

the Gospel. Real success in life is dependent upon cold intellectuality than upon heart power—a truth driven home first to the young men, then to the young women, as the speaker in turn illustrated what qualities made a good husband, and what qualities made a good wife.

Elder David Moses, grandson of the late President Woodruff, addressed the students at devotional exercises Thursday morning. Elder Moses attended during '96 and '98, and was called from his studies to take a mission.

The attendance up to date has not appreciably diminished, a fact on which Supt. Tanner warmly congratulated the school. It being in such strong contrast with some other institutions which have recently visited. The contrast is equally strong when made with our record during the same period of last year. Spring fever has not developed to any great extent as yet; while last year half the school had discontinued by the April conference.

The trio of students—in the L. D. S. yet evident—of it—who, after the trials had started, tore down the colors of the academy from the locomotive and trailed them in the dirt of the street—should take some occasion in the near future to confront a large mirror, where they can see themselves from head to foot, and recite this little stanza in concert:

"We are the heroes, we are the stuff!
We captured their colors—glory enough!
By waiting in the shadows, till the train began to move.
Hurrah, then, hurrah, for the L. D. S. U!"

BEAVER BRANCH B. Y. A.

Beaver.—The students and friends of the institution who attended the lectures on Friday evening and Saturday morning by H. S. Young of Salt Lake city, were more than delighted with the efforts, and were all of the opinion that it is "one of the events" of this school year. A feature of the evening and one that received favorable comment was the rendition of music, "D'ye Remember," "Spring Song," and Pons's "Who Knows?"

Ex-State Senator R. R. Tanner will deliver a lecture before the student body tomorrow evening.

The athletic association had rather a "warm" meeting Monday while arranging the events and details for the annual class contest, which will be held April 3 and 4.

More than thirty applications have been favorably acted upon from members of the preparatory school, who have asked to be considered as candidates for graduation from that department.

Next Saturday evening the Sunday school class of the Y. M. and Y. L. M. I. A. will entertain the Sunday school as a whole. An excellent program, including refreshments, has been provided, and a good time is anticipated by all.

The faculty entertained Friday evening at Principal Anderson's in honor of Mr. R. S. Young.

BRIGHTMAN YOUNG COLLEGE

Logan.—President Morrell of the Ogden Stake visited school last Friday and gave the students an excellent talk in chapel.

Miss Nebeker, a student belonging to the college orchestra, played a violin solo in chapel last week, which called forth a great deal of applause from the teachers and students.

On Wednesday, Judge Hart, of this city, addressed the students in chapel. He gave some very valuable advice to the students.

Professor Clark of the University of Chicago gave two recitals at the college on Monday, one at 2 p. m. and the other at 8 p. m.

A LAD'S MISHAP.

IS THE STING OF A COMMON CATFISH POISONOUS?

A Kansas Boy Pricked by a Fish's Spines, Contracts Blood Poisoning—The Family Doctor's Opinion.

A physician in Topeka, Kansas, attributed a case of blood poisoning recently to a prick from the spines of a catfish which had been left in a shallow pool by the falling waters of the Shunganunga river. It was found by a young son of Mrs. M. Barnett, of 714 Hancock street, Topeka, who captured and carried it home after a struggle. Some of the wounds its spines had made were so severe that the mother panicked them. Soon one of the lad's fingers began to swell and became very painful. A physician dressed it, but the poison remained in the blood and the boy soon began to break out with boils on his face and neck.

"He suffered a great deal," said his mother in telling the story. "His stomach became in bad condition and there were running sores on his lips which were very painful. His blood was in horrible condition and the doctor said it would require a year's treatment with blood medicine to purify it."

"Did it," she asked.

"I didn't wait to see. My mother-in-law recommended Dr. Williams' Pink Pills for Pale People and two boxes cured the boy. He has not been troubled with the boils or sores since and his blood is in as good a condition as anybody's. Do you wonder that I recommend Dr. Williams' Pink Pills?"

