LEGAL NOTICE.

ADMINISTRATOR'S SALE.

BY VIRTUE OF AN ORDER OF THE Probate Court, within and for the County of Salt Lake and Territory of Utah, made and entered of record on the 26th day of June, A. D. 1885, I, Thomas F. Howells, as Administrator of the Estate of Thomas Howells, deceased, will sell at private sale for cash, the following described Real Estate, belonging to said Estate, situate in Salt Lake City Survey, Salt Lake County in the Territory of Utah, to wit:

A part of Lot Five (5) in Block Forty-nine (49) as plotted in Plot "C" of said Salt Lake City Survey; beginning for said piece or parcel at a point on the western line of said lot number Five (5), five (5) feet North of the Southeast corner of said lot, thence running North on the West line of said lot Three-and-one-half (3½) rods, thence East at right angles Ten (10) rods to the East line of said lot, thence South on the East line of said lot Three-and-one-half (3½) rods, thence West at right angles ten (10) rods to the place of beginning, containing Thirty-five (35) square rods of land.

Any person wishing to purchase said land, may propose to the undersigned in writing, stating the amount he is willing to pay, and leave the same at my residence 62 S. Sixth West Street, Salt Lake City, or at the Office of Z. Snow, 77a E. Second South Street, Salt Lake City. No offer will be accepted before the 20th day of August, 1885. Any offer made and accepted will be subject to the approval of the Probate Court.

THOMAS F. HOWELLS,
Administrator of said Estate,
per Z. SNOW, his Attorney.

AMERICAN.

REFUSING TO CARRY THE UNITED STATES MAILS.

THE CONVICTION OF THE REBEL RIEL.

MONUMENT AT OLD FORT STEPHENSON, ETC.

Wired from Washington.

WASHINGTON, 1.—Attorney General Garland, to whom the Secretary of the Interior referred the question of the power of the Interior Department to authorize the Indians to lease their lands for grazing purposes, has transmitted to Secretary Lamar an opinion in effect that no such power exists under the law.

An official dispatch from Victoria B. C., says extradition papers have been granted in the case of Hibbs, the defaulting postmaster, of Lewiston, Idaho, and the $10,000 found on his person will also be turned over.

The Senatorial committee sent word that they would meet at the Fifth Avenue Hotel on August 8th.

James L. Welch, of Rochester, asked if it would not be appropriate to have one-armed veterans lead the horses of the funeral car instead of colored men.

The debt statement issued to-day shows the decrease of the public debt during the month of July to be $8,662,789.96; cash in the Treasury, $88,418,719.43; gold certificates outstanding, $140,611,320; silver certificates outstanding $139,213,086; certificates of deposit outstanding $31,680,000; refunding certificates outstanding, $233,200; legal tenders outstanding, $346,681,016; fractional currency (not including the amount estimated as lost or destroyed) $15,337,126.88; net cash balance in hand, $44,062,920.75.

Another Monument.

CLEVELAND, 1.—At Fremont, Ohio, to-day, the soldiers' monument, erected by the people of Sandusky County, was unveiled with imposing ceremonies. The shaft stands in Stephenson Park on the site of Fort Stephenson, where, on August 2, 1811, Major Geo. Croghan, with 120 men, defeated 1,200 British and Indians under Proctor and Tecumseh.

Ex-President Hayes, in his address touched upon the historical incidents relating to the spot where the monument stood. He cited the fact that 72 years ago, Major George Croghan and his little band successfully defended Fort Stephenson against a largely superior force of the British regulars under Proctor, and the Indians, under Tecumseh. General William T. Sherman, writing of the event in his history said: "The defense of Fort Stephenson by Croghan and his gallant little band was a necessary precursor of Perry's victory on the Lake and of General Harrison's triumphant victory at the battle of Thames. These assured to our immediate ancestors the mastery of the great West, and from that day to this the West has been the bulwark of the nation."

Riel Sentenced to be Hung Sept. 18.

WINNIPEG, 1.—It was 2.15 when the jury in the Riel trial retired. The oath was administered to the guard to keep the jury without meat or drink, fire or lodging. At 3.15 there was a murmur in the court, and it was whispered that the jury had agreed. All was bustle and excitement. Riel prayed fervently, kneeling in his box, and he looked unmoved as the jury entered its verdict of guilty. Francis Cosgrove, forman, while crying like a child, announced that he was asked by his fellow jurors to recommend the prisoner to the mercy of the Crown, and the Judge said the recommendation would be considered.

