

## HOMESEEKERS GET REGISTERED

Thousands After Farms in the  
Kiowa Country.

### NO PICTURESQUE OPENING.

The Lottery Scheme Spoiled the Great  
Run—Crowd Before Each Booth  
Elected a Captain.

El Reno, Okla., July 10.—Following out the proclamation of President McKinley, opening up to settlement by the whites the 13,000 farms in the Kiowa and Comanche country, the first registration of homeseekers was made here and at Lawton at 9 o'clock this morning. Hundreds were lined before the various registration booths when darkness came on tonight, and tomorrow and next day the registration will continue until all who come have been given an opportunity to file their names. The drawing by lottery will begin on July 29th, and until then none of the 50,000 applicants will know whether or not he has been lucky enough to receive a homestead.

The lottery scheme robbed the "opening" of the picturesque run and the exciting times incident to the great opening of the Cherokee strip ten years ago. Compared with that, even the affair is tame in the extreme. Although there are perhaps 20,000 people in town, no disorder prevails. As a rule, the homeseekers were well provided with money and provisions, and, aside from the long wait in the sun before the registration booths, no serious inconvenience has been experienced.

Last night hundreds of people slept in the streets, and all were anxious to maintain their place in the line, which began forming yesterday at the six registration booths in El Reno. Many had waited on the border of the new country for two years or more, and the last night of their long vigil was the last night they had experienced. The line was made up of the halt, the lame and the brawny frontiersman, sprawled out in the dust.

The crowd before each booth elected a captain, and each man and woman in line was given a number, which they pinned conspicuously to their clothes. A company member was permitted occasionally to absent himself from the line for a short business spell, and invariably his place was "rotected" by his fellow-waiters.

As the hour of 9 o'clock neared, interlopers tried to rush in and break the ceremonial order in the line organization. This instantly raised bad blood, and when word was passed down the line a little later that the booth officials would not recognize the line organization, but would register the men, who sought to present themselves, there were threats of violence, and rioting seemed likely. Trouble was prevented by the early announcement that the line organization would be respected by the government officials. Cheers and waving of hats greeted the word, and from that time forth there was no sign of trouble. Applicants were admitted to the booths four at a time, and the filing proceeded rapidly all day long.

During the day the heat became intense, but no serious suffering was reported. The numerous women in line were treated gallantly by the men, who shaded them from the sun with umbrellas and furnished drinks from the lemonade vendors.

The second place of registration named in the proclamation was at Lawton, twenty-five miles overland, where similar scenes to those enacted in El Reno were witnessed. The people in the vicinity of Mountain View and other points along the border continued to that point left yesterday for the interior and presented themselves early today at the Lawton booths.

### LANDS MUST BE OPENED.

Washington, July 10.—The complaints from land offices in Oklahoma, other than El Reno and Lawton, that they should be allowed to make registrations at the opening of the reservation on the 6th proximo, are regarded officially as not well founded. The matter was taken up some weeks ago, and Deleatry Flynn at the time unsuccessfully endeavored to have the other Oklahoma offices included.

It is claimed here that the report of the number of cattle on the lands to be opened has been exaggerated, and that the reservation is not large enough to hold 75,000 head. The opening of certain lands on August 6th, which stockmen are seeking to have postponed is mandatory. A large part of the 75,000 head are in the Wichita lands. It is claimed, can be shipped to the market by the allotted time, and the rest moved down to the Kiowa grazing lands, which will not be thrown open to settlement.

In response to a telegram from John W. Springer, president of the National Live Stock association, Secretary Hughes has wired the following: "The law is on the side of the government and to open the reservations on the 6th of August, in conformity with the President's proclamation dated the 6th instant."

### AMERICAN CATTLE GROWERS. Pass Resolution to Abolish Assessment Plan of Raising Money.

Denver, Colo., July 10.—The most important business transacted by the board of directors of the American Cattle-Growers' association, at its meeting in this city which ended today was to pass a resolution recommending that the next convention eliminate the feature of raising money to defray extraordinary expenses of the association which has proved unpopular.

The board is working to preserve a status on the range fencing question until the next Congress meets, and it is seen that that body will do the leasing question.

The board will meet in this city again on the first Monday in November.

