Mr. and Mrs. F. J. Brinton and chil-dron will leave the first of the week for a summer outing at Richfield.

Mrs. Fred W. Mullenbruck of Stockton was the guest of Eureka frienus . . .

possible, are used for name cards at formal dinners. Sometimes they are slipped among the petals of fresh roses, a flower being laid at each cover. The name should be left in plain sight, of course. Name cards are in the form of leaves, half of a pea pod or oyster shell, etc., all in paper and very realistically gotten up. They are found at the sta-tioner's. how to distinguish between the two classes of bees. He believes no other fewis have ever acquired this valuable knowledge, and has not found anyone who has ever heard of such knowledge being displayed by any fowl or bird. He is greatly delighted at his discovery, for it means many dollars in his pocket and his discovery is now published for the information of all aplarists, stu-dents of entomology and the public in general. Mr. Penning markets a large amount of honey in an evaporated con-dition, and merhaps is the discovery of his style of handling the product of his bees.—Portland Oregonian. how to distinguish between the two A correspondent asks for a remody for

red ants, which she finds in an unusual place, a hotel bedroom. Try leaving poisonous fly paper, wet and sprinkled with sugar, about the room. That has been found efficacious. Recoperative Effect.

Sour cream salad dressing was eaten with great relish at a country table. The hostess gave the following directions for making it: Stir into a tablespoon-ful of lemon juice the required amount Considered with reference to its re-cuperative effect, there is not so much of sait, white pepper, and dry mustard. Turn over this a cupful of sour cream, neating lightly. Pour on the salad just before serving.

cuperative effect, there is not so much good in the ordinary vacation as there is in a single bottle of Hood's Sarsapar-illa. The latter costs \$1; the former-well, that depends; how much did yours cost last year? Hood's Sarsaparilla refreshes the tired blood, sharpens the duiled appe-tite, restores 'the lost courage.

.

A LABOR-SAVING IDEA.

Realizing the fact that the "cutting out" of round cookies was the main part of the work because it necessitated bart of the work because it necessitated handling and rolling part of the dough over and over again, as well as making hundreds of other useless motions. I decided that an easier way was good ebough for me, and abaadoned the "cookic cutter" at once, and forever. Nowadays I roll the dough into a thin sheet, and with a thin knife cut it into bars or squares. The eookies are cartainly as pleasing to the eye; as easy to blie or break and in every way as desirable as the round ones, while they have the advantage of requiring less space when put away. The change from round to square cookies proved the biggest "little help" toward saving time, strength and patience that I have found in a long time.-Eva Ryman-Gaillard, in National Magazine.

NAVAL PLACES OPEN.

An examination will be held on Nov. wherever there may be candidates in the navy for appointment to that ser-vice as boatswains, gunners and carvice as boatswains, gunners and car-penters. There is a great demand for all three, and there happen to be no applications on file in the Bureau of Navigation. This is considered remark-able, but it does not necessarily mean that the places are going begging. It is probable there will be enough can-didates from whom to make selec-tions. The department is not limited in the number of appointments. The de-mand for gunners, boatswains and car-penters is caused by the fact that many new ships are being placed in commis-sion, and the active register is constantsion, and the active register is constant-ly increasing.-New York Tribune.

BEAR ROLLED ON A BARREL.

Bumbo, a performing grizzly bear, now on exhibition in Luna Park, had an awful experience yesterday. As soon as he finished his mid-afternoon per-formance, Bumbo left the ring over the lagoon and started to lumber across the bridge to his cage, underneath the dancing pavilion. When half way across the bridge Bumbo looked over the side into the limpid waters of the legoon. Then he became dizzy and fell overboard legoon. Ther fell overboard.

Now Bumbo cannot swim, and when at last he was fished out he was al-most dead. An ambulance from the most dead. An ambulance from the Coney Island Emergency hospital was summoned, and when the doctor came he attended to Bumbo just as if he were a human being instead of a grizz-ly. After being rolled over barrels, and after the doctor had breathed his own breath into poor old Bumbo's nos trils, the grizzly came back to life.nos. New York Times.

IN MONDAY PAPERS

See advertisement of our Second Splendid "Mill End Sale." Quantities possibly not quite so great as first. Qualities just as great. Bargains for Everybody.

From California comes a recipe for summer squash that sounds attractive. A very young squash is called for, and if it be young enough there will be no necessity even to pare it. Cut in very small pleces. Cut up also a slice of onion and fry brown in a little lard. Put in the squash and a little salt and pepper; fry for about 10 minutes and pour in a fourth of a cupful of hot water. Cook until the squash is soft enough to mash with a spoon.

cupy more responsible positions than those filled by young girls.

Brown will be more popular than ver. It is remarkable how this color

has held its favor during the last three years. Unlike blue, green, or red, brown

Mrs. James D. Stack and son, Wil-liam, and Miss Della Fields, are visit-ing friends at Park City and Sait Lake.

A party of Eureka people Tuesday evening procured conveyances and went over to the Tesora mine near Silver City and surprised Foreman William Owens and his wife. The party carried along a sumptuous supply of good thinsg of life, and the evening was spent in feasting and merry making.

G. B. Burhans testifies after four years

G. B. Burhans testifies after four years G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cur-ed of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brivk dust sediment, and pain and symptoms of kid-ney disease disuppeared. I am glid to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evi-dently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trou-and healthy looking. Fo reale by Z. C. M. I. Drug Department.

WOMAN'S WORLD.

