MINING, BUSINESS AND STOCKS

FORENOON ON MINING EXCHANGE

Daly Judge and Wabash Were Among the Active Park City Stocks.

VICTORIA WAS IN DEMAND.

Lower Mammoth and Little Chief Also Represented Tiutic-Closing Quotations and Sales.

Compared to some days last week the business done on the floor of the Sait Loke Stock and Mining Exchange during this forenoon was rather brisk. A total of 9,429 shares of stocks were sold. for which was paid the sum of \$7,117.71. Daly Judge found a buyer at the quetations prevailing last week, 200 shares going at \$6.75; on the open board. Lower Mammoth, Victoria and Little Chief, all of the Tintic district, were in demand but at no advance. Wabash, of Park City, went at \$1.8716. On the open board Silver Shield was bought at 22 and 2214 cents. Comstock of Park City found a buyer at 20 cents, but only 1,000 shares changed hands,

The closing quotations and gales were

CONFIDENCE IN CRESCENT. William Murray Believes It Will Become A Permonent.

William Murray, an old time prospector whose trail is known in every section and mineral bearing zone of the coast, says the Los Vegas Times, was at Tanopah, Geldheld and Builfrog in the early stages. In each he holds locations and disposes of some to advantage, He has been in the Crescent district for the past three weeks. His examination and prospecting in that district convinces hi mintat it has a better showing for a permanent mineral ter showing for a permanent inimeral producer than either Builtrog or Gold-field. He considers it one of the best mineralized zones in the state, and

Because Substitutes Fail

don't blame the original-but insist on

with such confidence in its future has made locations and returns to do de-velopment work on the same. As an experienced miner and prospector he speaks with confidence of Crescent's

view expressed by Murray is the w of every prospector and practical ning man that has been in the dis-ct. The showings and mineralizais so great as to attract same, development and practical mining observations of these practical men

WHAT CHEER LEDGE. Ohio Copper Company Will Develop It At Once:

The Ohio Copper company has commenced an important piece of development work, according to information released by Manager Henry Catrow during the day,

The development of the What Cheer

ledge at depth, is to be undertaken. A crosscut has been started from the 400 level of the workings on the All's Well iedge.
Although the former has been known

ontain some rich deposits of copper no attempt has been made heretoore no attempt he fore to develop it. fore to develop it.

Frank Cook, when manager of the property, when it was operated by the old Columbia Copper Mining company, shipped considerable ore from near the surface workings, some being sent to the smelter in the crude and other lots in the form of concentrates.

U. S. COMPANY WINS. Another Chapter Closed in Fight for

Rich Kempton Lode. The United States Mining company has won another point in its scrap over the apex to the Kempton lode mining claim in Bingham and in which Col. E. A. Wall is the principal defendant. The application made to the supreme court of the United States for an apcourt of the United States for an appeal from the circuit court of appeals has been denied, the ruling having been made by Justice McKenna, to whom the arguments were submitted. As the matter now stands the United states company is in reality the owner of the Kempton lods, a property having a valuation of over \$1,000,000 and Col. Wall is the loser to that amount, However, the case is not entirely settled, as Col. Wall still has the right to carry the matter before all members of the supreme court of the United States on application for a writ of certiorart. This move, however, will be fimal.

UNWATERING OLD SHAFTS. Some Practical Suggestions Made by Mines and Minerals.

Mines and Minerals.

It is not uncommon for shafts or other workings, temporarily abandoned, to fill with water. A cross-cut tunnel may be driven in to undercut the shaft and let out this water. Thus is sometimes a dangerous undertaking and in cases has resulted in fatal accidents. There may be no perfect maps kept of the old workings and much uncertainty as to their location, depth, and extent.

Hence a bore or an upraise made from the tunnel may encounter the water-filled workings quicker than expected. A miner who has had considerable experience in unwatering old workings found it a good plan, in the case of a shaft, to throw down a few tons of stiff clay into the shaft and let it die there a little while until the pressure of the water had, compacted it into a firm stratum.

trattum.

The pressure of water is very great
respectively. We re-The pressure of water is very great in some underground mines. We resimember visiting the workings of some of the downtown mines of Leadville which had for a long while laid watersoaked, the clay and sand were so firmly compacted in some of the workings that the strattum so formed had to be biasted out. When the clay is assumed to be sufficiently compacted at the bottom of the shaft, the miners can bore or upraise from below and as soon as they reach the clay they can know exactly where they are, and by a shot or hole, can let the water down gradually with perfect safety.—From July Mines and Minerals, Scranton, Po.

