

friends are encouraged at the prospects of the Massachusetts's delegation taking Grant as second choice, some are claimed for Grant already, as first choice.

George Williams, of Ohio, who has returned from Atlanta, reports the Chicago delegation stands, Sherman 12; Blaine, 6; Grant, 4.

Comments of the papers on the San Francisco tragedy agree in denouncing it as a cold-blooded, lawless performance which every good citizen must condemn. All agree that the DeYongs, by disreputable journalism have provoked just such action. The Times has a long article reviewing the newspaper success of Charles De Young and denouncing Kalloch.

LOUISVILLE, Ky., 26.—To-day, for the first time in years, the Sunday laws prohibiting labor of any kind was enforced. Between 12 and 2 this morning the police visited all the places open, including newspaper offices, and took the names of every person then doing work, for presentation to the grand jury. The list includes all classes—editors, composers, pressmen, newsboys, saloonkeepers and hackmen. The law is very stringent, allowing no work or business done except household duties, and, it is said, policemen, firemen and telegraph people will be reported. The case will probably be tested shortly.

The funeral of Chas. De Young took place yesterday afternoon from the residence of his mother, Eddy Street, between Jones and Leavenworth, under the auspices of the Yerba Buena Lodge I. O. O. F., of which deceased was a member. Several thousand persons gathered in and around the house, many of whom after the services, availed themselves of the opportunity to take a last look at the features of one who had filled so prominent a place in the annals of local affairs. The Odd Fellows were largely represented as also was the press of the city. After the services at the house the procession formed, the Odd Fellows leading, followed by a long line of carriages containing mourners, friends, employees of the Chronicle, and others and proceeded to the Odd Fellows Cemetery where the last rites were observed.

FOREIGN.

LONDON, 24.—Gladstone had some difficulty on his return to London in making his way through the enthusiastic crowds.

The Standard says confidentially: It is anticipated that Granville will be foreign minister. It is understood Goscher will not enter the ministry and Robert Lowe will receive the peerage. There will be great difficulty in offering Henry Fawcett a seat in the cabinet owing to his blindness.

A Bombay correspondent, after giving a description of the battle south of Ghuznee, says: All resistance in this part of Afghanistan may be considered at an end. The Standard's Bombay dispatch says: There is no truth in the reports of the death of King Theebaw or of the massacres at Mandalay.

On the return of Gladstone to London he was met by Lords Granville, Hartington and Wolverton and W. P. Adam. Mr. Adam said Gladstone had undertaken to form a cabinet.

EDITORIAL NOTES.

Isn't it about time that we should hear of another attempt on the life of the Czar or one of his chief officers? The Nihilists must be growing inactive.

Some idea of the work before Congress may be gathered from the fact that there are 1,019 bills reported favorably from committees and awaiting action, and at least 100 more in the hands of committees ready to report.

Every now and then cases of rapid petrification of human bodies are recorded by the press, with date of burial and time of the discovery of petrification. Yet Professors of several colleges declare that no human body was ever petrified, neither indeed can be. Which is wrong, the theory or the alleged facts?

During the first quarter of the present year, raw silk was received at the ports of New York and San Francisco to the value of \$3,700,000, and during the single month of March, manufactured silk was imported at New York, valued at \$9,960,000. The silk interest of the country has plenty of room for growth, and silk-culture has abund-

ant promise of remunerative reward. Utah silk growers and manufacturers, persevere and you will yet achieve the success which you have in view!

New Mexico has a salt lake from which Arizona is supplied with most of the salt which it uses. The lake is just over the line of Apache County, is half a mile long and 500 yards wide, is situated in a heavily timbered region and the saline waters arise from a number of springs at the bottom of the lake.

A season of great heat this year is predicted by certain astronomers, in consequence of the re-appearance of large spots on the face of the sun. Utah is crying out for a little solar warmth just now, being tired of the sight of snow in the valleys. By and by the snow on the mountain tops may prove a grateful offset to the burning rays of the blazing spotted luminary.

We do not justify the murder of De Young by Kalloch the younger. Neither do we apologize for the deed. But we say it was "measure for measure." De Young tried to kill Kalloch senior; he shot him in the cowardly manner of the brutal assassin. In return, he has been shot to death in a similar style and spirit. We have no sympathy with the Kallochs or the De Yongs, or any of their tribe. But we join in the general verdict against the slain journalist, "Served him right." We shall also join in applauding the justice that shall be meted out to his murderer.

