

TWO EVILS THAT MENACE AMERICA

Centralization of Power in Federal Government and of Business in Hands of Few.

SO DECLARES GOV. JOHNSON.

Believes Imaginary Line Between United States and Canada Must be Obliterated.

Detroit, April 29.—Two evils menace America today, said Gov. John A. Johnson, of Minnesota, in a lecture tonight on "The Majesty of the Law," before the Alumni association of the Western high school. They are, he said, the centralization of power in the federal government and the centralization of business power in the hands of a few men.

"Executive, too, are frequently governed by expediency," he said. "Expediency is always fraught with danger. The political organization which disregards expediency and sticks to a principle is the one which accomplishes results. America has become a great world power. Her progress has been phenomenal. It has brought a system of centralization of power. Instead of a government by the people and for the people, it seems to be becoming a government by people and for people who have been enfranchised by the people to do a quasi public business.

"Some things have happened in the last few years which seem to indicate that a few men are trying to control everything. We have now in this country an oligarchy as great as was the oligarchy of Rome. It is the oligarchy of business. The men who are in the middle are making a mistake. And I think that they will be called to account soon. There is a demand for certain people that there be more centralization of government in Washington in order that we may become a great world power. There are two evils which menace America today. They are the centralization of federal and business powers. The fathers came to this country to create for themselves and their posterity a new government. They gathered from the various states in the continental congress and adopted the Declaration of Independence. Now, 122 years afterward, we are told that the Declaration of Independence has no particular force or effect, and that the Constitution is a flexible document, also that we may become a great world power. I cannot make myself believe that they have ceased being living, breathing forces.

The problem of the future is the government of America by Americans. In the working out of this problem I believe we must obliterate the imaginary line between the United States of America and the Canadian states of America. I believe that the stars and stripes must finally float from Bering sea to the Gulf of Mexico. The intellectual energy of the country must be directed to the commercial union of the two countries if to no other. I spoke in Berlin on the same topic some time ago and my words were greeted with even greater enthusiasm than you are now showing."

HE GOT WHAT HE NEEDED.

"Nine years ago it looked as if my time had come," says Mr. C. Farthing of Mill Creek, Ind. Ter. "I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee at Z. C. M. I. Drug Dept drug store, 505 112-114 South Main Street.

AFRO-AMERICANS COMMEND FORAKER

Topeka, Kas., April 29.—The Afro-American league, of Shawnee county, claiming to represent 500 negroes tonight passed a resolution commending Foraker, J. B. Foraker, and commending Sen. Theodore Roosevelt for their stand on the Brownsville episode.

COLUMBIA UNIVERSITY HARBORS MANY FOSSILS

New York, April 30.—Columbia university learned officially for the first time yesterday that it was harboring many very ancient fossils on the campus. Prof. Grabau, one of the youngest scientific members of the faculty, made the announcement yesterday morning. He discovered them in the paving stones on the campus. Right in front of the library, he said, there was a large fossil of considerable value. It was the remains of a large cephalopod nearly a foot long. "The paving stone of this campus," he said.

Kokomo Woman Gives Fortune

To Help Women Who Suffer.

In the past few years Mrs. Cora B. Miller has spent \$125,000.00 in giving medical treatment to afflicted women.

Sometime ago we announced in the columns of this paper that she would send free treatment to every woman who suffered from female diseases or piles.

More than a million women have accepted this generous offer, and as Mrs. Miller is still receiving requests from thousands of women from all parts of the world, who have not yet used the remedy, she has decided to continue the offer for awhile longer, at least.

It is especially prepared for the speedy and permanent cure of leucorrhea or whitish discharges, ulceration, displacements or falling of the womb, uterine or ovarian tumors, or growths; also pain in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the thighs, melancholy, desire to cry, hot flashes, weariness and piles from any cause, or no matter how long standing.

Every woman suffering, unable to find relief, who will write Mrs. Miller now, without delay, will receive by mail free of charge, a 50-cent box of this simple home remedy, also a book with explanatory illustrations showing why women suffer and how they can cure themselves at home without the aid of a physician.

Dr. Lyon's PERFECT Tooth Powder

Cleanses, preserves and beautifies the teeth, and Purifies the breath. A superior dentifrice for people of refinement.

