

REVIEW OF LAST WEEK IN WALL ST.

Profits of Years Were Swept Away By Successive Liquidations.

ROCK BOTTOM IS REACHED

Apparent Attitude of Administration Towards Law-Breaking Corporations Worries Them.

New York, Aug. 18.—The decline in prices which has been in progress for some time continued during the past week, with many securities reaching the lowest quotations in years. Successive waves of liquidation during the last few months have swept away the profits of years and have made the stock market extremely sensitive and vulnerable. The contributing causes of the situation have been and are the fears of a further restrictive campaign against corporations by the new Congress and the legislatures on various states, higher rates for money, with reduced supply of available funds at apparent indifference to the decline in stock prices on the part of investors with large capital investments at stake, visible signs of weak spots in the trade situation and monetary conditions that preclude any hope of immediate aid from Europe for American business enterprises or stock market operations. The week began with the market under a cloud.

WEEK OPENED NERVOUS.

Liquidation had not run its course when after the 10 and 15 point decline of the preceding week, the heavy reaction in bonds and previous Saturday hardly compensated for the large loss in cash and with another government report on the Standard Oil company published Monday, Wall Street began the week nervous and apprehensive.

CORPORATIONS SCARED.

Combined with this were the expressions of a cabinet member concerning the proposed plan of prosecution of corporations which violate the law. As a result holders of securities did not know how long their shares would be immune from attack. Fears of further proceedings against corporations made the capitalists back of them indifferent as to the outcome, and it was obvious that they were giving no support to the market. The strike of the telegraph operators, while not disturbing to business, caused annoyance, and the most was made of it as an unfavorable incident.

MONEY IS MONEY.

More legitimate, however, as munition or lower prices was the failure of the 70th Manufacturing company and the apprehension created of similar emasculation in other quarters. An example of the state of the money market is given by the fact that the Consolidated Gas company, which is dominated by Standard Oil interests, was forced to borrow on one-year notes at 7 percent. A large amount of money was loaned for six months at 7 percent.

Commercial paper seems to be discounting slowly and the banks reported many clients who seldom came to them for accommodations forced to borrow because of poor collections. On the other hand, call loans were surprisingly low, but this reflected merely the desire of lenders to keep their capital in hand. The shrinkage in stock has been sufficient to allow income yields to keep pace with prevailing interest rates. Many substantial properties sold during the past week, from \$15,000,000 to \$25,000,000 in value, and the market value on the first of August, and prime railroad stocks at present dividend rates, have begun to

ROSY COMPLEXION WITHOUT COSMETIC

Home Prescription for the Skin Said to Work Wonders on the Complexion

A good complexion is essential to facial beauty and if it can be attained naturally, then artificial means must be resorted to.

But all ladies regret the necessity of using imitation beauty which is so gloriously the natural rose glow with which some of their sisters are so bountifully favored.

Here is a prescription that comes across the ocean, from France, the home of so many beauty secrets, and it is said to be the most effective preparation known to science for rejuvenating the skin and restoring the bloom and youth as well as promoting the growth in undeveloped or shrunken parts.

Obtain from your druggist: two ounces of Rose Water; one ounce of Spirits of Cologne; four ounces of distilled water (skin food).

Put the Rose Water in a pint of hot water (not boiling) and allow it to dissolve and cooled strain it through a fine cloth and add the Rose Water and Cologne Spirits. Put it in a bottle of fruit jar and keep well corked when not in use.

This wash is to be applied twice a day or oftener, and massaged well into the skin. It is an inexpensive mixture, the ingredients being obtainable at any good drug store and is well worth a trial.

return investors from 6 to 7 percent, whereas they offered a yield of but 4 to 6 percent not so many months ago.

DUPLICATION ABROAD.