THE OVERLAND MILL. Plant Will Start as Soon as Water is

Brought Into Camp. Superintendent M. A. Sheets of the Superintendent M. A. Sheets of the Overland mill at Sunshine departed for camp yesterday morning after having spent a day in the city during which supplies were purchased. Mr. Sheets says the mill will be ready to go into commission just as soon as some slight repairs are made in the water pipe line between the camp and Fairfield; the latter point on the Tinstie branch of the Salt Lake Route, being the source of supply.

The management of the Overland properties is in the hands of E. W. Clark, manager of the Ophir Hill mine at Ophir.

MYERS STRIKES IT AGAIN. Discoverer of Goldfield, Nevada, May Make an Another Fortune.

Al. Meyers, discoverer of floidfield and of the famous Combination mine—now paying dividends along the hundred thousand dellar merk each month—has made a most substantial thestrike on the Combination fraction, mays the floidfield Sun. Mr. Meyers said last evening that the strike is one of the best ever made in Goidefild. He gave some startling figures as those obtained from ore taken from the Fraction. It is understood that the rock assays into the hundreds.

Mr. Meyers has been developing the Combination Fraction for some time, He has always had unbounded faith in it, and now he feels that soon he will have across the way from the Combination as big a property as the original. Meyers, discoverer of Holdfield

Greatest on Earth.

A. W. Tibbais, a brother of W. H. Tibbais, has arrived in the city from Goldfield, Nev., where he has been for more than a year. He will remain in the city several days when he will return to the gold camp which he characterizes as being the greatest on earth for its age,

DELINQUENT SALE.

Eighty - Three Hundred Shares Sold for Assessment and Costs Today.

STARTS STORM OF INDIGNATION

Stock Sold on Exchange a 2216 Cents A Share-Investigation To be Started.

A delinquent stock sale was held at the offices of the Silver Shield Mining company today. There were 8,300 shares of stock, upon which the owners atlowed their assessment to lapse, disposed of under the hammer for the amount of the assessment, three cents a share, and costs. This sale caused he end of indignation when it became known on the street. Charges of conlusion and fraud were alluded to and it was declared by many that unless the officers of the company make things right, it is very likely that the courts will be asked to go into an investiga

pany sold on the exchange during the forenoen as high as 22½ cents a share; it is alleged that at least 1,000 shares of stock bought in for the assessment and costs, were among the lots transferred. This fact makes it seem out-rageous. That the officials of the com-pany should permit the sale to go on and offer no protection to the share-holders, who, perhaps, have put up for a good many previous assessments an allow a few unscrupulous persons to buy the stock for a mere nothing an almost within an hour offerwards walk down to the exchange and dispose of l

down to the exchange and dispose of it at a profit of about 18 cents a share. No such outrage as this one has been committed on the public since the May Day affair several years ago when several thousand shares of that stock were sold under the same circumstances. In this case the May Day company annulled the sale and made good to the stockholders who had been sold out. This is what will be done in the case of the Silver Shield company.

will be done in the case of the Silver Shield company.

In justice to President Henry Cohn and Manager H. S. Joseph, it is well to state, that they were both out of the city at the time of the sale. The former will be home this evening, but Manager Joseph is in Los Angeles. Undoubtedly, when they hear of what has happened in their absence, they will take steps to protect those who deserve protection.

Several members of the mining exchange thought steps should be taken

change thought steps should be taken to erase the stock from the blackbeard. but they were not aware that the hear officials of the company were not in

town.

It was learned this afternoon that the directors who are in the city had instituted an investigation and proposed to see that no lojustice is done It appears that at the sale no officer,

It appears that at the sale no officers of the Silver Shield were present. No one was there to represent them but the clerk in the office of Secy. Joseph, who is authorized to issue certificates in case of any transfers. The clerk, it was learned late this afternoon, has refused to make any further transfers until Manager Joseph is heard from. The fact that this was the sale day for the delinquent stock was generally overlooked, which gave a few persons a chance to get logether and agree among themselves not to enter into any competition in the bidding and aftercompetition in the bidding and after-wards make a division of the spoils,

SUNRISE BULLION. Company Received \$7,000 on a Twenty Five Days' Run.

General Manager Lochwitz of the Sunrise mine of Park valley came down from camp on Sotudray night with the last clean up of the 25 days' run of the Century mill during which period the latter was under lease to the Sunrise company. During the 25 days, gold buillon to the amount of 400 ounces was produced, bringing the company considerably over \$7,000. The company expects to build a plant of its own in the near future. neur future,

CONCENTRATES.