Established in 1866 by J. H. Lyon, D.D.S.

pus," he said, "is found in southern Indiana, and belongs to the Mississippian series at some distance below the coal measures. The slabs which are used in the pavements contain many fossils that are now very rare and in some cases it would be worth while to dig them out and put them in the paleontological museum. The stone is composed of minute shells which would be of service to those studying the evolutionary side of geology."

MAYOR RESIGNED.

Because Town of Mattoon, Ill., Voted For Local Option.

Chicago, April 30.—A dispatch to the Tribune from Mattoon, Ill., says: In accordance with its statement made four weeks before the local option election, which was held on April 7, that it would resign if Mattoon voted out its 14 saloons, Mayor Lewis L. Lehman tendered his resignation at the meeting of the city council last night, and it was accepted.

In his statement Mayor Lehman took the stand that without the \$15,000 in revenue derived from the saloon licenses, the finances of the city would be so impaired that it would be impossible to carry out various public improvements, and, inasmuch as he had accepted the nomination and was elected by an overwhelming majority a year ago on a platform that called for improvements, he believed he could not carry out the wishes of the people.

The retiring mayor is known throughout the state as a politician and financier. He is not friendly to saloons, but considered this an inopportune time for Mattoon to do without them. A special election will be held to choose his successor.

HEAVY DUTY ON CRADLES.

New York, April 30.—By a ruling of the board of United States general appraisers, the fathers of several lucky Chicago youngsters will have to pay high duty on some remarkable cradles, which were imported to their order by a New York and Chicago firm. It was contended by the importer that the cradles should be appraised as "manufactures of wood" with duty at 35 per cent ad valorem.

The appraisers have decided, however, that the silken canopies, Afghan pillows and mattresses of the cradles bring them under the silk schedule of the tariff with a rate of 60 per cent. The cradles are valued at \$100 each.

One which is said to be intended for the infant heir of one of Chicago's wealthiest men, is made of rosewood, in which are carved figures of cherubs and fairies, and is magnificently adorned with silk canopy, mattress and pillows. It is worth \$1,000.

PEOPLE GETTING PARTICULAR

about shoe polish. Quality in shoe polish realized to be an important matter. Add polish not wanted. Any old thing won't do with people who know. Quick Shine Shoe Polish is guaranteed to preserve the leather. It does not contain a drop of turpentine or kerosene. It is a shoe polish and won't rub off on the clothing. Price 10 cents.

MISS MORENA OPERATED ON.

New York, April 30.—Miss Bertha Morena, the Munich dramatic soprano, who made her American debut at the Metropolitan only a few weeks ago, unknown to all but a few intimate friends, was operated on for appendicitis in Mount Sinai hospital and is now rapidly recovering. Miss Morena has long been a sufferer from appendicitis and her coming to New York last season was prevented by an acute attack. Immediately on her arrival here she was ill again and her first appearance was delayed. After her debut she sang until the end of the season, although she was suffering much of the time.

She accompanied the company on a tour and just before she was to sing in Chicago a week ago yesterday, the prima donna became so ill that a consultation of physicians was held, when it was decided that she must undergo an operation.

McCREARY IMPROVING.

Turkman Accidentally Shot by Rep. Hefflin Leaves Hospital Tomorrow.

Washington, April 29.—Thomas McCreary, the New York Turkman who was recently accidentally shot by Representative Thomas Hefflin of Alabama, has so far recovered that he will leave the hospital next Friday. A conference was held today between Mr. Hefflin, Mr. McCreary and the latter's attorney, and Mr. Hefflin voluntarily offered to recompense McCreary for all expenses and losses incident to his disability. The agreement, it was learned tonight, is satisfactory to all parties.

CHARGED WITH MURDER

Mrs. Clarke Layton Said to Have Strangled Her New-Born Babe.

Boise, Ida., April 29.—A special to the Statesman from Huntington, Or., says that a woman, Mrs. Layton, who had been charged with the murder of her new-born baby, has been released from the hospital. It is alleged that she strangled her new-born baby this morning and threw the body into a sewer. The woman will be taken to Baker City tomorrow. Her home is at Council, Idaho.

