M. I. A. OF WEBER IN CONVENTION.

Large Gathering of Mutual Workers Yesterday in Tabernacle And Stake Academy.

TOO MUCH WATER DECREED.

Ogden Shippers Want Better Rates—Kisner Gets Five Years for Burglary—Burial of L. C. Shurtliff

Ogden, Utah, Sept. 18.—A convention of the Young Men's and Young Ladies Mutual Improvement associations of the Weber stake, was held yesterday at Ogden. The young men meeting at the tabernacle and the young ladies at the Weber Stake academy. All of the 26 wards in the stage excepting one, were represented at the meetings of the officers which were held at 10 a. m. and 2 p. m.

Elder B. H. Roberts and Sister Martha H. Tingey and May T. Nystrom representing the Y. M. and Y. L. general board of the Church, were in attendance at the meetings, and discussed with the officers the Mutual Improvement topics as outlined by the convention circular, and gave brief reviews of the work outlined for this year in the manual and young ladies' guide, and gave, some timely and excellent advice on the best methods of persue in the work this year in order to accomplish the most good.

At the afternoon session of the Young Ladies, a re-organization of the Y. L. M. I. A. presidency of the Weber stake was effected. Sisters Elizabeth Y. Stanford and Counselors Harriet A. Woodmansee and Mercy R. Stevens, who for years have presided over the associations, were honorably released, with a hearty vote of thanks for their excellent, faithful services, which has greatly assisted in bringing the associations to the high standard they now occupy. These sisters have been untiring in their efforts, ever looking after the interests of the young ladies. President Shurtliff moved that Sister Jannett L. McKay be sustained as president, and Sisters Rachel M. Middleton and Clara A. Brown as counselors of the Y. L. M. I. A. of the Weber stake, which motion was unanimously sustained and these young ladies were set apart to fill these responsible positions.

The public session of the convention held in the Tabernacle in the evening, was crowded with M. I. workers and friends. Elder B. H. Roberts spoke for three quarters of an hour on the season's work as outlined and on the internal and external evidences of the divine authenticity of the Book of Mormon. Excellent talks were also given by Sisters Tingey, Nystrom and Stanford, and by Pres. L. W. Shurtliff.

The Ogden Tabernacle choir furnished some very beautiful music, and the convention throughout was interesting and edifying.

The association meetings will commence Tuesday evening, October 10, in most of the wards throughout the state. In those wards which hold their meetings on Sunday night instead of Tuesday, they will commence Sunday evening, October 15. There are nearly 4,000 young people throughout the Weber stake enrolled in the Mutual Improvement cause.

READJUSTMENT NEEDED.

Disparity Between Available Water in Ogden River and That Decreed.

That there is great need of a readjustment of the rights of irrigators in the waters of Ogden river is shown by a recent investigation made by Frank Stratford, water commissioner for Ogden river and its tributaries. There have been numerous suits in the district court over this stream, and decrees have been entered recognizing the rights of various irrigating individuals and companies to the use of 370 second feet of irrigation water from Ogden river, when, as a matter of fact, during the irrigating season there is not one-sixth of that quantity to be distributed. Mr. Stratford has carefully examined all the decrees. He finds that these decrees have defined the rights of various individuals and communities, saying what amount of water was the right of each. The decrees have been rendered by different judges, each with different evidence before him, and no one of them pretended to dispose of 370 feet of water, but taking them all into consideration it is found that in order to obey all the decrees and apportion the water as directed there would have to be not less than 370 second feet of water in the river. As there is but 60 second feet to be dealt with, the water commissioner finds it rather difficult to keep peace among all those whose rights have been defined.

ARRESTED FOR EMBEZZLEMENT.

J. B. Sturdevant was arrested last evening at the European hotel by Deputy Sheriffs Sebring and Wilson, at the request of the Salt Lake authorities, where he is wanted on the charge of embezzlement. Sturdevant was employed up until a short time ago as solicitor and collector for an eastern accident insurance company. He was discharged recently from the company's service, but has since continued to solicit business, selling policies at a reduced price, telling the applicants that he was sharing his commission with them, and was willing to do that by their paying him the cash, which it is understood he pocketed. Just the amount he is charged with having embezzled is not known here. Sturdevant was sick when arrested, and could not be taken to the jail, hence a guard was placed over him until the Salt Lake authorities come to Ogden today to get him.

WORK ON S. L. & O. RY.

Simon Bamberger, together with Chief Engineer Vail of the Salt Lake & Ogden Railway company, was in Ogden today for the purpose of rushing matters connected with the building of the grade from the Ogden river bridge across Washington avenue up to the mouth of the canyon. Mr. Vail will take a number of contractors over the line and will receive bids for the construction work. This contract will be let within a few days. Contracts for the foundation work of the cafe building at the resort in Ogden canyon will also be let.