Riel was sentenced to be hung on September 18th at Regina. Judge Richardson said he could hold out no prospect of a reprieve or interference by Her Majesty. Riel took the result coolly, having spoken two hours reviewing the troubles of 1869 and the half-breed grievances.

It is not yet settled how the other half-breed prisoners will be charged. It probably will be treason or felony. In order to obviate the necessity of serving the indictment ten days before the trial, the majority of the prisoners will be charged with murder, although some may be indicted for treason, felony or levying war. The latter charge is not necessarily capital.

Unfortunate Aeronauts.

CHICAGO, 1.—At Chittenham Beach, to-night, W. L. Smith and A. L. Talbot ascended in two baloons for a race in mid air. When a height of twelve hundred feet had been reached the machines collapsed. Talbot came down with his wreck comparatively uninjured, but Smith fell the whole distance, striking some telegraph wires before reaching the earth. He still lives, but will die.

Refusing the Mails as Baggage.

SAN FRANCISCO, 1.—The difficulty between the Pacific Mail and the Washington postal authorities culminated this morning in an absolute refusal by the company to carry the mails for the Central American and Southern American ports, excepting those for Mexico and Costa Rica, from which countries the Pacific Mail receives a subsidy. The refusal was brought about by Postmaster Backus sending the mail, consisting of 25 bags, to the company's office in charge of a clerk, who had been instructed to proceed this morning aboard the steamer *Colima* with them, as baggage. This action was taken by the direction of the Postmaster General, who sent the following dispatch this morning:

Washington, 1.—*Samuel W. Backus, Postmaster, San Francisco, Cal.:* Offer your entire mail to the company. If refused, send an agent to take the mail along with him as baggage. Answer.
WILLIAM B. VILAS,
Postmaster General.

The company's officers knowing the contents of the bags declined to receive them as baggage unless they were separately checked and the passage of the agent paid to each point.

All the mail that was refused for the South and Central American ports by the Pacific Mail Steamer *Colima* today was sent overland to New York and New Orleans, whence it will be distributed to its various destinations.

SUNDAY'S DISPATCHES.

Improvement of Rivers and Harbors.

WASHINGTON, 2. — Capt. Payson, corps of engineers, has submitted his annual report on improvement of rivers and harbors under his charge in California to Gen. Newton, chief engineer. The work on the Sacramento and Feather Rivers during the past fiscal year has cost $20,525 and $220,511 remains available. The river has greatly improved, but much trouble is apprehended for the present fiscal year, on account of the lack of snow in the past winter. Forty thousand dollars is asked for the next fiscal year.

For the improvement of the San Juaquin River $30,448 was expenced during the past fiscal year. Five hundred and fifty-three dollars remains available and $40,000 is asked for the next fiscal year.

For the improvement of Humboldt Bay and harbor $4,958 was expended, $3,541 remains available and $5,000 is asked for the next year.

For improvement of the Mokelume River $4,900 was expended during the past fiscal year, $3,541 remains available and $5,000 is asked for the next year.

For improvement of the Colorado River, in Nevada, California and Arizona $15,741 has been expended during the past fiscal year, $9,258 remains available and nothing is asked for the fiscal year.

A General System.

WASHINGTON, 2.—Secretary Whitney has appointed a board of officers, composed of Commander B. H. McCalla, Lieut. Commander Chas. J. Train and Lieut. B. H. Buckingham to convene at the Navy Department on the 16th inst, for the purpose of considering and reporting upon a general system for the administration of the business of the department.

Last Hours with the Dead.

MT. MCGREGOR, 2.—This has been a memorial day at the Grant cottage, and the family have been saying farewell to the dead. This afternoon the widow asked that Dr. Newman should be sent for. When he came Mrs. Grant reminded the pastor that her dead would be hers only a little while longer, and asked him to be with the family while they gathered in the cottage parlor to say their farewells. Thus it was that about two o'clock, Mrs. Grant and her daughter and each of her three sons and their wives were in the room with the dead. Dr. Newman and wife were also present. The family surrounded the catafalque. Mrs. Grant from a table brought her dead husband's Bible which she opened and passed to Dr. Newman. it was found that the book was opened at the 11th chapter of Job. The chapter was read and then the clergyman recited the 16th and 19th verses, then prayer of gratitude was offered up. Gratitude for the beautiful character of the silent one. After this the entire family, alone with their pastor, entered with him into a religious conversation and then, each and all dwelt upon reminiscences recalled of the General's last sickness. Dr. Newman, after carefully scanning the General's face, expressed satisfaction at its appearance, and the opinion that the remains are in a condition of perfect preservation.

