

# **EVENING NEWS.** Wednesday May 12, 1886

## **FRAGMENTS.**

The brakemen's strike along the Union Pacific has collapsed.

NICHOLAS OGDEN was fined \$5 this morning, for drunkenness.

A PURSE containing a small sum of money has been found. See adv.

There is a letter at this office from Cape Town, for Mr. William Chamberlain.

The trial of O. P. Arnold is set for Saturday morning in the Third District Court.

The Park City express will leave this city at 4 p. m. on and after the 14th inst., instead of at 4:15.

The grand jury have ignored the charge of murder against the Monson girl, of South Cottonwood.

The civil suit of J. C. Bowring vs. W. C. Bowring was on trial in the Third District Court to-day.

HOTT SHARMAN, Jr., of the Union Pacific, A. Allen, general agent of the Burlington route, and Mr. Marsh, of the Chicago and Northwestern, went east this morning.

We had a visit to-day from Mr. W. D. Mann, General Agent of the Chicago, Rock Island and Pacific Railway. He is on his way to California, on a pleasure trip, and is accompanied by Mrs. Mann.

JOHN KELLY, Thomas Connor and John Smith, indicted for committing a burglary at Brigham Junction station, on the D. & R. G. W., were tried before a jury in the Third District Court this afternoon.

HENRY WAGNER was being tried in the justice's court this afternoon on a charge of violating the Territorial statutes by selling liquor on Sunday. The offense is alleged to have been committed by him on Sunday, March 14th. It is understood that the reason why prosecution was delayed is that Mr. Wagner has been absent from the county the greater portion of the time.

## **LOCAL NEWS.**

**Entertainment.**—To-morrow the people of the 10th and surrounding wards will be regaled with two dramatic performances, afternoon and evening. The first piece is a four act drama, entitled "Better than Gold," and the entertainment concludes with the hilarious farce of "Chiseling."

**The Arnold Case.**—The witnesses in the case of the United States vs. Oren P. Arnold, indicted for violation of the Edmunds law, were on hand at the Third District Court this morning. Mr. Arnold was not present, being absent from town on business, but returned to the city during the day. The Court issued an order that he should be present to-morrow morning to plead to the indictment, found against him, and the trial will probably take place on Saturday, at which time the witnesses were instructed to be present.

**Deputy Registrars.**—The Utah Commission have passed on the following additional names as registration officers for the precincts named:

**Sevier County.**—Annabell precinct—Leland Thompson; Burrville precinct—W. H. Schenck; Central precinct—A. H. Hawley; Redmond precinct—Chas. Haysman; Goodhue precinct—Wm. T. Leonard; Blaine precinct—Wm. Smith; Monroe precinct—J. C. Carter; Glenwood precinct—W. M. Cook; Richfield precinct—Nels Anderson; Salina precinct—Fred E. Willis; Vermilion precinct—O. Cuddeback; Willow Bend precinct—John Larson.

Thomas Davis has been appointed instead of George F. Reynolds, for Woodland precinct, Summit County, and E. L. Carpenter vice B. H. Young, Jr., Winter Quarters precinct.

**Change of route.**—The Utah Central Railway company have issued a new time table, No. 26, to go into effect on Friday, May 14th. A number of changes have been made and trains will now run as follows:

Leaving Salt Lake, northward—Passenger, 8 a. m.; freight, 9:30 a. m.; and 4:30 p. m. Arriving in Salt Lake City from the north—Passenger 11:25 a. m. and 7:13 p. m.; freight, 8:50 a. m. and 7:15 p. m.

Leaving Salt Lake, southward—Passenger, 7:30 a. m.; freight, 9:30 a. m. Arriving in Salt Lake from the south—Passenger, 6:10 p. m.; freight, 4:30 p. m.

The station formerly known as Desert, Millard County, is now called Oasis.

