DESERET EVENING NEWS: WEDNESDAY, SEPTEMBER 19. 1906.

Well Known Parliamentary Wheel Horse Will Preside at Republican Convention.

DELEGATES ARRIVE TODAY.

State Committee Will Complete Plans Tonight for Convention Work-Gossips About Candidates.

Today political spirit is runing rampant over the city like it has not for many previous months. It is the day before the battle in the Republican camp, and but two days before the battle in the American party camp. State Chairman Hammond's office was thronged early this morning with memhers of the state committee and prominent party workers. They talked over every subject from the probable effect of the organization of the Love-Lawrence league upon the party, to the probable majority in the state this year. The list of temporary officers for the convention which meets tomorrow morning was given out in part.

WILL MEET TONIGHT.

Col. Geo. B. Squires, one of the veterans of the Republican party, gets the honor of being temporary chairman of the convention. The other temporary officers were not announced, and in fact will not be decided upon until to night, when the state committee meets to finally plan for the convention. In giving out the name of Col, Squires, Senator Wesley K. Walton, of the committee, explained that it was done to let the chairman have time to prepare his opening speech.

LOOKS EASY FOR HOWELL.

As for the other matters of the convention, the interest is centered at the hotels and not at the party headquarters. Delegates were in town today from all points, "wising" themselves up before voting time tomorrow. For the congressional nomination, it looks casy for Howell. As general as this opinion seems to be, it seems also not to have struck the other candidates. Both Fishburn and Christensen are maintainer that they are be the race maintaining that they are in the race and preparing for a sprint finish that land them first across the tape At the Wilson today Representative Howell's headquarters was a busy place, but for that matter so was Fishburn's at the Kenyon, and Parley P. Christeusen's at 212 Main street.

The American party leaders were almost as busy today preparing for their convention day after tomorrow as were the Republicans for theirs tomorrow. Judge C. C. Goodwin will hold down the chair at the state convention, and for the county convention which folfor the county convention which fol-lows on Saturday the choice of County Chairman Darmer is Judge John A. Street. Judge Street's name was given out this morning, but the rest of the temporary officers are still to be named. No explanation was offered by Darmer to the effect that Street was named early to let him prepare a speech. The county convention will have so many county convention will have so many candidates to nominate that "oratory" is to be strictly tabooed. The party leaders will furnish all they want of it for campaign purposes at the state con vention, and the quiet lip has gone out to prospective orators, that they must keep the lid on in the county assembly. That the American party county convention will not be a harmonious affair throughout is a foregone con-clusion, for the fight on the nomination for sheriff is already acute. Tom Pitt for sheriff is developing a large following. Tom is an Elk and is well known to the railroad "boys" for which reason a number of his railroad friends are today busy or-ganizing a "Tom Pitt club" with the avowed purpose of driving him over the line a victor in the convention.

to bring order out of an alleged state of present chaos is to vote the Demo-crite ticket-straight-there is empha-sis on the straight, and it is made clear that the Democratic slogan this fall is a straight out and out denunci-ation of the G. O. P. and all its ap-purtenances in this state. Chairman Cunningham was for years a popular newspaper writer, so his address does not lack for clearness of detail or floursh of rhetoric in its specific attacks on the party subjected to the flaying.

TELEPHONE IMPROVEMENTS.

Nearly Five Miles of Underground Cable to be Laid.

The Bell Telephone company is lay. ing nearly five miles of undergound cable this full. The State street condult has been completed as far south as Ninth South street, and the underground construction is to be carried into the interior of the city blocks for distributing purposes, as it is the policy of the company to gradually re-

move poles from the streets as soon as such connections can be established. The company is planning to carry this improvement into the letter districts hetween South Temple and Fourth streets: also, in extension along South Streets: also, in extension along South Temple street to Thirteenth East, and on First South street from Seventh East to Thirteenth East streets; also, on Third South from State to Thirteenth East streets. As this is done the policy and fire alarm whee will be cut into the underground excise to be into the underground service, to be reached by the public through pe-destals at street corners, such as obtain in New York City. The removal of the poles will add greatly to the appearance of the town and restore the comellness of the street views that obtained 20 years ago when there were no street poles except a few along Main street, occupied by the Western Union company,

The motion was argued at considerable length by Dist.-Atty. Loofbourow and the attorney for the defense. Judge Armstrong granted the motion and instructed the jury, which returned a verdict of not guilty without leaving the jury box.

