THE announcement is made that Thos. L. Kimball has been appointed second vice-president of the Union Pacific, and that J. S. Tebbetts has been promoted to the position of general passenger and ticket agent, with headquarters at Omaha. Mr. Tebbetts was at one time general agent for the "old reliable" in this city, and his many friends will be pleased to learn of his advancement. He is a capable railroad man, and Manager Potter has made a good choice for the place.

Stealing a Ride.

Soon after the U. P. freight train came in yesterday morning three men were seen to emerge from a bonded car, the seal of which it had previously been observed was broken. The men were arrested. They gave the names of J. H. Burns, George Harris, and H. L. Dunning. All are respectably dressed and appear to be something more than common tramps. The full penalty for breaking into a bonded car is five years' imprisonment or $1,000 fine.—*Ogden Herald, 10th.*

The "Instructor."

The current number of this attractive and useful magazine is even more than usually interesting. Here are the contents:

The Tree Dwellers; Topics of the Times, by the editor; Vacant Minds; A Life Sketch, by Elder B. B.; The Resurrection, by T. W. Brookbank; For Our Little Folks; The King and the Farmer—Washington and I—The Sunday Stone—Laws of Health—Questions on Church History, etc.; Editorial Thoughts; Plenty of Sleep; A Faithful Animal; Running in Debt; Persecution, by S. F. D.; A Sacred History, by T. A. Shreeve; Israel Putnam; Small Economies; Salutations; Beautiful Water, music by Alma Hardy; Is it Worth While?

Railroad Employes' Excursion.

To-morrow morning the employes of the Utah Central, employed in this city, will have an excursion to Syracuse. The company generously furnish free transportation. The street cars will leave the First and Twenty-first Wards, connecting with the excursion train which is announced to leave the U. C. depot at 7:30 a. m. About 550 complimentary tickets have been disposed of to employes, and about 100 more have been sold, at 50 cents each, to persons who desire to go with the excursion. No more tickets will be disposed of, as to further increase the number of excursionists would produce overcrowding, and mar the pleasure of all.

Has not Resigned.

P. P. Shelby, assistant traffic manager of the Union Pacific, is in the city on business. Mr. Shelby, who has been with the Union Pacific for twenty-one years, and who may be with that company equally as long, is contemplating a trip to Europe to recuperate, as he has been steadily at work for some years and has had no vacation. He denied the rumor that he had tendered his resignation, or that it had been asked for. Mr. Shelby says that he asked for a leave of absence for three months and that it was granted. He and Mr. Potter are the best of friends and there has never been anything said relative to his resignation.

Mr. Shelby will probably go to Europe to remain about three months and then return to resume his duties with the Union Pacific. He reports the road as running in good shape and the expression of general satisfaction. —*Denver News, Aug. 10.*

Hopt Buried.

Yesterday afternoon the body of Fred. Hopt was brought down from the penitentiary and placed in Wm. Skewes' undertaking establishment. There the face was uncovered, and all who were curious to get a glimpse of the dead body were permitted to do so. Hundreds of people reviewed the remains. At 10 o'clock this morning the corpse was conveyed to the Catholic cemetery, where it was interred by instruction of the officers of the Roman Catholic Church, into whose hands it had been given.

Before the execution there was considerable talk about the body being turned over to the doctors, but Hopt, having an idea that such a thing was possible, requested Dr. Hamilton to prevent it, and see that the remains were decently interred outside of the prison walls.

That Den Again.

Yesterday an aged and dilapidated looking female, often seen in and about the police court, entered the Marshal's office with a tale of woe. It was substantially as follows: The complainant had been, for about two weeks, in the employ of "Aunt Fanny Payne," a colored tenant of "Mother Taylor's Row," cutting apples for drying. Yesterday forenoon "Aunt Fanny" got drunk, and sent the old woman out to buy some butter. When the latter returned "Aunt Fanny" charged her with having "paid too much for the butter," so the old woman said, and for the purpose of equalizing matters proceeded to knock her down. Three times in rapid succession did the negress strike her aged servant, with prostrating effect, when another colored female tenant of the den interfered and prevented any more knocking down. Probably "Aunt Fanny's" story would be that a portion of the butter-money was spent for whisky by her ancient servant. During the narration of the old female's story, it became apparent that "Mother Taylor's Row" still has an odor as bad and as strong as ever, and that it is a nuisance which should be abated, if any practical method of doing so can be found.

Held For Forgery.

George Carney, the stock broker who was arrested for forgery a few days ago, in endorsing the name of C. S. Springer on some mining stock, had an examination before Commissioner Norrell to-day. The evidence for the prosecution showed that Carney had received the certificate of stock, which was not endorsed, and that a few days after he disposed of it to O. P. Arnold, with Mr. Springer's name endorsed on it. Mr. Springer denied having signed his name. The defense then sought to prove that Carney had received power of attorney from Springer to affix the signature, but it was shown that his authority only reached to the transfer of the stock from Mr. Springer to Dr. Dart, either by having it endorsed by the former or issued direct to the latter. The evidence revealed the fact that neither of these steps had been taken by Carney, and instead of turning the stock over to Dr. Dart, he had disposed of it to Mr. Arnold. The Commissioner ruled that there was probable cause to believe Carney guilty of forgery, and fixed his bail at $500. In default of sureties he was sent to the penitentiary.