Number twelve of the Standard Series published by I. K. Funk & Co., Dey Street, New York, is the first volume of "Knight's Popular History of England," the original price of which, complete, was from \$18 to \$25. It will be finished in eight volumes at thirty cents per number. Considering the elegant manner in which this work is printed the price is astonishing. If such books as the Standard Series were placed in the hands of young people, instead of the rubbishy sensational literature of the day costing more in proportion than these excellent works, what immense benefit would result from the change?

That was an interesting riot which a body of Reformed Presbyterians got up the other day in Pittsburg, Pa., over the settlement of the Rev. Nevins Woodside, late of Brooklyn, N. Y. The better to prepare themselves they opened the fight with prayer, and then proceeded in regular disorder to break chairs and tables over each other's heads, to blacken one another's eyes and to do many other things which are deemed unbecoming as well as unnecessary in a religious gathering. The mayor and police finally drove the militant "Christians" out on the sidewalk. If those fellows are reformed, what sort of Presbyterians must the unreformed be?

The Eades plan for a ship railroad across the Isthmus of Panama, described in this paper a short time ago, is ridiculed by many practical engineers. An experiment was made recently with a vessel loaded with pig iron, which ran ashore at Sandy Hook. It was found impossible to raise her after getting her into dock, and shipmasters declare that if possible it could not fail to strain a ship and throw her out of line, and they ask: "If the attempt to lift a loaded ship out of the water, supported as she would be on her dock without horizontally moving her plane of support, meets with condemnation at the hands of shipmasters and men capable of judging from experience, what must be that of the proposed project of Captain Eades, not only of lifting out of water but of transporting these large vessels, steamers, or others loaded with their cargoes across the isthmus?"

IS BROWN'S ARNICA SALVE. It has no equal for curing burns, cuts, bruises, and inflamed eyes. Good for man or beast.

THE scarcity of Diamonds, Gold and Silver, and the difficulties met with in securing them, is a sure indication of their value.

Thus it is with a valuable medicine: Dr. Aug. Kaiser's Celebrated German Pulmonic Elixir, through the jealousy of rivals, has met with the most bitter opposition, and apparently almost insurmountable obstacles have been thrown in its way; but its opponents might as well try to change the course of the sun, sweep back the ocean with a broom or put out a prairie fire with a tear.

For the cure of Throat and Lung diseases, such as Coughs, Colds, Consumption and Bronchial Affections, it is unequalled. Its cures are truly magical. Ask your Druggist for it. The genuine bears the Prussian Coat of Arms, the facsimile signature of Dr. Aug. Kaiser, and has his name blown on every 75 cent bottle. Trial bottle 25 cents.

WARNER'S SAFE REMEDIES

Warner's Safe Pills

ARE AN IMMEDIATE AND ACTIVE STIMULUS FOR A TORPID LIVER, AND CURE COSTIVENESS, DYSPEPSIA, BILIOUSNESS, BILIOUS DIARRHEA; MALARIA, FEVER AND AGUE, and should be used whenever the bowels do not operate freely and regularly.

Their action is gentler than that of other pills, and at the same time more effective. NO OTHER PILLS REQUIRE SUCH SMALL DOSES FOR THOROUGH WORK.

They have been used with great success in the English army, where Malaria prevails, and are the BEST ANTIDOTE FOR ALL KINDS OF MALARIAL POISON.

People who live or work in unhealthy places, and those of sedentary habits, should use them. Taken at bed-time, they promote rest and bring on natural evacuations the next forenoon.

They do not act directly on the bowels, but indirectly through the liver, by causing it to secrete the necessary bile, and could always be preferred to pills which operate as a violent cathartic, causing nausea and weakness.

If any person can prove that there is a better remedy of its kind than Warner's Safe Pills, he will be paid \$1,000 by H. H. Warner & Co.

Price, 25 Cents a Box.

Warner's Safe Nervine

QUICKLY GIVES REST AND SLEEP TO THE SUFFERING, CURES HEAD-ACHE AND NEURALGIA, PREVENTS EPILEPTIC FITS AND RELIEVES NERVOUS PROSTRATION brought on by EXCESSIVE DRINK, OVER-WORK, MENTAL SHOCKS AND OTHER CAUSES.

Powerful as it is to stop pain and soothe disturbed nerves, it NEVER INJURES THE SYSTEM, whether taken in small or large doses.

It often arrests the progress of serious diseases by the recuperative rest which it produces, and is beneficial in all painful diseases.

WARNER'S SAFE NERVINE is the IMPROVED DISCOVERY OF ONE OF THE MOST EMINENT PHYSICIANS OF THE WORLD, and an inestimable blessing to all who suffer.

If any person can prove that there is a better remedy of its kind than Warner's Safe Nervine, he will be paid \$1,000 by H. H. Warner & Co.
