MINING, BUSINESS AND STOCKS.

MINING STOCK MARKET TODAY

Business Was Fairly Brisk on the Exchange.

INDUSTRIALS BOUGHT OUT.

Sugar Stocks Participated—The Forenoon Quotations—Sales Amounted To $17,425.37.

The mining stock market displayed more briskness today. While the sales did not amount to a great sum in dollors and cents, th participants were well distributed. This was also industrial day 'change and some business was done in the sugar stocks.

The change made yesterday in May Day affairs caused movements of that stock to be watched closely. Some predicted that the new administration would prove beneficial at once, and that the investor would go into the pit with his purse wide open, prepared to take the stock at stronger figures. When it was called to the front there was a riffle of excitement; the first block offered sold at 20 cents, followed by another at 20½ cents; then the reaction came and it fell back to 19⅞ cents. Consolidated Mercur held up to yesterday's figures; Daly-West came to the front in good form and inclines stronger. Grand Central was a seller at $5.25 and $5.25½. Martha Washington tailied with 7,500 shares going under the hammer at 3¾ cents. On the open board 100 shares of Majestic sold at $3.00; 1,500 shares of Montana-Tonopah at 95 cents, while Keystone was purchased at 27 cents.

The closing quotations and sales posted were as follows:

Another Suit Filed.

A. G. Paddock has filed suit in the district court against the Wyoming Gold Mining company and T. P. Steffey to recover a total of $51,250. Plaintiff alleges that defendants fraudulently deprived him of certain mining claims, valued at $90,000 and that they have appropriated to their own use $1,250 realized from the sale of ore extracted from said claims.

ANNIE LAURIE CO. INVOLVED

Details of Important Suit Filed in District Court.

W. SNYDER AS PLAINTIFF.

President Huck Asked to be Restrained From Disposing of His Interests Pending Adjustment.

One of the most important mining suits that has been filed in the courts in a long time came to notice yesterday when Willard F. Snyder and F. C. Rutan, as plaintiffs, arrayed themselves against L. C. Huck, a prominent Pennsylvania capitalist, who played an important prt in closing up the original deal for the purchase of the Annie Laurie mine, located in the Gold Mountain district. The suit involves a one-twelfth interest, or 5,000 shares, in the big gold bonanza, which is valued, it is claimed, at no less than $700,000. Mr. Huck is the president of the Annie Laurie company, and he has been in Utah for a week or 10 days looking over conditions. The papers in the case were served upon him before his departure for the east yesterday afternoon.

The complaint sets forth that an agreement existed between Huck and Rutan whereby the former was to share with the latter any mining properties in which Huck might become interested through the examinations and recommendations of Rutan, as the expert of Huck. The agreement, so far as it related to the Annie Laurie, was, it is alleged, to the effect that after the expense, to which Huck might be put in obtaining a quarter interest in the property, had been taken out, Rutan was to receive one-third of the joint asset.

Last September, the complaint sets forth, Snyder went to Huck and had him acknowledge that such a contract existed between him and Rutan, after which, for a certain money consideration, Snyder bought a half interest in the contract.

The complaint also alleges that in January, 1902, Rutan demanded an accounting at the hands of Huck, who refused to make it and repudiated the agreement alleged to exist. Plaintiffs ask the court to compel defendant to answer and set forth the sums paid out by him in the acquirement of his one-fourth interest in the company, to gether with the sums received by him from the sale of shares in the corporation or on dividend account, and that they be awarded their share of such holdings after settlement of all claims that Huck may rightfully hold against Rutan under the original agreement; and that he be restrained from disposing of his interests until the relief sought has been adjusted.

This is not the first time that the Pennsylvanian has been involved in litigation over the Annie Laurie mine. Trouble was had right after the purchase was made with J. B. Weimer, of this city, who claimed a certain commission for bringing the purchasers and buyers together. This controversy was settled by compromise, and now this case.

Mr. Huck declared before leaving the city that he would fight the case to the bitter end.

OLD BOARD RE-ELECTED.

South Swansea Shareholders Met Yesterday Afternoon.

At the annual meeting of the shareholders of the South Swansea Mining company—which had not been held for four years—yesterday afternoon the old board of directors were re-elected. When the organization is perfected the officers will remain the same as for some time.

Manager Rone Wheeler submitted a report of the amount of business done during the last four years, which showed that during that time 15,715 tons of ore, of an average value of $22.12 per ton had been marketed, while the receipts from all sources aggregated in round figures $400,000. Dividends amounting to $39,000 were paid on the old capitalization of the company, aside from the stock dividend which came when the capital was increased for the purpose of taking over the Four Aces. In the treasury of the company is a balance of $1,132.68, and the mine is closed. No action was taken regarding the matter of resuming operations.

