

RUSSIA FACES SERIOUS SITUATION

Authorities of St. Petersburg Take Measures to Prevent Rioting and Overawe Violent Minded.

GARRISON LARGELY INCREASED.

Thousands of Workmen Parade the Streets—Concession in Terms of Employment to be Offered.

St. Petersburg, Jan. 26.—With the Russian capital seemingly on the verge of an official revolution, thousands of workmen parading the streets, agitators and fanatics sowing the seeds of disorder, half the city in darkness and without fire protection owing to walk-outs, the situation was hourly growing more tense tonight, when the authorities decided to adopt energetic measures to preserve order, prevent rioting and overawe the violent minded, at the same time seeking to placate the striking workmen by offering satisfaction of their demands in so far as they are just and reasonable, thus acting with combined firmness and moderation.

The government tonight augmented the garrison of St. Petersburg with 2,500 cavalry and 1,000 infantry from Tarskoe-Selo and filled the streets, especially in the deserted quarter, with heavy patrols of soldiers.

The refusal to permit a delegation of workmen to present a petition to Emperor Nicholas at Tarskoe-Selo has made it known that the great demonstration planned for Sunday, with its unlimited possibilities for an outbreak, will not be permitted to take place.

Acting in conjunction with a conference of employers, it has been determined to offer concessions in the terms of employment, which the employers declare the great majority of the workmen would be inclined to accept if they were guaranteed protection from the more violent factions.

Late tonight it was reported that Father Gopon, leader of the workmen, had been quietly spirited away from his headquarters and taken into custody.

In furtherance of the plan to disorganize the elements that are threatening the peace of St. Petersburg, the authorities believe that by these steps they have created a situation which will be a powerful factor in the peaceful solution of the problem.

The situation had entered an acute stage today, and the strike had assumed an open political phase. This day was one of intense excitement. Mill after mill and factory after factory closed. Thronging of workmen paraded the streets and many of the factories refused to join them, broke down gates and forced out the men. The whole industrial center is idle.

All the textile mills and every printing office in St. Petersburg are closed.

One electric light plant and one water plant have been shut down, and over 100,000 men are out.

Throughout the day workmen's meetings were held, at which incendiary speeches were made, wild threats uttered as to what would come in the event of the authorities and employers failing to meet their demands. The nervousness and dread of what the next few days might bring forth were increased by reports that the workmen of Moscow, Kharkoff, Kishineff and other large cities in the interior, might join the movement.

While the government and employers temporized, the telegraphers and railroad employees threatened to join the walkout, paralyzing the communication of the country. Many foreigners are preparing to send their families abroad. Every newspaper in St. Petersburg has been forced to suspend publication owing to the strike.

The suddenness of the strike and the far-reaching nature of the workmen's organization was largely a surprise to the government and employers, starting with the walkout of a few thousand employees of the Puttloff iron works, due purely to industrial causes, it spread as rapidly as a conflagration through the labor class of St. Petersburg and became general.

At first only industrial demands were presented, such as shortening the hours of labor and for increases of wages, but poverty and discontent, under the incitement of Social Democratic agitators, led to the formulation of political demands.

A petition was drawn up and largely signed, which, going beyond the complaints on which the strike originated, attacked the whole capitalist system of the present government, demanded the reform of both, asserting that death was preferable to existence under such conditions. This petition was presented personally to Emperor Nicholas.

A delegation of workmen endeavored to see his majesty at Tarskoe-Selo and appeal to him to come at an immediate demonstration of the industrial classes. It was planned to have the workmen in St. Petersburg, headed by their leader, the priest Gopon, in full canonical garb, march to the palace and assemble in the great narthex grounds in front of the palace and there present the petition to his majesty. The delegation will be refused admission to Tarskoe-Selo. The government will render a meeting on Sunday impossible.

