that we have established in connection with our peper, a Patent Bureau, and invite the co-operation of Inventors, Mechanical Engineers, Draughtsmen, Machinists, Superintendents and Foremen of Shops and Mills, Skilled Mechanics in all trades, Farmers and all others, in building up a patent system, that will give honest advice to investors, protect their interests by good patents and strong contracts; assist Inventors in perfecting their inventions, and in selling their patents when obtained; and in all matters to render careful service and give full value for money paid.

We have associated with us at Washington, D. C., an attorney who has been in continuous practise for the past twenty years, and we are in position to guarantee that any patent matters placed in our hands will receive prompt and careful attention, and that the charges will always be moderate.

We also, in addition to securing of patents, obtain Trade-Marks, Copyrights, Labels, Design Patents, and in fact transact business of all character in this line.

All patents secured through our Bureau will be advertised for sale at our expense, and will thus be brought to the attention of the thousands of readers and materially assist the inventors in disposing of their patents.

If you have made an invention, send us a rough sketch and description with $5, and we will have our attorney make a thorough search of the records of the United States Patent Office, and advise you as to the securing of patent, the cost and the manner of proceeding.
