DESERET EVENING NEWS: TUESDAY, AUGUST 2, 1904

Thirteen Million, Five Hundred Forty-nine Thousand, Six Hundred Thirty-Nine Dollars.

HOW IT IS ACCOUNTED FOR. By Decrease of \$14,945,662 in the Amount of Cash Balance in The Treasury.

Washington, Aug. 1 .- The monthly statement of the public debt statement shows that at the close of business July 31, 1904, the debt, less cash in the treasury, amounted to \$980,781,413 which is an increase for the month of \$13,549,639. This increase is accounted for by the decrease of \$14,315,662 in the amount of cash balance in the treasury as compared with last month. The debt is recapitulated as follows:

Interest bearing debt\$ 895,157,540 Debt on which interest has Total \$1,284,864,992

This amount does not include \$1,102,-55,865 in cortlicates and treasury notes outstanding, which are offset by an equal amount of cash on hand held for their redemption. The cash in the treasury is classified as follows:

Reserve fund\$ 150,000,000 n treasury of Philippine is-7,316,937 lands Total \$1,398,829,075 Against which there are demand lia-bilities outstanding amounting to \$1,-69(747.495, which leaves a cash batance on hand of \$304,981,579.

CIRCULATION.

CIRCULATION. The monthly comparative circulation statement issued by the comptroller of the treasury shows that at the close of business July 30, 1004, the total out-standing circulation of national bank notes was \$450,206,858, an increase for the year of \$32,866,464, and for the month of \$871,703. The amount of cir-culation based on United States bonds was \$415,055,166, an increase for the year of \$35,415,8530, and for the month of \$2,... \$56,767. The circulation secured by iaw-this money amounted to \$351,81,732, a de-crease for the year of \$4,657,929, and for the month of \$1,225,914. The amount of United States bonds on deposit to se-cure circulating notes was \$417,955,8090, and the amount of United States and deposits at National banks was \$119,-577,500. f BICCHPTS AND EXPENDITURES.

RECEIPTS AND EXPENDITURES.

The comparative statement of the The comparative statement of the government receipts and expenditures for the month of July, 1904, sheves a defit of \$17,407.728, as against a deficit of \$1,776,613 for July last year. The large deficit is accounted for by a fail-ing off in receipts from customs and hermal revolues and increased expen-altaises of civil and miscellaneous and are add next accounts. ar and navy accounts.

COLLECTIONS.

The total collections for the month of were \$45,785,287, as follows, comand with July, 1903;

Falling hair, thin hair, gray hair'- starved hair. You can stop starvation with proper food. Then feed your starving hair with a hair-food-Ayer's Hair Vigor. It renews, refreshes, feeds, nourishes, restores color. Don't grow old too fast.

"I have tried two 'best ever sold' preparations, but Ayer's Hair Vigor beats them all for restoring the natural color to the hair, and it keeps my hair very soft and smooth."—Mrs. J. H. Marcrum, Sumner, Miss. \$1.00. All drugglets. J. C. AYER CO., Lowell, Mass.

shows that the 2,567 families consisted of an average of 5.31 persons, and that the average income for the year 1901 was \$827, the average annual expendi-ture for all purposes \$768 and the aver-age expenditures for food \$326 per fam-ity.

The principal items of expenditure were: Food, 42.54 of the total expendi-ture; rent, 12.05 per cent; clothing, 14.04 per cent; and taxes, insurance, organ-ization dues, religion, charity, books and newspapers, amusements, sickness and death and intoxicating liquors, 14.51 per cent. Each family consumed 349 pounds of

fresh beef during the year at a cost of

The lowest average price of food The lowest average price of food from 1890 to 1903 was in 1896 when it was 95.5 per cent of the average price from 1890 to 1899. The highest price was in 1902, when it was 110.9 per cent of the average price for the period. The average cost of food per family in 1890 was \$318; in 1896, \$296; in 1902, \$344, and in 1903, \$342.

Injunction Made Permanent.

Belleville, Ills., Aug. 1.-The temporary injunction granted last week, on application of the packers of East St. Louis, restraining the striking em-ployes from interfering with the operation of the plants and inen at work there, was this afternoon made perma-nent by Judge Holder. Last week the strikers asked to have the injunction dissolved.