**The Southern States.**—A missionary writing from South Carolina gives an encouraging account of the progress of the Gospel in that section. There is a general spirit of inquiry into the doctrine taught by the elders, and new members are being constantly added to the Church by baptism, though the number of these is not at present very great. Considerable opposition is being manifested by some of the sectarian organizations, but no violence is offered. The pressure is now brought to bear on the converts rather than on the elders, as the opponents of the truth seem to begin to realize that persecution of the elders raise for them friends. Recently a former member of the Baptist denomination received the Gospel, and the society to which he had belonged gave him four months in which to retract the step he had taken, under threats of making it warm for him if he failed. Such a course as this, however, serves rather to increase than diminish the faithfulness of the Saints.

**The Theatre.**—"A Bunch of Keys" was played to a light audience at the Theatre last evening, and went off in its usual lively style. This evening Baird's Minstrels will present themselves. They played at Ogden on Monday evening, in a crowded house, and at Provo last night, and came to this city at an early hour this morning for their parade, when their fine band discoursed some excellent music. Of the Minstrels the Troy Times says:

"It was an entertainment of which any manager might feel proud, and presented many new features, all of a refined nature and of even excellence. The first part, in which new ballads were rendered by five voices, was very well received, and presented by cute comedians, new refrains sung by the end men, continued for an hour, giving way to a series of specialties which were novel and admirably done, and followed each other with lightning-like rapidity. The extravaganza presented in conclusion was notable as being something entirely new, every character being costumed magnificently and it was the best bit of burnt-cork comedy ever seen on stage. The band which accompanied Baird's Minstrels is beyond dispute the best traveling band which ever visited our city.

They appear for two nights, and the next attraction at the Theatre is announced to be the "Mixed Pickers" company, on Monday and Tuesday of next week.

## **CITY COUNCIL.**

The City Council met in regular session, at 7 o'clock last evening, Mayor Armstrong presiding.

The petition of 128 residents and taxpayers, asking the City Council not to lease the Warm Springs, but to manage it directly hereafter, through an appointed officer, in order that citizens might enjoy the luxury of a bath at a nominal charge, was read and referred to the committee on public grounds.

Pratt and David R. Bebee asked that they be given the contract to keep the repair one mile of West Temple Street and one mile of Fifth East (the Drive) from the southern limit to the city northward, at the rate of \$250 per month per mile. Referred to the committee on streets and alleys.

Jos. E. Walker was granted permission to pile building material in front of his premises on Fourth South.

Fernamor Little and others asked that in case the city decided not to lease the Warm Springs, Arthur Cummings be appointed as officer to take charge of the same. Referred to the committee on public grounds.

Harry Freeman, keeper of a small livery stable, asked a free license to bring extreme poverty and the ill-health of his family as his reasons. Referred to the committee on licenses.

James Prescott was granted a free license to peddle brushes.

The application of Mrs. Letitia Jones for a merchant's license was referred to the committee on licenses.

M. W. Taylor, city assessor and collector, submitted a list of taxes assessed by him, and asked that he be heard on the matter. Referred to the committee on finance.

The auditor presented his semi-annual statement of the condition of the sinking fund, as follows:

On hand Nov. 11, 1885, \$12,598.14  
 Appropriations of Jan. 1886, 14,429.47  
 April 30th, interest on investment in Utah Southern Ex. \$700.00  
 Total, \$27,726.61

**DISBURSEMENTS.**  
 Bonds canceled, \$1,000.00  
 Interest on bonds, 17.00  
 Sinking fund on the bonds outstanding, \$9,282.50  
 Total, \$10,300.00

Balance, \$19,426.61, of which \$10,000 is held in Utah Southern Extension 7 per cent bonds, and \$9,426.61 in cash on hand. The revenue for the months ending April 30th, 1886, amounted to \$65,401.51, over the deficit of \$12,680.36, was to be added to the sinking fund, according to law. Referred to the committee on finance.

The committee on improvements reported favorably on the petition of O. J. Salisbury and others, asking that street lamps be placed on First South between Fifth and Seventh West Streets, and recommended that four lamps be placed on the block at once erected.

The committee on irrigation reported favorably on the petition of W. C. Spence and J. H. Loveland, of First North Street, asking permission to lay pipes from the Nineteenth Ward Irrigation ditch to their residence.

A bill was presented from the Goddard Pitts Coal Company, for \$4.60, for the shooting of two rows of coal. Dr. Young's prescriptions for April. After some discussion, the matter was referred to the committee on city affairs to adjust with the quarantining physician.