VICTOR CON. SHIPMENTS.

Values in Ores Said to Run About $25 to the Ton.

Special Correspondence.

Eureka, April 8.—Present shipments made from the Victor mine show the values to be $25 per ton, which gives the company a good profit. Last month the shipments from this property amounted to 25 cars of ore and Supt. Treloar expects to increase the output by at least one-third as the roads are in a better condition.

The Mammoth mill has received a thorough overhauling, and is again in splendid condition. Operations will be resumed as soon as the bins at the mine begin to overflow with ores.

A promising prospect has been opened up in West Tintic by Messrs. H. P. Jacobson and Martin Aldrich of Mammoth. A shaft on the property is already down 30 feet, and sinking will be continued. Assays from the ground shows 14 ounces silver, 34 per cent lead, and $5 in gold. A stock company will be formed and incorporated so as to continue the rapid development of the property which grows richer in mineral values as depth is attained.

Dan Rolfe and Sam Sanderson of Mammoth, have taken a contract to haul the dump of the Carisa mine to the railroad at Mammoth for shipment. The dump will average about $10 per ton in copper and as there is about 5,000 tons in all.

Mike Murnane and James Nolan have given up their lease at the Beck mine after shipping 20 tons of ore.

Fred and August Schmidt of Eureka, formerly owners of the La Reine mine, have taken a lease on the North Star mine at Mammoth and judging from appearances will make a good thing out of the proposition.

ELKS EXCURSION TO PROVO

Via R. G. W. Ry., April 9th.

Fare, $1.25 for the round trip. Grand ball, open to everybody. Train leaves Salt Lake 5:15 p.m. Returning special after the ball.

Uncle Sam endorses it as the great athletic game, Box Ball.

LEE AND THE DEXTER MINE

Managing Director Returns From Tuscarora Property.

HE POSSESSES A SECRET,

Which He is Not Ready to Divulge—Discovered Leakage in Mill, Where Values Were Lost.

Managing Director E. O. Lee of the Dexter Mining company is home again. He returned this forenoon bearing evidences of having had a very satisfactory trip. He was also possessed of knowledge, which he did not care to divulge just now to the public, but which certainly would bring broad smiles to the faces of any shareholder.

The object of Mr. Lee's trip was to conduct a very thorough examination of the mine, mill and other property belonging to the corporation. He took along with him a thoroughly experienced miner, Mr. F. A. Taylor, who was placed in charge of the mine. At the same time Mike O'Rourke, one of the best known mill men and metallurgists in the state was also employed to conduct a series of tests of the ore and give the mill a general overhauling to determine just what has been wrong with the plant in the past that it did not save a satisfactory proportion of the values. The result of this work, Mr. Lee states, has been eminently satisfactory. He intimated that the cause of the trouble experienced in the past had been discovered and that the big plant would be ready to start up again about May 1.

Regarding the condition of the mine, Mr. Lee said that Supt. Taylor has spent his time, since assuming charge, in prospecting in various parts of the underground with gratifying results.

ABOUT THUNDER MOUNTAIN.

Several New Companies Have Been Organized in the East.

Edwin Schward has returned to Boise, says the Statesman, from an extended trip to New York and other eastern cities after closing up some mining business. He was east several months during which he succeeded in perfecting plans for extensive development work on a group of claims in the Thunder Moutain district in which he is heavily interested.

In speaking of his eastern trip Mr. Schward said he visited Kansas City, St. Louis, Chicago, Cleveland, Pittsburg, New York, Boston and wherever he went he found renewed interest awakened in Thunder Mountain. Many have bought stock in Thunder Mountain companies, he stated, who were eager for news of the progress of development. "All are well pleased with the outlook," said he. "To my personal knowledge eight companies have been organized recently that will expend from $5,000 to $50,000 each in development work during the coming summer.

"The Gold King, Consolidated Gold Reef, Brant Mining & Milling company, Fairview and Sunnyside may each install a mill during the coming season, and the Dewey company may enlarge its present capacity."

HOW IT WAS DONE.

Secretary Weeks' Votes Turned May Day Election.

The May Day shareholders who lost control of the management at yesterday's meeting feel their defeat keenly and some of them declare that Secy. Weeks is responsible for it by his alleged betrayal of them.