The directors of the South Columbus Mining company of Alta have levied another assessment of a cent

The ore and bullion settlements reported at the close of business on Saturday aggregated \$464,900 for the week, that day's proportion being:

TIRED OUT.

There's many a wife sits in the growing shadows of an evening, knowing what it is to feel tired out; as if there was not another ounce of effort left in her. But if healthy she knows how sound her slumber will be and how res

morning will find her. But it's another thing for the thing for the sick woman to feel thred out. Rest only scens to increase her suffering. She feels acutely the aching back and throbbing nerves. Sick women.

Sick women, hundreds of thousands of them, have been made well by the use of Dr. Pierce's Favor-ito Prescription. It establishes

regularity, dries weakening drains, heals inflammation and ulceration and cures female weak-

ness.
"I am pleased to inform you of the benefit I received from using Dr. Pierce's Favorite Prescription and Golden Medical Discovery." writes Mrs. Elizabeth A. Oswold, of 45 Brant Street, Windsor, Essex Co., Ontario, Canada. "Was quite discorraged when I wrote asking your advice, as the physicians here told me I could get no relief oxecut by an operation. Suffered for four years from irregular and profuse menstruation, had sick and nervous headaches most of the time, and at times could hardly walk across the floor from weakness. I hank God there is such a remedy as Dr. Pierce's Favorite Prescription for suffering women. Before I had daken the first boule the headaches had left me and it was not long before regularity was established and will continues so. Have fust finished house-cleaning which I never expected to be able to do again, and can truly say I never felt better than at present. I gladly recomment Favorite Prescription to all who suffer from female weakness. It has cared me and made me stronger in every way. Neither my busband nor myself can say enough in its praise."

The selfish seller who urges some sub-stitute is thinking of the larger profit he'll make and not of your best good.

Crude and consentrate, \$40,300; base bullion, \$36,200.

An Idaho exchange says: E. E. Bur-linguine, manager and treasurer of the Elmore Gold Extraction company, re-turned to Junction Bar the fore part of this week to push development work on his placer claims, of which the company own 320 acres of virgin placer ground along the banks of the South Boise river.

The magnitude of the strike made on the Ecilpse property on Bonanza mountain, adjoining the townsite of Rhyelite, is increasing with every round of shot in the shaft. On the surface, at the shaft's site, they had \$4.00 values to begin with. At twelve feet they began to open up a high-grade body of ore. The average value of the ore at this point was \$300 per ton, with a three-linch streak, two and one-half feet from the hanging wall, from which asays returned \$9.159 per ton, which asays returned \$9,459 per ton, --- Columnet Sun.

H. J. Schumacher, president, and F. A. Motz, general manager of the Schumacher-Olson Gold Mining company, were in Salmon Saturday, having just returned from a tour of inspection of the property. These mines, reference to which has often ben made in these columns, are situated near the main divide, at the head of Carmen creek, not far from the famous Ajax mine. All minter and spring they have been worked steadily, and the way the ledge has responded to development is most remarkable. The ore has widened to 18 inches, and the values run from \$600 to \$1,000 per too, which is stating it but modestly.—Salmon, Ida, Herald,

LOCAL MARKETS WELL SUPPLIED.

al of Carload From South America.

UTAH CANTALOUPES COMING

Fish Somewhat Scarce Owing to Spat Between American and Canadian Officials---Ruling Figures.

The local banana famine was broken this morning by the arrival of a car load from South America, and the demand is now abundantly supplied. Tomatoes are arriving from California and selling well. There were several car loads of green tomatoes shipped in here recently, but they didn't prove a lucrative investment, and there is not much likelihood of further investment in the green vegetable. The Texas tomato is a back number. Lemons continue to rise, and are now sell-ing for \$6 to \$7 per case. There is a general clean up on lemons, and the demand seems to be increasing. Rasp-berries are arriving in good condition, but the end of the season is at hand, Strawberries are largely in the nature of a curiosity, and local blackberries are being received. The tall bush blackberries that grow down east as long as one's finger, do not flourish in this country, as they need a moist and more or less shaded soil in which to grow well. Southern Utah cantaloupes are arriving, and are in fine condition, running the Pacific coast melons out of the markets. are being received freely. New potatoes

are being received freely.