Master Barnett's case is uncommon only in the cause of his trouble—the sting of the catfish; impurities in the blood is a common complaint. But it is a dangerous one to neglect because disfigurements of the complexion are not the worst of the troubles it causes. Impure or impoverished blood lies at the root of most diseases which mankind is heir to. Dr. Williams' Pink Pills for Pale People are the best blood purifier and blood builder in the world as is amply proven by their long record of cures. They have cured such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, scurvy, neuritis, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions and all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are sold by all dealers or will be sent postpaid on receipt of price, fifty cents a box; six boxes for two dollars and fifty cents, by addressing Dr. Williams Medicine Company, Schenectady, N. Y.

other at 8 p. m. The former was an interpretation of "Michele," the latter a reading of the great drama "Ulysses."

The general verdict among the people is that this recital was the best thing of the kind that ever came to Logan, and that the college is to be congratulated on getting such talent before the people. The college was under quite a heavy expense in getting Professor Clark here, but was amply repaid.

President Linford was called to Salt Lake on business Saturday morning. He returned on the same evening.

Professor Chamberlain addressed the Saints in Benson last Sunday.

It was expected that the opera which is being prepared by the music department would be given before the April conference vacation, but it is now postponed until after.

Herbert Williams, one of the diligent

students of the college, has been forced to leave school on account of ill health. He has been taken to a hospital in Salt Lake, where he will undergo an operation for appendicitis. The best wishes of the students and teachers go with him.

Professor Hall will go to Malad City on the 28th inst., to lecture before the teachers of Oneida county.

The college is always pleased to note the advancements of its graduates into prominent positions. Honorable Evan Owen of Wellsville, a graduate of a few years ago, has lately been elected a trustee of the Agricultural College of Utah. The college is also pleased to note that Moroni Healer, a former graduate, has been reappointed "Food and Dairy Commissioner for Utah."

The attendance is continuing pretty well at school, although it is regretted that a few students are forced to leave, some on account of ill health, and some for want of funds.

WEBER STAKE ACADEMY

It is a very pleasing fact to note that very few students compared with the student body, are discontinuing school.

The school was pleased, especially the members of the classes of Miss McKay, when she returned to her duties after a very severe attack of throat trouble.

Prof. McKendrick gave his second and last talk on the Book of Mormon from an archaeological standpoint before the people of Marriott ward last Sunday night.

The baseball boys are hard at work practicing to demonstrate to the athletic association the ones who should play in the nine this year. We have some very good material, and no doubt "the survival of the fittest" will give a good account of themselves.

Principal McKay went to Salt Lake Wednesday to attend to important business relative to the academy, judging from a hint or two that he dropped, things augur well for our institution next year.

On Monday Dr. J. M. Tanner, superintendent of Church schools, visited us. His visit was more to the faculty than to the school. After the regular faculty meeting, he gave some very valuable educational pointers to the teachers and expressed himself well pleased with the work being done.

The class of 1903 gave a dance last Thursday evening, the proceeds of which will go to aid in the founding of their theological library. It was a great success socially and financially. The class deserves credit for it is the first class in the history of the academy to take this step. May others follow.

Senator David McKay, member of the board, gave the academy volumes 1 and 2 of the Proceedings of the Constitutional convention. It is gratifying to note the way our library is growing.

Prof. Clark of the University of Chicago has come and gone. We shall never forget his affable nature and his great mind. He arrived in Ogden Sunday day, went to Logan Monday, where he gave a recital in the evening and returned to Ogden Tuesday. He was accompanied by Mrs. Clark and together they were shown the sights of Ogden and driven as far as Ogden canyon. At noon he gave a short talk to the students of the academy. At 3:45, he gave his first lecture at the state tabernacle, on the "Interpretation of Literature."

In the evening he gave his dramatic recital of "Ulysses." The tabernacle choir furnished the music at night, and Mrs. Bessie Dean Allison the solos in the afternoon. Mr. Clark expressed himself very much satisfied with the audience on both occasions, and congratulated the academy on the way they had conducted the lectures and promised to return.

