The state board of medical examiners proposes to camp on the trail of un-licensed practitioners, and will begin with the osteopaths. A basis for the osecution is the style of advertising indulged in by the unlicensed practi-tioners, and the attorney general holds that this means of advertising is suffilent to secure conviction for violating the law requiring that all practicing physicians be licensed. The opinion states that it is not necessary for a per son to actually treat or operate for

disease before he commits a misdemea nor. Holding one's self out by means of cards, signs, etc., as a physiciau before having secured a license, the opin ion adds, is in violation of the law.

The Denver fire and police board has signified its willnigness to have bouts come off in the Denver Athletic club "If they're not brutal." Consequently Mr. "Kid" Parker and Mr. Buddy King and settle the matter; but, walt a min-ute. Come to think of it, Jack Root can not make the weight. It is almost an impossibility for the Chicago man to make 158 pounds. In fact he can not ill join in a most gentlemanly exhibido it. So that puts him out of the run ning. There is Jack O'Brien in Eng on of polite inter-changes of love taps. here is so much love, real love, existing etween these two that there isn't any and. The executive committee of the D. A & M. society will hold a meeting this evening to decided definitely on the proposition submitted to them by the horsemen in relation to the construc-tion of a mile race track at Agricul-tural park. In the event the horsemen are turned down, so to speak, the so clety will present to them a counter proposition which may be just as good as the plan they propose. It is quite apparent that the society is in favor of a track. The survey has been completed and the committeemen are in a position

to state just about what the cost of building the track would be. Following is the latest from "Young"

But it's work every afternoon and night. Then the excitement of the real contest is lack ing. Tuesday I am going to send him right after some of the best men in my class and get ready to fight. Of course I will have to abide by my present contract, but after it expires I want to fight a least once a month, and the feather weights in the business, one after the other." Johnny Corbett was of the same

opinion that the champion is. "The Kin will be kept busy this summer if I have will be kept busy this summer if I have my way," cald John last night, "He is a strong, rugged boy, and can stand work that would kill off the ordinary fighter. I am now arranging several matches for him and we are going to do cur fighting right here where we be-long. That's so our friends can have the benefit of witnessing the bouts without being forced to traxel several without being forced to travel severe hundred miles or maybe a thousand miles to see the Kid. When the con-tests are arranged I will make public the names of Corbett's opponents. On thing is certain, they will be the bes men in their respective classes in the world. We want no snaps or 'soft marks.' I think the Kid is the cham pion of his class and I want to show the world that he is. When our contract expires just watch some of these fellows now challenging him side-step the issue."