Domestic money conditions have been somewhat duplicated abroad, the most striking example of this being afforded by the Bank of England's action in raising its official rate to 4 1/2 percent. This was more remarkable, in view of the fact that its reserves increased 10 percent during the year. Prior to its recent advance the bank had announced its refusal to discount for the open market at less than 5 percent. The whole run of this plan appears to be to clear the London field of the many finance bills which the joint banks have accepted in large quantities the past two months and which were beginning to threaten the gold reserve of the Bank of England. Evidently that institution determined this year to take matters in hand early enough to prevent a recurrence of the gold exports to American markets, which resulted in such confusion in November and December of last year. Locally there is a disposition to rely on the treasury and for assistance but so far that department has made no sign.

Meanwhile the New York banks are low in reserve, the interior, being up its exchange against New York, and the crop-moving season, which drains the reserve cities each year, despite the talk of ability of the interior to finance itself, is moving along to its close.

SHONTS-LIVERMORE ROMANCE'S CLIMAX.

Chicago, Aug. 18.—David Shonks Campbell of Chicago, attorney of Theodore P. Shonks of Panama canal fame, was married to Miss Alice Livermore of Roseville, Ill., until Justice of the Peace Huneker of Burlington, Ia., performed the marriage ceremony.

The wedding resulted from a romance which started in Monmouth college last year. Saturday the two, accompanied by mutual friends, were married. The principals at first vigorously denied the report, but later admitted it. After receiving a blessing from the bride's parents they started for Chicago. There was no opposition from Campbell's friends, except at the groom stated, they thought he was too young to be married.

BURNED TO DEATH.

One Colored Woman Threw a Lighted Lamp at Another.

Globe, Ark., Aug. 17.—As the result of a dispute over rent today, Allen Jasper, a colored woman, threw a lighted lamp at Bertie Lee, a negro, while the latter's back was turned. The blazing oil enveloped her and set fire to the house which was destroyed. The woman was fearfully burned, and this afternoon she died. Jasper was arrested and charged with murder.

"FYLGIA" GETTING CLOSE.

Norfolk, Va., Aug. 18.—Wireless reports received tonight at 11 o'clock place the Swedish cruiser Fylgia, bearing a white ensign, Grandmaster of King Oscar of Sweden, 50 miles off the Virginia coast. The Fylgia is expected to pass in Hampton roads at daylight. The arrival of the Fylgia will mark the opening of Swedish week at the Exposition and a round of official and social functions will follow.

BUFFALO STARTS NORTH

Washington, Aug. 18.—The naval transport Buffalo sailed for Puget sound today to assist other revenue cutters in patrolling the sealing waters in the vicinity of Cape Pribilof islands.

POSTOFFICE ANNOUNCEMENTS.

[Special to the "News."] Washington, D. C., Aug. 17. (Delayed.)—Rural route No. 1, has been ordered established by Oct. 15 at Potlatch, Latah county, Idaho. This will serve 300 persons, 65 families. Laura W. Warburton has been appointed postmaster at Etna, Boxed county, vice Edith Lucas, resigned.

C. F. & I. SHOWS LOWER EARNINGS IN ITS REPORT.

Denver, Colo.—When the annual report of the Colorado Fuel & Iron company is issued, probably tomorrow, it will show a decrease in earnings for the year ending June 30, 1907, over the year ending June 30, 1906. The report for the year ending June 30, 1906, showed a surplus of \$670,000, the first time in years the company had shown an increase.

During the year just closed the Colorado Fuel & Iron company made some money. It is said that the surplus will hover around \$460,000—\$120,000 less than for the previous year. The decrease is ascribed to the fact that the company advanced the wages of its army of men 10 percent during the year just closed. This report is considered fairly good under the industrial conditions that prevailed during the last 12 months. It is understood that the coal, iron and railroad departments of the company will all enjoy a part of the general increase, the largest money made during the year being credited to the steel and iron department. The company has orders a year ahead for steel rails.

CASHIER CHARGED WITH BIG SHORTAGE.

New York, Aug. 18.—Director Stapleton of the State National Bank announces that Robert Gill, the cashier, has been arrested and is charged with a \$12,000 shortage of his accounts. Gill was released on bail and has been assisting in straightening out the accounts. His surety paid the shortage.

DON'T BELIEVE STORY.

Washington, Aug. 18.—Government officials are inclined to discredit the Honolulu story that Laysan island has disappeared and attribute it to probable mistake in reckoning.