Big Offer for Horse.

Earatoga, N. Y., Aug. 2 .- It is stated Baratoga, N. Y., Aug. 2.-It is stated here that J. R. Keene has refused an offer of \$100,000 for his two-year-old colt, Sysonby, the winner of the Flash stakes, said to have been made by W. B. Leeds. Mr. Keene is quoted as say-ing he never had any intention of sell-ing Sysonby, although he had been told by a friend he could obtain \$100,000 for the colt if he would sell.

Building Trades Strike.

New York, Aug. 1 .- The Building Trades alliance, made up of 17 unions, declared a strike today against the George A. Fuller Construction company, and work was tied up on these buildings: The Times building, Forty-second street and Broadway; Sturte-vant building, Twenty-ninth street and Broadway; Trinity building, next to Trinity church; New York Hippodrome,

Trinity church; New York Hippodrome, Thirty-third street and Broadway and the Taber building, Wall and Pearl streets. Philip Weinsheimer, president of the building trades, who declared the strike on the subway last week, is re-sponsible for the strike today. The reason given for calling out the men was because of a claim that the Fuller company has been using stone from non-union quarries and trimming yards. In some quarters, it is said that the actual reason for the strike was a

the actual reason for the strike was a fear that the Building Trades Em-

OF NIAGARA FALLS. Looks as if It is to be Finally

Harnessed by Ingenuity Of Man.

A REALLY CREAT INVENTION

Senator Gallinger and Others Take Hold of Scheme That Promises More Than Any of Its Predecessors.

Special Correspondence, Washington, D. C., July 28 .- Twenty years ago the newspapers of the state of New York published frequently articles designed to stimulate inventors to produce some method for harnessing the enormous power which daily goes to waste over Niagara Falls. It was pointed out that the man who could devise a method for harnessing this power was assured of a fortune. Scores of schemes were presented and finally a tunnel was cut through the solid rock which underlines the city on the banks of the Niagara river, and with the use of furbines a small portion of that power is utilized. On the Canadian side of the river a similar tunnel is being perfected and in addition the last state legislature authorized a further division of the waters of the river above the falls from its natural chan-

nel for heating, lighting and mechanical purposes.

But up to the present day no one has succeded in placing a harness of any kind upon that millions of horse power which are wasted every day between the foot of the fails and the mouth of the river at Youngstown. Every passenger on the cars on that superbly picturesque trolley line known as the "Gorge Railroad," has noticed the ter-rific force of the river as it shoots to-

rific force of the river as it shoots to-wards the whirlpool, and every me-chanic who takes the trip naturally thinks of the possibilities of the con-trol of that great force. Senator Gallinger, of New Hamp-shire, believes that at last a method has been devised whereby that force, and similar forces in every stream-and in fact wherever there is a body of water in motion, whether it be river, creek or ocean-can be made to do the work of steam. The senator, who is a surewd business man, has taken up the inventions of an old veteran from

a battery of electric lights and they burn stantly for several weeks and they burn as steadily as any produced by the most expensive electric light plant in the world. Since Keeley succeeded in gathering

spondent today. It was presented by hand and this (with the names and places changed) is how it read; Dear Jimmy: This will be presented to you by my old friend, William Crow-let-we call him Bill here in Cleveland-and I want you to go to the front and WHAT A GREAT to you by my old rhend, william creas-let-we call him Bill here in Cleveland-and I want you to go to the front and hustle for him. Perhaps you remember Bill's place on Superior street. He has a good business in the undertaking line and desires to extend it. In other words, Crowley thinks that there is a chance for him on the isthmus. He has heard that men die there by the hundred every day. What he wants is the con-tract to bury those who fall by the wayside, so to speak. I heard you speak of Admiral Walker when you were here last summer and I told Bill that you were just the chap to help him and I know you will for my sake. Go to the front now, old man, and see if you can't land this contract for Crowley. He's a good fellow every way and can get all the necessary testimon-ials. ials

The boys here are all well and join me in sending you our best wishes. Yours as ever, JACK GALLOWAY.

