Another conference of Virginia Conservatives will be held at about them forever from the jurisdiction the time of the Ohio and Indiana elections, October 12th.

Last year, the European deficit of grain was about 256,000 bushels this, not a single cent has been apand our surplus 180,000 bushels. This propriated by the Democratic Conyear, our surplus is estimated at 200,000,009 bushels, and the Europeau deficit at only 72,000,000.

The judicial mind of the associated press agent in this city, gives the opinion that the election law of the Territory will be declared unconstitutional. That opinion, however, will not do to count on.

President Hayes is expected to return on the 26th of October, as nothing is known at the White House, or among the President's friends of any intention on his part to be in Washington before that his value. On the cars on the way time.

The business of the New York Post Office has so increased during the last month that it has been found necessary to add forty clerks to the force. The receipts have increased the revenue of the government over \$1,000 per day since August last, Last week \$67,500 worth of stamps were sold.

There is trouble in the Greenback ranks. One of the party from Pennsylvania attacks Weaver because it is believed he favors the election of Garfield electors from Maine. Weaver denies this in strong terms, and is opposed to fusion in any part of welcome that the syndicate had the Union. Read the dispatch on bound itself to complete the Canada the subject,

COURT OF SALT LAKE COUNTY: Gentlemen .- Your Committee, appointed by At Uintah, Weber Co., Utah, August 17th, 1880, of dyspepsia, JOHN HENRY, son of Peter and Annie Wilkinson, aged 21 years, 8 months and 4 days. The deceased had been a great sufferer for about seven months, but showed great pa-tience and courage under his beavy affliction. We have visited the Lake shore at Lehi American Fork, Provo and Spanish Fork, and have conferred with parties interested and re-siding on the borders of suid Lake and find by sking of the borders of and Lake and mind by actual measurements that the water surface of the Lake, on the 4th, 5th and 6th of Au-gust last, was four and one-tenth (4 1-10) feet below high water mark of 1862, and that in June last, the water in the Lake was (12) twelve, inches higher (the gates of the dam being out) than it was at the date of our examination (the gates having been replaced. And from the testimony which we have be-fore us for and against, we are of the opinion that to hold the Lake at its Junc height, i.e., three feet below high water mark, and utilize the same through the several canals in Salt Lake County, during the several canals in Salt Lake County, during the season of irrigating but few, if any, would be materially injured