The employers at the same time after conferences with the ministry of finance which was the first to recognize the gravity of the situation determined to offer concessions in wages and other conditions of labor to individual employees, but declaring it was impossible to grant an eight-hour day without general legislation affecting competitors and price regulations for piece work.

Compliance with the demands for payment of wages during the strike was held to be out of the question and the employers declined also to permit dictation of the terms by other than their own employees. They expressed the belief that most of their employees were desirous of accepting the concessions and returning to work if they could be assured of safety from personal injury.

The priest Gopon is an interesting personality. He is idolized by the workmen, who, since the beginning of the strike have furnished him with a bodyguard. He has been accompanied everywhere by a score of favorites and has not been sleeping at his own home for a week, for fear of the very contingency of arrest by the police which is reported to have already happened.

THE BEST FRIENDS OF PE-RU-NA ARE THE MOTHERS AND CHILDREN

When Sickness Comes to the Little Ones It is the Mother Who Chiefly Suffers.

She suffers even more than the child who happens to be sick. Her sympathy is deeper than that of any other member of the family. The mothers look forward with dread to the torrid heat of summer, thinking of their children and the many liabilities to disease that are before them. Spring and summer are sure to bring ailments, especially among the little folks.

It does not take a mother very long to discover that Peruna is the best friend she has in times of illness among the children. The doctors may come and go with their different theories and constant change of remedies. The doctor of years ago gave entirely different remedies than he does today. Each year finds some change in his prescriptions and in the drugs he relies upon.

A Multitude of Mothers Have discovered that Peruna is the stand-by, and that in all the ailments of spring and summer to which the children are subjected, Peruna is the remedy that will most quickly relieve. Whether it is spring fever or stomach derangement, whether it is indigestion or bowel disease, a catarrhal congestion of the mucous surfaces is the cause.

Peruna quickly relieves this condition of the mucous membranes. Its operation is prompt, the children do not dislike to take the medicine, it has no deleterious effects in any part of the body.

It simply removes the cause of the disagreeable symptoms and restores the health.

Peruna is not a physic. Peruna is not a nerve nor a narcotic. Peruna does not produce any drug habit, however long it may be taken. Peruna is not a stimulant.

Peruna is a specific remedy for all catarrhal ailments of winter and summer, acute or chronic.

The mothers all over the United States are the best friends that Peruna has.

The Mothers Hold Pe-ru-na in High Esteem.

Not only because it has cured them of their various ailments, but because it always rescues the children from the threat of catarrhal diseases.

We have in our files hundreds of testimonials from mothers whose children have been cured by Peruna. However, the large majority of mothers who use Peruna, we never hear from.

But we do hear from a great number of mothers who are so overjoyed at some special good they have received from Peruna that they cannot restrain their enthusiasm. They are anxious to share these benefits with other mothers.

He showed such capacity for learning that he was sent to the Potayev ecclesiastical seminary to be educated as a monk. His leaning toward politics led to his exclusion from the seminary and this exclusion prompted a desire to get out of the place and share their lot.

He was determined to become a priest in distinction from monk, and overcame many obstacles, and finally was graduated from the St. Petersburg ecclesiastical academy. He then took up work among the laboring classes, whose leader he speedily became. He shows an evident genius for organization. Father Gopon, paralyzing the communication of the country. Many foreigners are preparing to send their families abroad. Every newspaper in St. Petersburg has been forced to suspend publication owing to the strike.

No disturbance has so far been reported. There are heavy guards at the waterworks and lighting plants in the factory districts. Patrols of cavalry are constantly in motion throughout the city. Altogether 174 works in St. Petersburg have been closed by the strike. The management of the Puttloff iron works, where the trouble began, posted notices last night ordering the employees to receive pay due them today and resume work. This is an ultimatum and there is apprehension of a probable conflict. A minority of the workmen are willing to return to work, but the majority are determined to prevent them.