SHIPPERS WANT BETTER RATES.

The Weber club's executive committee held a meeting Saturday and considered the freight rates which exist on the Oregon Short Line and San Pedro lines to points south of Salt Lake, and which operate to the disadvantage of the Ogden shippers. While few of the details of the meeting have been given to the public it is understood that the members of the committee went over the whole situation and made plans for remedying some of the conditions.

One of these illustrates the disadvantage at which Ogden is placed and relates to the rate on wheat and flour. For instance the freight rate over the Oregon Short Line on wheat from Cache Valley points to Ogden and Salt Lake is the same, notwithstanding the difference in distance of 37 miles. When the wheat is stopped in Ogden and made into flour or other millstuffs, and the miller ships the product to points south of Salt Lake on the San Pedro, the Ogden miller is compelled to pay additional freight to the Oregon Short Line besides the San Pedro tariff. This puts the Ogden flour mills at a serious disadvantage. The same condition does not exist on points reached by the Rio Grande, for which Salt Lake and Ogden are common points, and did not exist on San Pedro points prior to the time when the San Pedro took over the line south of Salt Lake.

The club is taking ample measures to present the subject to the proper railroad authorities, and to bring about relief.

KISNER GETS FIVE YEARS.

C. M. Kisner will serve five years in the state prison for burglary, of which he was found guilty by a jury last week. Kisner is a young man probably 25 years of age, but it is believed is old in crime.

He appeared for sentence Saturday afternoon before Judge Howell in the district court, for having burglarized George A. Lowe's store last June. His attorney, A. E. Pratt, moved for a new trial, which was denied.

District Attorney Halverson filed an information against Kisner immediately after his sentence charging him with felony, that of attempting to break jail July 29, to which he pleaded guilty. He desired to waive time for sentence, but this the court denied, and will sentence him Wednesday.

L. CHESTER SHURTLIFF BURIED.

All that was mortal of Louis Chester Shurtliff, son of Louis C. and Almeda Shurtliff, and grandson of President L. W. Shurtliff of the Weber stake, was laid to rest in the family burial plot in the Ogden city cemetery yesterday afternoon. The funeral services were held at the Third ward meetinghouse commencing at 12 o'clock, Bishop's Counselor Peter Anderson presiding. The ward choir furnished some beautiful music. Bishop Robert McQuarrie and President C. F. Middleton eulogized the upright life of the deceased and preached comforting sermons on the hope possessed by the Latter-day Saints in a fond meeting in the spirit world and association together throughout all eternity, through the keeping of the commandments of God. Mrs. Mary Farley sang "We'll Meet Him Face to Face," and Miss Bessie Blair sang, "O Love Divine." Counselor Peter Anderson made a few consoling remarks.

The third ward meetinghouse was entirely inadequate to accommodate the large assemblage of sympathizing friends. A wealth of floral offerings evidenced the love and esteem in which he was held in this city. A funeral cortege several blocks long headed by Foster's military band and the Woodmen of the World followed his remains to their last resting place. At the grave the lodge ritual was conducted. The grave was dedicated by Elder E. A. Larkin.

MRS. LOMIRA W. TRUEX DEAD.

Mrs. Lomira W. Truex, wife of Benjamin F. Truex, a well known resident of Five Points, Ogden, died yesterday morning at the family residence, 256 Harrisville avenue, of cancer of the stomach, aged 63 years, 11 months and 29 days. Deceased was born at North Anson, Me., Oct. 18, 1841. Several years ago she removed with her husband and family to Ogden, where she has made many friends through her kind, friendly way. She has suffered greatly for a long time past, and death came as a happy relief. The funeral services over her remains will be held at the home Tuesday afternoon at 2 o'clock. Remains may be viewed tomorrow between the hours of 10 a. m. and 2 p. m. Interment will take place in the Mountain View cemetery.

DIVORCE WANTED.

Miss Bertha L. Critchlow has filed suit in the Second District court against Charles R. Critchlow to secure a divorce. The complainant alleges that the couple were married at Ogden April 23, 1903. That since their marriage the defendant has treated his wife in a cruel manner, and that he has failed to provide her with the common necessaries of life. A decree of divorce is prayed for and plaintiff asks that her maiden name Bertha L. Peterson, be restored.

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggists sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." For sale by all druggists.

MONROE.

PACIFYING BEET GROWERS.

Sugar Company Kept All Promises and Now Favors Growers—School Opening.

Special Correspondence.

