

AN OLD JEW'S OPINION.—Tom Hood mentions the case of an old Jew, who had let a large sum of money, and charged interest upon it at nine per cent., instead of six, which was the legal rate. The borrower remonstrated; and at last asked the usurer if he did not believe in God, and where he expected to go when he died? "Ah," said the old Hebrew, with a pleased twinkle in the eye and a grin, "I have thought of that, too—but when God looks down upon it from above, the 9 will appear to him like a 6."

STATISTICAL.—The two Canadas have an area of 250,000 square miles, with a population of over 2,000,000; New Brunswick 27,700 square miles, with a population of 225,000; Nova Scotia 18,746 square miles, with a population of 300,000; Prince Edward Island is 2,134 square miles, with a population of 62,398; and Newfoundland of 57,000 square miles, with a population of 120,000—total area of 553,446 square miles, and an aggregate population of 3,000,000.