The Funeral Train.

POUGHKEEPSIE, 2.—The time table of Gen. Grant's funeral train has been issued. The train will leave Albany at 12.30 p.m., and arrive at the Grand Central depot, New York, at 5 p.m.

Consecrated.

PITTSBURG, 2.—The Right Rev. Richard Phelan was to-day consecrated coadjutor bishop of the Catholic diocese of Pittsburg and titular bishop of Phrygia.

Hibbs Appeals.

PORTLAND, Ogn., 2.—In the Hibbs case yesterday at Victoria, Justice Crease gave judgment surrendering the prisoner to the custody of the U. S. authorities. Hibbs, however, has retained counsel, and the case will be appealed to the Supreme Court at Ottawa.

The St. Louis Contingent.

ST. LOUIS, 2.—Mayor Francis has appointed a delegation of 30 leading citizens to go to New York and take part in the solemn ceremonies of next Saturday. The delegation will leave here on Wednesday in a special Pullman car. The Mayor has also asked 20 prominent St. Louisians now in the east to meet this delegation at the Fifth Avenue Hotel Friday, and join them in paying the last tribute to Grant. Gen. Sherman has been notified of the appointment of the delegation and requested to give it a suitable place in the procession.

Indignation.

OTTAWA, 2.—The conviction and sentence of Louis Riel is the all absorbing topic to-day. Orangemen and English subjects generally consider it a righteous judgment, while among the French-Canadians, considerable excitement and indignation is manifested.

Conflagration in Toronto—Half a Mile of Blazing Buildings.

TORONTO, 3.—A fearfully destructive fire commenced about 12:30 this morning in the large brick building erected by the Toronto Sugar Refining Co., on the Esplanade. A strong wind was blowing from the east and carried chunks of burning timber along the esplanade, igniting the wooden buildings as war west as five or six blocks. In a short time nothing was left of the sugar refinery but the walls and smoke stack. The buildings of Sautier, Evans, Heakes, Reid and Co. and Welch & Co., lumber merchants; Currie, Martin & Co., Boiler makers, and other buildings are in flames and unless the wind changes, the whole south side of the Esplande will have to succumb. Sparks are flying and lodging on the roofs of large warehouses on Front and Wellington Streets and fears are entertained that several of them may take fire. The fire brigade are, and have been

POWERLESS.

Working manfully, but their efforts seen powerless. The streets are lined with thousands of people. The loss will be enormous. Schooners are burned to the waters edge. The fire is now half a mile in length.

Toronto, 2.45 a.m.—The work of destruction on the Esplanade still goes on, having reached the foot of Yonge Street, all intervening buildings and wharves having been burnt to the ground. The Great Western freight sheds, formerly a passenger station on the north side of the Esplanade, is

IN IMMINENT DANGER,

and is expected to be in flames every moment. The steamer *Chesina* is getting up steam to go out into the lake. The steamer *Ontario* began to tow out the steamer *Mazeppa*, but a schooner blocked its way and they could not get out. The *Mazeppa* has caught fire and all three will have to succumb to the flames. Unless the wind changes, the whole south side of the Esplanade as far as Union Station will undoubtedly perish. Showers of sparks are being carried to the opposite side of the street, and if the buildings there catch fire, there is

NO SAYING WHAT IMMENSE DAMAGE WILL BE DONE.

The fire brigade is absolutely powerless. It is feared that watchman Worth, of the sugar refinery factory, has lost his life, as he has not been seen since the fire started. Wm. McCallum, seaman of the schooner *Annie Mulvey*, is dangerously burned about the head. Several elevators, coal yards, schooners, ferry boats, warehouses and many boat houses are among the property destroyed. The loss so far is stimated at over a million dollars.

FOREIGN.

Franco-Chinese Matters.

PARIS, 1.—High officials say that Li ushue Fun has been appointed to succeed the Marquis Tseng, the Chinese Minister to France. China is hastening her preparations to revictual and coal three iron-clads, which were built in Stettin for that government. The crews of the vessels will be strengthened. The reason for this sudden activity is unknown, but it is supposed to be in connection with the affairs in Corea. General De Courcy has telegraphed to the government that Anam is tranquil, and that the rebel minister of finance and minister of public Works have been captured.