Monroe, Sevier Co., Sept. 16.—A meeting of the beet growers of this section was held here on the 12th inst. Mr. Austin, representative of the sugar factory, was present, and addressed the farmers who were present.

A large number were very reluctant to attend the meeting, and stayed outside for some time, as they considered that they had been misled and were afraid of further talk.

Mr. Austin showed that he and the sugar company had been misrepresented by a county paper. Neither he nor the company had made any promises that had not been fully complied with on their part. That if any promises had been made that a sugar factory would be built in this county is was done by parties who had no authority to do so. The company was now willing, however, to erect a factory in this county as soon as 4,000 acres of beets were planted.

Owing to the great failure of the beet crop this year, the company would stand the loss of seeding upon all lands that were properly cared for, which did not yield more than 3 tons per acre and one-half of the seeding of that yielding more than 3 and not more than 4 tons per acre, and hoped that all parties who had contracted for future planting would live up to the contracts.

Notwithstanding that Mr. Austin's remarks were timely and truthful, and may have acted as a pacifier to some of the discouraged beet growers, there are many regretting that they signed agreements to raise beets.

SPANISH FORK.

STRAWBERRY WATER

Project Will Greatly Benefit Utah County Farmers—Republican Club.

Special Correspondence.

Spanish Fork, Utah Co., Sept. 17.—During the past week the people in this vicinity have been interesting themselves in taking the subscriptions to the Strawberry Valley Water Users association. The contract requires them to specify definitely the lands the water is to be used on, and then the agreement specifies that the stock in the company shall be appurtenant to the land mentioned. It creates a lien on the land for all unpaid assessments, to be collected as upon foreclosure of mortgage. It is generally believed that if that water is brought to this part of Utah valley, it will open up a large area of land for cultivation which is now unproductive, and incidentally be of great advantage to Salt Lake valley by reason of the larger flow into Utah Lake.

The Young Men's Republican club completed its organization last Saturday night. David Lewis was elected president, with a full corps of officers.

After which the club was addressed by Geo. W. Hicks and Judge A. Saxey. The meetings will be held every two weeks.

The Indian War Veterans are making up their papers as required by law so as to obtain the medals provided by the last Legislature. There are quite a number here of the old guard.

For forty years Dr. Fowler's Extract of Wild Strawberry has been curing summer complaint, dysentery, diarrhoea, bloody flux, pain in the stomach, and it has never yet failed to do everything claimed for it.

HUNTINGTON.

SCHOOL AGAIN OPEN.

Irrigation Reservoir Proposition—Surveying for Coal Prospects.

Special Correspondence.

Huntington, Emery Co., Sept. 12.—The district schools started off yesterday in fine shape, with 227 students enrolled. D. C. Woodward is the principal, with Charles R. Johnson, J. Fleming Wakefield, Mrs. Elsie Litster, Miss Violet Grange and Miss Ella Petersen as assistants.

RESERVOIR PROPOSITION.

On the 9th inst. the stockholders of the Huntington Canal and Agricultural association, held a meeting for the purpose of amending their articles of agreement so that the company could build and handle a reservoir for the good of the share holders. Out of a capitalization of $40,000, about $34,000 was represented, and all but one shareholder voted for the change. The company increased its capital stock from $40,000 to $60,000, and the people who build the reservoir will be paid for it in capital stock, but no one outside of the owners of canal stock will be allowed to work capital stock in the reservoir. The last two years, in the latter part of the season, water has been very low in the river, and the farmers have found that the reservoir (although only about half finished) has more than paid for itself, as each year it has furnished at least one good irrigation for all the farms, and has saved hundreds of tons of hay, and thousands of bushels of grain.

SURVEYING FOR COAL.

J. A. Taff, a government geologist, was in Huntington a few days ago, looking over the ground preparatory to bringing in a few assistants to go over and properly outline the coal fields of Emery county. There is already a party of surveyors in the hill to the west of us, surveying the coal croppings, but as they are a dumb lot, it is not known who they are working for, but it is supposed to be for a private company. The best coal fields in the Rocky mountains are found in Emery county, only awaiting the proper parties to take hold of them and open them up. There are at least seven veins of coal, one above the other, in our mountains, and analysis of the coal from some of them show the coal to be the equal of, if not better than, the Pennsylvania coal for coking purposes. It will not lay idle much longer.

DORA.

NEW TOWN ON RESERVATION

Building Awaits Sale of Lots—Birth of First White Child.

Special Correspondence.

Dora City, Uintah Co., Sept. 13.—This is becoming a place of interest. As yet no permanent settlers are located, as the government surveyors are still at work on the townsite. However, there are a supply store and a saloon and surveyors have their shingles out. As soon as the lots are sold building will begin as a brick kiln and sawmill are in course of erection, so that brick and lumber can be obtained here.

