

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY.

REACHED HOME.—Messrs. Joseph A. Young and John W. Young arrived at home last evening from their visit to the East. They are in excellent health.

HOME AGAIN.—Elder John Taylor arrived in this city on Sunday evening, from a journey to the eastern States. He is in the enjoyment of tolerably good health.

THE KANAB.—Elder Levi Stewart left his home in the Kanab country on the 28th ult., and reached this city last night. He reports the Indians all quiet, and the settlers well in health and feeling well, though their prospects for bread are slim on account of the drouth, and a poor harvest. The Indians say the drouth has been more severe than has been known for many years. Bro Stewart advises any who may contemplate going to that country to settle to take along their seed grain and bread enough to last them until they can raise more. Their saw mill was in operation, and doing a good business when he left.

SUDDEN DEATH.—A gentleman named H. M. Goodman, who arrived in this city from Virginia city, Nevada, on the 7th inst., died suddenly at the Townsend House, at about half-past ten this morning. A post mortem examination of the remains of deceased was held this afternoon, Dr. Hamilton being the examining physician, the result of which we have not yet ascertained. Mr. Goodman was, we are informed, about 35 years of age, and was engaged in the mercantile business in Virginia. A Coroner's inquest will be held this evening in the office over the store of Messrs. Taylor & Cutler, by H. S. Beatie, Esqr.

THE PROVO MINE.—A fine lump of ore, weighing two hundred and thirty pounds, from the Provo mine, Kelsor's Peak, Big Cottonwood, is to be seen at Wells Fargo & Cos. The body of ore in this discovery, we are informed is very large, being twenty-four feet wide, and up to the present no wall rock has been found. Assays give \$227.70 in silver to the ton, with 69 per cent lead. It is owned by Messrs. N. R. Hawkins and Major Meeks. Twenty-five tons are already on the dump, and it is the purpose of the owners to commence the shipment of ore as soon as their trail is finished, which will be in about two weeks. A force of twenty men is now being employed. We received the above information from Mr. Hawkins, one of the owners.

WEBER COUNTY.—H. Hamilton writes, under date of the 7th, from Hooperville. He says:

"The crops here look well, especially the fall grain. Some of our Spring grain is suffering for want of water. Our wheat harvest began as early as June 30th. The fall wheat and the barley is generally ready for cutting. The grasshoppers made their appearance here June 22nd, but not in large numbers. I have seen a few occasionally since, but not enough to do any damage, there only being enough to keep us in remembrance of the pests.

The people here generally feel well. We have one day school in session. Our Co-operative store does a pretty good business and we are satisfied that the principle is the road to success.

ARRIVALS.—The Hon. S. S. Cox, M. C. from New York, and who formerly was a Representative from Ohio in the Federal Legislature, arrived in the city last evening. Mr. Cox has a national reputation in the literary as well as in the political world, being both a brilliant writer and politician. He is a Democrat, and as such has been brought in contact with the Republican leaders in Congress, especially with Hon. B. F. Butler, who found in Mr. Cox "a foeman worthy of his steel."

M. M. Pomeroy, Esq., whose La Crosse Democrat gained him plenty of money, and reputation as an editor, also arrived in the city last evening. "Brick" Pomeroy is a name that is very familiar to all who have the least acquaintance with newspaper literature.

These gentlemen are en route for the Pacific.

FROM WEDNESDAY'S DAILY.

ORDAR CITY.—Mr. John Urie, writing from Cedar City on the 8th instant, says the grasshoppers are there and doing immense damage.

We have still a few copies of the Weekly left containing the speeches and a full account of the proceedings of the Fourth of July; also a sermon by President B. Young, an excellent paper to send to friends.

SEVIER COUNTY.—R. Sorenson writes under date of the 5th, from Monroe, that the Fourth was celebrated in good style in that settlement. He also says that that place was formerly known as Alma, the name having been lately changed to avoid confusion in postal matters, there being another settlement in the Territory known as Alma.

REMEDY FOR SUNSTROKE.—An exchange says:

"A remedy for sunstroke, which has been tried, is to bathe the hands, head and face with lemon juice. The effect is immediate.

NEWS FROM LIVERPOOL.—The following is extracted from the *Millennial Star* of June 20th:

Elders H. G. Park, George Barton, Thomas Howells, and E. F. Bird are released to return home with the company that will leave Liverpool on the 13th of July.

Another company of saints for Utah will leave Liverpool on Wednesday, July 26th, to be composed only of those having means of their own for their fare and expenses from their homes to Ogden or Salt Lake City.

SANPETE COUNTY.—Acting Bishop Anderson of Ephraim, called this morning. In proof of the prosperous and progressive condition of that settlement he furnished us the following items: The Female Relief Society had lately donated \$160 to the P. E. Fund and a large quantity of dairy produce to assist in building the Temple. The same Society, he says, looks well to the interests of the poor. The large meeting house now in course of erection will probably be finished by the 24th of July. The crops are very heavy. The co-operative store gives general satisfaction. The co-operative cattle herd is doing well, and so also is the sheep herd, which numbers about 5000 head. The latter is kept at Grass Valley. No mining discoveries of any consequence have been made in this vicinity.

We learn from John Kirkham, of Moroni, that the grain crops have never been heavier at that place than they are the present season. The grass crop will, in consequence of the scarcity of water, be very light.