Further Gopon was summoned by the minister of justice on Thursday to receive a reprimand, but he refused to appear, pleading ill-health and pressure of work. Father Gopon declared that he had taken effective measures against the possibility of arrest. He admitted that he began his campaign for the workmen under the guise of a Socialist agitator, because only under such odious flag could he have come forward at all; but later Minister of the Interior von Plehve's death caused him to change his mind and make the struggle for his majesty and the straight for the mask and make the strike his own.

He took credit for having first given the administration a fair chance of doing something without recourse to strike. Then, referring to Sunday's demonstration he said: "I shall stand at the front, as becomes a leader, and if they shoot us down I shall be the first to fall. But our blood will accomplish more than the most successful agitation."

A proclamation has been issued this morning forbidding all assemblies, parades or other demonstrations in the city and warning well-known workmen and other private individuals to avoid gatherings as the authorities are determined to break up and disperse meetings interfering public safety.

WINTER PALACE INCIDENT. Evidence Goes to Show that it Was an Accident.

St. Petersburg, Jan. 26.—In the midst of the fever of excitement today over the strike situation, the incident at the winter palace Thursday attracted secondary attention. Striking reports of a widespread conspiracy and a wholesale disaffection in the army seem to be without foundation.

Grand Duke Sergius Michaelovitch, in his preliminary report, shows that the calson of the battery contained charges of gas in readiness for a possible emergency, such as to take streets in case of rioting, and a shot fired was introduced into a gun in front of the saluting charge. The gunners are under arrest and their antecedents are under examination, but it is impossible to learn whether anything has yet been discovered.

The military authorities are inclined to believe that the incident was the work of two men, one of whom inserted the missile while the other trained the gun. A witness reported that he has seen a companioner carefully training the statement made by Grand Duke Sergius to a prominent military at-

MRS. THRESE ROOKE MOTHER AND CHILD

The Benefit Which the Children of the United States Have Received From Pe-ru-na Can Never Be Put Into Words.

The chronic ailments it has prevented, the suffering it has mitigated, will never be fully recorded.

But let us say this much can be said that the coming generation owes a great debt to Peruna, for it is in the tender years of youth that slight ailments are liable to develop into lasting diseases, thus blasting the whole career of the individual.

The mothers who are bringing up their children to-day to believe in Peruna are doing a great work for humanity. These children brought up to believe in Peruna from the start, will, when they become heads of families themselves, use Peruna with unquestioning faith.

Pe-ru-na Protects the Entire Household.

As soon as the value of Peruna is appreciated by every household, both as a preventive and cure, tens of thousands of lives will be saved, and hundreds of thousands of chronic, lingering cases of catarrh will be prevented.

Montague Davis, mine manager, Roberts is accused of shooting at Davis and some friends were standing in the barroom of the Victoria hotel. The trouble developed from the hiring of Chinese mine cooks by Davis.

JOHN SHARP WILLIAMS. Desires to Resign as Democratic Leader of the House.

Washington, Jan. 26.—The Post tomorrow will say that Representative John Sharp Williams late yesterday afternoon called a caucus to resign his leadership of the minority. A sufficient number of members were secured to the call, when the Democrats discovered Mr. Williams' purpose, and many of them withdrew their names, so that the Democratic leader said last night that he could not say whether the caucus would be held. He did not deny his purpose of resigning.

Mr. Williams is dissatisfied with the failure of the greater number of Democrats to sustain his position in opposition to the amendment to the army appropriation bill, prohibiting retired officers of the army from drawing a pay larger than that of their retired grade, the Democrats declaring that the amendment is aimed at Gen. Miles in his capacity as an officer of the Massachusetts national guard.

REPORT ON SUGAR SITUATION. Reduced Beet Sugar Output Will Reduce Consumption.

Washington, Jan. 26.—The department of agriculture in a report on the international sugar situation, speaking of the sugar year 1904 and 1905 says that the world's markets between beet and cane sugar and increased consumption in continental Europe appear the most important features. The year opened with prospects for a reduced beet sugar output in Europe that probably will wipe out the accumulated stocks and perhaps compel a considerable decline in consumption.