### THE CONSIDINE HEARING. Judge Griffin Gives Very Damaging Evidence Against Accused.

Seattle, Wash., July 10.—Judge Arthur E. Griffin of the superior court told at the preliminary hearing of the Considerine case this morning for the first time since the tragedy his story of what he saw in Guy's drug store at the time of the killing of William L. Meredith by the Considerine brothers.

None of those who witnessed the tragedy and who have already told their story as to what they saw, as was Meredith in the statement that condition making defense impossible. The judge told of the weakening of the knees of the murdered man as the blow was showered upon him from the gun in the hands of Tom Considerine and stuck to it that what he believed to be a weakening of the knees was a relaxation of the muscles and not movement on the part of Meredith to

## L. F. VERDURY—HAD CATARRHAL DYSPEPSIA—CURED.

TRIED PHYSICIANS.  
AND VISITED  
SPRINGS.

FEELS LIKE A NEW  
PERSON, THANKS  
TO PERUNA.

Leonard F. Verdury, Real Estate and  
Renting Agent, of Augusta, Ga.,  
writes:

"With many others I want to add my testimonial to the wonderful good Peruna has done me. I have been a great sufferer from catarrhal dyspepsia. I tried many physicians, visited a good many Springs, but I believe Peruna has done more for me than all of the above put together. I feel like a new person. I have taken the Peruna and Manalin together and always expect to have a bottle in my home."—Leonard F. Verdury.

Mr. R. M. Baker, a prominent citizen of Buckhead, Ga., writes in a recent letter his experience with Peruna to build up a broken down system. He says:

"Some time ago I was troubled with catarrh of the stomach and spent lots of money in buying so-called catarrh medicines and paying doctor's bills. Peruna was recommended to me by a friend and after taking a few bottles I am happy to say that I am now entirely cured."

"I can recommend Peruna because I believe it to be the best catarrh medicine on the market. My whole system was out of order and my health generally very bad, but since taking Peruna I am now enjoying better health than I can ever remember, and fully believe that Peruna did the work. I shall always speak a good word in its behalf."

Catarrh assumes different phases in different seasons of the year. In the

Leonard F. Verdury.

summer the stomach and bowels suffer the oftenest as the seat of the trouble. Peruna cures catarrh wherever located. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

### reach down and draw a gun from his pocket.

Judge Griffin also swore that while Tom Considerine was beating Meredith over the head John Considerine called to him, "Give it to him, Tom; hit him over the head," or something to that effect. The first shot the judge heard was the one fired by Meredith through the door of the drug store. He did not hear any shot preceding that one.

In addition to Judge Griffin only three witnesses were examined this morning. Mrs. Chet Belding swore positively that she heard six shots fired.

### Unlawful Enclosure of Land.

Portland, Or., July 10.—The Jesse D. Carr Land and Live Stock company, a California corporation, was defendant in the United States circuit court today charged with unlawfully enclosing 84,333 acres of government lands in Oregon and California. A number of stockmen from Klamath valley were witnesses on behalf of the plaintiff. Judge Hollinger said it was a shame to inclose public lands in the manner testified to by the various witnesses, and unless the counsel for the defense had evidence or arguments to offer, he would decide the matter with as little delay as possible.

### SIX YEARS FOR NORLIN.

Kearney Co., Neb., Treasurer Goes to Lincoln Penitentiary Today.

Minden, Neb., July 10.—County Treasurer Alfred Norlin, who last night confessed to the embezzlement of \$10,000 of county funds and admitted that he set the courthouse on fire to cover his crime, will be taken to the penitentiary at Lincoln tomorrow. A special session of the district court was convened today, the embezzling treasurer entered a plea of guilty and was sentenced to six years in the penitentiary, and to pay a fine of \$5,000, the amount of the shortage after the restitution of yesterday.

### International Zinc Company.

New York, July 11.—The Journal of Commerce says: Plans for a re-organization of the International Zinc company, the \$1,000,000 concern which went into receivership some months since, have been practically completed. G. H. A. Dougherty, chairman of the re-organization committee, says that a new company will be incorporated under the laws of the state of New York, early in August, with a capital of \$150,000, of which \$50,000 is to be in common stock. The officers of the company are to be in this city and the bulk of the stock is to be held here.

