

ENTRIES CLOSING FOR BARNES RACE

Bennett Cup to be Contested for in International Event Next Year.

MAY START IN THE WEST.

Committee Now Considering Advantages of Various Western Cities as to Gas, Water and Lakes.

New York, Dec. 28.—But one month remains in which entries may be made for the next international balloon race for the Bennett cup, the trophy won this year in Europe by Lieut. Lahm, U. S. A., of the Aero Club of America. The club is considering where the starting point of the race should be. Two prime factors enter into this consideration—quantity and quality of gas and distance from large bodies of water. Denver has been suggested as the best situated as regards distance from the water and the gas of a proper specific gravity can be had there and it is sufficient quantity it may be made the starting place for the race for the Bennett cup also for the Lahm cup. But St. Louis is 70 miles from the Gulf of Mexico, 80 miles from the Atlantic ocean. The committee for the Bennett trophy will probably be held in October when there is the greatest likelihood of strong steady winds from the west, by Feb. 1, the list of entries will be complete. The club's officers believe the number of starters will exceed that in the race at Paris last summer.

MDANIEL AT ASCOT.

Southern Track Has Rival for the Famous Miller at San Francisco.

Los Angeles, Dec. 27.—McDaniel landed two firsts and a second at the Ascot race track in the third race Avonville ran a good race and came with a rush at the end. Mountbank was easily best in the fourth. The sixth race developed into a contest between Merling and Caglieri. Merling took the lead entering the back stretch and won a hard drive. Caglieri was right up and would have won in another jump. Weather cloudy, track fast.