A prominent member of the Woman's

A prominent member of the wonait's Municipal league has set an example in practical philanthropy which is worthy of wide emulation. Her large house on Riverside Drive, like so many city Riverside Drive, fike so many city houses, stands empty during four or five months of the year, and it has long been a source of disquietude to her that during her absence the cool breezes and fresh air of the drive could not be made to benefit those who needed them. This summer she cleared the drawing This summer she cleared the drawing rooms of furniture, put in the furniture of a nursery with ten little beds, and gave the house to an uptown church for the use of weak and convalescent children. Two nurses are in charge, and the children are cared for as ten-derly as possible. During the day they play in Riverside park. The best of food is furnished by their generous hostess, and each child stays as long as its case

and each child stays as long as its case, and each child stays as long as its case, requires. The church authorities look up the children who need this particu-lar care. They find them in all parts of lar care. They find them in all parts of the town and among all nationalities. No race discriminations are made, the one idea being to benefit sick or weak-ly children. The hostess of this unique convalescents' home visits her little guests frequently, and takes a great in-terest in their individual cases. Club-women have been accused of being too theoretical in their efforts to better manking but here at least is one case

mankind, but here at least is one case where the theory has been put to practise in a most admirable fashion.

The princess gown never goes out of fashion for a long period of time, and there are many indications that it will there are many indications that it will be a favorite in the fall. Many hand-some casino gowns and garden party dresses are made princess, and al-though few if any walking gowns are so made at the present time they are promised for the fall, and several model gowns have been shown. One of these was of blue cloth, a very fine, supple fabric. It was fitted to the figure with plaits stitched flat corselet-wise above plaits, stitched flat corselet-wise above the waist and far over the hips below. the waist and far over the nps below. The skirt was untrimmed and was fin-ished with a stitchen hem. A charming little bolero accompanied the gown. This was slashed down in a point in the back and was trimmed with buttons of blue enamel and simulated button holes. The front was similarly decorated. The The front was similarly decorated. The

collar and shallow pointed yoke of the gown were of deep cream-colored lace.

interest in the work, and eithe nice dresses herself, or carefully ex-plain to the wash-woman how to do them correctly there is no need of the east injury to the most delicate fabric of the palest hue. With the proper method there is with the proper method there is neither rubbing nor boiling, so that the hands are not left scarred and sore after each wash. It can be easily done, and it is satisfaction to have one's wash frocks took new all summer.

If you are going to wash your pretty frocks yourself, try it early in the morning. First put all the colored things, or white embroidered in color things, or white embroidered in color in a tub of cold water, half a cup of borax to a tub full of water. Soak an hour. Then press out most of the water, and put into a tub of water that has just bolled, with quarter of a cup of borax in this water and half a bar of discolved castlle soap.

Rub lightly in the hands, and only a lightly in the hands, and only a little rubbing is necessary, rinse in warm clear water and then in clear water, no bluing, except for snow white

stuffs, and then only a little. It is safe to leave the ironing to even It is safe to leave the ironing to even a moderately good laundress, once the clothes have been properly conducted through the dangers of the wash tub. Most wash things look better if they are ironed just as they are almost dry. In-stead of letting them dry entirely and sprinkling them. Embroideries are always ironed on the wrong side and so are dotted and brocade cottons. It takes very little time and strength

It takes very little time and strength to do washing in this fashion and saves work and money and nerves, for after a woman has spent two or three days making a frock, it really does affect her nerves to see it a different color every time it's washed .- Mary A. Tran-

One Woman Among the Thousands.

One Woman Among the Thousands. We received a letter from Waycross, Ga, from a woman who had been troubled with female complaint for a long time, until she was reduced to almost a shadow. It affected her mind, she could nat re-member anything, would get confused and so nervous and irritable she could hardly step. She described her case as one similar to thousands of other women, and then ends the letter by saying she her former troubles, slept well, and at her meals with a relish. She commenced ther former troubles, slept well, and at hever felt better in her life, having no trace of her former troubles, slept well, and at hever felt better in ther life, having no trace of her former troubles. She commenced the use of Dr. Gunn's Blood and Nerve the taken right after meals. It turns the food you can thic strong, rich, blood, feeding the nerves and curing disease by gists for 75c per box, or 3 boxes for 52 pale, weak, thin people should use this toric. For sale by Z. C. M. I. Drug De-partment

POULTRY AND BEES.

Mr. Penning told the story of the wonderful development of his hons, which are allowed to run at large among his bee hives, and who like many other 'birds' have a fondness many other "birds" have a fondness for bees, bug, grasshoppers and other insects, but which, generally speaking, have learned to leave bees entirely alone, having in their early attempts at swallowing them found that pain and danger lurked in the stings with which most of them are armed. With-in, the past year or two he has noticed his hens peeking into the entrances of hives and occasionally seizing a bee, which, after placing on the ground and examining critically, they would somewhich, after placing on the ground and examining critically, they would some-times swallow and sometimes allow to ity away. This resulted in a careful in-vestigation by him of the strange ac-tion of the hens, and he soon found that the fowls had learned to distin-guish the stingless and uscless drones from the armed working bees and that from the armed working bees, and that in consequence the number of the cat-ers but non-producers of honey was eing kept within reasonable limit. He Rose leaves, looking as natural as the old hens have taught their chickens

Ira W. Kelley, of Mansfield, Pa., writes; "I was in poor health for two years, suf-tering from kidney and bladder trouble, and spent considerable money consulting and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Folcy's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others."
