

MONEY FOR UTAH PORTLAND SHOW.

Senator Hollingsworth Introduces Bill Calling for an Appropriation of \$30,000.

MEMBERS TALK OF "LAST DAY"

An Executive Session at Which the Proposed Trip to Los Angeles Was Considered at Length.

An appropriation of \$30,000 is provided in Senate Bill No. 42 for the use of the Lewis and Clark exposition commission. The bill was introduced at the close of yesterday's session by Hollingsworth who stated that he did it at the request of members of the commission. In addition to granting the money the bill amends the law creating the commission to such an extent that a more careful accounting for the money will be necessary than was the case before. The treasurer is to be bonded for \$20,000, and is to monthly account and properly itemized, of its expenditures.

"LAST DAY DAY."

There threatened for a time to be a sign of life in the senate yesterday, when the house concurrent resolution, fixing the 45th day as the last for the introduction of bills, was brought up. The debate on the question was strong, and finally upon roll call the resolution passed by a vote of 11 to 7. Opposition to it grew out of the feeling that it offered too many restrictions on members and that the subject was properly one for independent action by both houses.

TWO WENT THROUGH.

Two bills went through their final hearing yesterday, and were passed back to the house for final passage of amendments before going to the governor for the signature that will make them laws. They are bills numbered 44 and 45, the first amending the statute on forgery, and the second dealing with appeals from justice courts.

COMES UP TODAY.

Senate bill 39 by Lawrence, relating to claims against incorporated cities, was read the third time, but will not be over until today at the request of Senator Bennion.

COURT FEE BILL.

Bill No. 29 by Hollingsworth, relating to the fees of justices in municipal courts, was passed unanimously. It affects only Ogden City.

LOS ANGELES TRIP.

At 3:15 the senate went into executive session, and for an hour considered matters relating to the trip to California over the new road. It is understood that considerable opposition to the trip was expressed on account of the fact that the senate did not wish to accept a favor putting it under obligations. At the conclusion of the secret session Senator Bamberger attempted to get a hearing on a motion to reverse the action of yesterday, accepting a special train for the junketing trip scheduled for Logan Saturday. A motion to adjourn was carried, and the matter went over until today.

TO PREVENT THE GRIP.

Lexative Bromo Quinine, the world-wide Cold and Grip remedy, removes the cause. Call for it, and look for signature of E. W. Grove, M.D.

U. P. ENGINE BLEW UP.

Fireman Badly Burned While Engineer Has a Narrow Escape.

(Special to the "News.")

Cheyenne, Wyo., Feb. 1.—A locomotive on the Cheyenne and Northern branch of the Colorado & Southern blew up near Islay station, 22 miles north of Cheyenne, early this morning. Fireman W. H. Smith was painfully burned about the legs and was brought to St. John's hospital here. Engineer Collier had a miraculous escape from death. The wrecked engine blocked traffic for several hours, the track being cleared away at daylight. The cause of the explosion has not been determined.

A Guaranteed Cure For Piles.

Itching, Blind, Bleeding or Protruding Piles. Your druggist will refund you \$2.00 if you do not find relief in six to fourteen days. See.

IMPROMPTU RECITAL.

Mr. Carlson Sings and Hears Songs in Turn—A Surprise Predicted.

Anthony E. Carlson, the young Salt Lake and Boston singer, who will be heard at the Congregational church in a concert on Monday night, was a special and welcome auditor at an impromptu song recital in Madame Swenson's studio yesterday afternoon. Three of Mrs. Swenson's pupils—Mrs. Brown, Miss Renny, Peterson and Miss Hope McIntyre—rendered selections for Mr. Carlson's benefit, and in turn received his kindly criticism and praise. He spoke very encouragingly of the work of each, and in turn sang a number of selections for their particular pleasure. A number of invited guests were present and enjoyed the treat most thoroughly.

FUNERAL FRIDAY.

Remains of the Late Emanuel Kahn Arrive Her Tomorrow.

