

ending June 30th, 1875, and prior years; there is a total of \$892,054.

OMAHA, 13.—The extreme cold weather continues throughout this section; the thermometer here, today, ranged 14 to 22 below zero, 35 below at Fort Laramie, 44 at Virginia City.

CHICAGO, 13.—The two sons of Frederick Ruetz, who was found murdered Monday at Goose Island, in this city, have been arrested, charged with the murder of their father.

TRENTON, 12.—The house adopted resolutions, strongly condemning the general government in Louisiana matters; the senate received the resolutions and tabled them for the present.

MADISON, Wis., 13.—The Legislature organized today, electing Frederick W. Horn, Speaker of the House, and Henry D. Barron, President pro tem, of the Senate, both republicans. The senatorial contest is very active. The friends of Carpenter claim a majority of eight in the joint caucus, the Washburne men claim five. There was an unconfirmed rumor, today, that Washburne would withdraw. Both parties hold a caucus to-night.

LITTLE ROCK, 13.—To-day's Republican has a card signed by 195 Union soldiers, addressed to the President, endorsing Sheridan's action in New Orleans, and a statement that a reign of terror exists in this State. They deny the truth of the card recently published in the *Gazette* by a large number of Union soldiers, which denied the existence of the white league in the State. Governor Garland has instructed the prosecuting attorney of this circuit, to have each of the parties whose name is signed to to-day's card to appear before the grand jury now in session, and establish the facts set forth in their statement. The governor has notified the President of this action and will, to-morrow, send a special message to the legislature.

CINCINNATI, 13.—An accident on a train on the Fort Wayne, Muncie & C. railway, this afternoon, wounded some thirteen passengers, one fatally and others seriously.

NEW YORK, 14.—While here and at Washington there are sharp divisions of opinion about the accuracy of his facts, the President's message has inspired a general feeling of relief on the part of thinking men of all parties, because, while it asserts strong provocation from the conservatives for the military intervention, it carefully avoids asserting the latter as a principle of justifiable policy. The *Sun*, *World* and *Herald* however violently denounce the message, apparently, is that Grant is less to blame than Congress, and men overlook the President's technical responsibility for the military intervention, in view of the gross illegality of the lawless revolution which such intervention defeated, and also of the fact, that the President does not claim the right of military dictatorship which the Louisiana action seemed to imply. The *Times* commends the message as a moderate, strong, sensible document, calculated to make a favorable impression on the country.

The *Times* publishes an elaborate letter from lawyer Stoughton, ably reviewing the Louisiana case. He shows that the body with which the military interfered was not a legislature, but a revolutionary body, which had seized upon the house by violent and illegal means, and then added to their number enough to constitute a majority. Stoughton, however, holds that Kellogg erred in calling on De Trobriand.

The point of the *Herald* is to show that the President's message is entirely different from the one originally written, and that it was recast to prevent the resignation of three cabinet officers who refused to accept the responsibility of defying public sentiment adverse to military intervention in defiance of organic and statute law.

A Philadelphia dispatch states that Dawson, Judd & Co., jobbers in imported dress goods, have suspended. Their liabilities are placed at two hundred thousand; their assets are not over fifty thousand. The loss falls principally on New York firms.

The New York *Express*, commenting on the President's message, recalls the police troubles in Maryland in 1866, when a consultation was held between President Johnson, Governor Swan and Genl. Grant, as to whether it would

be proper or advisable to invoke the aid of the federal arms and quotes Grant's letter, in which he says—"Military interference would be interpreted as giving aid to one of the factions, no matter how pure the intentions or how guarded and just the instructions. It is a contingency I hope never to see arise in this country while I occupy the position of General in Chief of the army, to have to send troops into a state in full relations with the general government on the eve of an election to preserve the peace. If insurrection does come, the law provides a method of calling out forces to suppress it; no such condition seems to exist now."

COLUMBUS, Ohio, 14.—A protest against the adoption of the resolutions denouncing the action of the government in the Louisiana matter adopted by the legislature yesterday, was entered on the house journal to day at the request of 43 republican members.