The verdict of the public is that it is the very best thing in its line that has ever come to Ogden; so far, the lecture course has been a success in every particular.

The full rich flavor, the uniform quality and the delightful fragrance of

Golden Gate Mocha and Java

distinguish it from all other coffee. It has the true flavor of the choice blends—that fine after flavor that lingers on the palate.

Sold in 1 and 2 lb. cans by all grocers.

J. A. FOLGER & CO.
San Francisco.
Importers of Fine Coffees.

Principal McKay visited the northern part of Boxelder county and talked in Collinston upon educational matters Friday night. He lectured before the teachers institute of that part of the county today.

AGRICULTURAL COLLEGE

Logan.—President Kerr and the members of the college council have had two meetings during the week to discuss work for the coming year and to arrange matter for the catalogue.

The class in telegraphy are making splendid progress under the direction of Prof. Burchell.

Dr. and Mrs. Engle were guests of Prof. and Mrs. Ostien at luncheon in the domestic science dining room on Wednesday.

Miss Francis Smith of the city was a visitor at the college on Wednesday.

The minstrel show given last Friday night by members of the athletic association was largely attended. The entertainment was a continuance of fun and wit. All members of the faculty were given proper attention by the "end men."

Prof. Ball's class in zoology is working with and dissecting star fishes and sea urchins.

Student Life for March appeared this week.

Dr. Moench of the department of modern languages, has tendered his resignation and expects to establish a military school in the south.

Mrs. Jos. A. West of Ogden visited

with her sons at the college several days this week.

Dr. Engle, chairman of the committee on summer school, has placed the copy in the hands of the printer, and the complete announcement of the work offered will be ready for distribution at an early date.

Mr. L. F. Moench, Jr., has spent the past week visiting his sister and brother at the college, and has incidentally attended the minstrel show and Midsummer Night's Dream.

A new device for making mechanical analysis of soils has been perfected by Dr. Yoder, to be used in soil survey for the station. It is expected that it will throw much light on obscure soil problems of the arid west.

A farmer's institute was held at Smithfield last Monday night. Prof. Hutt talked on the pruning of trees and plants, and Prof. Clark on the points of a dairy cow.

Prof. Caine gave an excellent address to the students at chapel last Wednesday.

Prof. Hutt is working out plans for extending the area of the lawns, and for grading and changing the drives in front of the new building.

The trunks of the trees in the orchards have been scraped and whitewashed to kill the insects and improve the appearance.

Prof. Hutt is making regular observations in the keeping test of apples from the college orchards.

Mrs. Burchell was a visitor on Tuesday.

The Agricultural College Woman's club met last Monday at the home of Mrs. Preston. Mesdames Engle, Ball, Nebeker and Ostien gave interesting discussions on masters of Dutch painting.

The seniors under Dr. Engle are studying the New Empire by Brooks Adams, as supplementary work to their course in economics.

The board of trustees met at the college today to arrange for the work for the coming year.

President Kerr was called to Richmond Wednesday on account of the accidental death of his nephew, a young son of Mr. Leroy Harris of that place.

UNIVERSITY BRANCH NORMAL

Cedar City.—On Monday morning, in chapel, Principal Porter spoke a short time on "Class Organizations," and Mr. Olbertson, a visitor from Parowan, spoke very interestingly about our course in life, and our opportunities in regard to education.

On Tuesday the principal gave a short lecture in chapel, on the "Distance of Reclamation."

In student's chapel this week, the following program will be given:

Talk..... Mr. Tebbis
Song..... Harry Lunt
Talk..... Mr. Milne

The physics class will complete the study of "Light" this week and will take up the study of "Electricity" next.

The manual training department has just received a new supply of material.