P. S.-Crowley is an A1 embalmer and if he gets the contract will fix up the friends of the commission who hap-pen to die on the isthmus in bully shape to send home. J. G.

The bureau of entomology of the department of agriculture is about to un-dertake experiments to determine what dertake experiments to determine what crops may be profitably employed to fill the gaps in the honey yield, or to create artificial pasturage for bees, and an effort will be made in this connec-tion to introduce honey plants from abroad. It is propose to import and test various races or species of bees that are now little known in this coun-try. for example, the race pative to the try; for example , the race native to the Caucasus and those found in Dalma-Caucasus and those found in Dalma-tia, Austria, and notably the large bee of the east to be obtained from the Philippine islands. The breeding of crosses will be continued, and the col-lection of statistics is proposed. Fur-ther, it is especially desired to under-take experimental and remedial work with the diseases of bees; and particu-larly with an obscure disease which has larly with an obscure disease which has been playing havec with certain apla-ries in the state of New York. C. A. HAMILTON.

Sent Bullet Through His Brain. Seattle, Wash., Aug. L .- John L. Armstrong of San Francisco, shot himself through the brain in a vacant lot here

har tonight on account of poor health. Although the bullet passed entirely through his head he is still allye. He was a well dressed man of about 55 years of age.

"To the rising generation the St. Louis Fair is a revelation of beauty and an incentive to personal effort and advancement." These are the words of Dr. Albert Shaw, the distinguished editor of the Review of Reviews. Special editorials and articles have also recently appeared in Scribner's Magazine, Harper's Weekly, Collier's Weekly, Leslie's Weekly, The Outlook, The World's Work, The National Maga-

zine and others. This shows that the influential editors of the great magazines by no means overlook the inestimable present and future advantages of an institution of such magnitude and general and special

merit. The Fair is all and more than it was The Fair is all and more than it was planned to be, and is not only a great enterprise but a most interesting spec-tacle. The statement that it had not been properly advertised has little weight in view of the large number of influential editors who have placed upon it the seal of journalistic approval. The only regret is that every man and woman, every boy and girl in the country will not be able to gaze upon its wonders. Not only to those who stay at home but to such as actually visit St. Louis the Forest City Series of World's Fair Art Portfolios - will constitute a

at home but to such as actually visit st. Louis the Forest City Series of World's Fair Art Portfolios will constitute a highly prized possession. As our readers are well aware, this magnificent pictorial and descriptive history of the event is now being supplied at the merely nominal cost of ten cents for each portfolio. There are 30 parts in all and they contain 480 views, which are the cream of the collection secured by the official photo-grapher, and all the descriptions are written by Walter B. Stevens, the official Secretary of the Exposition. The Forest City series is the only collection of Exposition views which has the approval of the World's Fair authorities. It constitutes an irstructive, interesting and almost in-spiring possession for the home, and that it is highly appreciated is shown by the fact that the distribution is in-creasing each week among our readers.

creasing each week among our readers.

Just think what a small proportion of the families of the United States have a good DICTIONARY, and yet this is the home of the public school, the land of universal education.

By special arrangement with the publishers, G. & C. Merriam Co., The Deseret News can make you a special low price for

Webster's Unabridged Dictionary [1903 Edition]

The Best of its kind-

BECAUSE it is used as the standard by the United States Supreme Court and by nearly all of the Federal and State Courts.

BECAUSE it is the standard in the United States Government Printing Office at Washington, and in the executive departments gen-

work of steam. The schart who has a survey business man, has taken up the inventions of an old veteran from Michigan who has apparently solved the problem which has worried me-chanical and hydraulic engineers for a generation. This inventor, William L. Walter, of Pontiac, has obtained pat-ents upon a number of hydraulic mo-tors designed to use the power of cur-rents of the striams and waves of the occans. That he can produce electricity from a river current he has demon-strated here in Washington. There is in the Potomac, just above the city, one of these motors installed in the bottom of a flat boat which has kept a battery of electric lights burning con-stantly for several weeks and they burn

in thousands for the development of his mythical motor the public with money to invest has been exceedingly chary of all such promising devices. But that Walter has a good thing would seem to

EXPENDITURES.