GOVERNOR SPARKS STRICKEN WITH PARALYSIS

Reino, Nev., April 29.—Gov. John Sparks, who for the past three weeks has been in San Francisco visiting his daughter, Mrs. McKendall, returned here today, suffering from a stroke of paralysis. He was accompanied by his wife, his physician, Dr. St. Clair and a trained nurse. The governor is in a very serious condition and grave fears are entertained of his ever regaining his strength. He is absolutely unable to move either of his hands. His speech, however, is not impaired. This evening at his home at Alamo farm, two miles south of here, the governor said he was feeling somewhat easier and expressed the belief that since he was home he would get well.

His condition is thought to have been the result of his activity and worry during the past six months attending upon the extraordinary session of the legislature and the labor troubles at Goldfield.

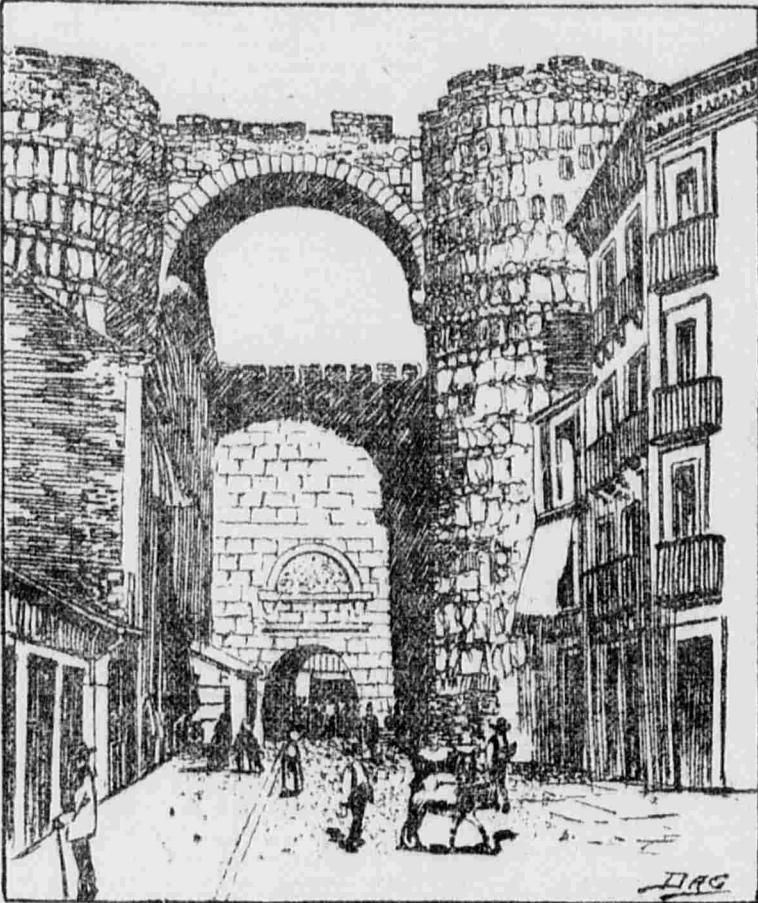

Lieut.-Gov. D. S. Dickerson has been acting governor ever since the legislature adjourned.

TIBETAN PRIESTS AND THEIR TELESCOPIC TRUMPETS.

The ritual of the Tibetan monks is one of the most elaborate ever devised. In the picture the huge brass trumpets used during solemn festivals of the lamaistic cult are shown. These trumpets are about sixteen feet in length, and they emit a tone which reminds one of thunder.

A TOWN WHOSE INHABITANTS ARE ABOUT TO EMIGRATE.

The inhabitants of the town of Bejar, Spain, about 9,000 in all, have decided to emigrate in a body to South America. The president of Uruguay has offered to pay the expenses of the removal and to provide money for a start in the new world republic. The cut shows a street in Bejar.

A STATUE THAT WEARS A BIB.

The statue shown herewith is at Nikko, Japan, and stands in a public garden.

It is held in such respect by the citizens of the place that a clean square of white linen is tied around its neck every morning.

