SHOCKING DEATH

WHAT IT COSTS TO PROMOTE FIGHTS.

Not So Much Money in It as Some People Seem to Think.

How a Would-be Promoter at Murray Flunked When Told of Facts-List of Coming Contests.

Fight fans here and elsewhere believe that the man who promotes boxing contests reaps a rich harvest from the sport, and while it is true that in some cities where the game is permitted to fourish under certain restrictions there is money to be made that can not be said of this city. This statement will be verified no doubt by Messrs. Mulvey Kelley, et al.

Kelley, et al. Some time ago a would-be promoter at Murray wanted to pull off a bout there and he sent for Kelley of this city to give him a few pointers. When the latter explained to the would-be pro-moter what it would cost to even get astart, the W. B. P. said "Not for me." He probably thought Kelley did not know what he was talking about and be made preparations to go it alone know what he was taking about and he made preparations to go it alone but soon found he couldn't make it. This brings to mind the information given to an ambitious young man of Chicago who asked Lou Houseman for pointers in conducting a boxing This is what Houseman told mary follows: H₁, h School-Judson, left end; Harris, left tackle; Gundry, left guard; Rich-mond, center; Henuessey, right guard; Hall, right tackle; Pearce, right end; Hannen, guarter back; Richardson, Weil-er, fulback. Following are the results of games played on eastern gridirons on Saturday afternoon:

In the very beginning the Soldiers lost the ball on downs, and it was then ap-parent to all that they had little or no chance. The 'Varsi's team could probably have secured a touchdown on every two or three plays. To sum the whole matter up in a nut-shell, it was simply a case of eleven well drilled men opposed to an equal number of players who knew about as much of the practical side of the great analeur same as a pig does of a holiday. AGGIES BEAT HIGH SCHOOL. Agricultural College Team Defeated Lo-

Agricultural College Team Defeated Lo-cal Students by Score of 1.5 to 0. In the game at Logan on Saturday be-tween the football teams of the Sult Lake high school and the Aggles the latter won easily. The game was like the one played between the Soldiers and the 'Var-sity crowd, in that one team was out-classed on nearly every point of the game. The Aggles were too strong, too big and too quick for the local eleven, and the result was but natural. The contest end-ed with a score of 15 to nothing, but it might have been much worse. This state-ment is not meant to detract from the High school boys because they have a very creditable team, but it moing against the Logan plg skin chasers, they bit off more than they could chew. They were handleapped by 20 pounds weight and to them it was like bucking against a stone wall. Only once did they make a gain through hier opponent's line, and that was only for about one yard. The Logan boys might easily have made the score a larger one had they not confined nearly all their operations to line bucking. In sending the ball around the ends they did as they leased and the local team could not stop them. They were held for downs and at no time were they in the slightest danger of the High school scor-ing against them. The line-up and sum-mary follows: H.h School-Judson, left end; Harris, cal Students by Score of 15 to 0.

But this hope was soon dispelled when a telephone message was receiv-ed from a brother who lives in Fair-view, that the body had been brought to that place this morning. The shock to the wife and family was almost un-endurable, coming as it did so suddenly. Bishop Madsen had been over the hill after coal and on the return trip coming down the mountain east of Fairview at about 6:15 o'clock, he fell from his wagon and was run over by the heavy load, breaking his back and otherwise injuring him. A Crisis.

AS VIEWED IN ST. PETERSBURG AS VIEWED IN ST. PETERSBURG. St. Petersburg, Oct. 12.—Significance is attached here to the fact that the Official Messenger and Journal de Pe-teraburg print the Berlin Lokal Anzeig-er's dispatch relating to the movement of the Russian fleet and the possible coincident landing of Russian and Jap-anese troops in different parts of Co-rea. Several newspapers publish re-views of Japan's military and naval strength. Mishop Madsen was born in Ephraim, Dec. 14, 1858. Oct. 10, 1881, he married Sophia Rasmussen, and seven children were born to the couple, six of whom, strength.