There was an increase in the interst syment of \$201,000, accounted for by be fact that last year the July interit was anticipated to a large extent.

J. w. Womack Drowned.

Bolse, ICa., Aug. 1.-News has reachd this city of the drowning of John W. orack in the Payette near Emmet. Is supposed he was thrown from his tas, while fording the stream. He vas missed and as his horse went home referies it was feared he had lost his life. Search was made and his body was found some little distance below the ford. He is the sixth man drowned a but stream this that strain this season.

Spincer Was a Forger.

Grinnell, Ia., Aug. 1.-The irregulariits in the management of the First National bank of this city, whose cash-er, H. C. Sponcer, nict death with his son in a mysterious double drowning 300 in a rysterious double drowning two weeks ego, include not merely the embeziemen, of funds but also exten-tive forzerics. Evidence, of this fact came to light today in the discovery of labe bogus notes purporting to be signed by as many prominent farmers and Lusiness men of this section. The time notes argregate \$7,479.

Watchman Shoots Police.

Kansas City, Mo., Aug. 1 .-- Wesley Servoids, a police sergeant, was shot and fatally wounded tonight by Nor-nam Rupe, a watchman at Swift's pant. Rupe had just fired at a striker and was explaining the occurrence to Reynolds. Rupe was very nervous and a ts beleved he undatatement dis is holler charged his visiol, the ball taking efunintentionally dis-

The Malacca Ordered Released.

8. Petersburg, Aug. 2.—The govern-ment has issued an official announce-ment of the release of the steamer Malacea, which was seized in the Red sea by the Russian volunteer fleet sea by the Russian volunteer fleet cullages. It states that the liberation of the vessel was due to the declara-tion by the liritish government that the property was the property of the

COST OF LIVING.

Carroll D. Wright Gives Statistics Showing What it Is.

Washington, Aug. 1.-Carroll D. washington, Aug. 1.—Carroil D. Wright, commissioner of the labor bureau, in the eighteenth annual report of the bureau made public today, gives the results of a comprehensive inquiry into the cost of living since 1556 and into the average wage rate during those periods. The showing so far as concerns wages has been made public bretofore, an investigation of 519 occu-pations, representing 67 industries in May separate establishments having shown an average therease in wages

Separate establishments having shown an average increase in wages during this period of 16.6 per cent. The inquiry into the cost of living shows that living for workingmen's that living for workingmen's fear had increased during this period 16.5 per cent. In order to ascertain this saverage increase, the labor bureau secured the income and expenditure in detail of 2.567 families in 33 states, retail prices being taken. The statement tail prices being taken. The statement The sensational cycle whirl, Saltair this week.

To Notify Davis.

New York, Aug. 1.-Secy. Woodson of the Democratic national committee tolay sent a telegram to Chairman John Williams and other members of the committee to notify Henry G. Davis of his nomination as vice president to meet at White Sulphur Springs, W. Va., Aug. 17. The arrangements for the no-tification are in charge of John T. Mc-Graw, member of the national commit

Trial of the Ohio.

Santa Barbara, Cal., Aug. 1.—The big battleship Ohio, one of the latest and most powerful models of fighting craft built for the United States government, bad her effective total the la Section Par built for the United States government, had her official trial trip in Santa Bar-bara channel, off this port, today. She fell short of the government require-ment which is 18 knots an hour for a period of four hours, by the very small-est fraction of a knot. In fact the big vessel was only .09 of a mile from the home stake boat when the time ex-pired for her to have completed the run at the average of 18 knots an hour. This record, however, is calculated as surface time, and it is confidently ex-pected by members of the trial board and representatives of the builders that when tidal correction and deductions

when tidal correction and deductions shall have been made the Ohio will show a speed of more than 18 knots for snow a speed of more than 18 knots for the entire distance of 72 knots. Tonight the trial board is figuring out tidal and wind corrections which it is thought will put the vessel within the required speed.

SELLING RATINGS.

Naval Board Will Make Investigation of the Charge.