### Harcourt's Speech Was Adroit.

New York, July 11.—Sir William Vernon Harcourt's speech at the report stage of the finance bill was adroit and forcible, says the Tribune's London correspondent. Sir William was in good form and in thorough enjoyment of the liberal situation. He had provided a liberal harrier for the exchequer immense sources of increased revenue in death and estate duties on socialistic lines. These had been swept into a century of the future, and he had left to pay the immediate increase in the national debt with a prospect that the entire free trade system would be undermined and all the results of half a century of the finance counteracted. "Needs must when war drives," was his sardonic comment, and there would be no reply from the government side. The liberals who were in high spirits over the removal of their factions, were delighted with Sir William's grim speech.

### OLYMPIA'S STEM ORNAMENT.

It is Now Being Attached to the Hull of the Vessel.

New York, July 11.—The stem ornament, designed to commemorate the cruiser Olympia's great victory at Manila bay, is being attached to the hull of the vessel, says a Boston dispatch to the Times. The stern piece was set up a few days ago. Naval Constructor William J. Baxter, head of the department of construction and repair at the Charleston navy yard, first conceived the idea of these ornaments.

YOU CAN FEEL  
**10% Cooler**  
THAN THE  
THERMOMETER  
By Using  
Proper Food.  
**GRAPE-NUTS**  
Supply It.

HOT WEATHER MEALS AND PERSONAL CONFORT.

Fruit of some kind should be used at the breakfast during hot weather. Follow this with a dish of four heaping teaspoonsful of Grape-Nuts, cold and treated with rich, cold cream. This diet gives the staying qualities necessary. Add a slice or two of wheat bread, with very little butter. Use no meat for the hot weather breakfast. Let meat appear but once a day during this season of the year.

A little care in the selection of food will help one through the heat of the day in a way that will not easily be forgotten.

summer the stomach and bowels suffer the oftenest as the seat of the trouble. Peruna cures catarrh wherever located. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

and at once set about obtaining the consent of the navy department to put them on. After this had been accomplished, he had the designs made, following his own ideas.

Some of the bronze used in casting the two pieces was taken from the Olympia, and this gives added value to them. The stem ornament is the more elaborate. A winged Victory holds high above her head an eagle, which she is about to launch into the air. Victory's wings lie against the sides of the ship's prow.

The stern piece consists of a shield with a mass of scroll work on each side.

### Bubonic Plague at Marseilles.

Marseilles, July 11.—The precautionary measures taken to prevent an outbreak of bubonic plague among the crew and passengers of the French steamer Laos, Capt. Plandin, from Yokohama, May 23, which arrived here July 7, have been handicapped by the refusal of the Arab stockers to submit to vaccination with plague serum. Grave fears are held that the plague will spread unless all the passengers and crew of the Laos now held in quarantine are inoculated.

### Sales of Coffee.

New York, July 11.—The sales of coffee on the New York Coffee exchange for the year ending June 30th, aggregated 7,383,000 bags against 5,879,500 bags in 1900. The sales for 1899 were 4,960,500 bags. The transactions the past year exceeded those of 1900 by 1,503,500 bags, the gain being partly due, it is said, to the large crops abroad.

### VIRGINIA-CAROLINA CO.

Meeting Called to Increase Capital Stock to \$50,000,000.

New York, July 11.—The Journal of Commerce says: A special meeting of the stockholders of the Virginia-Carolina Chemical company has been called for the near future at Jersey City to act upon a resolution of the directors providing for an increase of \$25,000,000 in the authorized capital of that corporation, thus making the total capital \$50,000,000. This action is a result of the current plans of the company in securing cotton oil properties with a view to producing a synthetic fertilizer. The company has been secured the right to use the cottonseed oil, which is a valuable by-product of the cottonseed, and which is now being sold as a waste. The company has been secured the right to use the cottonseed oil, which is a valuable by-product of the cottonseed, and which is now being sold as a waste.

A circular sent to the stockholders by the directors set forth that the company has been figuring a long time on some project which it could secure the ammoniacs, of which it consumed about \$2,000,000 worth annually, in the most economical manner. It is pointed out that the quantity of ammoniacs also would justify the company in acquiring into the cottonseed oil business, but aside from that it is when properly conducted, intrinsically a profitable business, and would have the further advantage of placing the company more closely in touch with the fertilizer trade.

