The above Goods can be Purchased of the wholesale Hardware Dealers in Salt Lake and Ogden. d&w tf

BY TELEGRAPH.

FOR THE WESTERN UNION TELEGRAPH LINE.

AMERICAN.

Wired From Washington.

WASHINTTON, 25.—Consul General Merritt of London, in a letter to the State Department, says the proposed commercial treaty between the United States and Mexico has caused great attention in England, both in business and government circles; and Parliament is being constantly memorialized by commercial bodies to again open diplomatic relations with Mexico, so that the English trade with that country may not be supplanted by the United States. The possibility of growing large quantles of coffee for the United States was recently referred to by a member of Parliament as one of the probable results of the treaty, which would act unfavorably to English trade.

General Sherman has fixed upon the first of November as the date upon which he will turn over the command to General Sheridan and practically retire to civil life, although he will not be placed on the retired list of the army until the 8th of February.

Secretary Lincoln said to-day that no action will be taken in the court martial cases of Lieut. Col. Iges, Captain Hubbard, Captain Kress and Lieut Robertson, until the return of the President to Washington.

Maj. Gen. Pope, now commanding the Department of the Missouri, will probably succeed Gen. Sheridan in the command of the military division of the Missouri, which includes, besides the Department of Missouri, the Departments of Dakota, Texas and the Platte.

Bonds received for redemption under the 121st call to date, $21,000,000

The President appointed Sidney N. Waters, of Putnam, agent of the Indians of Colville Agency, Washington Territory, vice John A. Simons resigned.

D. W. Glessie, of this city, has been disbarred as a patent attorney before the Interior Department on account of irregular service.

Secretary Chandler this afternoon directed the acceptance of the highest bids received yesterday for condemned vessels of the navy. These bids amount in the aggregate to $308,273; appraised value of all the vessels, $271,300; excess of bids over the appraised value, $36,972.

Values of exports of breadstuffs August, 1783, $18 816,129; same month in 1882, $28,951,320; for the eight months ended Abgust 31st, 1883, $114,237,045; in the same time in 1882, $110,275,898.

The Civil Service Commissioners have not yet replied to Secretary Folger's letter inquiring as to the preference to be given honorably discharged veterans of the late war, in making appointments. It is understood they consider that the law itself leaves no room for doubt on this question, but they disagree with Secretary Folger as to there being an equality between the four persons certified to by him from among whom to make his selection, when such persons do not rate equally in their examinations.

Consul General Vozeler, writing to the State Department from Frankfort-on-the-Main concerning the prohibition of American pork in Germany, quotes the following extract from the Cologne *Gazette*, to illustrate how little the Bundesrath itself believed in the correctness of the allegation that American pork was unwholesome, the direct reference in which is to the vote of members from Hanse Towns of Hamburg, Bremen and Lubeck: "They have declared that they have been unable to convince themselves of the utility or necessity of this measure, and that they have given in their consent only because sanitary conditions alone were urged for the measure, and they were unwilling to take the responsibility of being alone and indifferent to the health of the German people. But as wise merchants they have at least averted the worst consequence to their carrying trade, inasmuch as they have obtained permission to import American hog meat for re-exportation and to provision their own ships with American hog meat that seamen may eat trichinous meat with impunity. We had not hitherto heard of—nor do the Home Townsmen believe in the danger of trichinæ and the seriousness of the argument in favor of the measure As to the sanitary conditions, the prohibition of American hog meat will undoubtedly prove very healthy for the purses of our estate owners, but very unhealthy for the poorer classes of our population."

Depravity and Disaster.

BUFFALO, 25.—The windows of several churches here were wrecked. The public bathing houses at York stand and several private bathing houses were washed away by the high tide. A large amount of damage was done. Lumber piles were blown across the street, damaging houses and fences. About 100 feet of the side track of the Niagara Falls Branch Central Road, foot of Georgia street, is washed away, and four Blue Line cars tumbled into the lake, their contents being carried off by the waves. Four of the telegraph wires on the Central road are disabled, and three of the Lake Shore, and all the Grand Trunks are rendered useless. The water in the canal slips and harbor rose to a level with the banks. There is a tremendous current in Buffalo River, and it took several tugs to tow one vessel to a place of safety. Vessels coming in did not try to make the inner harbor, and were lucky to find shelter under the new breakwater, over which the waves dashed to a terrific height.

