CLUB CHAT.

The following from a California exchange will be of interest to club women.

Final preparations are making for the first biennial of the California Federation of Women's Clubs, which will open in this city, February 4th, with a large reception and will continue through the following three days. Reports from the clubs throughout the state indicate a large attendance and the program will surely attract a large number of visitors. Seating arrangements will be well considered and the distinguished guests will be met with the most cordial of welcomes.

Outside of the ribbons to be worn by the delegates, the members in attendance from each district will be distinguishable by their respective badges. Reports and notes will tell of the deeds and the hopes of the Federation, but there will be a considerable amount of work which will be pursued for the coming year or two. There is every probability that forestry will continue to engage the attention of the clubs which have gone into the Federation with the intention of finding something to do that will be for the benefit of all.

For the enlightenment of the clubs throughout the state, the first biennial is being carried on during the first two years of the Federation's existence. Now it is proposed to do something practical along this line. The endeavor may take the form of arranging scholarships for the college and summer schools to be held in the woods, but whatever the Federation decides upon will show some tangible results in the near future.

One of the most important measures undertaken by the club women of the California club is now well under way. It seeks to establish in this city a juvenile court, one in which the youthful offender, the mischievous boy, can not come in contact with the criminal element.

In a way this need in the community has been met by the co-operation of Judge Fritz, who has heard a majority of children's cases in chambers. Such an arrangement as this is not lasting, and with view to making permanent provision for the young offenders the women of the civic section and other friends of the children have prepared a bill which will be presented at the next session of the legislature. It embodies the best features of laws which obtain in several other states, notably those in Illinois.

Many valuable suggestions have been made by Chief Hurley of Chicago, who for many years has worked among wayward children. He has signed the bill, and he seems can avail in establishing this much-needed department.

To be made really effective, something more is needed than a separate court; there must be a place of detention quite apart from the police proper. The present law is calculated to be efficient in all ways, and it is getting the scrutinizing attention of legal as well as sympathetic minds. Judge Sloss, who is a staunch friend of the poorly circumstanced children, is looking over the proposed statute.

Dr. Dorothea Moore is directing the work of the California club in this matter. She has had extensive experience in the settlement work of several large cities, and in Chicago while a worker in the Hull House, she gave most of her time to investigating the conditions surrounding children placed under arrest, with a view to removing the cause of the trouble. She visited the homes of these unfortunate boys and girls and endeavored to effect a cure rather than apply a palliative. All her knowledge she brings to the work in this city, the need of which can readily be discovered by those who choose to investigate.

One after another of the local clubs

are recording their votes on the question of the "color line" and instructing delegates how to vote when the issue comes up in the State Federation biennial. At an enthusiastic meeting of Laurel Hall club held Wednesday, January 15, there was a large majority vote in favor of admitting colored women's clubs to the membership of the General Federation. A few days before that the Pacific Coast Women's Press association gave an equally enthusiastic vote for the colored women.

The eyes of many states were turned to Colorado to see what the State Federation would do with the color question. A majority of the members voted to leave the issue in the hands of a committee, which will take up the matter at the General Federation meeting. The Colorado women found their hands full in preparing for the party they will take in the Louisiana Purchase celebration.

They propose that the club women in the states include in the Louisiana grant, as well as others in the general federation, raise \$150,000 to be devoted to building a clubhouse for the exposition and to its maintenance afterward. At the conclusion of the celebration it is proposed that the clubhouse become the headquarters of the General Federation of Women's Clubs. It was further agreed to ask for a woman's board of managers in connection with the exposition.

The biennial local board of the G. F. W. C. at Los Angeles has issued the following address:

To Club Women in General:

The acceptance by the G. F. W. C. of the invitation to hold its sixth biennial in Los Angeles, California, May 1st to 5th inclusive, has been given wide publicity.

The reputation of the biennials is well established, the representative character of the present G. F. W. C. officers well known, and the program committee ably competent, so there can arise no reasonable doubt that the sixth biennial will equal, if not surpass, previous ones.

One of the biennial local board therefore, has pleasure in issuing a preliminary circular regarding the local environment of the biennial.

Southern California has so long been the Mecca of the tourist, the health and wealth seeking, that her sunny skies, beautiful flowers, rare trees, productive soil and undeveloped resources have become household words.

Los Angeles is only five days from the Atlantic seaboard in point of time, and the journey here is a luxury in the twentieth century train at the very low rates accorded by the railroads.

Our city affords unusual hotel and boarding house accommodations. Many private homes will be opened and typical California hospitality displayed.

The twelve hundred federated club women of Los Angeles are pledged to the success of this undertaking.

Through the courtesy and co-operation of the Merchants' and Manufacturers' association visitors will be enabled to witness "Fiesta de los Flores" May 1st to 3rd. An artistic Fiesta poster will be mailed immediately to each club in the general federation.

At the request of the general federation there will be but one general reception, that occurring on Thursday evening, May 1st.

The G. F. W. C. program committee has not made known the details of the program, but it promises to be of unusual interest, and the discussions of vital moment.

Three new committees have been added to the list of those who prepared for the Milwaukee biennial, viz: trains, excursions and carriage.

The federated clubs in this city will keep open house during the biennial, and will be centers for informal intercourse of delegates and visiting club women.

Only a bare outline can be issued at this time, but the biennial local board sends it forth with the confident assurance that no club women can well afford to miss the opportunity of attending this first biennial of the new century, and the further conviction that those of us who are more remote from the great club centers.

Trusting the same wise counsel and toleration may prevail as in the past, and that realization may exceed expectation, I remain,

Very cordially yours,

JOHN V. H. COWLES,
President Biennial Local Board.
(Mrs. Josiah Evans Cowles.)

Shedder of the Past.

"I recall now with horror," says Mail Carrier Burnett Mann, of Levanna, O., "my three years of suffering from kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift mail sacks made me groan. I felt tired, worn out about ready to give up, when I began to use Electric Bitters, but six bottles completely cured me and made me feel like a new man." They're unvalued to regulate Stomach, Liver, Kidneys and Bowels. Perfect satisfaction guaranteed by Z. C. M. I. Drug Dept. Only 50 cents.

When pain or irritation exists on any part of the body the application of BALLARD'S SNOW LINIMENT will give prompt relief. Price, 50 cents. Z. C. M. I. Drug Dept.

F. E. B.

We heard a man say the other morning that the abbreviation for February—Feb.—means "Frozen everything," and that man looked frozen in his utter.

It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge that Ballard's Snow Liniment gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the kind of warmth that stimulates and strengthens at the same time, and all its benefits are lasting. There may be a suggestion in this for you.

You can help anyone whom you find suffering from inflamed throat; laryngeal trouble, bronchitis, coughs, colds, etc., by advising the use of BALLARD'S HOREHOUND SYRUP; the great remedy for coughs and colds. Price, 50 cents. Z. C. M. I. Drug Dept.