CORONER'S INQUEST.—A Coroner's inquest was held last night in Dr. Hamilton's office, over Messrs. Taylor & Cutler's store. The jury, after a careful examination of the evidence produced, rendered the following verdict:

We, the jurors, being duly summoned before H. S. Beatie, Coroner for Salt Lake Co., U. T., to inquire into the cause of the death of Henry M. Goodman, late of Virginia City, Nev., and being duly sworn, upon our oaths do say, that after hearing the evidence of the physicians who made a post mortem examination of the body, and other testimony, that it is our opinion that the deceased died at the Townsend House in this city on the 11th day of July, 1871, at about 11 o'clock a. m., from organic disease of the brain, and fatty degeneration of the heart.

C. H. BASSETT,
WM. S. WOODHULL,
G. W. LEBRY,
J. K. TRUMBO.

FROM THURSDAY'S DAILY.

WASATCH.—Elder Robert L. Campbell, just back from a trip to Wasatch, gives a first-rate report of matters there. The prospect for crops is good; public improvement, especially in the erection of rock buildings, is going on rapidly; and education and co-operation are being well supported. Bishop Hatch is alive to the interests of his flock, is indefatigable in his labors for their good, and has the respect and good feelings of all.

UTAH SOUTHERN R. R.—We are pleased to report the Utah Southern R. R. completed to Little Cottonwood, a distance of seven and a half miles. At this point the company is engaged in the construction of six hundred feet of pike and trestle work, at an elevation of twenty-four feet. Supt. Little is pushing the work vigorously ahead, and hopes to cross these obstacles by Tuesday the Eighteenth, and reach Dry Creek at no distant day. At this last point he is now engaged driving piles and preparing to construct trestle work to the height of thirty-seven feet, with a span of two hundred feet. In the neighborhood of Dry Creek there are two cuts to be made of eighteen feet each.

PRESIDENT YOUNG AND COMPANY.—In a communication from "Teamster" we published the particulars of the journey of President Young and company up to the 30th of June. On Saturday and Sunday the 1st and 2nd instant, two days' meetings were held at Paris; and on Sunday afternoon Brothers Woodruff and Sheets drove to Montpelier and held meetings there in the evening. On Monday, the 3rd, the company drove to Soda Springs, accompanied by Brother Charles C. Rich, and an escort of the brethren, the brass band from Paris, and a number of citizens with their families, who encamped with the party at the Springs. By the aid of the soul-cheering music of the band and speeches from Hon. Geo. A. Smith, W. H. Hooper, W. Woodruff, E. F. Sheets, President Young and others, the company celebrated Independence Day in a becoming manner. Hon. C. C. Rich and all the people of that region spared no pains to make the party comfortable. The weather is delightfully cool for the month of July, and those whose health was impaired when they went there are improving rapidly. It is the intention to hold two days' meetings at Logan, Cache Valley, on the 22nd and 23rd inst. The company will probably arrive home by the evening train of the 24th. We are indebted to President Wells for the above particulars, he having received them in a letter from President Young.

ARRIVED.—We were pleased to have a call from Elder Robert F. Neslen to-day, who returned last night, after an absence

of over one year, having been, during that time on a mission to England. During his stay in that country the principal part of his ministerial labors have been confined to London and vicinity, over which conference he presided. By instructions of Elder H. S. Eldredge, however, he also visited all the principal conferences in the mission. As a general thing he found large congregations who were willing to listen to him, and he was the recipient of the kindest treatment everywhere he went, making many warm friends among people not connected with the Church. He enjoyed his labors very much, although during the damp seasons his health was not good, which did not, however, prevent him prosecuting his usual labors for more than nine days during the entire time of his mission. Judging by Brother Neslen's appearance, we believe his health is better now than it was at the time of his leaving here for England. He expresses himself as much pleased to be once more at home and at being able to greet old friends.

The company with which Bro. Neslen journeyed from England to this city numbered 269 souls. They left Liverpool June 21st, on the S. S. *Wyoming*. When a short distance out from Queenstown they fell in with the brig *Courtain*, bound from that port for America, which was in a sinking condition. The crew were taken on board the *Wyoming* and brought to New York. The passage to the latter city was a quick one, although the weather was, for the season, unusually foggy and wet. The health of the company was generally very good, only one death occurring on the voyage, that of a child twelve days old. On arriving at New York the vessel was quarantined one day on account of there being one case of small-pox on board. The company were all vaccinated and then permitted to proceed. The vaccination, however, only took effect in two cases. The company, as far as New York, had been in charge of Elder George Lake, who left them at that point to visit his relatives in the States, when the Saints were placed under the care of Elder Neslen.

Brother Neslen speaks very highly of the conduct of the railroad officials on the way from New York to this city, who, with a single exception, treated the company with the greatest consideration and courtesy.

Brother Neslen informs us that his last voyage makes the seventh time he has crossed the Atlantic Ocean.

ANOTHER COMPANY COMING.—The following telegram was forwarded to President Young this morning:

"NEW YORK, 13.
President Brigham Young.—Cluff's company of 400 souls, Scandinavians, will leave to-night. All well.
W. C. STAINES."

ESTRAY!

CAME to my place on 18th June a black horse mule branded JK on left thigh, figure 10 on left shoulder. The owner can have the same by applying to