In 1850 he was appointed counselor to the Bishop, and three years ago was made Bishop of the North ward. He has served two terms in the city council, and has for years been closely identified with the business in-terests of this city, a man loved and NO OLTIMATUM SENT. London, Oct. 12.—Deprecating the rumors of a Japanese ultimatum to Russia, Baron Hayshi, the Japanese minister to Great Britain, in an inter-view today said he had no information of such a character, adding that had "Japan taken this action the Anglo-Japanese treaty would have necessi-tated my being informed," so that he might inform the British government. The foreign office says it has no con-firmation of the reports of Japan mili-tary movements at Ma-San-Pho. Japan has a special settlement cov-

The Mt. Pleasant Oil and Gas com-pany has increased the price of stock 50 per cent. This is due to the fact that it has struck water in such quan-tity that it claims now to be able to water the entire western side of the Sanpete valley. If this be true, then in water alone has Sanpete county been enriched thousands of dollars. At a depth of between 400 and 500 feet the company has been unable to lower the water by continuous pumping. It is estimated by the directors of the company that this alone will pay them handsomely for their investment. So enthusiastic is the gentleman who came Russia by Corea. In spite of the re-assuring statements of the foreign office and Baron Hayshi the reiteration that hostilities between Russia and Japan are imminent the mysterious morements of the Russian and Japanese facts and the excited state of public opinion in Japan are be-sinning to cause disquiet in Great Brit-ain which by reason of her alliance with Japan is so intimately concerned in any ain which by reason of heralliance with Japan is so intimately concerned in any action which the latter may take in the far east. Only the most sanguine per-sons believe that in the event of hostil-ities they could be kept within the lim-its which would free Great Britain from her obligation to suport her Japanese ally. Even Baron Hayshi who has heretofore ridiculed all rumors of war is not so optimistic today. Indirectly, he admits the possibility of war by ex-pressing the hope that in the event of a crisis Japan will have the active sym-pathy of her ally, Great Britain. handsomely for their investment. For his own part, Mr. Takahira said he hopes for the best because the situation is not without indication so far that the Rus-sian government is candidly disposed for a settlement of the question with Japan, and therefore so long as the negotiations are proceeding with rea-sonable prospect of a result honorable to Japan, there is no reason to be overo Japan, there is no reason to be overanxious now.

"This is," said the minister, "all that can say at this moment." The representatives of this govern-ment in the capitals of Russia, Japan and China have not advised the state department regarding recent develop-ments and rumors of war over Man-

Boston, Oct. 12 .- Of the 350 or more Chinese taken into custody here yester-day, because they could not produce registration certificates, about 130 were released during the night, friends having placed the requisite papers before the federal authorities. A large number claim that their certificates have been lost, but the act of Congress makes no provision for such loss and in such case, the author-ities say, deportation must take place.

Nearly Killed Him. Andover, Mass., Oct. 11.—After felling his nurse with a terrific blow over the head with a stove poker, Edward Doh-ony, the Pittsburg National league base-ball pitcher, for more than an hour today, armed with the same weapon, held a score of neighbors and several policemen at bay. Finally he was overpowered, and after an examination by physicians was adjudged insane and committed to the sylum al Danvers. The nurse, Oberin Howarth, is serious-ly hurt, but it is believed he will recover. Doheny first showed signs of insanity several weaks ago, when he suddenly de-serted the Fittsburg club in an Ohie dity while laboring under the delusion that he was being pursued by detectives. Af-ter a fow weeks' rest at his home here he rejoined the team, but did not regain his old form. When he returned home at the end of the scason Doheny was a nerveus wreck, and since that time he has been constantlyl under the care of a physician.

The various events will be participated in by his pupils, many of whom are very elever at the manly art of self defense. There will probably be half a dozen four-round bouts for points and several wrestling matches. Mr. Thompson says the program will be a most interesting one and many of the bouts will be better than some of the fight fans have paid fancy prices to wit-ness.
