

## HOW MANY HORSES AND CARRIAGES?

Chairman of the House Committee Wants to Know What the Dept. Of Commerce Keeps.

## MINORITY LEADER WAKES UP.

Mr. Williams Arraigns Policy of Republicans, Saying it is One of Negation.

Washington, Jan. 21.—The army appropriation bill was under consideration in the committee of the whole today for five hours, most of which time was devoted to a general discussion of the tariff question. Mr. Hull of Iowa, chairman of the committee on military affairs, explained the provisions of the army bill and Mr. Parker (Rep., N. Y.) and Mr. Prince (Rep., Ill.) paid tribute to the army as now organized.

Mr. Williams, the minority leader, taking the phrase, "stand pat" for his text, made a general arraignment of Republican policies, and declared that the Republican party had become one of negation. Replying to a question by Mr. Watson of Indiana, he said the tariff should be revised. If he had the power he would bring about a Democratic tariff, but it would take time. The only opposition to the army bill was made by Mr. Baker (Dem., N. Y.) who said he was opposed to war.

When the house convened, a resolution, called up by Mr. Gardner (N. J.) chairman of the committee on labor, asking the secretary of commerce and labor for a statement showing the number of horses and carriages maintained at the expense of the government for officials in his department, and the names of the officials using them, was adopted.

On motion of Mr. Hull (Ia.), chairman of the committee on military affairs, the house went into committee of the whole to consider the army appropriation bill. Five hours' debate was agreed upon. After Mr. Hull had explained the features of the bill, Mr. Parker (N. J.) was recognized. In speaking for the bill he paid a high tribute to Secy. Root and pointed out the many reforms which he said had been brought about under his administration.

Mr. Payne of New York asserted that the price of coal was not less to the consumer during this period.

Mr. Williams combatted this statement and asked Mr. Payne why his party did not "stand pat" for free coal. He declared it was impossible to find out what the Republican party was "standing pat" on.

"It was only a few days ago," he continued, "that the great I. A. of the Republican party delivered a speech in which he said: 'We hold the ace.' Now, I had a private and confidential conversation with a gentleman of this house this morning and he told me he did not know a single game of cards in which the ace wins."

"I'll tell you what we have got that does win," interjected Mr. Palmer of Pennsylvania. "We have a straight flush."

"Well," rejoined Mr. Williams, "I do not know what a 'straight flush' is, but you have not got as much of a flush as you are said to have. Things are not so flush as they were awhile back."

Mr. Williams asked if the Republicans were going to stand pat on the currency question, and on the trust question, and called attention to his bill declaring over-capitalization a public swindle. He asked if they were going to stand pat on the postoffice investigation, and asked why they had not permitted an investigation by a committee of the house. He asked if they were going to stand pat on the public land business, and if they proposed to stand pat on the ship subsidy question or to let that drift along until after election. He charged that the Republicans were becoming a party of negation.

Mr. Lacey of Iowa said this was not the time to take up the question of reciprocity with Canada, but added that he was not opposing the principle, which was recognized as one of the cardinal doctrines of Republican faith. He said the people had not forgotten the principle of "Let well enough alone."

Mr. Hill of Connecticut followed with a discussion of the tariff. He said it was not a question of how the tariff was fixed, but the manner of fixing it; whether it was put on under the free trade principle or under the protective idea.

Mr. Baker of New York opposed the army bill on the ground that he was opposed to war and would not vote to appropriate money for preparations for war. "It should be designated as a bill to appropriate \$75,000,000 to put it into the power of one strenuous man to get

## AFTER SICKNESS.

### HOW TO REGAIN STRENGTH.

Our Druggists, Druehl & Franklin and Smith Drug Co., Give Some Suggestions—We Vouch For Their Sincerity.

During the past few months there has been a great deal of sickness of one kind and another in Salt Lake City, largely induced by the recent unseasonable weather.

In speaking of this to Mr. Druehl of Druehl & Franklin, our druggists, the other day, he said: "Yes, there has been, and is, a lot of sickness in the city, and while most people get over the acute stage rather quickly, it leaves the blood impoverished, and it is hard to regain lost vitality. The patient's strength is depleted, the system generally demoralized and relapses are continually feared."

"The one thing to aid recovery is to give the patient a blood building and strength restoring tonic, one that will give strength to every organ in the body."

Now, truthfully, continued Mr. Druehl, "I don't believe there is another remedy in the country equal to our delicious cod liver oil preparation. Vinol, for making rich, red blood, and building up strength. I say this from an intimate knowledge of almost every medicine on the market, and after duly considering what Vinol is, and has done."