The propellers, *Chicago* and *Iron Chief*, and schooners, *David Dow* and *Jules Couch* were torn from their fastenings at Niagara. Tugs went to the rescue. The high water subsided as quickly as it rose, fall two feet in less than half an hour. Masters of vessels coming in this morning report the wind terrific on the lakes. The barge *York State*, in tow of the barge *Buckeye*, with wheat from Toledo, broke her tow line nearing Buffalo before daylight this morning. The *Buckeye* was unable to do anything for the barge, and came into port alone. At daylight it was reported a white vessel was ashore near Bary View with the crew in the rigging. From a description furnished it was ascertained that the vessel was the *York State*. No relief was sent her up to noon to-day, but a tug will be dispatched this afternoon.

Another vessel is ashore at Windmill Point, and a life-saving crew has gone to her assistance. She is black, a three-master, and is supposed to be the *Columbian*, but nothing definite could be learned.

This morning the floating elevator *Marquet* was loose from her mooring in Erie Basin, and raised havoc with the propeller *St. Paul*, breaking one of her arches, her guards and other parts. The damage will amount to several hundred dollars. It is also reported she broke the stern of the schooner *H. G. Cleveland*.

The schooner *E. Fitzgerald*, bound down from Toledo, lost her canvass and had a portion of her bulwarks carried away. She arrived here leaking, and her cargo of wheat is thought to be damaged. The schooner *Nellie Gardner* had her staysail and foresail split. The little schooner *Twilight* came in with her mainsail gone. Capt. John Perew, of the propeller *John B. Lyon*, reports he saw an unknown schooner dismasted on the lake yesterday.

Chicago, 25.—Shortly before one o'clock this afternoon Lyman Blair, of the long established and heavy grain commission firm of Blair & Blair, was found lying in a room on the upper floor of his residence, dying from a gun-shot wound, and a recently discharged gun lying beside him. He expired a few moments later without having spoken. A rumor circulated on 'Change just before its close, that he had committed suicide, caused a fluctuation in grain and a profound sensation. The coroner's jury this morning returned a verdict of accidental death. It appears that Mr. Blair was preparing to go hunting, and it is supposed that while handling the gun it was accidentally discharged. He was in good spirits, and there is no reason to suppose it a case of suicide.

Milwaukee, 25.—A telegram from Capt. Bruce, of the schooner *Typo*, owned here, says the vessel is lost on Amherst Island, Lake Ontario, with 2,250 bushels of wheat, shipped by Kershaw & Co., of Milwaukee.

Port Jarvis, N. Y., 25.—The extensive shops of the New York, Lake Erie & and Western Railroad here are on fire. It started in the blacksmith's shop, upper department. The fire spread rapidly, fanned by a strong west wind, and is now going towards the lower shops and business part of the village. But little can be done, owing to the small water supply.

Later.—The fire is entirely under control. The buildings burned are the blacksmith shop, rail shop, sand house, bolt house, and stationary engine building. Several cars were also burned. Loss about $25,000; insurance unknown.

Fall River, Mass., 25.—An accident occurred on the steamer *Bradford Durfee* this afternoon which came near involving serious consequences. When off Spar Island, near Mount Hope, part of the frame broke, and the piston was left without support. Steam was at once shut off, but the momentum was sufficient to keep the huge piston moving with great fury. It tore the cylinder head, crushed through the main saloon stairway, and with each succeeding revolution burst into the main saloon, smashing the partition, settees, and everything in the vicinity. About one hundred passengers went ashore at Bristol Ferry about ten minutes before the accident, leaving about seventy-five aboard, many of them ladies. The destruction of the main stairway cut off communication with the lower deck, and the noise of falling machinery and crashing timbers caused the wildest confusion. There was a rush for life-preservers, and passengers hurriedly climbed in the life-boats. A man and child were thrown over board from one boat, but rescued. In a few minutes the motion of the machinery ceased, and the passengers were quieted. Some received slight injuries jumping to the lower deck, and the fireman was badly cut on the head by a falling piece of iron. The engine room and surroundings were completely wrecked, machinery and timbers being piled up in a confused mass, The boat was drifting helplessly, and was picked up and towed here by a fishing steamer.