SUNDAY'S DISPATCHES

PARIS, 2.—The French troops in Tonquin are suffering terribly from dysentery and fever. Deaths now average 13 per day.

Tempo, commenting on this, urges government to recall the troops who have served 18 months.

Sensation in London.

LONDON, 2.—The latest society sensation in London is caused by the announcement that Lord Chief Justice Coleridge is about to marry an American lady, whom he first met on the steamer on which he returned from the United States three years ago, and she threatened to bring an action for breach of promise if he did not marry her. So society is much agitated over the approaching event. His lordship's sons and daughter are said to be very angry.

A Split in the Ranks.

TRIESTE, 2.—At a large meeting of the suspended branch of the league today, a resolution of defiance of the central committee was adopted, attributing the latter's action to the supposition that the Trales branch would, in the general election, successfully oppose Parnell's candidates and vote for candidates of Davitt's party.

Mortally Wounded.

TRIESTE, 2.—In consequence of a political quarrel an Austrian and Italian army officer fought a duel in a suburb of this city to-day. The Austrian was mortally wounded.

The Queen's Regret.

LONDON, 2.—The Queen having misunderstood the date of the funeral of Sir Moses Montefiore, sent nobody to attend the funeral in her behalf, as she had intended to do. She has sent to the relatives a letter expressing her regret at the circumstance.

Rumored Conflict of Russians and Afghans.

LONDON, 2.—Advices from Kuchan *via* Teheran dated July 22nd, say it is rumored that a conflict has taked place between the Russians and Afghans near Meruchak. Whether true or false these rumors are believed on the frontier. Numerous Afghan traders have been expelled from Askabad owing to the prevailing irritation.

BRIEF TELEGRAMS.

The New York Supreme Court Commissioners adpointed for the purpose have reported in favor of the proposed cable road system in New York. It includes 29 routes.

The Commercial bank, of Suffolk, Va., suspended yesterday. It is stated that the bank was embarrassed by the excessive loans made to the Suffolk cotton mill and by losses from fire in Suffolk. The deposits are about $100,000.

A Pembroke, Ontario, dispatch says: The steamer *C. O. Kelly*, of the Upper Ottawa Touring Company, burned to the water side at Lowerton wharf, one mile from here, Saturday morning. Four of the crew lost their lives, and two others were very seriously injured.

It is rumored that Michael Hirsch, the owner of the building at Point Pleasant, Ohio, in which General Grant was born, sold it for $7,000 cash. If true, the building, which is of frame, will be removed to one of the New York parks.

A conference of the British and continental Federations for Social Purity, has been called to meet at Antwerp, September 16th. The programme arranged for the consideration and action of the conference includes the agitation for the repeal of the Contagious Diseases Act and the abolition of the system prevalent cointinental countries of regulating immoral houses.

The San Francisco *Post* of last evening says: Wm. Center, director of the Oceanic Steamship Company, owned by J. D. Spreckles & Co., left to-day on the steamer *Australia* for New Zealand to confer with the Colonial Government regarding the establishment of a line of steamships between San Francisco and New Zealand in place of the Pacific Mail.

Base ball: St. Louis, 1.—St. Louis 0, Cincinnati 4.

New York, 1.—New York 7, Chicago 6.

Providence, 1.—Providence 3, Detroit 1.

Philadelphia, 1.—Philadelphia 6, Buffalo 5.

Brooklyn, 1.—Metropolitan 5, Brooklyn 1.

Louisville, 1.—Louisville 7, Pittsburg 5.

In Augusta, Me., appropriate memorial exercises will be held on the day of Gen. Grant's funeral, under the auspices of the municipal government. Among those who will deliver addresses will be James G. Blaine and the venerable James W. Bradbury, formerly U. S. democratic senator from Maine.

The *Call* will to-morrow print a statement of Sarah Althea Hill-Sharon, the plaintiff in the celebrated Sharon divorce case, that she will in a short time begin a lecture tour over the State on the subject of the recent decisions of the State supreme court. She assigns as a reason for this departure that she has no more available funds to prosecute her suit against ex-Senator Sharon, and expects to gain some in the manner stated.

U. S. Consul Mason cabled the State Department from Marseilles that several deaths from cholera have occurred in that city this week.

THE IGUANA AND HOW IT IS CAUGHT.