COURT NOTES.

An action has been filed in the district court by Allee G. Gunn against John F. Gunn, administrator of the estate of Benjamin Gunn, deceased, to compel defendant to make a settlement of the estate so that plaintiff may secure her increst in the same.

The case of the State of Utah against D. M. Ferguson, charged with a crim-inal assault upon Irene, the 3-year-old daughter of D. M. Hinekiey, is on trial before a jury in Judge Arm-strong's court. Dist. Atty. Loofbourow is prosecuting the case and Atty. Soren Y. Cheiternen is asfending Ferguson

ern Railway company to recover damages in the sum of \$4,009 for the death ames S. Stephenson, husband and father of plaintiffs, who was killed by a Rio Grande train at Tucker, Carbon unty, some time ago. Judgment by stipulation was entered today in favor of plaintiffs for \$3,500. Carl Schneider filed suit in the district court today against the Bingham Consolidated Mining & Smelting company to recover damages in the sum of \$1,561 for injuries received on Aug. 12, 1906, near Lark. Plaintiff was riding along the highway and crossed the track of defendant's electric rallway when he was caught by the trolley wire which wa stoo close to the fround, and thrown off. His jaw bone was broken and he sustained the loss of six teeth and was cut about the head and face. The supreme court today handed town an opinion reversing the judg-ment of the lower court in the case of the Utah Savings & Trust company, administrator of the estate of James F. Woodman, deceased, appellant, vs. Simon Bamberger, and granting a new Simon Bamberger, and granting a new irial. The action was brought to re-cover on a promissory note executed by Hamberger in favor of Woodman. It was contended by the defendant that it was agreed between him and Woodman that the note was cancelled by him paying off other notes and undertakings in condemnation proceed-ings in which he and Woodman were jointly liable. The undertakings were caused to be paid by Bamberger, hence he claimed that the note should have been cancelled. The lower court renbeen cancelled. The lower court ren-dered judgment in his favor. This judgment is now reversed by the su-preme court, and new trial granted. Justice Straup wrote the opinion of the court, which is concurred in by Justice McCarty and dissented from by Chief Justice Bartch.

HON. FRANK W. FISHBURN.

Mr. Fishburn, whose name will be presented to the Republican convention for the position of representative to Congress from this state, is well known as a member of two previous state legislatures. He was also a member of the Lewis and Clark commission from Utah at the Portland exposition. Mr. Fishburn is now in the city and with a strong corps of workers, is giving personal attention to his candidacy for the position of representative.

European con-sumption promises to go on increasing during the coming year, notwithstand-ing the high prices that are being paid for the metal.

It is now settled beyond any possible question of doubt that the consumption of comparis of copper is increasing more rapidly than the production. All of the larg-est producing interests declare that they have no copper on hand, and near-ly all of them have sold their entire production up to the end of the present wear already

year already. The outlook is now very favorable to the continuance of the present level of prices for another year. It is not im-probable, indeed, that the average price next year will be higher than it has been this. The production of copper will not show as much of an increase will not show as much of an increase as was expected earlier this year, and it is not probable that next year's pro-duction will show more than the usual 10 per cent gain. The output of the world's mines is now close to 1.500,000,-000 pounds annually, and to increase this 10 per cent requires the bringing in of a new Bisbee, or a Greene Con-solidated and a Bingham district's out-put combined every year. A few years hence it will require as much copper as is now produced by all the mines in the Lake Superior district to increase the world's annual output 10 per cent. Unless there is a failing off in the con-sumption of copper, prices must soon sumption of copper, prices must soon go higher.