The remains of the late Emanuel Kahn will arrive from San Francisco tomorrow afternoon, and the funeral will be held Friday next at 11 a. m., from the Jewish Temple on Fourth East street, Rabbi Fraum conducting the services. At the grave, the Watch lodge of Masons, of which the deceased was a member, will hold special ritualistic services. That the funeral will be largely attended, goes without saying, for the high standing of Mr. Kahn in this community, and the kindly regard and esteem in which he was held will insure a large turn out of citizens anxious to do the last honors to a man who was for so long one of the pillars of the local business community.

\$5000 REWARD FOR WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$5000 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Discharge, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I was a great sufferer for six years and doctors all the time with a number of physicians but did not receive any benefit," writes Mrs. George Sogden, of 641 Honda street, Saginaw, Mich. "I had been up and down for ever getting better. Thought I would write you. When I received your letter telling me what to do, I at once began to use the Prescription and follow your advice. I have taken ten bottles in all, also five vials of the Pleasant Pellets. An hour after my first dose I felt better. I was cured in a few days. I am now a healthy woman. I can thank you for my recovery."

Don't hesitate to write to Dr. R. V. Pierce, chief consulting physician to the Invalid Hotel and Surgical Institute, at Buffalo, N. Y. If you want good medical advice from a fully qualified physician, let us know your trouble. Such letters are always answered free of charge and confidentially. A medicine which has outlasted all others for women in the past third of a century and is recommended by all the best medical authorities, is a good reason to try it. Dr. Pierce's Favorite Prescription is purely vegetable and does not contain a particle of alcohol to destroy the blood corpuscles and weaken the system. Do not permit the dealer to insult your intelligence by suggesting some other compound which he recommends as "just as good," because he makes it himself.

BLEW CORNET TOO HARD.

Utah Man Becomes Insane While Playing Music at a Dance.

Special Correspondence. Evanston, Wyo., Jan. 30.—Frank Frazer, a resident of Woodruff, Utah, who has been living here, became insane one evening last week, while playing a cornet at a dance. He was removed to his home. It was reported that he had been playing the cornet for some time when he became insane. The cause of the attack is not known.

FIGHT WITH HOLDUPS.

Thugs for Once Caught a Tartar in Rob Rodeo Jr.

Robert Roden, Jr., who is employed in the "News" building, was held up by two footpads about 8:30 last evening. Mr. Roden resides on Eighth East street, below Thirteenth South, and soon after leaving the terminus of the Calder's Park line he was accosted by two men who ordered him to throw up his hands. He replied that he would when he had nothing else to do. As the two men moved toward him, he drew a knife and fought with them. He was severely wounded, but succeeded in giving the robbers a severe drubbing. In the meantime the other fellow had fled. Mr. Roden's face and neck are sore from the effects of the encounter, but he is recovering rapidly. He is now in the hospital, and is expected to be discharged in a few days.

DOWN IN DIXIE.

R. C. Lund Says Recent Rains at St. George Were Welcomed.

R. C. Lund arrived this morning from St. George and is at the Cullen. He says the recent 30 hours of rain down in Dixie was one of the greatest good rains in the history of that country. Since fall there have been a few pretty copious precipitations, and this last downpour "capped the climax." Mr. Lund says that the ground is now so wet that the water is flowing in the Rio Virgin, the livestock are all doing well, and there is an assurance now of a good crop.

DAIRYMEN'S CONVENTION.

Program Prepared for the Opening Session Tomorrow Morning.

The Utah Dairymen's convention, a gathering of considerable importance, will commence in room 201, city and county building tomorrow, at 10 a. m. An interesting program has been prepared for the occasion, and a large number of dairymen from over the state are expected to be present. The program includes an address of welcome by Mayor Morris; a report by Hon. Lorenzo Hanson of Logan, a resolution by one of the professors representing the department of agriculture at Washington, and a lecture on dairymen by A. D. Melvin, assistant chief of the bureau of animal industry at Washington, will deliver a lecture of interest on the subject of dairymen. The second day's meeting will include a talk on the "Dairy Market," by H. J. Faust of this city, and a lecture on the "Dairy Outlook in Utah," by Prof. R. W. Clark of Logan.

