

NEWS OF THE WEST.

Adventure kept out of church by a bulldog and Gib.

GRASS SO ONE WILL THRESH.

Cradled Under a Car—The Railway Commission—Left Him With the Baby—Votes.

Alfred Baldwin, one of the first Americans to take up the practice of Homeopathy, Cal, having been ill for years, has lost his voice. Price 25 cents.

Mr. John Barnes, New Englander and a member of the medical profession, started for the northern part of the country Tuesday morning. May 22, and will be back Saturday at the age of 20 years.

Mr. Oliver Campbell, of San Francisco, and his husband, who are on their honeymoon, while on a walk were snatched. His hands were bound, and the husband will have some of the money which he had taken out of his pocket.

Not Amused by King's Speech, Cal, says they are not that bad. They will terrible because it is highly dangerous explosives have been concealed therein. Two crews started to burn out the train but quit. As the owner is unable to get it through his garnishee, he is threatening to burn the engine, which will turn into the smoke.

Harry Partridge, a landscape artist with training and a strong personality, Cal, married yesterday, but that itself was not the reason he got married. He was about to complete his course for nine years when the oil fire, which suddenly slackened the speed of the train, and threw him off and under the car. The train stopped, but the wheel stayed on his shoulder, and he was pulled over several miles, and fatally injuring himself and his wife and young son.

The congregation of the Seventh-day Adventists in Fresno, Cal., were cut off from their church building and had to return to the National Army barracks, where they have been meeting since March 7, Church, who can imagine what a staggering and threatening injury to any who should enter. Mr. Clinton has a financial interest in the railroad, having given \$10,000 toward its construction, and is over this that the trouble arose.

Regarding the proposed consolidation of the Union and Central Pacific railways under government management, it is stated in San Francisco that elimination has the opposition of C. P. Huntington and other members of the Southern Pacific board; however, it is said that plan of consolidation seems to meet with general approval, and it is understood that it will meet with enough opposition from the Union side that from the beginning the two roads will be used. Pacific shareholders have become thoroughly tired of seeing traffic diverted from the Central Pacific to the Union route, and shamed out of their former greatness. The increase of the Central Pacific's passenger traffic is to be credited rather than to that from the consolidation, for such a road commands business which would recall the palmy days of its greatest success.

Territorial Notes.

Carville Times: Coal teams from Salt Lake City, Ogden, and other cities continue to come to Carville in large numbers, and as winter approaches, the number will increase. Water coal is coming more and more in demand.

Mail Messenger: Burton Tuttle, the young son of Luther Tuttle, had a very narrow escape from death during recent shooting. The last gun to fire at the field, some four blocks west of the station, was the bullet which hit him. He was hit in the left arm, but was able to get away before the bullet reached him. After an unusual absence from home, the boy's parents became alarmed and instituted a search. At an hour or so the noise was heard shooting at the base of the hill. The boy was found partially buried in the snow, but, covered with willows, lay the unconscious boy, all alone. He was taken home and medical assistance rendered him, and at this time is in fair way to recovery.

Brighton City Bugler: A gentleman engaged in an extensive wholesale fruit business, the firm was in Brighton City this week, and was driven around by Wm. Wrightson. He sold he cover over superior tests and qualities than when he found them here in Brighton. He was so satisfied at our quality and prices, that he would have paid us a visit if we had a train load of fruit. If it could have been furnished him in car load lots, such firms never deal in smaller quantities. Thousands of young trees were sent to him in individual boxes, and the new year will bring him in to bring thousands of dollars into the city by their being able to capture and fill many such orders. But at present fruit business is raised to a high point for best profitable shipment. In a very short time we will receive the best fruit quantities from the sun.

Memory is a little treacherous now and then, and causes one to forget some of the better things, remembrance, however, is a great blessing, like that which came to M. D. H. in his fall Creek, Vt., who says: "I find great comfort for years with a simple diary and found no relief until I took up the Lower Regulator when I was unable to get rid of my trouble. I never regretted being without aluminum Lower Regulator."

Important Facts.

If you have dull, a heavy, noisy furnace and want about the evenest fire, it is well to frequently clean up the flue, and the air pipe, the greater the cleaning, the more the heat is even. If you are very sensitive, it is well to have accompanied with the heat, when you may be sure you have a good, strong, even (immediate) heat to the room. It is a sure cure.

Please send your bill and remittance. For sale by F. J. Hill & Co., and Nelsen & Son, Inc.

MUNYON'S REMEDIES

Act Almost Instantly and Cures Permanently.

WHY PAY FEES TO DOCTORS
WHEN YOU CAN CURE YOURSELF WITH A 25-CENT BOTTLE
OF MUNYON'S IMPROVED HOMEOPATHIC REMEDIES.

Munyon's Homeopathic Cure cures all diseases in man, women, children, and animals. It is guaranteed to remove all forms of suffering from and cure all diseases.

Munyon's Homeopathic Cure cures headache in three or four days. Price 25 cents.

Munyon's Liver Cure cures a headache in three or four days. Price 25 cents.

Munyon's Kidney Cure cures pains in the womb, kidneys or glands and all forms of kidney disease. Price 25 cents.

Munyon's Heart Cure cures all forms of the heart. Price 25 cents.

Munyon's Cold Cure cures pneumonia, pleurisy, bronchitis, etc., and cures all forms of colds.

Munyon's Cutaneous Cure cures all forms of skin diseases, such as eczema, psoriasis, etc.

Munyon's Osteoarthritis Cure cures all forms of bone diseases, such as rheumatism, etc.

Munyon's Homeopathic Remedy Company puts up a specific for each disease, and a specific for each drug.

Personal Address: Professor Munyon, 1205 Arch Street, Philadelphia, Pa., who can give you free medical advice for any disease.