It is for the purpose of buying up established cotton mills, or establishing new ones, that the capital stock of the company is to be increased to fifty millions.

The United Cotton Oil company was recently incorporated under New Jersey laws with \$12,000,000 capital stock. Presumably this concern will be turned over to the Virginia-Carolina Chemical company.

The cotton oil plants, which, so far as is known, have been acquired by the Virginia-Carolina Chemical company, include the Southern Cotton Oil company, a \$2,000,000 concern, the Atlantic Refining company, and the Interstate Refining company. Several other mills are also said to have been purchased. It is also understood that the company has options on several other concerns but formal announcement of purchase has not been made.

### Cloudbursts in Montana.

Helena, Mont., July 10.—Reports from the scene of the cloudburst near Wickes yesterday indicate that the Montana Central railway was the heaviest sufferer. The railroad a short distance from the town was damaged for about 600 feet, bridges being washed away and the approaches so that it will probably be a week before permanent repairs are made.

At Corbin, a few miles below Wickes, the concentrator of the Helena & Livingston Smelting & Reduction company was damaged to the extent of several thousand dollars by the supports of the building being washed away and some of the machines covered with debris. The damage in Corbin was confined entirely to goods in stores being covered by water. About five miles below Corbin the farms of a number of ranchmen were overflowed and crops destroyed, county roads and bridges for about eight miles were damaged and washed out. There were no fatalities.

### Molders Reject Manufacturers' Offer.

Chicago, July 11.—The executive board of the Iron Molders' union have refused to accept the offer of the manufacturers. This was the final proposition and it is believed a strike will result, which may assume national proportions, as the agreement between the International Iron Molders of America and the National Foundrymen's association depends upon the outcome of the Chicago difficulty.

## FRENCH NAVAL EXPENDITURE.

For the Year 1902 It Will Be  
\$62,420,000.

### COST OF HER GOVERNMENT.

It is \$720,000,000 Annually, \$200,000,000 Being for Interest on the National Debt.

New York, July 11.—A Paris correspondent of the Tribune says: The naval expenditure of France for 1902 is officially proposed to be \$62,420,000 which at first sight seemed to be \$3,100,000 less than in 1901, but if it is taken into account that the cost of maintaining the marine infantry and artillery amounted to about \$5,400,000, has been transferred from the navy to the ministries of war and the colonies, it is found that the money that France intends to spend upon the navy during 1902 is in reality \$2,200,000 in excess of the naval expenses of the current year.

It is a matter of serious consideration for the French whether they are not spending upon their navy more than their national resources warrant. France has now piled up a debt involving an annual charge for interest of nearly \$200,000,000, or in other words, every man, woman and child in France has now to pay \$5 per annum for interest on the national debt.

The army costs \$132,000,000 a year and the total expenditure for 1902 is officially proposed to be \$720,000,000. Moreover, reflections upon the French census cause renewed uneasiness. Last March the population in round numbers was 38,000,000, being an increase of only 330,000 since 1896, and even this meagre result is mostly accounted for by Paris and its suburbs, where the increase has been 292,000, due principally to foreign immigration, so that in the rest of France the population has been augmented by only 38,000 during the last five years. That is to say, for military and naval purposes the population is almost stationary, and in this respect France stands alone among the great nations of Europe.

Under these conditions M. Jaures, the socialist leader and many advanced thinkers among the radicals and radical-socialists, hold that it is impossible for France to have at the same time a navy and army of the first rank simply because she has not the resources of men and money to maintain both.

### Young Man Arrested for Blackmail.

New Whatcom, Wash., July 10.—Daniel Wilson, aged 19, was arrested last night for attempting to blackmail wealthy property holders out of money under threats of burning their property. Wilson sent two letters to C. H. Atkins demanding that \$500 be left at a lonely place just outside of the city limits. The time fixed for delivery of the money was 10 o'clock last night. Atkins had turned the letters over to the police and when Wilson appeared to get the money which had been left in the place designated he ran into their arms. At the jail today he admitted he had been reading dime novels and the story of the C. H. Atkins kidnapping.

### WHO SHOT THE SOLDIER?

German and American Authorities at Peking Differ Materially.