ALBANY, N. Y., 14.—A large meeting was held at Tweddle Hall last evening, to express indignation at the recent action of the soldiers in New Orleans. None of the speakers alluded to the President's message, but some of them held President Grant solely responsible for the affair.

MOBILE, Ala., 14.—The grand jury in the U. S. Circuit Court, in session since Dec. 28th, were discharged yesterday. They found no indictment against any of the Sumpter Co. prisoners, nor against those arrested in Mobile charged with killing two negroes on election day. A majority of the jurors were republicans, five being negroes.

HELENA, Mont., Jan. 14.—Last night the mercury thermometers all froze, and small quantities of mercury in phials also congealed; proof whisky placed out of doors froze solid in half an hour yesterday. Four Chinamen, who left town at 4 p. m. on Tuesday, were found Wednesday morning about half a mile from town, frozen to death; the whisky they had with them in small kegs was frozen solid. An unconfirmed report comes from Phillipsturg, Mont., of two Chinamen being frozen to death at that place.

FOREIGN.

BERLIN, 13.—The *Provincial Correspondence* says that the German government has taken the preliminary steps to insure satisfaction to the German flag, and indemnity for the owners of the German vessel *Gustav*.

MADRID, 13.—The Priest of Alcala, a Carlist leader, has been brought to this city a prisoner.

A decree has been issued for the restoration of all ecclesiastical property not included in the redemption fund.

HENDAYE, 13.—Don Carlos has gone to Durango to hold a council of war. The Carlist cavalry, on Sunday, approached within three miles of Valencia. The reception of Alfonso at Valencia was less enthusiastic than at Barcelona.

PARIS, 13.—Senator Sagasta has declined the Spanish ambassadorship at Paris.

The Madrid government has informed Germany that complete satisfaction will be given for the outrage on the brig *Gustav* immediately on receipt of the full dispatches from its representative at Berlin. It is thought, in Berlin, that speedy reparation will be made, because it is a matter of great interest to the Spanish government to deprive the opposition of the opportunity to attack it which foreign reprisals and Carlism would afford.

Yesterday's reports about Spain are denied.

FRANKFORD on the Main, 13.—The police have closed all the social democratic workmen's societies and trades' unions in this city.

LONDON, 14, 6 a. m.—The British schooner *Bride*, from Alexandria for Hull, has been lost, and twenty of the crew and passengers drowned.

The *Daily Telegraph* reports that Prince Gortschakoff has declared that Russia will not make the recognition of Alphonso dependant on the confirmation of his accession by the Cortes, but will act in harmony with Germany and Austria.

The Rev. John P. Newman, an eminent Catholic, has written a pamphlet in ten chapters to the Duke of Norfolk, in reply to Gladstone's famous expostulation on the Vatican decrees and civil allegiance. He declares that Gladstone is uncharitable, and his conclusions untrustworthy. The Schola Theologiae alone is competent to determine papal and synodal utterances. It must be confessed, he continues, that some among us in past years have stretched truths until they were near snapping, and have done their best to set the house on fire, leaving others to extinguish the flames. "I see no inconsistency in being a good Catholic and a good Englishman." He then draws a distinction between spiritual and secular allegiance. "If," he says, "parliament should pass an act compelling the Catholics to attend the Protestant service once a week, and the Pope should forbid them, I would obey the Pope, not the law. If I was a soldier or sailor, and the Pope bid all Catholics to leave the army and navy I would disobey him in time of war." The Rev. Father in conclusion, says infallibility is declared a matter of faith in thought merely, not in actions, there is only one oracle—God's holy church, with the Pope as its head.

The Bank of England has fixed its rate of discount at four per cent.

Local and Other Matters

FROM WEDNESDAY'S DAILY, JAN. 13.

Prospering.—The United Order of Tailors is keeping about twenty-five hands busily employed in these dull times.

County Court.—The County Court of Salt Lake County is in session.

Second District Court.—We understand a term of this Court commences in the beginning of April.

Another.—Another horse succumbed last night to fast driving in the frosty air. Salt Lake stands in need of a Berg, that is not an iceberg.