"Vinol contains every one of the body-building, medicinal elements of cod liver oil, without one drop of oil to retard its work, and this with organic iron, which is a powerful constituent for the blood, dissolved in a delicious table wine, makes Vinol. It acts directly on the stomach, creates a healthy appetite, and enables the digestive organs to obtain the necessary elements to make rich, red blood healthy flesh and muscle tissue, and create strength, and you know what you are taking."

Said Mr. Druehl, "Such letters, as this prove the value of Vinol after sickness."

Mr. Edgar A. Howe of Concord, N. H., writes that after being confined to his bed for thirteen weeks with the grippe he was weak and emaciated, all tones seemed to be no avail, but Vinol restored, in a marvelous manner, his strength, flesh and appetite.

Mrs. C. H. Wardwell of Lynn, Mass., writes that after being confined to her bed for three weeks with the grippe she was weak and emaciated, all tones seemed to be no avail, but Vinol restored, in a marvelous manner, his strength, flesh and appetite.

Mr. John Emerson of Bangor, Me., writes that after being confined to his bed for three weeks with the grippe he was weak and emaciated, all tones seemed to be no avail, but Vinol restored, in a marvelous manner, his strength, flesh and appetite.

Mr. James Stuart of Pittsburg, Pa., writes that after a severe fever he was weak and emaciated, but Vinol built him up, made him strong and well.

"I might go on quoting from hundreds of such letters," continued Mr. Druehl. "You see no one need take our word for what Vinol will do, and it is because of such proof that we solemnly agree that if it does no good where it is recommended that it shall not cost a penny. That's fair, isn't it? Druehl & Franklin and Smith Drug Co."

the country into possible conflict with every other civilized nation of the earth," he said.

### Steamer Iowa Ice Bound.

Chicago, Jan. 22.—The steamer Iowa of the Goodrich line, with a crew of 50 men and 15 passengers, is ice bound near the two mile crib north of Chicago harbor. Difficulty was encountered by the boat in leaving the harbor, and several miles from shore it was unable to proceed. The boat is being kept in view by men at the life saving station, although no danger is feared. The boat has provisions for three days.

### SCARED BY A GHOST.

#### An Entire District of Hawaii Upset by One's Appearance.

Victoria, B. C., Jan. 21.—The steamer Aorangi, which arrived from Australia and Honolulu this morning, brought news from Honolulu that an entire district of Hawaii is panic-stricken because of the reported appearance of a ghost. When Shem Enokai, a well known native, died, his relatives buried him in the ground, instead of in a cave in accordance with the native custom, and they claim that on this account Shem had returned to haunt them. The ghost is said to have appeared on New Year's eve first. A feast was being held, when a native shrieked and pointed to the roof. He declared that he saw Shem's ghost. Other natives looked on, and since then the spirit of Shem is said to have made sundry appearances. The natives are terrorized and Kahuna have been sent to endeavor to lay the ghost.

### Colorado Oil Lake Tapped.

Florence, Colo., Jan. 21.—The United Oil company, while drilling well No. 312 at Spindle Top Heights, three miles south of Florence, tapped the first lake of oil ever discovered in Colorado. The oil body was encountered at a depth of 2,775 feet, and the well will have the production capacity of any six wells in this field. General Manager Wallace announced that the oil in the new well had risen to within a few hundred feet of the surface and that 500 barrels per day could be easily pumped.

## WOULD REPEAL MANY LAND LAWS.

National Board of Trade Would Reserve All Lands For Actual Settlers.

## IT FAVORS IRRIGATION WORK.

Forest Land Should be Reserved, Only Stumpage Sold—Reciprocity Advocated.

Washington, Jan. 21.—The national board of trade today adopted resolutions declaring that "the timber and stone act and the commutation clause of the homestead act, should be forthwith repealed and in future all agricultural and irrigable land reserved exclusively for actual settlers under the homestead act, and that in future the government should reserve the title to forest lands, selling only the stumpage of matured timber, and also that the forestry work of the government should be consolidated in the bureau of forestry of the department of agriculture; that the great irrigation works necessary to save from waste and utilize for irrigation the waters of our large western rivers should be built as rapidly as the lands will be taken and utilized by farmers in farms of 160 acres or less in area, and the entire cost of construction repaid to the government through a charge imposed on the lands reclaimed."

A resolution was adopted urging Congress to provide some other method than is provided in the bill now pending before Congress for the proper protection of this country from undesirable immigration.