The committee on city affairs reported that the committee on city affairs should make the doctor for medicine, or whether the city should pay for prescriptions.

The following amounts were appropriated: To the canal fund, \$2,000; to the Superintendent of Works, \$10,000; to the Chief of the Fire department, \$250.

Alderman Poyer called attention to the fact that frequent complaints had been made at the police office relative to the shooting of cats, and that the city should be instructed to publish and enforce laws relative to shooting cats in the city limits.

Alderman Poyer introduced a bill for an ordinance to license scavengers, and another for an ordinance to regulate nuisances; the latter prohibiting the keeping of pigs within the city limits, and the digging of any privy vault, and contains a number of excellent provisions preventing the dumping of any refuse, or of filthy matter within the city limits; relative to the cleaning of barns and cow yards; the manner of the performance of the duties of scavengers, and named the limits of the city digging grounds where refuse is to be thrown. Both bills were referred to the committee on sanitary affairs.

A petition was read from John Schofield, asking the duty of attending to the City Bath House be given into his hands. Referred to the committee on public grounds.

The Council then adjourned for one week.

**The Sparrow Shooters.**—Two young boys, E. A. Snelgrove and Chas. Evans, who have been engaged in shooting sparrows with a rifle, were taken into custody on a charge of unlawfully discharging firearms within the city limits. The boys had not engaged in the business to any great extent, and pleaded their entire ignorance of having violated any ordinance. The Judge gave them some excellent advice, and suspended sentence on the boys promising that they would not offend in future.

In connection with the arrest of these boys a number of very narrow escapes from injury were related, and of which, however, could be traced to the acts of those in custody, but sufficient to show that the practice now being pretty generally indulged in by many boys and young men was dangerous in the extreme. Under the instructions of the City Council, the Marshal has taken steps to relieve the people from fear of accidents in this regard. Bills have been issued, and are being posted up in various places, containing the following:

**NOTICE.**  
 Chapter 7, City Ordinances, "Crimes and Punishments."

"Sec. 35.—Any persons discharging guns or pistols within the limits of the City, between the hours of sunset and sunrise, or on the Sabbath day, (except in self-defense, or in the case of any civil officer in the discharge of his duty) shall be liable to a fine of not less than one and more than ten dollars for each offense.

"Sec. 40.—Any person or persons discharging firearms within the limits of the city, without a lawful breast-work or battery, or for the purpose of the citizens, shall be liable to a fine of not less than one, nor more than five dollars, for every such offense.

"Sec. 41.—A breastwork or battery for target shooting, to be deemed lawful, shall be a wall eighteen inches thick, six feet wide and six feet high in the back, with side wings one foot thick, each extending two feet, increasing in height to the front, and six feet high at the top, or of the equivalent of other material."

All violations of the above provisions will be strictly prosecuted.

City Marshal.  
 May 12th, 1886.

**Coal Miners Wanted.**—From 25 to 30 brethren who are accustomed to work in coal mines can get employment, if they apply forthwith, in the mines at Almy, Wyoming. The application should be made at once to W. W. Clint, Coalville, Summit County, who will forward a pass to convey the applicants from Ogden. Those who desire to go should do so in parties of from 6 to 15. There is a branch of the Church at Almy, and meetings are held regularly.

Train date of departure: Edward Baird has been deferred until Saturday, to give his attorney time to prepare necessary papers in the case.

## **COURT PROCEEDINGS AT BEAVER.**

Beaver, U. T., May 12, 1886.

Editor Desert News.

Judge Boreman charged the jury late Saturday night. There was nothing in the charge. He stated to the jury that they understood what was wanted of them; the violation of the Edmunds law was a sunk in the nostrils of the nation, good men and true were everywhere, and must be suppressed. Three indictments were brought into court for violations of the Edmunds law. The families of M. L. Shepherd, W. J. Cox and George Hales have been before the court, and the trial is set for to-morrow. The Oregon label case for Friday, William G. Bickley's trial for Saturday. George Hales has just been arrested on an indictment for unlawful cohabitation.