Hood's Sarsaparilla

Has won success far beyond the effect of advertising only.

The secret of its wonderful popularity is explained by its unapproachable merit.

Based upon a prescription which cured people considered incurable.

Hood's Sarsaparilla Unites the best-known vegetable remedies, by such a combination, proportion and process as to have curative power popular to itself.

Its cures of scrofula, eczema, psoriasis, and every kind of humor, as well as catarrh and rheumatism—prove

Hood's Sarsaparilla the best blood purifier ever produced.

Its cures of dyspepsia, loss of appetite and that tired feeling make it the greatest stomach tonic and strength-restorer the world has ever known.

Hood's Sarsaparilla Is a thoroughly good medicine. Begin to take it TODAY. Get HOOD'S.

LOS ANGELES TRIP MUCH DISCUSSED

Some Members Wonder Why it Was Side Tracked for Agricultural College.

NO DAMAGES TO PASS HOLDERS

Bill Introduced to Take Judicial Election Out of Partisan Politics—Legislative Gossip.

Accepted by the Senate—A private train to Logan City for a junketing trip to the Agricultural college.

REJECTED BY THE SENATE.

A private train to Los Angeles for the purpose of formally carrying greetings from Utah to her new sister by the sea. The reason for rejection being purely one of propriety and the morals involved in accepting a train.

Discussion in the senate chamber today centered on only one topic, and that was the proposed trip to Los Angeles. Senators there were who were "warring" under the allegations of a sweet girl committee clerk that they were horrid old things for not wanting to go, and other senators who, like Loose, don't want the trip because they've just been there. Something pretty hostile broke over Senator Loose today when he spoke on the highly moral grounds that the senate should not take pleasure trips. A caucus group was proposed to try and convict him, but at last accounts he was still loose.

Senator Walton, in his home of 10 grown boys, and \$4 a day looks pretty small to him as a necessary day's earnings. Hence he opposes a trip after adjournment on this ground, that he has other duties to perform. Eighteen senators, each with a railroad pass in his pocket had an earnest time trying to convince each other that accepting favors from the railroads was not a crime.

Applicants were diligently sought to accept Senator Bamberger's offer, said to have been made in executive session yesterday, to pass on the picture of the trip had been made the senator decided to let the matter drop.

AFTER PASS HOLDERS.

S. B. 44 by Hollingsworth is aimed at pass holders over the railroads. It prohibits an officer holding a pass from the picture of the trip had been made the senator decided to let the matter drop.

IMPORTANT REFORM BILL.

To take the election of all judicial officers out of the political machine is the purpose of S. J. R. No. 3, introduced by Hollingsworth today. It puts judicial elections on the same basis as municipal and school elections, and is a move in the direction of political reform. It grows out of the fact that in the stress of winning attendant upon general elections the men who are elected to the judiciary are often men who are elected to much obligation is incurred to their party.

The resolution proposes to amend section 5, article 4 of the Constitution. S. B. 43 by Walton amends the law relating to the power of the land board to procure water reservoirs for state land. It includes private as well as state lands.

H. B. 68 and 69 received from the house. Bill 69 went to the committee on judiciary, and bill 68 to the committee on education.

Two senate bills were passed and sent to the house today. They are Nos. 30 and 31. The first relates to claims against incorporated cities, and the second relates to the power of the land board to procure water reservoirs for state land.

House bill 66, by Kinney, relating to the recording of leases for railroad equipment and rolling stock, came up for passage. The debate on this bill was in progress at press time.

"ECONOMY" STARTS DEBATE.

Spanish Fork Resolutions Stir Up Bitterness in the House.

The house spent some time this afternoon discussing a communication from citizens of Spanish Fork and appearing in another part of this issue, protesting against the needless expenditure of state funds, and urging action by the legislature along the lines of economy.