One can scarcely imagine a more terrible looking creature than a full grown iguana. Instead of being discouraged, however, by its looks the animal seems to delight in its ugliness, and to a great extent rely upon its formidable appearance for protection. When alarmed, it will puff itself up, erect the spine upon its back, and expect by this means to frighten away its enemies; and if its harmless nature were not well known it would seldom be molested, but might bask in the sun for centuries to come, instead of becoming a comparative rarity by gradual extermination.

The common iguana (*I. tuberculata*, Lan.) is from three to five and even six feet long when full grown. It inhabits the West Indies and tropical America, and belongs to an exceedingly numerous family of lizards. As a rule, all of these reptiles have broad, flat heads, often ornamented with comb-like ridges or membranous lobes; similar appendages usually continue along the dorsal region. The throat is almost invariably furnished with a dewlap or membranous expansion of some kind. Their eyes are always furnished with lids which may be completely closed; their tongues are short, thick, and only free at the end, and their ears are freely exposed.

The iguanidæ are an ancient race, but the modern representatives may be divided into two great groups, based upon the character of their teeth.

In the American species, or true iguana, there is a deep furrow in all the jaws. The teeth are curiously flattened and toothed, and are attached to the inner surface of the jaw bone.

In the Old World species, comprising the sub-family of agamidæ, the teeth always grow upon the edge of the jaw.

Although the common iguana cannot, with propriety, be termed an aquatic lizard, it displays no fear of the water, but will oftimes escape from pursuers by taking to the water and swimming rapidly away, with its fore feet held, after the manner of a frog, motionless along its sides, and propelling itself by a serpentine movement of its long tail, or, diving, will remain under water until its enemies abandon the chase. According to Wood, the iguana has been known to remain under water for an hour at a time, and at the end of that period to emerge in perfect vigor.

The female iguana will lay from four to six dozen eggs, which are hatched by the heat of the sun, in the same manner as turtles.

It is almost incredible that the meat of this repulsive reptile is used as an article of food by the inhabitants of the country in which it is found. Not only is this so, but it is, further, considered a great delicacy.

The eggs of this animal are also in as high repute as its meat, although both are said to disagree with some persons. The iguanas are vegetarians, their food consisting, as far as is known, on fruit and other vegetable substances.

There can be little doubt that the white population of tropical America learned to eat the flesh of the iguana from the ancient Indians. In Mr. Bryan Edward's "History of the West Indies," published some hundred years ago, he says: "I believe it seldom happens that they (the iguana) were served at any English table, but their French and Spanish neighbors still devour them with exquisite relish."

Mr. Edwards also says that he has been "assured by a lady of *great beauty and elegance*, who spoke from experience, that the iguana is equal in flavor and wholesomeness to the finest green turtle."

The old time priests evidently enjoyed the flesh of this lizard as well as the sport of its capture, if we may judge of the following extract from the writings of Father Labat, which appeared in the *Sporting Magazine* for September, 1794:

"We were attended," says he, "by a negro, who carried a long rod, at one end of which was a piece of whip cord with a running knot. After beating the the bushes some time, the negro discovered our game basking in the sun, on a dry limb of a tree; hereupon he began whistling with all his might, to which the *iguana* was wonderfully attentive, stretched out his head and turning his neck, as if to enjoy it more fully. The negro now approached, still whistling, and, advancing his rod gently, began tickling with the end of it the sides and throat of the iguana, who seemed mightily pleased with the operation, for he turned on his back and stretched himself like a cat before a fire, and at length fairly fell asleep; which the negro perceiving, dexterously slipt the noose over eis head, and with a jerk brought him to the ground. Good sport it afforded (continues the reverend historian) to see the creature swell like a turkey cock at finding himself entrapped. We caught others in the same way, and kept one of them alive seven or eight days, *but it grieved me to the heart that he thereby lost much delicious fat.*"—*Daniel C. Beard.*

MEMORIAL OBSERVANCES.

GENERAL INVITATION EXTENDED TO THE PUBLIC.

SALT LAKE CITY, July 28, 1885.

We are called upon to mourn the death of the distinguished patriot and soldier, General Grant.

The soldiers and citizens have united in an effort to do honor to his memory, and resolved that on the 8th day of August next, they will assemble at Liberty Park, Salt Lake City, Utah, and pay their last tribute of respect to the departed hero.