Ottawa, 25.—A heavy wind storm struck the city to-day, doing considerable damage to property.

Montreal, 25.—A gale here blew down trees and did other damage.

Boston, 25.—The storm last night and this morning did about $5,000 damage to gardens, out-houses, orchards and ornamental trees in South Boston. A large number of yachts of the South Boston Yacht Club got adrift and a number of them were badly damaged by collisions. Several are probably lost. A tug was forced to cut loose from a loaded scow which went ashore on Spectacle Island.

San Francisco, 25.—Detective officers captured one of the most complete counterfeiting outfits ever seen on this Coast, and arrested the operator, a young man giving his name as S. F. Upson. His real name is supposed to be Penten from Ohio. The outfit consisted of a drop press, five-dollar dies, and steel punchers. When arrested, Upson claimed that the machine was a new prospecting battery of his invention.

Guaymas, Mex., 25.—Only three deaths from yellow fever, one of them Burroughs, telegraph operator, the last 24 hours. Several new cases are reported, but are of a mild form.

Sonora advice state that the fever is still raging at Hermosillo. No particulars are received.

At Masatlan the fever is said to be diminishing.

New York, 25.—The firm of Levy Bros. & Co., clothiers, No. 472 Broadway, filed an assignment today for the benefit of creditors, to Solomon H. Kohn, giving preferences to the amount of about $900,000.

The firm made an assignment to S. H. Kohn of the Crane Steel Works. Liabilities about $1,000,000 to $1,800,000. Preferences over $900,000; assets about $2,000,000. Among the preferred creditors are H. Herrman, Sternbach & Co., $45,000; Bronner & Co., on notes endorsed by them and payment assumed by the assignees, $55,000; Franklin & Butler, Denver, Col., for notes given by them for merchandise, about $32,000; notes of assignors made yesterday and endorsed by H. Herrmann, Sternbach & Co., $17,000; notes made by Levy Bros. & Co., endorsed by A Levy & Bros., $55,000; Henry Herrmann, of Herrmann, Sternbach & Co., $200,000.

Political Points.

BOSTON, 25.—In the Greenback convention, in a hall after a motion, Dr. Bland attempted to speak. The Chair declined to recognize him. Strong objections were made by delegates to his speaking, and he finally subsided. Armstrong vigorously denounced Bland, and said if he was a true greenbacker he would withdraw. The convention's approval was manifested in a general uproar. A motion was made that Bland be given ten minutes at the leisure of the convention to explain himself. A dozen delegates tried to get the floor; many shouted "Question!" at the top of their voices; Davis screamed, "Mr. Chairman, five minutes!" but the Chair would not recognize him. The utmost confusion prevailed; members shouting, "Sit down." "Police!" etc. Litchmann said the convention will be painted by the opposition press in unprecedentedly vivid colors. "Let 'em paint!" shouted the delegates. The hat was then passed around, and $33 18 collected.

A delegate moved that Gen. Butler be nominated by acclamation, but he was not recognized. Litchmann moved that the present State committee be empowered to act till the next convention. Without putting this motion, Butler's nomination was renewed and carried unanimously with great enthusiasm.

The resolutions were then read. The preamble denounces both Republican and Democratic parties, especially the former. The platform demands the repeal of all class laws; no subsides for corporations; equal political rights for men and women; election of all public officials as far as practicable by direct vote of the people; graduated income tax, and taxation of all other property at an equal ratio; no more refunding of the public debt in such a manner that it cannot be paid when the Government has money to pay it with; discontinuance of the hoarding policy; demonetization of gold and silver as domestic currency and the issue instead of full legal tender paper currency; withdrawal of the power of issue from National Banks; removal of the tariff monstrosity; that prison labor should not be allowed to cheapen honest labor; larger appropriations for common schools; shorter hours of labor; the regulation of inter State commerce by Congress, so middlemen cannot raise prices; prohibition of the employment of children under 14 in mines or workshops; equal pay for equal work, men and women. The platform closes with an extreme eulogy on Governor Butler. Great applause followed the reading, and the resolutions were adopted.