When the communication was read and ordered referred to a committee on appropriations, a heated debate was suggested that should be referred to the committee on appropriations. The communication was signed by a number of citizens of Spanish Fork, and was a protest against the needless expenditure of state funds, and urging action by the legislature along the lines of economy.

Other remarks were made along the same lines, and finally the matter was disposed of by a motion by Mr. McCrea that the communication be withheld from the journal, but that copies thereof be printed on the neostyle.

INTRODUCTION OF BILLS.

H. B. 101 by Curtin, "An act to amend section 1107 of the Revised Statutes, 1898, relating to boards of health; defining their duties and providing for the election of members thereof."

H. B. 102 by Merrill, "An act to amend chapter 65, session laws of Utah, 1901, entitled, 'An act to amend section 2553 of the Revised Statutes of Utah, 1898, etc.,' approved March 14, 1901, relating to the state board of equalization."

H. B. 103 by Mr. Marks, entitled, "An act to amend section 2962, Revised Statutes of Utah, 1898, relating to the statutes of limitations and the manner of pleading cases." The bill recites that in pleading the statute of limitations it is not necessary to state the facts showing the defense, but it may be stated generally that the cause of action is barred by the provisions of a certain statute.

Thompson introduced a bill providing for a state supervisor of oil inspection, prescribing his duties, providing for the appointment of an inspector and for the inspection of oil wells and the production of petroleum.

Miller introduced a bill entitled, "An act prohibiting the unnecessary duplication of courses of studies at the University of Utah, including its various schools and the Agricultural college of Utah, respectively, and defining certain courses that belong to each."

Mr. Austin introduced an amendment to H. B. No. 10, "An act to prevent violence to employees and providing a penalty for a violation thereof."

LEGISLATIVE GOSSIP.

Query: If it takes 33 days for the introduction of a bill, how many will it be possible to introduce in 45 days?

If the senate had only extended voting power to its officers, no one doubts but that the trip to Los Angeles would have been voted by an overwhelming majority.

The senate today was visited by a large number of schoolchildren, in charge of their teachers. This is the second delegation of children to visit the lawmakers in session.

Many visitors were present today. Prominent among them was President Kerr of the Agricultural college, who was looking after the interests of his school in the matter of securing appropriations.

Frenzied morality is the order of the hour in the senate. A strong move got under way this morning to abolish forthwith the railroad calendars hanging on the desk of the junior senator from Weber county. Mr. Hollingsworth denies any knowledge of the source of the supply.

This is not the only carnation in the senate. Every day precisely at 11:30 o'clock a messenger boy lays a single flower wrapped neatly in transparent paper on the desk of the junior senator from Weber county. Mr. Hollingsworth denies any knowledge of the source of the supply.

Sergeant-at-Arms Edgell is a gallant man, and the visiting ladies say his worth a trip to the senate in his characteristic manner. A single red carnation arrived today addressed to Mr. Edgell, with the compliments of a lady visitor of yesterday, who leaves her identity unknown.

The committee on railroads and common carriers met this morning and discussed H. B. 55 by Thompson, making railroads responsible for the killing of stock on their respective lines. Needless to say, the railroad men present fought the bill vigorously, while a delegation of farmers from Davis county gave it their hearty support. The committee meets again tomorrow.

Representative Thompson has received a letter from one of his constituents that the stand taken by him on the bounty question has their hearty approval. In their writings these people refer to the coyote and the bounties on this particular animal will be eliminated from the new law.

REFORM SCHOOL.

Speaker Hull Notes a Great Improvement in the Administration.

Two years ago, during the last session of the legislature, considerable controversy and bad feeling was aroused over conditions at the State Industrial school. In this dispute Speaker Hull and State Senator Allison crossed swords in wordy combat, the speaker averring that the institution was more a prison than a reformatory, and the latter contending that the gentleman's position was wholly unwarranted and his attack upon the institution malicious and without reason.