The Citizens of Utah, Idaho, Montana, Wyoming and Nevada are respectfully invited to join with the soldiers and citizens of Salt Lake City in the memorial service to Gen. Grant to be held in Liberty Park, Salt Lake City, Utah, on August 8th, 1885. Arrangements have been made with the Union Pacific, Denver & Rio Grande Western, Utah Central, Salt Lake & Western and Utah & Nevada railroads to sell tickets at half rates for that occasion. See advertisements below. Bodies of citizens or orders or organizations coming from our neighboring cities or towns are requested to notify Gen. P. E. Connor, the marshal of the day, of their acceptance of this invitation, so they can be assigned their position in column in the line of march to Liberty Park where the memorial services will be held.

EDMUND WILKES,
GEO. M. SCOTT,
FRANK HOFFMAN,
Committee on Invitation.

The Union Pacific will make a rate of one fare for the round trip from Green River on the east, Butte on the north, Kotchum on the west and Tintic on the south, and all intermediate points.

Tickets on sale August 6th, good going until and including August 8th, good returning until August 13th.

The D. & R. G. Western and Utah Central railways will each sell excursion tickets at all stations on its line to Salt Lake City and return at single fare for round trip, on August 7th good to return until and including August 11th.

The Utah & Nevada Railway Company will reduce its rates to the following low figures, to allow all patriotic citizens along the line of its road to come to the city to participate in the Grant Memorial services, August 8th, 1885:

From Terminus to Salt Lake City and return, $2; from Tooele to Salt Lake City and return, $1.75; from Half Way House to Salt Lake and return, $1.50; from Lake Point to Salt Lake City and return, 75c. Tickets good going August 7th and 8th; good returning August 10th, 1885.

Special rates have been asked for from the Central Pacific Railway, and a favorable reply is expected.

THE wood of the jarrah tree of Australia is probably the most durable known. It is proof against insects and exposure, and ships built of it have sailed twenty or thirty years without copper. It will not grow on good soil, only where there is ironstone. One of the most remarkable facts about this timber is, that if a bolt is put into it, when it is taken out a bolt of precisely the same size will go into the hole again. The effect of the iron is apparently to preserve the timber, and of the timber to preserve the iron.

Warning!
How many people ruin their stomachs by swallowing cold drinks on a hot summer day, when they could avoid all danger by adding ten drops of Angostura Bitters, besides imparting a delicious flavor to their summer beverages.

Hall's VEGETABLE SICILIAN Hair Renewer.

Hall's Hair Renewer restores gray hair to its original color; makes the scalp white and clean; cures dandruff and humors; prevents the hair from falling out, and renders it soft and brilliant. The editor of the "Ocean Foam," Cape May, writes: "We speak knowingly, when we assert that Hall's Vegetable Sicilian Hair Renewer is the best of its kind. The article is an elegant and cleanly one, without which we think no toilet complete." Thos. D. Jones, Middle Granville, N. Y., writes: "I have used

Hall's Hair Renewer about ten years, with satisfactory results." E. G. Perkins, Oberlin, Ohio, writes: "I consider Hall's Hair Renewer the best hair preserver in use. I have used it for the past twenty years, and my hair is in as vigorous and healthy a condition as when I was 30 years of age. Not a sign of gray hair to be seen anywhere." Dwight L. Chamberlain, Oakland, California, writes: "My hair, which was nearly white, has been restored to its original color and luxuriance by the use of Hall's Hair Renewer."

The advance of time is heralded by bleached, thin, and falling hair. By the use of Hall's Hair Renewer, the hair may be restored to its original color, lustre, and vitality. M. N. Johnson, Fitchburg, Mass., writes: "My hair was weak, thin, and full of dandruff. Hall's Hair Renewer has removed the dandruff, and caused a vigorous growth of new hair." Abel H. Smith, Portsmouth, Va., writes: "My hair had nearly all fallen out, and that which was left was dry and dead. I used one bottle of Hall's Hair

Renewer, and now rejoice in the possession of hair as abundant as ever." E. J. Adams, St. Paul, Minn., writes: "A diseased scalp caused my hair to fall out, and, after using a number of preparations without avail, I finally tried Hall's Hair Renewer, which caused a vigorous new growth. I am still using it, and could ask for no better results." Mrs. R. H. Corning, Battle Creek, Mich., writes: "By the use of Hall's Hair Renewer, my head, which was quite bald, has been covered with a fine growth of young hair."