Fish were scarce in the markets this morning, owing to the failure of expected importations to arrive from the coast. Stripped bass are particularly scarce, and halibut will not be so plentiful as of yore. This last is due to the action of the U. S. revenue cutter the action of the U. S. revenue cutter service on the northwestern Washington coast. Heretofore Yankee fishermen have fished for helibut off the British Columbia shores, without let or hindrance, often approaching as near as half a mile from the shore. But not long ago, a Canadian fishing craft came down off the Washington coast to catch crabs, and was promptly nabbed by the revenue cutter officials. In retaliation, the American fishermen are not allowed longer to fish for hallbut off the Canadian shores, and must go clear to Alaska, 500 miles to the north, in order to fish. This is regarded as a decided hardship, and there is a great deal of grumbling against the U. S. revenue service.

Prices obtaining in today's local markets are as follows:

GOOD BUYING MARKED OPENING.

Banana Famine Broken by Arriv- Prices Generally Higher on Large Orders for the Principal Stocks.

RALLY FOLLOWED A FALL

Profit Taking Wiped Out Some Gains And General Market Became Dull.

New York, July 17 .- The marke opened higher on the plan of large buying orders n some of the principal stocks. There was a heavy accumulation of Union Pacific at an advance of % to % over Saturday on running sales. Confident buying of the low priced coalers caused the selling of the grain carriers that commenced soon after the market opened. Union Pacific which had lost its initial advance was bought heavily later in the rally and sold a share higher than at the start,

bought heavily later in the raily and sold a share higher than at the start, touching 130%. Flucuations in the general western group were in the main unichanged. The United States Steel stocks and Amalgamated Copper were in favor and other active preferred touching 132%. Eric was bought neavily around 4.3g and Ontario & Western moved up 17g. Northwestern and Sugar advanced a point, while United Railway Investment preferred declined 1. Virgina Carolina Chemical 13g, and Eric preferred 4g and General Electric 2.

The trading became dull and the movement barrow but streugth in special stocks served as a sustaining influence. Eric, Annigamated Copper and United States Rubber rose 1, New York Central 12g. Northwestern 3 and Federal Mining preferred lost 1 and National Biscuit preferred 2. There was a sale of 100 shares of Northwestern preferred at 240 compared with the preceding sale at 230½ in May.

Honds were irregular.
The unusual dullness was intensified by the abandonment of special movements of the forencen. While there was no continuation of trade buying neither wife there any excess of offerings and prices held well compared with the noren losses. Improvement of 1 to 2 points were registered in tide and Leather preferred. International Pipe and United States Rubber stocks. National Biscuit preferred dropped 3g. Profit taking wheel out the carlier advance of a point in Eric. The general market also was heavy and dull. The market came practically to a standatill late in the afterneon and a stow dewnward drift was scarcely perceptable. Lekwanna rose 2½ American Car preferred from the American Car preferred rose 14 and International Pump 1. Pittsburg Cont preferred fell 14 and Knickerbocker Ice L. Of the active stocks only United States Rubber in the secondary of the preferred and Ontario & Western retained any appreciable portion of its rise. The close was stagnant.

PRODUCE. CHICAGO.

Chicago, July 17.—Lextreme weakness prevailed in the wheat pit here today as a result of general selling brought out by ideal weather conditions through out the wheat growing section of the United States. Receipts of new wheat in the southwest were again of enormous you me and this contributed to bearish sentiment. Builtsh foreign news was principally knowed. September opened & to I cent lower at \$34, to \$1%, After touching \$3, the price railied a trifle to \$3%. Minneapolis, Deluth and Chicago reperted receipts of \$31 cars against 260 a year ago. Notwithstanding liberal receipts and admost perfect weather, sentiment in the corn pit was quite builtsh and higher prices were recorded. Bull leaders were active Duyers causing a sharp up-turn. September opened unchanged to is cent bigher at 554 to 55%. After selling at 55% pick and ribs by a brom heat selling of park and ribs by a brom heat selling of park and ribs by a brom heat selling of park and ribs by a brom heat selling of park and ribs by a brom heat selling of park and ribs by a brom heat selling later in the session. As a result prices dropped still lower. September selling off to \$2%. The market closed extremely weak with September down 15,075%. No. 2, northern. I 15971.16; No. 3, northern. I 15971.16; No. 3, northern. I 15971.16; No. 3, pring. 3561.12.

Corn.—No. 2, 5565844; No. 3, 556584.

Under liberal profit taking the market later broke severely. September declining to 54%. The market closed weak with September off 15683.