Speaker Hull's position was this: The school, in many respects, was badly managed; the boys and girls were packed together with reckless abandon; there was no library, save, perhaps, 25 or 30 volumes; there was no gymnasium; there was no manual training; there was no music; in some respects, were regarded very much as convicts and the restrictions were such as to develop the spirit of the convict within them. It was the conditions such as that Mr. Hull and some of his legislative associates complained of, and which they stated to the governor ought to be remedied without delay.

Since then, two years have passed with good effect. The industrial school has changed wonderfully. The needed improvements have been made and the institution has been brought up to the level of a reformatory. The boys and girls are now taught in the art of horticulture, a shoemaking shop and other useful trades, and the conditions are such that the institution will be a credit to the state.

The first published statement made by Mr. Schaeffer after the receiver took charge of the bank was that his assets would pay 100 cents on the dollar. The receiver, however, after two months investigation, suggests that 25 per cent on the dollar might be nearer right.

"National and state banks are required to keep in reserve, a certain per cent of their deposits. They are prohibited from loaning to exceed 10 per cent respectively of their capital to one individual, firm or corporation. A private bank is not required to keep any part of its deposits on hand, neither is it prohibited from loaning its entire capital or its entire deposits to one individual, firm or corporation."

"The perfect bank system is one in which the entire public has confidence. This can never be (here or elsewhere) unless the public has a representative who can verify published statements, count the cash, and check up the collateral of the private banks as well as the state and national banks. Personal and personal interest should not be permitted to stand longer in the way of public welfare."

"The governor's message to the legislature recommending that private banks be made subject to state supervision the same as state banks, is timely, in my judgment, and is unanswerable."

Mr. Wilson is greatly interested in this proposed measure and eight years ago introduced a similar bill in the Utah legislature.

County Attorney Christensen has refused to issue a complaint against John Jackson upon the charge of kidnapping his three-year-old son several days ago for the reason that the decree of divorce granted to Ella Jackson, his wife, does not award the custody of the child to her, hence no crime has been committed by Jackson.

SUPERVISION OF PRIVATE BANKS.

E. W. Wilson of Salt Lake Discusses the Anderson Bill Governing Question.

IN FAVOR OF PROPOSED LAW.

Says More Private Banks Failed Than State Financial Institutions—Puts It Down to System.

E. W. Wilson who was a member of the legislature eight years ago in discussing the H. B. No. 3 introduced by Representative J. A. Anderson and pertaining to private banks and their examination by the state examiner this morning in an interview with the "News" said:

"The bill now before the Utah legislature authorizing the examination of private banks by bank examiner, brings up anew this question: For many years there has been a growing sentiment in favor of state supervision over these institutions. The improved condition of state banks as the result of state examinations has suggested the way for improvement of private banks. There are but few state banks left that do not examine state banks and each year is added numbers to the list of private banks requiring examination and supervision of private banks as well. As an evidence of the satisfactory results from these examinations a bill to repeal such a law is an unheard of thing. The private bank is as much a public institution as a state bank. When a state permits a corporation or individual to write 'bank' over its or their business, it should assume the responsibility of seeing to it that there is sufficient capital behind the institution and such management as to warrant a safe and conservative institution, in which the public may deposit funds."

STATEMENT NOT SUFFICIENT.

"A published statement which cannot be checked is not sufficient. It does not answer the logic of the situation to say that the private bankers of Utah are men of great means and in every way above reproach. It is all the more imperative that we put our house in shape while it can be done without loss to the depositor and without inconvenience to private bankers. The future as well as the present should be legislated for on this subject."

"The argument is used that the customers of private banks do not want their money examined. I say so far as I have ever known, no committee of depositors has ever appeared before a legislative committee in Utah to advise against making private banks subject to examination. The proprietors, however, are always on hand and prompt to speak for the depositors by reason of an unwritten proxy."

IS A GOOD SYSTEM.

"The text is and should be; is bank examination right? does it tend to make banks more safe? Upon the question of results, no sane man who has examined private banks, state, national and state, will question its advisability. As bank examination has been improved, failures have been lessened. The public has more confidence in banks, and the result has been the creation of numerous 'banks' and the appointment of a host of deputies and clerks, which case for large appropriations from the public treasury. In addition to the salaries of the principal officer."