New York, Aug. 2 .- A naval board is investigating reports that certain petty officers on the receiving ship Hancock, stationed at the Brooklyn navy yard, have been selling ratings or

promotions to sailors for cash. The reports were started by blue jackets, who talked freely of the matter ashore. When the commissioned officers on the ship and in the yard heard of these reports, they reported to the navy de-partment and aboard was detailed to

investigate the rumors. A new blue jacket recently appeared on the Hancock. It was said that he had been transferred from the Wash-ington navy yard. On the Hancock, it is alleged, he had a talk with a petry officer about his rating and paid \$25 for an advancement. Not long after-ward he was jumped from landsman to second class fireman. He enjoyed his honors only 48 hours, disappearing suddenly. It now turns out that he was a secret service man who had been sent on to get evidence. Three petty officers have been suminvestigate the rumors.

Three petty officers have been sum-moned as witnesses to Washington. The blue jackets at the yard say that graft. ing has been going on for a long time, unknown to the commissioned officers, however, until recently.

be indicated by the fact that in addition to Senator Gallinger a great many wellknown men have invested money in a company which has been formed to ex-ploit his inventions. Among them are ploit his inventions. Among them are Speaker Cannon, Congressman Sam Smith of Michigan, ex-Congressman Charles F. Joy, of Missouri and Com-mander Bartless, of the U. S. navy. Mr. H. H. Darneille, the head of the board of assessors of the District of Columbia, and a man widely known throughout the east and south, is the president of the company. It is proposed to manu-facture these motors on an extensive

Indian Woman Found Dead.

facture these motors on an extensive scale and to install them along the seashore and in running streams. Inas-much as more than 70 per cent the cost of producing power is chargable to fuel in nearly all the manufacturing plants of the country it will be readily understood that Walter's inventions are worth millions of dollars if they prove as effective as the men who have pur-chased them believe they will. During this summer and autumn a flumber of further tests will be made and the suc-cess of these tests will mean a revolution in the cost of furnishing heat, light

tion in the cost of furnishing heat, light and power in practically every city, town and village in the country. The United States National museum, which was created in 1877, has grown to such proportions that the building in which it is located has insufficient space to house a fifth mart of the artiin which it is located has insufficient space to house a fifth part of the arti-cles which have been collected during the past 30 years. A year ago Congress authorized the erection of a new build-ing at the cost of \$3,100,000 and Messrs. Hornblower and Marshall, the eminent architects of New York city have been engaged to prepare the plans. The Na-tional muscum, while not directly an adjunct of the Smithsonian Institution is connected with it and the officers of is connected with it and the officers of both work together in harmony, as do some of the scientific attaches of other departments. When the late chief of the Bureau of Ethnology, Major Powell, died, Dr. Holmes, who has done much to make the National museum what it is, was appointed to succeed him. Dr. is, was appointed to succeed him. Dr. Holmes is greatly interested in the mu-seum and he is anxious that the new building shall exceed in beauty and utility any like structure in the world. In order that this may be done Dr. Holme has gone to Europe in company with Mr. Marshall of the firm of the architects, and sev-eral other gentlemen who are interested in the subject. They sailed this week and will visit every museum in Europe.

and will visit every museum in Europe, from the British in London to the Musee de Naples to get an idea of the best features of each. It will be several years before this

new building is ready for occupancy, but when it is opened to the public those who are in charge propose that it world. While the National museum is behind others in Europe in its collec-tions of old world antiquities it has every one of the most celebrated "beatevery one of the most celebrated "beat-en to a frazzle" In the matter of ex-hibits of all American subjects from the arts of the Aztècs and the Incas through the architecture of the Cliff Dwellers down to examples of modern methods of agriculture. No one can have an idea of the treasures which are stored in boxes in a dozen different buildings, all of which belong to the museum and none of which can be seen until the new building is completed and opened to the public.

until the new building is completed and opened to the public. Congressmen and newspapermen re-ceive duily all sorts of requests from "people at home." The-and it must be understood that the writers are called on as frequently as the politicians-are asked to aid a man in quest of a con-sulate or an army commission or a wo-man who wants a place or a pension. They are queer documents, these re-quests, but perhaps the queerest ever quests, but perhaps the queerest ever received came to a newspaper correquests,