STARVING INDIANS. Committee in Charge of Relief Work Finishes.

San Diego, Cal., Jan. 26.—The committee in charge of the distribution of relief supplies to the starving Indians on the camp or reservation has concluded its work. When the Indians had been relieved on the five reservations to which the public attention had been called, the committee had on hand supplies which were not needed there. These have now been distributed among the Conchos and the El Capitans, each numbering about fifty families, who while not in a condition of destitution, have experienced unusual want and suffering because of the long drought last year. Twenty-five sacks of seed grain also have been sent to each reservation, which will be planted at once.

ST. PETERSBURG STRIKE. SITUATION EXTREMELY BAD.

St. Petersburg, Jan. 26, 7 p. m.—The strike situation extremely bad. The strikers are parading the city and closing shops. Over a hundred thousand are now out.

Reports from the interior are to the effect that efforts are being made to induce workmen in other cities to join and make the strike general throughout Russia.

The managers of the big concerns here have formally decided to refuse to treat with any persons except their own workmen, but they are ready to adjust all the points in dispute except the eight-hour day, which they say is a matter for the government to decide as a legal work day in Russia is 11

MILDRED, INEZ and MARIE SAILER

Pe-ru-na Contains No Narcotics. One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. Its permanent effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh.

There are a multitude of homes where Peruna has been used off and on for twenty years.

Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

UNITED MINE WORKERS. They Give Delegate Randall a Chance to Address Delegates.

Indianapolis, Jan. 26.—Opportunity was given Robert Randall, the Wyoming delegate who stirred up the United Mine Workers yesterday by denouncing President John Mitchell as a traitor and charging him with selling out the Colorado strike, to address the delegates again today. The privilege of replying to him was given President Mitchell.

Randall made no direct apology in his speech today, but it was compared with the violent one of yesterday, apologetic as a whole.

He held Mitchell and the national board members responsible for the loss of the strike, but did not use his previous violent terms. He charged Mitchell and Patrick Dolan of Pittsburgh with forcing him out on the floor yesterday. He has reference to the charges openly made that he had made statements in his local union regarding the national officers that were treatable. He denied the statement that his statement was not prompted by the

Socialists or the western miners of Western Federation of Miners. He attacked National Board Member William Jones of Wyoming for reading him out of the Socialist party.

In closing Randall thanked the delegates for hearing him and in showing that they believed in free speech.

National Board Member James Kennedy of Colorado, in a short speech, denounced Randall's attack, saying that there were no grounds for it.

VENEZUELA IS OBDRATE. United States May Be Compelled To Take Compulsory Measures.

Washington, Jan. 26.—President Castro made a proposition for the settlement of the asphalt and other issues between the United States and Venezuela under a decided strain. There is no intention to act with undue haste. It is now almost certain that some action of a compulsory nature will in the end be forced upon this government, but this will not occur until every resource of diplomacy has been exhausted.

Castro's last proposition was to provide for permanent arbitration of all issues arising between the United States and Venezuela. This is regarded at the state department as entirely unjust.

RAILROAD RATES. Senator Lodge Against Their Supervision by Commission.

Boston, Jan. 26.—United States Senator Lodge, as the chief speaker at a dinner given in his honor tonight by the Middlesex club, declared against the supervision of railroad rates by the interstate commerce commission and in favor of a special court, this court to have power only to revise rates, not to fix them. Mr. Lodge said:

"Those who regard the policy of the president as radical and likely to make great changes are likely to make a mistake. I think that the policy suggested by the president is conservative."

"The policy of the president is not to attack the railroads. What the president's policy stands for is an equalization of rates, not only to give the small shippers fair returns, but also to make up to the railroads that which the great corporations force them to give up in the matter of rebates, and to abolish rebates and differentials between various points."