The remainder of the ticket nominated is as follows: Lieut. Governor, John Howe; Secretary of State, Nicholas Furlong; Attorney General, George Foster; Treasurer, Wilbur F. Whitney; Auditor, A. H. Wood. Objection was made to Foster that he was not a lawyer, but a delegate said in Butler they had all the law necessary, and it made no matter who was Attorney General. The ticket was adopted unanimously: The State committee was authorized to fill any vacancies by well-known greenbackers.

After some speeches the convention adjourned.

A supplementary call for a National Greenback Convention at Worcester, October 16th, will be issued.

Springfield, Mass., 25.—There is a good gathering of delegates to-morrow's Democratic Convention, but the interest is rather languid. Governor Butler is not expected until 1.30 to-morrow. Reuben Noble is to renominate him. It is said to-night that F. O. Prince of Boston will be nominated for Lieutenant Governor; C. H. Ingalls, Treasurer, and Charles Levi, Attorney General.

Burnside Hall.

PROVIDENCE, 24. — With clear skies overhead this morning, a thousand persons poured into Bristol by boat and train. The laying of the corner stone of Burnside Memorial Hall has been once deferred to enable President Arthur to be present. He arrived about noon. Among the guests were Attorney General Brewster, Major Seth B. French and Gen. Aspinwall of New York. At Col. Call's residence, the President's path was strewn with flowers by twenty maidens, a repetition of the ceremony of welcome to President Monroe in 1817 at the same house. After a short stay within the house, at the site of the buildings the President and party alighted and were conducted to seats reserved on the platform. The ceremony of laying the corner stone was performed by the Grand Lodge of Masons, after which Judge Le Baron B. Colt delivered the oration.

FOREIGN.

British Briefs.

LONDON, 25.—A Hamburg correspondent telegraphs that he can positively state there will be no meeting between the Emperor and Czar. An interview was seriously considered, but has been abandoned.

The Emperor will go to Frankfort on Thursday, where he will be entertained sumptuously by the city. On Friday he will attend the Neiderwald unveiling, after which he will visit his daughter at Baden Baden, and then rest for a few weeks.

It is now certain that no written agreement has been made between Count Kalnoky, Austrian Premier, and Bismarck. European questions of the day were discussed in the morning and the conclusion reached that there is no present reason for fear that the peace of Europe will be disturbed, and that while the alliance between Austria and Germany lasts, neither country has anything to fear.

A dispatch from Saigon, Cochin-China, states that Gen. Bouet sailed for France upon a mission solicited by himself, to inform the French government of the real position of affairs in Tonquin.

Manchester, 25.—A joint committee of operatives and employees resolved on the adoption of an agreement by which the operatives are to resume their duties in the factories forthwith, pending further negotiations.

Dublin, 25.—The Parnellite campaign in County Tyrone began today at Stratane and Pomeroy, when Thomas Power O'Connor, member of Parliament for Wexford, addressed the meeting. No disorder. Over 100 police officers were drafted to County Tyrone to aid in preserving order.

General Items.

Paris, 25.—Advices from Madagascar state that large numbers of French troops there have succumbed to fever, and reinforcements to the extent of several thousand men will be needed before the Hovas can be subdued. It will be impossible to continue operations for several months.

Camille Barre is appointed French Consul General to Egypt.

Bazon Beaufort and Viscount Armand fought a duel; the latter is seriously wounded. Two Japanese residents also engaged in a duel.

Temps says that Marquis Tseng's proposals for the settlement of the existing difficulties of China and France comprised the annexation of Anam as far as Red River, to be French-Chinese, annexing the remainder to Tonquin; Red River to be open to the commerce of the world.