**MOONSHINE.**

Concert.—A Sunday School concert will be given in the Ninth Ward meeting house on Thursday evening. The program consists of songs recitations, dialogues, etc. The entertainment will close with the laughable farce of "Neighbor's Wife."

**A Fine Well.**—City Marshal Solomon has located on his premises in the 14th Ward what is probably the finest flowing well in the county. He drove a 1 1/2 inch pipe and at a depth of seventy-one feet struck a stream of cool, pure water, which flowed out at the top at the rate of over 60 gallons per minute. With a hose and nozzle attached to the pipe the water can be thrown a distance of about 75 feet, and the stream will easily go over his house.

**Water Wheels.**—There have been recently placed in Green River, in Emery County, four water wheels, two below, one above and one at Blake City, two miles above Green River Station, on the D. & R. G. W. The one at the latter place has a lifting capacity equal to all of the others combined, and was built by Cox & Co., of Mr. Packer, at a cost of about \$1,600. The wheel, which is an undershot, is set out in the river about fifty feet, and is strongly protected from damage by driftwood or from the possibility of being washed out, and throws water into a flume 27 feet above the surface of the river at a rate of 600 gallons per minute, a quantity which is considered sufficient to irrigate at least 200 acres of cultivatable land. From the various peculiar circumstances which surrounded the building of the large wheel the expense was about three times as much as would be the cost of other and similar wheels in the vicinity.

There are but few settlers in the vicinity of Blake City at present, but the prospects for an increase is good; quite a number of those at Price intending to remove to the former place.

The citizens said to be unsurpassed in any part of Utah, the river is able to flow all of last winter with the exception of two weeks, and the soil is very good, the greatest difficulty having been the getting of sufficient water for irrigation. Now that this drawback is being successfully overcome, the desirability of the country is sure to follow.

**HONOLULU'S BIG FIRE.**

SEVERAL LIVES LOST—OVER \$1,500,000 GONE UP IN SMOKE.

The latest mail advices from the Hawaiian Islands brought the news of a terrible conflagration in Honolulu on the afternoon of Sunday, April 15th. The entire Chinese quarter is included in the burnt district, which is estimated to cover an area of about 100 acres. The fire originated in a cook house on the corner of Smith and Hotel streets, in the heart of the Chinese quarter, and spread rapidly in all directions.

Soon crossed and worked its way along Hotel Street on both sides, as well as towards Fort Street on the alkali side. In other words, the fire made a clean sweep of the closely packed buildings, and advanced with the speed of the compass. This was rendered possible from the unscientific way in which the Chinese block had been built upon. There was not a square foot of unoccupied ground, and when they got to the end of the street, the fire found its way into the Chinese district, and towards the river on the Ewa side.

## **REFRIGERATORS,** ALASKA AND CENTENNIAL, at DINWOODEY'S.

Thousands of people suffer in silent patience from disease of the bladder. If there is anything more distressing among chronic diseases, medical literature is full of records to prove it. A paper is in place in which to describe the particulars of this agony. Every victim knows it for himself. But every victim does not know what thousands have found in what has been restored to health by means of Warner's safe action of the kidneys, drives the acid irritant from the blood, reduces the congestion, and after a thorough course of treatment the formation of mucus ceases, the elasticity of the bladder returns and health and happiness are regained.

**Blood Will Tell.**  
 CINCINNATI, Ohio, Nov. 17, 1885.—In April, 1881, my daughter was taken sick with a complaint of the bladder. She continued to grow worse under the best medical treatment. Only temporary improvement was obtained. She grew rapidly worse, and at this time, had palpitation of the heart, intense nervousness, and at times delirium, and physicians said that of the bladder. She refused to eat or drink. I saw Warner's safe cure and Warner's Kidney Pills, and bought a box. I gave her five pills, and in ten days she was much better, and in 100 days after she gained fifty pounds in weight, and was able to return to good health.—JOSEPH H. THORNTON, room 9, Johnson Building.

**BIDS WANTED.**  
 Separate bids for each Brewery addition will be received until the 10th by the A. Fischer Brewing Co., for the rock and brick work, also, for the masonry work of the new Pianos, etc., at the Brewery.

**New Carpets from 35 cents per yard.**  
 Curtains and Portieres.  
 At Auerbach's.