Lobster's Claw Inflicts Death.

New York, Jan. 21.—Blood poisoning caused by the pinch of a lobster's claw has caused the death of Otto Zimmerman, a chef in a big Harlem restaurant. Zimmerman's special work was in preparing lobsters, his skill for which was somewhat noted. He handled hundreds of crustaceans every day and frequently was bitten. Finally a lobster's pinch inflicted a wound on his thumb and brought the blood. It began swelling in the next day and in a few hours the chef died in great agony.

YARD CLERKS ARRESTED. Charged With Stealing from Lake Shore & Michigan Southern.

Chicago, Jan. 21.—After a sensational series of arrests in which one of the accused men fainted, another hid in

G. H. FARMER and SON

Pe-ru-na Should Be Kept In Every Household Where There Are Little Children.

Peruna should be kept in the house all the time. Don't wait until the child is sick, then send to a drug store. But, have Peruna on hand—accept no substitute.

Children are especially liable to acute catarrh. Indeed, most of the affections of childhood are catarrh.

All forms of sore throat, quinsy, croup, hoarseness, laryngitis, etc., are but different phases of catarrh.

Mrs. Amelia Sailer, Menasha, Wis., writes:

"I have used Peruna for a number of years. It cured me of chronic catarrh which I suffered with from infancy."

"When my three children were born they all had catarrh, but I have given them Peruna and find it very effective in ridding them of this horrible trouble. I find that it is also good to give them as a tonic and a preventative of colds and croup."

"In fact, I consider it a household blessing. I would not know how to raise my children without it. I am pleased to give it my recommendation."—Amelia Sailer.

Address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

All correspondence held strictly confidential.

bed and a third led in an exciting chase, seven employees of the Lake Shore & Michigan Southern railroad have been held to the grand jury charged with larceny. The accused men were yard clerks in charge of sealing freight cars in the Englewood yards. Detectives employed by the railroad secured evidence that systematic pilfering had been going on for two months. One of the men accused, according to the detectives' statement, made a specialty of stealing cigars and champagne. He is said to have smoked 18 ten-cent cigars a day and to have given many to his friends. Other missing articles include clothing, hardware and jewelry. Some of these goods were found hidden in the employees' houses. One of the men had just purchased five acres of farming land in Michigan.

Attempted Murder and Suicide.

Chicago, Jan. 21.—Attacked by a man as she stepped out of the doorway of a saloon early today, Mrs. Mary Sennell, 30 years old, was stabbed in the throat. Michael O'Darrett, who is said by the police to have attacked the woman, then cut his own throat with a razor. He was captured after a struggle. Neither he nor the woman can recover. Jealousy is said to have caused the deed.

TEA. Schilling's Best applies to the dealing between your grocer and you, as well as to tea and baking-powder.

Your grocer returns your money if you don't like.

The Perfect Way.

Scores of Salt Lake City Citizens Have Learned It.

If you suffer from backache, There is only one way to cure it. The perfect way is to cure the kidneys.

A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only.

Are endorsed by Salt Lake City people. Robert C. Kirkwood, engineer on the Oregon Short Line railroad, residence 424 West Fourth South, says: "Like most men who follow the occupation I do the jarring and jolting of the engine causes a constant strain on the small of the back, and a lameness, soreness and aching is the result. I suffered severely at times with my back and on more than one occasion I have been relieved by the use of Doan's Kidney Pills, procured at the F. J. Hill Drug Co.'s store. Not only can I speak positively about the preparation myself, but Mrs. Kirkwood derived so much benefit from the use of the remedy that we both look upon it as of great value. I will be pleased to tell others about the merits of Doan's Kidney Pills."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Almond Shells

aren't edible, neither are wheat hulls. They are removed by our special process before crushing the wheat for California Wheatine.

Flaked wheat food for breakfast. All good grocers.