Remember Him.—James Dickson, the polite crossing-sweeper, is making himself busy these stormy times making the paths of pedestrians smooth. The pedestrians might do a worse thing than remember him in turn.

Window Breaking.—A foundry man, named Kelly, was before Justice Pyper this morning, charged with having too much of the ardent aboard and breaking the window of a store on the Kimball block. He was fined \$20, which was paid.

Blanket Stealing.—A man missed a pair of blankets the other day, and being anxious to regain possession of the articles, he hunted around and finally found them yesterday in a second hand store, the proprietor of which was arrested on a charge of stealing the blankets. He proved that he bought them and was therefore discharged, but the articles were restored to their proper owner.

Hurt His Eye.—The other day Brother T. O. Angel, Jr., got a blow over the left eye, from a horse's head, while it was in the act of throwing its cranium around. The gentleman caught cold subsequently, which for a time entirely closed the optical optic. He can now see daylight with it. This notice of the accident will probably satisfy his numerous acquaintances, to many of whom he has had to "stop and explain."

No Naturalization.—Applicants for naturalization will not be able to obtain their citizenship papers in this Third Judicial District until the expiration of the present session of the Supreme Court of the Territory, which will not adjourn till the middle of February, until after which time aliens need not apply. We understand several persons were in from the country to get their papers to-day, but they will have to go home without accomplishing the object of their visit.

City Council.—The City Council held their usual meeting last night, Mayor Wells presiding, when the following and some other business was transacted.

A list of delinquent taxes was laid before the Council, and for reasons set forth, and on recommendation of the Assessor and Collector, the amounts were remitted.

An application of Leo Hollander for leave to dispose of his jewelry stock by lottery was not granted.

Petition of James Dixon, crossing sweeper, for relief, in consideration of his services, was laid on the table.

Petition of T. V. Thomas asking that F. Brewster be restricted from endangering petitioner's dwelling

by running a stream of water through his lot, was referred to the Street Supervisor.

Sarah S. McDonald, a widow, was granted a free license for one year to sell groceries.

Petition of Richard Rogers, asking for a remission of his job wagon license, was referred to the Mayor; the latter's action to decide the matter.

In accordance with report of committee on a petition previously presented, the monthly ground rent of the premises on the market ground, occupied by Geo. W. Crocheron and Brower Petit & Co., was reduced from \$1.50 to \$1.00 a foot.

The annual report of the sealer of weights and measures, was read and filed.

The supervisor was instructed to construct a plank crossing over South Temple Street, and a ditch flume across West Temple Street, at the intersection of these streets.

The matter of the advisability of having an ordinance providing for an inspector of steam boilers was referred to the committee on municipal laws.

The Mayor was requested to invite King David Kalakaua, of the Sandwich Islands, to visit this City on his way westward, and to extend to him the hospitalities of the City, and whatever courtesies the Mayor might think proper.

FROM THURSDAY'S DAILY, JAN. 14.

Snow Slide.—This afternoon Coroner Taylor held an inquest on the bodies of the four men who were killed by the snow-slide in Little Cottonwood Canyon, on Monday, and a verdict was rendered in accordance with the facts.

Trains from Salt Lake to Payson.—We learn that on next Wednesday, January 20, regular passenger trains will commence running between Salt Lake City and Payson, over the Utah Southern Railroad. This will be good news to the people in the Southern settlements.

Continues Dull.—Business in the police court still continues dull. A couple of intoxicants and disturbers of the public equanimity were disposed of and James Miller was fined \$5 for a breach of prison regulations in passing strong liquor to prisoners from the outside.

Cattle Stealing.—It is a moral certainty that a good deal of cattle stealing is being done in this and other portions of the Territory, but it is done in such a manner as to make detection difficult. Laws of a more detailed and stringent character than now exist on the subject might accomplish a good deal.

Organized.—Some of the leading movers in the musical association, to be composed of an amalgamation of the musical talent of the City, met last evening, at the Fourteenth Ward Assembly Rooms, and organized. Henceforward, till further notice, meetings for rehearsal will be held at St. Mark's school, every Friday and Tuesday evening, commencing to-morrow.

The Weather.—This morning the thermometer stood nearly 20 degrees higher here than yesterday morning.