Mr. Weeks had something over 60,000 shares to vote, which included his own stock and proxies. It is claimed by the "vanquished" that the understanding was that the secretary was to have throw his strength to their side. But he did not when it came to the show down. Before the ballot was cast the former management believed that they had the battle won and would come out with considerably more than a majority. Alas! The calculations were entirely upset when the secretary joined the "insurgents." Naturally enough there are stories afloat to the effect that the secretary was "fixed." However, he stoutly denies this and contends that he voted as he did believing that the board chosen would be more satisfactory to the shareholders and public in general. The new directors will meet this afternoon for organization.

MINING CONCENTRATES.

Unusual activity is anticipated in the Hailey, Ida., mining regions this year.

Acting Manager O. J. Salisbury is at the Daly-Judge mine, Park City, today.

Brokers were active after Montana-Tonopah stock on the open board this forenoon.

Manager Tony Jacobson, of the Columbus Consolidated, is at that Alta property today.

The Con. Mercur dividend checks aggregating $30,000 were placed in the mails today.

Secy. Lambourn is making out the Daly-Judge pay checks today. They will be disbursed on the 10th inst.

The Irus group of claims near Fay, Nev., has been bonded by Grant H. Smith and others.

The new mill at the Bamberger-DeLamar mines will go into commission early next month.

The new shaft at the Minnie Moore mine at Hailey, Ida., is now completed and ready for the machinery, which has been ordered.

Word comes from Nampa, Ida., that Col. W. H. Dewey, one of the best known mining men in the west is critically ill and that the end is expected soon.

The ore and bullion settlements reported late yesterday by McCornick & Co., were as follows: Base bullion, $18,000; gold, lead, silver and copper ores, $16,200.

B. F. Thornburg, a mining operator formerly of Tintic, has been looking at Beaver county mines for a couple of weeks. While here he secured a 30-days option for a lease and bond on a group of claims at Kanarra, in Iron county, owned by Dr. E. Smith of Cedar, Ed and Charles Burke of Minersville and A. W. Winberg of Milford. There is said to be a good showing of copper-gold ore on the property. The price is $5,000. Mr. Thornburg will go down and examine the group, after a trip to Salt Lake.—Milford Times.

TRADING SHOWED IMPROVEMENT

Some of the Specialties Displayed Weakness.

SOUTHERN PACIFIC DOWN.

Sold Under Yesterday's Figures—Sugar Advanced One and a Half—Market Generally Lower.

New York, April 8.—Trading showed a little improvement at the opening, higher prices in London having some influence on some of the internationals. Weakness was shown in some of the specialties, but the movement of prices either way was exceedingly narrow. Southern Pacific sold at from 55¼ to 55⅜ on the transfer of 3,600 shares, compared with 56, yesterday's closing. There was a block of 2,000 shares of Steel preferred at unchanged quotations, while 4,000 of the common sold at from 35¼ to 35⅜, a gain of ¼. Moderate purchases caused a steadier tone and there was a small fractional advance to above last night. St. Paul, New York Central, Pennsylvania, Reading, Baltimore & Ohio and United States Steel were most benefited by the demand. Traders sold Amalgamated freely when it crossed 64 and it reacted 1½ to 63⅝, causing the general list to sag. Advances were quite generally wiped out. Southern Pacific was supported. There was a languid recovery except for good gains established by a few stocks. Sugar advanced 1½, Manhattan and Colorado Fuel 1¼, and St. Paul, New York Central and Union Pacific preferred a point. There were losses by Northwestern of 3¼, Third Avenue 2½, and Metropolitan Street railway 1⅝. United States Steel new 5s were sold down to 85⅝ on the curb. Prices receded a fraction before noon.

MONEY AND BONDS.

Money on call easier at 5½ per cent.

Prime mercantile paper 5½@6 per cent.

Sterling exchange easy, with actual business in bankers' bills at 4.86.50@4.86.65 for demand, and at 4.83.50@4.83.75 for 60 days.

DON ROBBINS BACK.

Has Been in the Mount Baldy District.

Don C. Robbins returned last evening from a pilgrimage to the Mt. Baldy gold belt, where he went on a bonanza chasing expedition. The snow was so deep in the district, he said today, that it was impossible for him to get around and make the examinations which he started out to do, so he concluded to pack up his blankets and come home.

Mr. Robbins believes this will be a prosperous year for the Mt. Baldy country and that a great amount of development work will be done. Mr. Robbins believes that the Mt. Baldy district is a splendid field for the mining investor.

Burlington Route

Big Horn Basin.

Irrigated lands, including water rights, at $12 to $15 per acre in the Big Horn Basin recently penetrated by the Burlington's new line. A fortune in the future if you buy now.

If you want to get ahead, you can't do better than investigate this fertile country.

Let me send you a folder which tells all about it—it's free.
