

NEWMAN NAMED BY NON-PARTISANS

Mass Meeting of Citizens in the
Third Precinct Last
Evening.

EMPLOYMENT OF TEACHERS.

Question Was Discussed by Several of
Those Present—A. E. Hyde Pre-
sided Over the Convention.

At a mass meeting of citizens in the Third precinct last night William J. Newman was chosen as a non-partisan candidate for the board of education, at the school election to be held Dec. 5.

Ell Folland, for a number of years a member of the city council, was placed in nomination for the position, and received 52 votes out of a total of 164. He said on a question of personal privilege, that he was running for the place because he was a father of a family, and had a deep interest in the schools. He wanted it known that certain rumors about him were not true, and named some which insinuated that he would vote to discharge certain teachers and janitors if elected.

The meeting was held in the high school building and was largely attended. Alonzo E. Hyde presided, and made an opening speech in which he emphasized the need of employing teachers who would not feel the need of speaking abominably about the faith of the pupils to the end of making them despise their own parents and lose respect for the ideals which their parents have held out to them. On this point connected with the teaching of lessons.

He advocated the employment of Utah teachers in preference to "imported" teachers when ability and experience were equal. His remarks brought a response from Oscar W. Moyle, who advocated that the teachers at present employed were fair, and that the school board was giving a square deal to all classes of citizens. Mr. Folland, and Moses Davis also spoke before the controversy closed.

The full non-partisan ticket as nominated is as follows:
First Precinct—Byron Cummings.
Second Precinct—M. J. Cheesman.
Third Precinct—William J. Newman.
Fourth Precinct—James T. Hammond.
Fifth Precinct—H. P. Henderson.

JEWS DENOUNCE

THE CHICAGO POLICE.

Chicago, Nov. 27.—Denouncing the Chicago police as "bullies" and "vagrants," and Chicago justice as "ridiculous," the recently formed Hebrew Protective association announced last night its determination to abandon direct appeal to the police department in cases of "Jew baiting" and conduct its fight by vigilance committee methods.

Details of the association's plans were reported to the Jews of the Ghetto at a mass meeting held at the West Side auditorium. Nearly a quarter of the audience was made up of alleged victims of the rowdism.

Some had their heads swathed in bandages. Others limped or carried crutches. All were eager to lay their cases before the organization and obtain their aid. And to this end everyone talked at once, until the meeting broke up in disorder from sheer excess of enthusiasm.

The association is preparing to conduct a campaign almost wholly independent of the city authorities. A private detective force is to be organized, made up partly of amateurs and partially of men from detective agencies. A medical staff will be forced to care for victims of riots without charge and a legal department will collect evidence and conduct prosecutions.

To aid Jews who are unable to give their police satisfactory accounts of themselves and are detained for this reason, each member of the association is to be known by a number and badge bearing this number and the telephone number of the association will be worn. More than 20 cases of Jews injured or robbed were laid before the executive committee of the association at a session held at the close of the mass meeting.

INVESTIGATION IS NOW UNDER WAY.

consequence of either natural or unlawful course. In brief, he overruled the objection because he asserted the commission intended to find out just how this monopoly had been brought about so that it could be rectified.

After this interruption witness resumed his testimony. He stated that he acquired the coal lands near Sunnyside upon the recommendation of Mr. Sprague and Robert Forrester, both employees of the Pleasant Valley Coal company. All three took up the lease which was ultimately disposed of to Mr. Judson.

ANOTHER OBJECTION.

The question as to what became of these lands brought Mr. Allison to his feet again with another objection to hearsay evidence.

Witness later got an innuendo and stated that he was paid \$100 when he turned the right of his entry over to Mr. Judson. What then became of the entry afterwards he did not know. Mr. Lawrence's recollection as to the details of the transaction were very vague. He did not know whether he paid the filing of some one else, and who paid him the \$100 finally for the transfer of the title he could not remember.

Charles Kingston was the next name called, but he did not respond, so Capt. Geo. E. Hare, special agent for the general land office, took the stand. He stated that he had been working on an investigation of some entries on coal lands now held in the Utah Fuel company in Carbon county principally.

ALLISON UP AGAIN.

Up jumped Mr. Allison once more with some technical objection, and some lively passages of arms passed between Mr. Allison and Mr. Thomas. Mr. Allison wanted to know what the commission would do after taking the testimony of some witnesses who would testify quite to the contrary.

Just when it began to grow interesting, Commissioner Clark fired the following hot shot at counsel for the Utah Fuel company:

"I have lived 15 years in Utah and you can't intimidate me with any threats."

At this Mr. Allison spent three minutes in protesting and asserting the commissioner that no offense had been intended.

When peace was finally restored, the commission adjourned.

SERIOUS CHARGES MADE.

