SUGAR COMPANY WINS.

Judge Hall Finds for Defendant in
Old Case.

The long-standing case of L. G. Hardy against the Utah Sugar company came up for trial in Judge Hall's court this morning. Attorney representing the plaintiff and Harlow Ferguson of the defendant.

Mr. Hardy sued to recover the value of 27 shares of sugar stock which he claims was converted to his own use by the sugar company to settle his note in his favor. He also claimed that the stock was taken without due notice to him and without his consent. The witnesses called by the plaintiff were H. G. Whitney, secretary and treasurer of the Utah sugar company, who testified that the stock was sold in August, 1900, and that the proceeds were paid to him. He also testified that the stock was sold to the company for his stock in retirement of his note.

Mr. Whitney produced letters signed by Mr. Hardy acknowledging the settlement made with him by the company in which he ordered that the balance due him in stock and cash should be paid to him and his account with Heber J. Grant & Co. this was done, and the cancelled certificate and check were produced in evidence. The minute book of the company was also produced, in which it was shown that Mr. Hardy, who was then a director of the company, was present at the meeting when the secretary reported the deal closed and Mr. Hardy seconded the motion to retire and cancel the stock acquired by the company from him.

This afternoon Mr. Cutler went on the stand for the sugar company and testified as to Mr. Hardy's acquiescence in the transaction after which the latter testified in his own behalf, saying he had protested in writing to the company against its action. The case was then submitted and Judge Hall without leaving the bench decided in favor of the sugar company.

TWO MEN KILLED IN O. S. L. WRECK

Engineer and Fireman on No. 1
Passenger Buried Under Debris.

TRAIN JUMPED THE TRACK.

Accident Caused by Graders Leaving
Dirt on Rails on Curve Near Lava,
Idaho, Yesterday Afternoon.

Two men were killed and several injured in the wreck of the Oregon Short Line westbound passenger No. 1 at 4:15 yesterday afternoon near Lava, Idaho.

The dead are:
Edward Partell, of Pocatello, engineer.
Paul Spideil, of Montpelier, fireman.

The mail clerks, express messenger and baggage man also received a number of cuts and bruises, which, however, were not serious enough to cause them to abandon their trip.

The wreck is said to have been caused by the carelessness of the ballasting gang who left the dirt in such a shape that the engine climbed the rail on the curve and went over the thirty-foot embankment at that point. The train was said to be going at the rate of thirty miles an hour when the engine jumped the track taking with it the mail and baggage cars. The day coach, diner and one sleeper also left the track but fortunately none of the passengers were hurt.

The news of the disaster was telegraphed into Pocatello and in a very short space of time Superintendent Hanson left for the scene with the wrecking crew, the engine and the O. S. L. Pinkerton also went north from Salt Lake on a special yesterday afternoon.

There was not much work for the doctors, but the injured were taken to the hospital and the bodies of the two men who had been killed were taken to the morgue.

The track was cleared by an early morning crew and traffic is again running on schedule time.

Both dead men leave families. Engineer Partell has been in the employ of the Oregon Short Line for about fifteen years and was highly esteemed in the community in which he lived. He leaves a wife and three children to mourn his loss.

R. G. W. MEETING.

Shareholders of Western Will Elect
Board of Directors Monday.

Assistant General Traffic Manager S. H. Backus, General Superintendent E. W. Kelly and the other Rio Grande officials, who accompanied the Gould party to Grand Junction, have returned to their desks, while the Gould party are now inspecting the proposed route of the new line.

The visit of Mr. Gould to this city and state will undoubtedly result in the rebuilding of this intermountain region and the development of Utah generally. During the trip East through the state Mr. Gould is understood to have gone carefully over the resources of the country and investigated the proposed extensions of the system with the idea that just as soon as conditions warrant these improvements will be instituted.

In the meantime there is considerable speculation as to what will be the outcome of the visit here aside from the physical betterment of the Western. The fact that Mr. Gould was accompanied on his trip by the heads of the operating departments of the Missouri Pacific leads to the assertion in some quarters that there will be some changes instituted in the future towards the further cementing of the Gould interests in the West. It is not known, however, that there will be any great radical changes in the management of the Rio Grande Western at the annual meeting of stockholders which will be held in Col. Colton's office in the Doubt block on Monday.

HEART DISEASE.

Some Facts Regarding the Rapid Increase of Heart Trouble.

Heart troubles, at least among the Americans, are certainly increasing rapidly. It is due to the excitement and worry of American business life. It is more often the result of weak stomachs, of poor digestion.

The close relation between heart trouble and poor digestion is because both organs are controlled by the same great nerves, the Sympathetic and Pneumogastric.

In another way, also, the heart is affected by the form of food digestion, which causes gas and fermentation from half digested food. There is a feeling of oppression and heaviness in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their actions, hence arises palpitation and short breath.

Poor digestion also poisons the blood, making it thin and watery, which irritates and weakens the heart.

The most sensible treatment for heart trouble is to improve the digestion and to secure the prompt assimilation of food.

This can be done by the regular use of meals of some safe, pleasant and effective food, prepared by the famous Stuart's Dyspepsia Tablets which may be found at most drug stores, and which contain valuable, harmless digestive elements in a pleasant, convenient form.

It is safe to say that the regular persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stomach trouble except cancer of the stomach.

Full sized packages of these tablets sold by druggists at 50 cents. Little boxes of 10 tablets mailed free. Address, P. A. Stuart Co., Marshall, Mich.

DEVINE'S BARN BURNED.

Blaze of Incendiary Origin—Building
Destroyed and Cow Cremated.

A frame barn at the rear of fire station No. 4, the property of Chief Devine, was destroyed by fire last evening, presumably of incendiary origin.

A horse belonging to Chief Devine narrowly escaped death by breaking out of the barn. The frightened animal dashed up the streets trailing a burning blanket behind. A cow, which was tied in the barnyard, could not break loose and perished in the flames.

Though the burning barn was just at the rear of the fire station, the firemen were compelled to drive to Fifth street and through the block and so close to the blaze that the hose wagon was scorched and Driver Bryant Young was burned about the face. One of the horses fed by the fire station, and Captain Stab had a close shave while carrying water to the barn.

The fire broke out at about 8:30 o'clock and had a good start before discovery. It was quickly turned by the men had considerable difficulty in getting the apparatus in proper position to fight the flames.

While the firemen were working on the blaze, the roof of a barn belonging to Mrs. B. Gunn, caught fire and the men had to work hard to get it in order to save it. As it was the loss will be at least \$50.

Chief Devine's barn, two sets of harness and a good start before discovery. The loss amounted to \$450. The place was not insured.