The city, prospective, is one of many names. Some home seekers at a camp meeting around the bonfire discussed the matter and decided upon the name of Dora in honor of the first storekeeper, Miss Dora Murdock. On the government maps it is called Duchesne City and a petition is now on the way to Washington, D. C., for a postoffice to be established here to be called Uintah.

The first child by white parents was born today. A son to Mr. and Mrs. A. C. Marsh. Mr. Marsh and family are home seekers from Colorado and this is the first son of five children. Mrs. Marsh is the only married lady here and Dr. Marsh the only medicine man here.

In the store is seen the following unique notice: "No shooting allowed on townsite as there are surveyors' horses and other cattle loose in the bushes. It is dangerous."

HENRIEVILLE.

He moved to Cannonville soon after its settlement, and labored faithfully with W. J. Henderson and a few others in the development of the country. In the early eighties when the Cannonville ward was reorganized he was chosen first counselor to Bishop W. J. Henderson and labored faithful in that capacity until the ward was divided and Henrieville was made a ward, at which time he was chosen the Bishop of the new ward, and labored in that capacity most faithfully until his death. He leaves two wives and a large number of children and grandchildren, and a host of very warm friends to mourn his demise. He was much loved by the people of the ward.

Special Correspondence.

Richfield, Sevier Co., Sept. 15.—The Young Men's and Young Ladies' associations of this stake have been conducting a fair during the last three days and a de le entertainment. The exhibit was made in the Sunday school building. Most of the articles to be seen are of home-make or production, and many of them give evidence of wonderful skill and originality on the part of the makers. The fair is well patronized. The receipts will be in the neighborhood of $150. A musical program was given the first night of the fair at the stake tabernacle, at which music by a brass band of 80 pieces, under the leadership of Prof. C. J. Olson. Last night there was a dance at the Star pavilion and tonight members of the two associations will present a drama at the opera house.

Young, of the First Council of Seventy, and Elder Richard G. Lambert. Both were speakers at the forenoon session. It is expected Elder George A. Smith will be here tomorrow.

ACCIDENTAL SHOOTING.

A case of accidental shooting occurred here this afternoon. A number of small boys were shooting at some chickens in the outskirts of town, with a target gun. Henry Anderson with his wife and baby were walking along the street just one block from where the boys were shooting. Mr. Anderson was carrying something in his left arm and had it raised when a ball from the target gun struck his arm near the elbow and embedded itself in the flesh of the forearm. Dr. Griffith was called and dressed the wound, which is painful though not serious. It is not yet known what steps will be taken by the officers of the law to punish the boys for their carelessness.

Hon. James Christiansen, state treasurer, is here on business and incidentally to visit relatives and friends.

HUNTSVILLE.

BISHOP M'KAY HONORED.

Touching Scene on Festival Program—Opening of Public School.

Huntsville, Weber Co., Sept. 16.—Yesterday the people of Huntsville tendered Bishop David McKay a grand reception. A splendid program was rendered in the afternoon. He was presented with a diamond ring as a token of the esteem in which the dear, faithful father of the community is held. During the rendition of the program the school children marched around the pulpit and covered him with flowers. They then formed in the aisles and sang a song. It was the most touching scene witnessed in this city for some time.

At the conclusion of the program the people were banqueted at the Relief society hall. During the feast appropriate remarks were [illegible] the day was finished by a good old-time dance.

It is with sorrow that the people see Bishop McKay leave [illegible] many years of faithful labor among them is much appreciated and they feel that he deserves a rest.

Special Correspondence.

Montpelier, Bear Lake Co., Ida., Sept. 13.—During the past week two of our worthy and respected citizens were claimed by death. The first, Elder J. M. Davis died at his home Monday morning Sept 4, of pneumonia, after an illness of only a few days. Elder Davis was born in Illinois in the year 1838, and in his early youth came with his parents to Utah, where he remained until 1864, when he came to Bear Lake to assist in building up this valley. In his demise Montpelier has lost one of her noble sons and sturdy characters. Elder Davis is survived by a widow and 10 children, five sons and five daughters.

The death of Shirley Hoff cast a gloom over the entire city, as she was a young woman possessed of a very loving disposition and was greatly beloved by all who knew her. She had been ill for several weeks, but her death was unexpected. The funeral services were held Thursday afternoon and were largely attended, as were also those of Elder Davis.

The grain crops are better this year than for years past in fact the old pioneers say the crops were never better; the hay crop, however, is a little short due to the shortage of water.