It appears as if the weather north and east was going ahead of that of all previous winters in point of severity, approaching the bitterness of the "frozen regions." Yesterday at Omaha the thermometer ranged from 14 to 22 below zero, 35 below at Laramie City, and, good gracious! 44 at Virginia City.

The dispatches also inform us that there was no means of telling how cold it really was at Helena, Montana, being so intense that the mercury was frozen hard in every thermometer, and proof whisky froze solid after being exposed to the open air half an hour. Four Chinamen who left Helena on Tuesday evening were found yesterday morning, frozen to death, and a quantity of whisky they had with them in a keg was frozen solid. We do not know that this has any parallel in the history of the country, surely not in the part named since its settlement.

A Complete Smash-up.—This afternoon a man was bringing a load of furniture from the 20th Ward for the proprietor of a second-hand store, when his animals took fright and started to run. The teamster, who was not on the wagon at the time, seized and held on to the lines, but he tripped and one of the wheels passed over

his leg, causing him to let go. Away went the team, westward, along South Temple street, and, near where there is a pile of building rock, on the south side of the street, nearly opposite Mr. Le Grand Young's residence, the wagon collided with some obstacle, detaching and smashing up the hind part of it, and causing bureau, stoves and other articles of household furniture to fly around in every direction and strew the ground in a demoralized condition. Still the team kept on at a terrific pace, dragging the forepart of the running gears. Opposite the Eagle gate the horses divided on each side of a telegraph pole, and when the detached portion of the wagon collided with it, so great was the force that the animals instantly broke loose and rolled head over heels upon the ground, and in such a manner as might have led anybody witnessing the circumstance to suppose that they must either receive great injury or be killed outright. Instead of this being the case, however, they soon regained their feet and started out again, continuing on until captured, on East Temple Street. The collision with the telegraph pole put the finishing touches on the wreck, as it broke up the front part of the running gears amazingly, besides doing considerable damage to the base of the pole, the concussion also detaching and bringing down one of the glass insulators.

The teamster was severely bruised in one of his legs and on one arm.

SHERIDAN AND THE CLERGY.—The following is the appeal, signed by the Roman Catholic Archbishop, the bishops of the Episcopal and Methodist Churches, the Jewish Rabbi, and others, at New Orleans, Jan. 6—

"To the American People:—

"Whereas, General Sheridan, now in command of the Division of the Missouri, under date of the 4th inst., has addressed a communication to Hon. W. W. Belknap, Secretary of War, in which he represents the people of Louisiana at large as breathing vengeance to all lawful authority and approving of murders and crimes; and whereas he has given to that communication full publicity;

"We, the undersigned, believe it our duty to proclaim to the whole American people that these charges are unmerited, unfounded and erroneous, and can have no other effect than that of serving the interests of corrupt politicians, who are at this moment making most extreme efforts to perpetuate their power over the State of Louisiana.

"N. J. PERCHE,
Archbishop, New Orleans;
"J. P. B. WILMER,
Bishop of Louisiana;
"JAS. K. GUTHEIM,
Pastor Temple of Sinai;
"J. C. KEENER,
Bishop M. E. C., South;
"C. DALL,
Rector St. Joseph's Church,
and many others."

COME ON WITH YOUR COMMITTEES AND TROOPS AND THINGS.—This is how the *Dubuque Telegraph* takes off "those loyal freedom-shriekers who howl themselves hoarse over white league and murder in the South"—

"We have been waiting, and so long in vain, to hear of Congress appointing a committee to investigate the recent hanging of a man at Des Moines by a mob, and to hear of the President sending troops to the same locality. Why have not these things been done? Is not a city in Iowa, and citizen of this State, as much entitled to the paternal care of the national government as are the cities of the south? So come on with your congressional committee and your troops."

Appleton's Journal, one of the best periodicals in the country, commences the New Year with renewed spirit, ability and enterprise. A paragraph was sometime ago making the rounds of the papers that the *Journal* would be discontinued at the end of 1874. This has been authoritatively contradicted, and falsified by subsequent facts. We hardly credited the rumor at the time, and consequently did not publish it.