The French memorandum claims the entire Delta, with exclusive control of navigation, and further demands a portion of the left bank of Red River. It is learned that the telegraph line near Omsk, Siberia, along which China's answer to the memorandum submitted by the French Government was expected to travel, is out of order, causing delay in the negotiations

On the arrival of Alfonso, the perfect of police has taken strong precautions against street disorders, owing to Alfonso's acceptance of a Uhlan regiment colonelcy.

Berlin, 25.—The Prussian Cabinet Ministers, the president and other officials of the Reichstag, and commanding generals of the army have gone to attend the unveiling of the statue of Germania at Niederwald on Friday.

Bucharest, 25.—The railway train from Paris for Constantinople was thrown from the track near Verciorovi. Several carriages were demolished, and many persons killed and wounded.

BRIEF TELEGRAMS.

Pittsburg, 25. — The Executive Board of Knights of Labor are in secret session here to night.

New York, 25.—Chicagos 11, New Yorks 10. The game was called at the end of the seventh inning on account of darkness.

Boston—Bostons 8, Buffalos 5.

Philadelphia — Detroits 8, Philadelphias 5.

Providence—Clevelands 3, Providences 2.

Denver, 25.—It is now definitely known that the Denver, Utah & Pacific road has changed hands. The stockholders decline to give the names or particulars until the sale is ratified by the construction company.

A rumor prevails that the Denver & New Orleans railroad is sold to an Eastern syndicate, which propose at once to build the road to Trinidad and Canyon City, taking the charter recently filed by the Cleveland party for the latter route.

Montreal, 25.—It is reported that the Canadian Pacific railroad has abandoned all idea of using the Southeastern as an outlet to the Atlantic, and will join Portland and Ogdensburg in its stead.

Topeka, Kas., 24.—A circular issued by A. E. Touzalen, vice-president and general manager of the Atchison, Topeka & Santa Fe Railroad, dated October 1st, appoints S M. Robinson general superintendent. He will continue to perform the duties of Chief Engineer.

Toronto, 25.—The Cigar Makers' convention concluded its sitting today. A resolution was unanimously adopted condemning progressive union work.

Chicago, 25.—Postmaster General Gresham passed through this city to-day on his way to Iowa, and will return to-morrow. He declined to make known his mission.

Leading business and professional men of the city tendered a banquet to Lord Chief Justice Coleridge at the Grand Pacific Hotel to-night. The dinning hall was fully decorated with flowers and greenery, and British and American flags were intertwined back of the table at which the guest of the evening sat. It was a very elaborate spread. About 350 representative people sat at the tables. At the conclusion of the gastronomic portion of the feast, Judge Drummond, of the United States Court, who presided, introduced the guests of the evening in a few apt words, and Lord Coleridge replied in a most happy vein of mingled humor and wisdom.

As a household word, none is more familiar than St. Jacobs Oil, the great pain-cure.

THE AGONIES OF BILIOUS COLIC,

THE INDESCRIBABLE PANGS OF CHRONIC INDIGESTION, THE DEBILITY AND MENTAL STUPOR RESULTING FROM A COSTIVE HABIT, MAY BE CERTAINLY AVOIDED BY REGULATING THE SYSTEM WITH THAT AGREEABLE AND REFRESHING STANDARD PREPARATION, TARRENT'S SELTZER APERIENT. PROCURABLE AT ALL DRUGGISTS.

FIRE! FIRE!

"A High Private in the Rear Rank,"

TO OUR MANY PATRONS:

ON ACCOUNT OF THE GREAT heat, the Merchandise Department of the ART BAZAAR is removed to the store lately occupied by David Yearsley, in the Hooper & Eldredge block. The Photographic Department, in charge of Mr. Ralph Savage, has also been transferred to John Olson's new gallery, on Commercial street. Persons having paid for portraits in advance at the old stand can have them retaken after July 4th, free of charge. No pains will be spared to keep up the standard of excellence hitherto maintained. Rally! Rally! Rally! A new series of views will soon be taken. Nothing was saved from the upper part of the Art Bazar.