"The method of collecting the revenues of the state should be revised. We believe that the civil list has been extended beyond the actual necessities of the state. The rule in a republican form of government is that its officers shall be elective. Yet in the system that has been built up, and the method of collecting the revenues of the state, since statehood, the result has been the creation of numerous 'banks' and the appointment of a host of deputies and clerks, which case for large appropriations from the public treasury. In addition to the salaries of the principal officer."

"We believe that the laws of the state with respect to railroads are very imperfect, especially in this true with regard to the killing of stock, and setting fire to moving trains. The question of negligence, which the courts put on the plaintiff, should be with the defendant railroad, for the reason that all these matters pertaining to the operation of the railroad, and of which the plaintiff can know but little."

"We ask that this, our petition, may be spread on the journals of your honorable body, and the several subjects referred to the appropriate committee for investigation and affirmative action. And as in duty bound your memorialists will ever remain, your obedient servants."

A. S. BAXEY, Chairman, THOMAS D. EVANS, CHARLES MONK, WILLIAM THOMAS, BENJ. ARGYLE, Committee.

TABERNACLE CHOR.

Tabernacle choir basses and tenors only will meet tomorrow night for special part practice. The sopranos and alto will meet Friday night, both at the Tabernacle.

EVAN STEPHENS.

J. C. BROWN ELECTED.

Made President of the University of Utah Athletic Association.

There was an interesting meeting this morning of the students of the University of Utah, addresses being delivered by Dr. E. G. Gowan, Coach Madock, Miss Maud May Babcock and Prof. Richard R. Lyman. A cornet solo was rendered by Frank M. Jensen, accompanied by the University orchestra.

Dr. Gowan said that the principal cause of so much headache among the students was from the fact that they did not take sufficient exercise, and he advised each one to adopt and practice a system of physical exercise at home. Upon arising in the morning a glass of water should be drunk to rinse out the stomach, then at an open window some time should be spent in breathing fresh air. The doctor also urged the necessity of a regular morning bath. He said that the schools of Utah were in some respects behind the schools of Europe and even many in this country, in the fact that they were not better supplied with gymnasiums. He stated that in the old country students were required to exercise daily in the gymnasiums, and also to make daily use of the bath provided therein.

Coach Madock had a prepared list of exercises for the young men, and he had "Cuddy" Russell go through them for the benefit of those present. The movements consisted of arm circles,

MAKE PLEA FOR RETRENCHMENT.

Citizens of Spanish Fork Want State Affairs More Economically Administered.

SAY SALARIES ARE TOO HIGH.

Believe the Method of Collecting State Revenues Should be Revised.

Special Correspondence. Spanish Fork, Utah, Jan. 31.—Last Monday a meeting was held at the city hall for the purpose of considering a memorial to be presented to the legislature. Mayor James M. Creer was appointed chairman and David T. Lewis, secretary. After some discussion, the following memorial prepared by the committee was adopted and the committee requested to furnish a copy for publication and also a copy to each member of the legislature:

To the Senate and House of Representatives of the State of Utah, respectfully represented by the citizens and taxpayers of the State of Utah, held at Spanish Fork, Utah county, State of Utah, your memorialists were appointed a committee to present to you a memorial regarding certain matters of public concern, herein stated, and set forth.

We believe the time has arrived when the administration of the public affairs of the state should be conducted with a stricter regard to economical management and republican simplicity. We do not recommend an "extravagant parsimony," a sentiment which is not true economy, but the public expenditures should be restricted to the actual necessities of the government, economically administered.

President Roosevelt, in his recent message to Congress, recognizing the principal we are contending for, stated: "Constant care should be taken to guard against unnecessary increase of the ordinary expenses of government. The cost of doing government business should be regulated with the same rigid scrutiny as the cost of doing private business." A sentiment which we hope may be kept in view by the present legislature.