Program for Student's society, March 27:

Piano solo..... Miss Jones
Talk..... Bess Angell
Recitation..... Fay Harrison
Song..... Elsie McMullen
Recitation..... Israel Porter
Recitation..... Lannie Farry

SEIGEL'S Spring Furnishings

STAR BRAND, Fancy Colored Negligee Shirts, now ready for your inspection—in all up-to-date styles and colorings—50 different patterns to select from—cuffs attached or detached, all sizes and sleeve lengths, hand finished and laundered—

\$1.75

Men's spring weight Cashmere Underwear, different colors, grays, tans, blues, etc., just the weight for this time of year—

\$1.00 UPWARD.

THE SEIGEL CLOTHING CO.,
61-63-65 Main Street.

LYON & CO.

Come and Find Fault If You Can.

That's what we want you to do if you ever buy anything at our establishment that does not give you perfect satisfaction—that you do not find just as we represented. Come in and tell us—we'll thank you for the chance to make it right.

If you buy a diamond, buy it of us.

143 Main Street,
Tel. 1070-2.

DIAMONDS.

This is The Season

of the year when you are replacing your wooden stoves which have rotted away. Why not replace them with something which will last longer than you will. Our vitrified sewer pipe will do this and our prices are reasonable.

BAMBERGER COAL CO.,
161 Meighn Street.

The art class is drawing Indian relics this week.

The reading classes are now studying some of Shakespeare's works.

Mr. Anderson will give us another musical treat Saturday evening. It will consist mostly of singing, with some new instrumental selections by his students.

The domestic science girls will give the basket ball team a hearty reception

and dinner Friday, at 4 p. m.

The English grammar class expects to take up Burke's speech this coming week.

The boys selected for the basket ball team are, Will Reed and Henry Mitchell, guards; Ross Milne, center; Willard Gardner and Lawrence Bracken, forwards. The boys are making rapid progress, considering the little practice they have had.

Why Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: *First*—The indisputable evidence that it is harmless: *Second*—That it not only allays stomach pains and quiets the nerves, but assimilates the food: *Third*—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

Letters from Prominent Physicians Addressed to Chas. H. Fletcher.

Dr. W. L. Leister, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much."

Dr. W. T. Seeley, of Amity, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."

Dr. Raymond M. Eavis, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."

Dr. Wm. I. McCann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Dr. Howard James, of New York City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

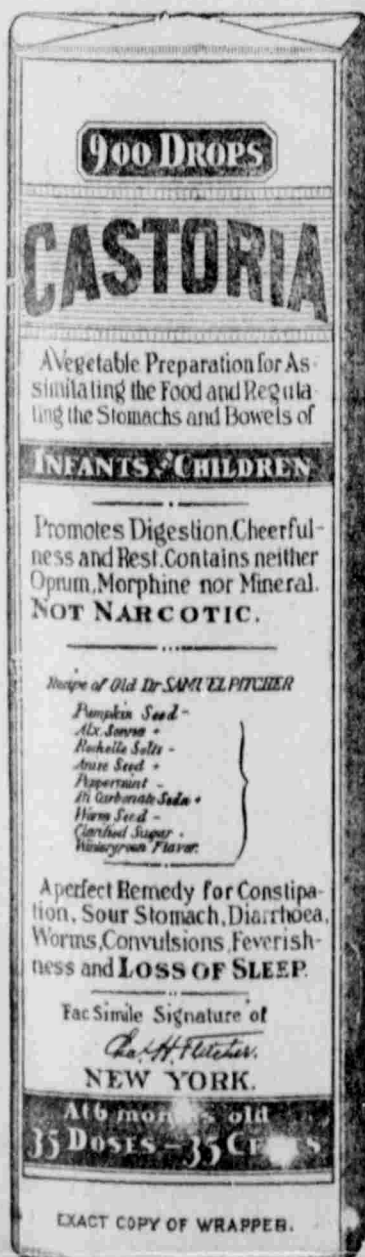

Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."

Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."

Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. Wm. L. Rosserman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

The Kind You Have Always Bought and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

GENUINE CASTORIA