BARGAINS IN FARMS AND RANCH PROPERTY

THE beautiful and fertile Teton Valley lies in the eastern part of Fremont County, Idaho, about 75 miles south of the Yellowstone National Park, and about 25 miles north of Salt Lake City, along the boundaries of Wyoming and Idaho State line. The elevation is 5,600 feet above sea level. It is surrounded by a large range of mountains excepting on the north where you will find low rolling hills, especially adapted to dry farming. The valley proper is about 80 miles in length and 15 miles in width with a gradual slope to the center from either side. The soil is a black loam mixed somewhat with gravel through the center. Along the foot of the mountains, however, and for some miles toward the center the soil is almost free from gravel and a heavy, black loam, which has been proven to be excellent best, grain and vegetable land. We have an abundance of water, no valley anywhere better supplied with water, and that, too, practically free from cost to the farmer as most all own and operate their independent ditches which are taken from the various streams running into the valley from the mountains on either side. We have an unlimited supply of timber, a load of house logs, poles, fence posts, fire wood, or saw timber can be had from any farm within the borders of the Teton Valley in less than a day, and from a good many homes the farmer makes two trips into the timber in one day. Lumber sells at \$12 per 1,000 feet at the saw mills and \$15 per 1,000 feet delivered. Teton mountains are noted among sheep and cattle men for their excellent quality of grass and of which there is no limit. The valley, hills and mountains are as pretty and green as lawn during the spring and summer. There are few places in this great country of ours where the farmer can just open his farm gate and his sheep, cattle and horses are in grass, while still within his view, yet he boasts of such a condition in the Teton Valley. It is an excellent dairying country, farmers make from \$2 to \$5 a head on their cows per month, about the same of hay. Two good houses of four rooms each. Stable room to accommodate 40 head of horses, 200 feet of sheds, four barns, 2 binders, 2 mowers, and rake, 1 new gang disk plow, 2 harrows, 1 new disk harrow, 1 new Studebaker wagon, 2 good farm teams, 5 milk cows, 5 good stock pigs, 100 chickens, some sheep. Can be divided up among two or more men. An excellent sheep or cattle ranch, lies at the base of the mountains right on the range, one mile, 2 miles, 3 miles, from postoffice, church and schoolhouse, fine view, can see all over the valley, the very best ranch in the whole state for the money, only \$40 an acre, bargains like this are not to be found every day.

160 ACRES.

Most all under cultivation, good deep, black, loamy soil, will produce 60 to 80 bushels of grain and from 8 to 10 tons of hay to the acre. Will grow anything in the shape of farm products. All fenced, independent water right, nice orchard of small fruit, water on the place the year round, three miles to timber, close to the range, lies at the foot of the mountain in mouth of a canyon, two miles from the postoffice. There is a hay derrick, a hay fork, cable rope, pulleys, one mow, one rake, plow, binder, harrow which goes with the farm for only \$30 an acre, one-half cash, balance on easy terms.

160 ACRES.

Black loamy soil, primary water right, 40 independent ditches, all fenced, all under cultivation, 4-room house, granary, 160 feet stable and sheds, other buildings, will net up 200 tons of hay this year, one half of crop goes with the place to the purchaser and the following machinery: Mower, rake, binder, plow, harrow, etc. This is a swap, belongs to a widow. A place already made, a home of \$1,500 a year income to the right party. Don't miss this \$4,500.

480 ACRES.

Nearly all under cultivation, lies in a compact body, enclosed with a good fence. Primary water right with 4 independent ditches from a stream running by the place the year round, 150 acres of grain and

about the same of hay. Two good houses of four rooms each. Stable room to accommodate 40 head of horses, 200 feet of sheds, four barns, 2 binders, 2 mowers, and rake, 1 new gang disk plow, 2 harrows, 1 new disk harrow, 1 new Studebaker wagon, 2 good farm teams, 5 milk cows, 5 good stock pigs, 100 chickens, some sheep. Can be divided up among two or more men. An excellent sheep or cattle ranch, lies at the base of the mountains right on the range, one mile, 2 miles, 3 miles, from postoffice, church and schoolhouse, fine view, can see all over the valley, the very best ranch in the whole state for the money, only \$40 an acre, bargains like this are not to be found every day.

63 ACRES.

One-half mile from town, faces Main street, all fenced, 3 room house, good stable, and chicken house, about 20 acres broke up, first class water right for only \$1,500, easy terms, small payment down.