A Boy Hurt.

The festivities of the Odd Fellows at Lake Park yesterday, were marred by what, for a time, looked like a fatal accident. Among the sports was, it appears, a sort of race, in which the contestants were required to run up an inclined plane on to a platform from ten to fifteen feet above the ground, leap from it to the ground, and then run on. A boy named Alma D. Williams, aged fourteen years, but small for his age, entered the race. He ran up on to the platform, but fell from it, instead of leaping, to the ground. He was picked up in an unconscious state, and it was some time before animation was restored. A physician present made an examination and found that there were no broken nor dislocated bones. The boy was, however, severely shaken up, the whole of one side of his face was scratched and contused, and his right wrist was badly sprained. A collection was made for him, aggregating about $25. He is up and around, but suffers considerably from his wrist.

Water Case Dismissed.

There was a considerable amount of water in Commissioner Rogers' court yesterday afternoon. The adjournment trial of W. H. Crandall, of Pleasant View, on a charge of unlawfully taking water, was proceeded with. The witness, Cragun, was present. The defendant was put upon the stand to testify in his own behalf. So far as his testimony went, it was evident that there was no criminal intent on his part. There was a difficulty over the water and as to who was entitled to it at a certain time. But this it would appear was the fault of some other persons than the defendant. His testimony was given in a clear, straitforward manner, and it was unshaken by the rigid cross-examination of the prosecuting attorney. This latter was long and tedious; in fact there was so much of water long drawn out, that the Court had to send a bailiff for a pitcherful of the crystal fluid.

At the conclusion of the testimony the Court discharged the defendant; the evidence showing that it was not probable that an offense had been committed. The remedy for the complaining witness, it was stated, was a civil action for damages sustained.

The case against Reese, the facts in which are almost the same, on motion of the prosecution, was dismissed.—*Ogden Herald, Aug. 11.*

Thrown from a Buggy.

Last Saturday as Mrs. Carrie Robinson was driving in a buggy near the Deseret Flour Mills, the horse became frightened and quickly unmanageable. It dashed across the bridge over the canal in that locality and into the creek. The buggy was tipped over, and it is certainly a wonder that the affair did not result more serious. The inmate of the buggy were, the lady mentioned, her little baby, Miss Rachel and little Johnnie Edwards. They were thrown against the dashboard, breaking it, and out into the water. The baby was very nearly drowned, and had it not been for the prompt action of two or three men near by, it certainly would have been. Upon hearing the alarm given by Mrs. Robinson they immediately went to her assistance and seizing the baby held it up to let the water run from its stomach, and took other measures to bring it to its senses and were presently repaid by seeing it assume its natural condition. It had swallowed more than a pint of water, it is said. Mrs. Robinson and Miss Edwards were assisted out of the creek and the horse was secured, while the irrepressible little Johnnie crawled out from under the buggy with the utmost composure. Both ladies sustained a number of bruises, Mrs. Robinson having a severe one on her arm, and all were dripping wet. The only damage done the buggy was the breaking of the dashboard. — *Utah Journal, August 10.*

Injured by a Runaway.

Late yesterday afternoon as E. N. Phelps, a jewelry agent from Salt Lake City, was driving along a short distance below Logan River bridge in a single horse rig, a pin which holds the shafts to the front axle broke, and let the shafts down on one side, causing the horse to run away. He was thrown from the buggy, and in falling, his leg caught in the wheel and he was dragged some distance. A number of serious gashes and wounds were made on his head, while his body was also bruised in a number of places. He got free from the buggy and arose, but was so stunned that on regaining his feet, he fell to the ground again. Presently he managed to get up, and washed his head in some water near by, and was soon after found and taken to the Peery's Hotel in a buggy. His wounds were dressed and he was made quite comfortable. The horse ran a short distance and it became tangled in the harness until it could run no further. It was secured soon after, and the shafts and harness were found to be badly damaged. This was the only loss.—*Utah Journal, Aug. 10.*

Crops in Bear Lake Valley.

A communication from Lake Town, Rich County, states that harvesting commenced there on Saturday last. Crops in that section were never earlier, and they are tolerably good. It is thought they will be harvested in time to escape the early frosts. Some of the grain is a little shrunken, but, as our correspondent remarks, it beats the frost-bitten article.

The Latest Railroad Rumor.

Railroad rumors are rampant nowadays. The latest is one not altogether congenial to Ogden people, says the *Herald*; that paper, however, is not prepared to give it any authenticity, although its informant is a responsible person; it only records it as a matter of news. The report is that the Union Pacific Railroad Company intends to make Evanston the distributing point for the Union Pacific; to run a new line across by Park City into Salt Lake, thence by a southern route on to the Pacific Coast. From Ogden to Evanston an accommodation train will be run. The gentleman says that as all the large fall shipments to Ogden are in, there will be no hurry in the matter of the new depot, and the promise about something be done in the sweet bye and bye, etc., will be made. The gentleman through whom the report comes also says that two railroads coming from the east to connect with the C. P. will undoubtedly be the builders of the depot, and recommend that any changes not for the good of Ogden should be watched vigilantly, and shippers should govern themselves accordingly.