With reference to the investigation now going on in this city in the coal land cases, the following special dispatch from Washington, D. C., will be read with considerable interest:

Affidavits on file with the government here and have been called to the attention of President Roosevelt charging that the gigantic land frauds whereby the Union Pacific Railroad company and the Union Pacific coal company secured illegally coal lands in the state of Wyoming valued at many millions of dollars were perpetrated with the full knowledge of the government land office, if not with its connivance, and were known if not tacitly assented to, by the department of the interior. The affidavits are made by Artemus J. Smith of Smith & Bradbury, dealers in mines and land in Denver. The papers are supplemental to a petition and other affidavits which were filed by Smith at the land office of Washington early in 1903, and they make a demand upon the department to start proceedings for the recovery of all the sequestered lands.

The charges made by Smith are sensational in the extreme and call into question the integrity of William A. Richards, government land commissioner, and of others high in the employ of the government.

CAUSE OF INVESTIGATION.

It was the knowledge of the earlier charges made by Smith which led to the investigation of the interstate commerce commission recently at Omaha, Salt Lake City and Denver, and by which fraudulent land deals of great magnitude were uncovered. In pursuing the investigation the interstate commerce commission was exceedingly careful not to uncover the fact that these deals and all the details called with them, together with names and dates and amounts paid for alleged perjury, had been in the possession of the department of the interior for more than three years. Acting under the suggestion of government officials, the commission carefully avoided the question of making an attack upon a co-ordinate branch of the government.

Embodied in the disclosures of the commission, Smith has again appealed to the department of the interior for justice, declaring that he has a prospective interest in the lands in question, and that he desires to assert and protect his interest.

Smith's charges may be summarized as follows: That on Nov. 21, 1903, he placed before the department of the interior facts and data and offered to prove, if given the opportunity, that a vast acreage of land had and still was being stolen from the government, and that little or no attention was paid to his petition.

CHARGES SUBSTANTIATED.

That, after instant demands and repeated charges, M. E. Myrdorff, special agent of the land department, made an investigation in the Evansville district of Wyoming, which substantiated the charges.

That, immediately thereafter, Myrdorff was transferred permanently to Los Angeles. That Smith again protested and furnished additional facts, making his appeal directly to the secretary of the interior, and that the latter official ordered an investigation made by the land commissioner.

That on Dec. 26, 1905, a star chamber investigation was made at Evansville, Wyo., during which only witnesses in the employ of the Union Pacific Coal company were called, and that said witnesses were secretly heard.

The almost immediate result of this hearing, and on the very day the department received a determined protest from Smith, together with substantiating facts, patents were issued to stolen lands valued at more than \$1,090,000.

BAD FAITH CHARGED.

Regarding his attempt to arouse the government and secure a bid in preventing the frauds, Smith says: "I reluctantly charge the general land office with failure to keep faith with me and by a system of procrastination and indifference compelling me to resort to such indirect methods as the records of these proceedings disclose."

In connection with the laid office

frauds which are now being considered by the federal grand jury in Salt Lake City, Smith, under oath, charges Dyer O. Clark, vice president of the Union Pacific Coal company, and brother of United States Senator Clark of Wyoming; George L. Black, superintendent of the company; William I. Gifford, agent of the company, and George Mosholder, with subornation of perjury in procuring people to file fraudulently on government lands and then to turn them over to the coal company, which is owned by the Union Pacific railroads.

CASE OF ARTHUR BROWN.

On Friday Next He Will be Examined As to His Sanity.

On Friday afternoon at 2 o'clock, Arthur Brown, the young man who was recently convicted of forgery in the district court, will be examined as to his sanity before Judge Armstrong. The court denied the motion of Judge Powers for a new trial in the case, whereupon the attorney for the young man immediately made a motion for an arrest of judgment on the ground that the defendant was insane. The motion was granted, and the above time was fixed for a mental examination of the defendant.

Brown was in the employ of the Utah-Apex Mining company when he forged the name of his employers to several checks, amounting in all to about \$9,000. He had placed securities with the bank sufficient to cover the checks, it is claimed, but pocketed part of the money received on one of the checks, and was at the Short Line depot ready to leave the city when arrested by Capt. Burdige of the police department.

He was tried and convicted in Judge Armstrong's court, but Judge Powers filed and argued a motion for a new trial in the case. This was the date set for passing on the motion, and Judge Armstrong denied it. The motion for arrest of judgment was then made and granted, and the county physician will examine Brown as to his sanity on the date mentioned above.

THE LAW'S DELAY?

Burglar Arraigned, Convicted and Sentenced in One Day.

William Smith appeared before Judge Armstrong in the district court yesterday afternoon and pleaded guilty to burglary in the second degree and was sentenced to eight months in the state prison. Smith is 18 years of age and about two weeks ago burglarized his landlady's room at the rooming house where he was stopping. He was out of money so went to the landlady and borrowed a dollar and gave her his watch as security for the loan. After the landlady left the room he stole the watch and about \$10 in cash and several other articles from the dresser.
