# WORK HAS BEGUN LAGOON ROAD

Electrification of Line to Ogden Starts-Expect to Operate By June.

TERMINAL PLANS COMPLETE.

Will Use Deput, But Cars Will Reach Heart of Business District Over Street Railway Tracks.

The work of electrifying the Ball Lake & Ogden railroad, otherwise known as the Hamberger line, has already been commenced, and it i the expectation of the officials of the road that the trolley cars will in in operation between this city and Ogden by the first of next June.

H. A. Seration, electrical engineer of of the Faulkner Electrical Construction company of Chicago, who accompanied President Simon Bamberger weat for the purpose of assist-ing in the electrification of the line, is still in the electrification of the line, is still in the elity, supervising the pre-paratory work. Mr. Strams has been designated consulting engineer for the construction work, and will, after a being the state of the sta construction work, and will, after a brief trip to Chicago, be on the ground during the pecied of transi-tion between steam and electricity. Plans for the change have been practically completed. Eventually the road will be double tracked, but at pre-ent this will not be done. The motors and cars will all be or the very latest and up-to-state character. Hourly ser-vice will be maintained between Sait Lake and Option.

UPTOWN CONNECTION.

Uptown connection will be had where

Uptown connection will be had when the trolley cars begin to run. From the present terminal at the toot of south Temple on Third Wast street, the cars will proceed east on South Temple to West Temple, turning south on West Temple to Market street. The cars will consolid the temple to Market street. The south and west on Market street. The south, and west on Third south to West Temple, then return ing to the depot over the same route the to the south street. The the block between Third and Forth South streets and brief temple on Market street, have the temple on Market street, have the temple on Market street, have been hald at the time of paying streets with the time of paying the street with the time of paying bestreets with the time of paying the street with the time of paying the street with the time of paying bestreets with the time of paying the street with the time of paying electrifying the read as in now to be done. Within the city limits where car tracks already are faid, the Bamwerger line will use these tracks.

#### AMUSEMENTS.

Theater-The heat thing George M. Cohau has turned out of late years is his "Fifty Miles From Boston," in-Induced to said Lake for the first time last night before a good sized and a very hilorious audience. Of course no one looks for blazing genius when he goes to see a Colum production, but he always expects to be entertained by a presentation of course to be entertained by a presentation of something new, fresh and striking, and all who went with this expectation last night, were surely not disappointed. The play almost ap-proches melo-drama at times, with only occasional lapses into dancing and singing-interfections accouncily. singing-interjections apparently de-signed as breathing places for the au-thor and the audience as well. One curious thing about "Fifty Miles ther and the audieme as well. The curious thing about 'Fifty Miles From Hostom' is that no one seems certain, after having witnessed it, as to who was designed to be the prin-cipal character. There is a handmome young baseball hero, who does not do much except bluster and occusionally nuch except bluster and occusionally into the exist of the start is a start into the source of the start is and hough it was occusionally overdrawn thus hady is a sister of Lillian Ruasell, ind also was a flue bit of comedy work and the 'fut boy' of Master hough it was bevery, a cute it the become Miss Lowry, a oute the become Miss Lowry, a oute the become Miss Lowry, a oute the provide were all good in their lines. The into work of the theory is not be empetially dazeling as to looka. The neargement will end tonight, and and oute 's'''.

Clean your gloves, feathers, dress materials, carpets, table cloths, or anything that needs cleaning with Carbona, the unburnable cleaving fluid.

#### RECEPTION AT UNIVERSITY.

deplored by every man and woman in the community who was in any way in touch with juvenile affairs. The members of the faculty of the iniversity of Utab, will hold an in ormal reception this evening at the University for the governor and mem-University for the governor and mem-bers of the legislature. The affair will be in the nature of a musical and dance and a buffet supper will close the evening's program. Among those who will be heard in the musicale are Misse Margery Brooks, Miss Hazel Barnes and Miss Edna Evans. Prof. Squire Coop has arranged for the ap-pearance of the choir and quartet in a number of selections. a number of selections.

#### MANUFACTURERS ORGANIZE.

Association Elects George S. McAllister President-Campaign Outlined.

The Manufacturers' Association of Utah held its first meeting at the chamher of commerce Thursday night. Officers were elected to serve during the onsuing year and the polley of the organization mapped out. The public expressed his micrition of maight several weeks ago, but at that the work feature has been eliminated fem the new association, and the policy will be to foster and encourage the manu-facturing interests of the state. A call for a convention of Utah manufac-turers will be issued in the near fu-ture, so that the various manufacturers throughout the state may have the pri-vilege of meeting together and dis-cusong ways and means of best con-serving their mutual interests. The officers elected last night were: George S. McAllister, president; O. R. Mere-dith, encoud vice president; O. R. Mere-dith, encourd vice president; John R. Bruff, treasurer, and Lon J. Haddock, werting the different manufacturers in-to the association. Many of the old members have already made application for membership in the new organiza-tion. the new association, and the policy will he was waited upon by a number of for membership in the new organiza-

Said another prominent man in speaking of the matter this morning. "It is pretty nearly time the people of this state made the men whom they this state mide the men whom they have elected to office understand that they are accountable to the people for their actions while in such position. Here now for weeks this juvenile court commission has been holding up the matter of a juvenile judge, because as it appears, some kind of a political trade hangs in the balance. In the meantime the work which has taken years to bring to its present stage of efficiency is languishing because of the uncertainty of what the future policy of such a court may be, and that in the face of the fact that Sall Lake City has been bluesed with a juvenile judge whose love of the youth alone has kept him in a service which must necessarily have interfered with his private busisold Saturday including Outing Flannelettes, Velours, Canton Flannels, Challies, Prints, Ginghams, Percales, etc. Values 10 to 20c a yard.