Peking, July 11.—Correspondence still continues between the German and German military regarding the soldier who was shot at the German legation over a month ago. Maj. Robinson, who is in command of the American legation guard, refuses to admit that the shot which hit the soldier was the same as the one fired by the American sentry. He asked permission to send his own doctor to examine the man. Gen. von Trotha has refused to allow the shot until the claim for damages is admitted.

### KNOWN CASES OF LEPROSY.

Returns Too Incomplete for Surgeon General to Make Report on.

New York, July 11.—A Washington dispatch to the Tribune says: The surgeon general of the marine hospital service is not ready to publish results thus far obtained under his direction in an attempt to enumerate the known cases of leprosy in the United States, for the returns are far from complete. But sufficient material has already been secured by the executive use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every soldier. This is not intended as a free pull for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer time.—Lansing, Iowa, Journal.

### A Cure for Summer Complaint.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of every soldier. This is not intended as a free pull for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer time.—Lansing, Iowa, Journal.

## Long Hair

"One year ago my hair came out very fast, so I tried Ayer's Hair Vigor. It stopped the falling and made my hair grow, until now it is 45 inches long."—Mrs. A. Boydston, Atchison, Kans.

At all druggists. J. C. AYER CO., Lowell, Mass.

ers in six hundred localities, covering the entire country, asking for reports and information regarding leprosy patients. Eight thousand circulars have been sent out and only two thousand replies have been received. From these 27 lepers have been located and their names and addresses obtained. About one hundred are known to live in New Orleans, many of whom are well to do persons of good families. In New York seven cases have been reported. In San Francisco fifteen cases are known, twelve are confined in the pest house. Owing to the fact that three-fourths of the circulars have brought no replies, especially from suspicious districts, the authorities estimate that only about one-fourth of the cases of leprosy have been reported.

### BOERS SURROUNDED BRITISH.

Latter Retreated Leaving Tents Standing and Wounded Behind.

London, July 11.—A yeomanry trooper in a letter describing the Viakfontein affair, May 23, (when the garrison of Viakfontein of Johannesburg-Durban railroad had 174 men put out of action by the Boers under Gen. Delarey), adds the startling intelligence that the British night after that night discovered that the Boers were surrounding their camp and were obliged to retreat, leaving their tents standing and their wounded behind them.

### TOO LATE FOR ARBITRATION.

National Civic Federation Abandon Attempt to Settle Machinists' Strike.

New York, July 11.—It was decided by R. M. Easley, secretary of the National Civic federation, who has been here for several days trying to arbitrate the strike of the machinists, that all attempts at settling the strike of the machinists are useless. He has just left New York and before he went away expressed regret that his efforts to bring about a settlement had to be abandoned. At the headquarters of the National Civic federation, it was said that it was too late for arbitration, and that employees all over the country were getting all the men they wanted. Secretary Devens has received advice from business centers throughout the country saying that the strike was breaking up. At the Dickson Locomotive Works in Scranton, the men were returning to work without concessions. Between 300 and 400 strikers had just returned to work at Seneca Falls, N. Y. At the works of the Newburgh Ice Machine and Engine company, Newburgh, strikers were applying for work.

### ROSEBERRY'S MARRIAGE.

He Will, It is Said, Marry the Duchess of Albany.

New York, July 11.—A London dispatch to the World relative to the reported betrothal of the Duchess of Albany to the Earl of Rosebery, says: The announcement is not yet confirmed. The widowed duchess and the bereaved earl would have been married long ago, had not the queen declined to countenance the union. So strongly did her majesty insist that in the seventeen years that have elapsed since the death of Prince Leopold, duke of Albany, that the duchess has avoided society and devoted her life to the rearing of her son and daughter. She invented a peculiarly shaped school seat for which she received a gold medal, and which is now in general use.

In the midst of her studies, her schemes for charity and social reforms, she became interested in the case of a maid attempt to win the queen over to consent to their marriage. The queen would not hear of it, and as the duchess was dependent upon an allowance made through her mother-in-law's will, and did not wish to offend her, she resigned herself to the inevitable.

All is easy now as the Prince of Wales, the present king, was always on terms of closest intimacy with Earl Rosebery. Within the last few days the king has had a long interview with the earl.

### Toilet Powder and Dentifrice.

FRIDAY AND SATURDAY.

Very fine French toilet powder in a variety of good odors that has sold down to a few packages, Friday and Saturday instead of 5c each, 2 for 9c.