INTERNATIONAL LOVE FEAST HELD.

San Francisco, Aug. 17.—The Fairmont hotel was the scene of an international love feast of the chamber of commerce, assisted by many prominent Japanese. The guest of honor was the Japanese ambassador, who was accompanied by his family. The feast was a success, and the Japanese ambassador was highly pleased with the reception.

SPANISH SOLDIERS SHIRK THEIR DUTY.

Paris, Aug. 18.—The Figaro's Casa Blanca correspondent says: "To the surprise of the Spanish government, the Spanish soldiers who were sent to the city after simply making a reconnaissance of the ground allotted them. They announced that they would repeat the reconnaissance the next day and then would decide what they would do. There is some indignation at the attitude of the Spanish troops, who do nothing but stroll about the city, while the French soldiers are worn out from ceaseless guard duty."

WILD RHUBARB MAY CAUSE BOY'S DEATH.

Idaho Springs, Cal., Aug. 18.—Philip Shaffer, the 4-year-old son of L. W. Shaffer, a business man of this city, is dangerously ill and will probably die as the result of eating rhubarb Thursday, which he found growing in a vacant lot near his home. The boy became ill soon after eating the vegetable, but the cause was not learned until today.

Crossing the Herring Pond.

The liner was rolling frightfully. "Jack" moaned the pale green, but still lovely girl, "promise me that you will send my remains to the old home for burial."

He promised, and the motion grew gradually worse. "Jack," she moaned again, "Well, dear?"

"You needn't bother about my remains. There won't be any."

ARMY SCANDAL GETS THROUGH AIRING.

Washington, Aug. 18.—The war department has learned that Brig. Gen. Ernest A. Garlington, who was specially charged by Secy. Taft to make a further investigation into the alleged irregularities in the quartermaster's department in the Philippines, arrived in Manila July 5, and entered upon his work the following day.

The original investigation was based on the allegation that a number of army officers stationed in the Philippines had caused a lot of expense and trouble to be made to the government. Gen. Leonard, upon discovering the condition of affairs, made a report on the subject to the war department, which was the basis of several special inquiries. Much conflicting testimony was received, the result of which was to leave in doubt the question as to whether or not any of the officers had been guilty to a degree that affected their integrity or whether they had been simply careless.

The names of several of high rank were brought into the case to their great indignation, as they declared that they had settled in full at the highest market price for the furniture produced by the

WHAT Are You Feeding To Your BABY?

SOMEONE tells you it is good for baby—but do you know what it contains? Nature has provided the perfect food for baby—it is mother's milk. The next best infant's food is the one nearest like mother's milk—cow's milk modified to remove excess of casein and supply just what baby needs in right quantities.

Sanipure Milk

Is nearest to Nature's way. The formula is on every can; you and your doctor can read just what is in it.

Sanipure Milk contains just the amount of protein needed for building muscles and other tissues; phosphate of lime for making bone and phosphate of potash for muscles and blood; an abundance of fat for keeping baby warm and preventing catarrh of the lungs and bowels; just enough of the right kind of milk sugar to supply energy.

There is no cane sugar in Sanipure Milk—noting that can disagree with baby.

METEOR SHOOTS INTO LONG ISLAND SOUND.

New York, Aug. 18.—All out of doors at Amagansett, Long Island, were startled this evening when they heard a terrific roar and at the same time saw a blazing mass shooting through the heavens over the ocean, apparently only a little way out from shore. The blazing object appeared to be a meteor, but it was in diameter. Those who witnessed the sight said the meteor must have weighed several tons. When it struck the ocean huge breakers came tumbling shorewards. Several bathing pavilions were washed away from their moorings, while considerable damage was caused to property along the ocean front. Great numbers of dead fish were swept in.

TAFT IS STARTED.

Washington, Aug. 18.—Secy. Taft left today on the first stage of his trip to Manila. He is expected to make a notable speech at Columbus, O., tomorrow. The secretary, at Seattle, will be joined by members of his family. Mr. Taft will return in December via Suva, completing a trip around the world.