160 ACRES.

Fenced, good soil, 3 room house and good out buildings, good water, 40 to 50 acres under cultivation, for only \$2,500. One-half mile from postoffice and church.

80 ACRES.

All under cultivation into hay, buildings etc. Two miles from schoolhouse, 1 mile from postoffice. For cash only \$1,500.

patronizing the creameries of which there are two in the valley. There are no better countries for raising cattle, sheep or horses than the Teton Valley. There are about 3,500 people now living within the borders of this picturesque valley, and room for ten times that many, and then they could have to exceed 40 acres to every soul, or about 200 acres to the family. There are eight towns fairly well started, ten general mercantile institutions, branches of the Consolidated Wagon & Machine Co. of Salt Lake City, of Studebaker Bros. Co. of Utah, a number of blacksmith shops, drug stores, and a bank. Some 300,000 bushels of grain was produced during the year 1907. The average yield of grain, taking the valley over, is about 30 bushels per acre, while we have some farmers who raise as high as 80 bushels per acre. The average yield of hay is from 8 to 10 tons in two cuttings. The exception 5 tons in one cutting. The soil and climate is especially adapted to vegetables and small fruits, currants, gooseberries, strawberries, and raspberries cannot be found to excel in quality and quantity the production of the Teton Valley. Some few apples are raised of the harder kind. Land ranges in price from \$10 to \$25 per acre, according to its location and improvements and can be had in acreage and terms to suit the purchaser. It is people we want, the men and women who are willing to live with us and build up a country. While we have good investments for investors, we prefer people who will live with their investments and cultivate the soil. Come and see for yourself, they say seeing is believing, seeing the Teton Valley means that you will buy a portion of it, thus enjoying what you see. Come up and catch some trout, see the elk and the fat sheep and cattle, and thriving crops and be convinced. There is no better place in all the land, we will have the railroad soon, the line has been surveyed and accepted, and granted by the New York office, and there is no doubt of it being built into the Teton Valley within the next two years, and then you will have to pay as dear for land and homes as other places, which now have the railroad. Come now while values are low and terms easy and land plenty. Look at the following list of bargains, select what you want, they won't last long. You need the land and we need you.

50 ACRES.

All under cultivation, fine quality of ground, high bench land, fenced by itself, good water right, two miles out of town, for \$25 per acre.

160 ACRES.

Unimproved land, plenty of water, can be bought for \$1,000.

200 ACRES.

Unimproved desert land with water no buildings for \$1,200.

120 ACRES.

60 acres under cultivation, primary water right, worth \$10,000 per acre, all fenced with a 4-wire fence, 3 miles from the best growing town on main road through the valley, \$30.00 per acre, \$500 down, can buy this place, the land will pay out on balance. No buildings.

80 ACRES.

One half mile from town, 40 acres cultivated, all fenced, water right and a splendid place for a home, joining town for only \$20.00 per acre and can be had on easy terms. A real bargain.

240 ACRES.

Most all under cultivation, fenced in two fields, good house, water right and a splendid place for a home, joining town for only \$20.00 per acre and can be had on easy terms. A real bargain.

40 ACRES.

Joining town, unimproved, not fenced for \$800. Will be sold some day for city lots, a good investment.

160 ACRES.

Can be secured for only \$500. That buys the improvements. A relinquishment.

80 ACRES.

Good house, stables, and out buildings, half mile from postoffice, all fenced and under cultivation and in crop, for \$2,200. Easy terms.

200 ACRES.

Good soil, fenced, 100 acres cultivated, puts up 125 tons hay, 1st class water right. \$4,000, one-half cash.

140 ACRES.

Fenced, 1st class water right, 60 acres in crop, put up 80 tons hay, 200 bushels oats last year. Has a 2-room house, good stables, mow, rake, plow, harrow, two cows, chickens, and some household furniture, for \$2,800. Party leaving the state.

240 ACRES.

60 acres in hay just planted a year ago, good water right, partly fenced, 2 miles from postoffice, church and schoolhouse. No buildings, soil good, a black loam, no gravel, close to timber and range, like finding it. Only \$10 per acre.

MANTELS.

The finest line ever displayed in Utah. Oak and Mahogany, genuine piano finish. Placed in your home complete from \$50 up. See what you are buying; don't select from a catalog.