The postal committee's report, which was adopted, approved the plan to provide small government notes with apices for making an endorsement thereon, such notes when endorsed and with a postage stamp affixed and duly cancelled to be payable at and post-offices on presentation by the payee.

The committee recommended to Congress the passage of house bill 1975, popularly known as the post check bill, and of house bill 4658, providing for the manner of payment of postage on books, catalogues and other printed matter. The committee also urged on Congress the advisability of adopting a parcel post system. The reduction of letter postage to one cent an ounce was recommended.

Resolutions were adopted favoring the establishment and maintenance of judicious reciprocal relations with the chief foreign markets of the world, and especially with the Dominion of Canada and other contiguous countries; favoring free alcohol used in the arts and manufactures; issuing of coupons with the sale of tobacco; favoring ratification of the Panama canal treaty; approving recent legislation extending the national navigation laws to Philippine commerce, and recommending that the laws be made effective on July 1, 1904.

### To Control Chicago Milk Supply.

Chicago, Jan. 22.—Under the name of "The Chicago Dairy Company," Chicago capitalists are forming a corporation designed to control the milk supply of Chicago. Organized under the laws of the state of Maine, the company has an authorized capital of \$4,000,000.

Within a few weeks, according to A. F. Hatch, attorney, one of the promoters, the company will proceed to close the options it now holds on the business of milk firms in Chicago. The principal purpose of the new company it is stated, is not to advance prices, but to raise the standard of milk in Chicago. All sold by the company through its distributors will be certified free from bacteria and all deleterious substances.

of the murderer, was a wealthy man, but was extremely miserly, living in a squalid manner in a little room of one of his buildings. George Levy rented quarters from him for disolute women, and had feeling arose between them over disputes growing out of this relation. George finally killed him and placed the body in one of the rooms, where he laid three days before being discovered.

### TO BOOM GEN. MILES.

Iroquois Club Will Push Him for President.

Chicago, Jan. 21.—The Post today says: "The Iroquois club, to which prominent Chicago Democrats belong, is preparing to boom Gen. Nelson A. Miles as the man to nominate for president on the Democratic ticket this year. It was learned today that a committee of the club has been authorized to arrange for a banquet, soon, at which Gen. Miles will make the principal address and be hailed as a bona fide candidate for the presidency. Gen. Miles has been invited to attend and has accepted. The date of the banquet has not been fixed, but it will be in the near future. The Iroquois club is one of the leading Democratic organizations of the west."

## LATEST VIEW OF MONT PELEE.

Geologists are puzzled to account for the formation of a new cone on the crater of Mont Pelee, the volcano which swept out of existence the people of St. Pierre, island of Martinique. The cone, which is slowly advancing skyward and has now attained a height of 1,300 feet, is entirely distinct from the opening of the mountain whence the destructive outburst came, and it is predicted that the new formation will ultimately be one of the wonders of the world. It is regular in shape and even at its present height is more wonderful than the famed Pileons of St. Lucia.

## AN AFRICAN CLASS IN TELEGRAPHY.

Those who have come into contact with the native Africans of Somaliland testify to their wonderful intelligence and mental quickness. In no way has this been demonstrated better than in their ability to master rapidly the intricacies of the Morse alphabet used in telegraphing. Beginning with a knowledge of no language save their own, they soon become valuable adjuncts to the military signal service in use in their country. The illustration shows an officer instructing a squad of Yaos of the Second battalion in telegraphy.

### ANCESTORS.

James M. Beck, President Roosevelt sent the following letter: "I wish I could be present at the dinner of the Holland society. Naturally I take particular interest in it, but it is simply not possible for me to make another engagement of any kind this winter. With hearty good wishes and expressing my regret that I am not with you, 'fellow Dutchmen' of New York, on this occasion."

Those at Fort Sam Houston Had Narrow Escape from Fire.

### OFFICERS' QUARTERS

San Antonio, Tex., Jan. 22.—In a raging blizzard 500 infantry and artillery men, thinly clad fell out of their bunks at Fort Sam Houston, early today in answer to a signal cannon and general fire alarm to save the officers' quarters from destruction. A row of two story frame houses was on fire opposite the adjacent officers' quarters, and a line of two story officers' quarters, enveloping the government buildings in flames. Maj. Louis Niles, of the artillery corps, had five bucket brigades at work with 20 men in reserve, until fire apparatus arrived from the city to the relief of the garrison. Several officers' quarters were severely scorched and 30 yards of fence and out-houses were destroyed. The total damage will amount to less than \$15,000, but nearly \$50,000 worth of government property was in danger, and only saved by the prompt response of organized troops to the alarm.
