

and Esther and family carried away. Several negroes escaped. Esther and her son Charley were shot dead. Several arrests were made.

PHILADELPHIA, 11.—The Cuban Patriotic Club of this city held a mass meeting last night, in commemoration of the Cuban revolution, it being the anniversary of the uprising at Yarra in 1895. A letter was read from Jamaica, in which it was stated that a company had been sent from that city with arms and ammunition, for the purpose of taking Santiago. The Cubans say the reason this news has not reached this country officially is that the Spaniards have control of the cable.

BEAR RIVER, Colorado, 11, via Rawlins, Wyoming.—13.—Indian reports brought in from the agency by Los Pinos Utes, say that 37 Indians were killed during the fight of the 29th of September, and the siege until Oct. 5th, the date of Gen. Merritt's arrival.

Rawlins, Wyo., 13.—Lieutenants Bourke and Schuyler arrived here this morning, and at last an authentic report is had of the doings of Gen. Merritt and command since their march to the front. On the p. m. of the day on which he reached Capt. Payne's camp, he had a fight with the Indians. He had to move up about a mile from Payne's old position that night, on account of the fearful stench created by the dead animals. Merritt moved upon the agency and reached there Saturday. The Indians are retreating southward, and it is expected that in small bands they will drop into the various Ute agencies and thus covering up themselves will never be known as to who were the warriors who opened the battle on Thornburgh. The dismounted companies and wounded will be here in seven days.

Denver, Colorado, 12.—The following was received by Governor Pitkin to-day:

Lake City, Colorado, 10, received at Denver, Oct. 12, 9:40 a. m.:

To Gov. Pitkin:

The following reliable news is from the Los Pinos agency. Sapavaneiro, one of the most reliable sub chiefs who was sent by Ouray to the White Pine agency, after the news of the fight had been received by Ouray, returned from Milk River yesterday at 11 o'clock. He reports he saw the white men and children at White River agency in charge of Chief Douglas, also one of the employees who was present when the Indians made the attack upon the agency. This man killed one Indian and wounded another. Sapavaneiro thinks three or four more employees are also alive, as their tracks were seen around the agency buildings and they may have fled to the woods. Father Meeker was killed. The report as given in the papers that Sapavaneiro and Shavand took part in the fight is untrue, and it is also not sure that chief Douglas led the White River Utes. Ouray thinks that Jack, a White River Ute, commanded the Indians in the charge on Thornburgh's command.

Los Pinos Indian Agency, Col., 9.—Employee Brady, who went to the White River with the Indian escort under Chief Sapavaneiro, has returned. The Indians obeyed Chief Ouray's order, mentioned a few days ago. As soon as it was communicated they ceased fighting and moved off. No further trouble is anticipated unless the soldiers advance. Chief Douglas sends word to Ouray, that the women, children, money and papers of the agency will be sent here when safe to do it. Ouray does not believe all the employees of the agency were killed. Ouray endorses the agent's dispatch to Washington for a peace commission to investigate the trouble and let the blame rest where it belongs. A runner is just from the southern agency with letter from the agent. A council has been held, and the Utes will abide by Ouray's order. They want peace and will have nothing to do with the White River trouble, and request Ouray to inform the Utes of their decision.

WHEELING, W. Va., 13.—The passenger train going east which left this city at 6:30 last evening on the Baltimore express coming west last night on the Baltimore and Ohio railroad collided near Elton about half past 10 o'clock. Both trains were running at the rate of 40 miles an hour and were filled with passengers who miraculously escaped injury with the exception of a little girl who

was slightly hurt by a fall. James Askew, engineer, and John Smith, fireman of train No. 1, were instantly killed, while fireman Jasper of train No. 10 was seriously injured. Engineer Bogdan escaped injury by jumping from his engine before the trains came together. A boy named Flanagan, aged 15 years, who was stealing a ride, was instantly killed. A negro boy who was stealing his way to Clarksburg between the tender and the postal car was seriously injured. Geo. Shinn, postal clerk on train No. 10, was seriously injured, and was taken to his home at Fairmount, W. Va., where he now lies in a critical condition. The postal and baggage cars of both trains are also a total wreck. The accident was caused by some misunderstanding of telegraph orders.

NEW YORK, 13.—Florence McDonald, shot S. A. Hickey, Mary Anderson's agent, at Cincinnati, yesterday, probably fatally injuring him, and then shot herself, dying in twenty minutes. Reason, unrequited love.

DEADWOOD, D. T., 12.—The Hom-stake Mining Co.'s saw and shingle mill, situated on Grizzly Gulch, together with about fifty thousand feet of lumber, mostly dressed, was totally destroyed by fire last night. The loss is estimated at \$20,000. Supposed to have been the work of an incendiary.

Edmond Falconer, Irish poet, actor and dramatist, died in Manchester, England, on the 27th ult., aged 60.

FOREIGN.

LONDON, 9.—General Roberts, in his dispatch dated Charasiab, October 6th, says. The reconnoitering parties sent out on all the roads leading to Cabul, at daybreak this morning, reported the enemy advancing in great force from the direction of the city. These parties had to return soon afterwards. The high range of hills intervening between Charasiab and Cabul was crowned with troops and people from the city, while parties of Ghilzais appeared on the hills running along both flanks of the camp, and reports were received that the road to Zabidabar was threatened. Along this road McPherson was advancing with large convoys of stores and ammunition. Warning was sent to McPherson and some assistance in cavalry. It was absolutely necessary to carry the heights in front before evening. Baker was entrusted with this very difficult duty, which he completed in the most admirable manner. He sent a party under Major White of the 92nd Highlanders, consisting of a wing of that regiment, three guns of the 8th Battery, the 31 Brigade of the royal artillery, 100 of the 23d Pioneers, and two squadrons of the Fifth Punjab Cavalry to advance by the right of the gorge. After an obstinate resistance Major White succeeded in driving the enemy off the main hills and later in the day captured 12 guns. Our loss here was four killed and nine wounded. Baker with the 72nd Highlanders, a wing of the 5th Ghoorkas, 100 of the Fifth Punjab infantry, the remainder of the 23d Pioneers, four guns of No. 2 Mountain Battery, and eight Gatling guns made a turning movement to the left and was soon hotly engaged. He reports that the advance of the troops was made to his entire satisfaction. Height after height has been carried in gallant style. Our loss was as follows: Captain Yeung, Punjab infantry; Lieutenant Ferguson, 72nd Highlanders, and Dr. Duncan, 23d Pioneers, wounded and about 70 men killed and wounded. The enemy's loss is unknown, but must have been considerable. They fled in great confusion and lost two stand of arms. We have strong pickets posted, as a large number of Ghilzais are still in the neighborhood, but I hope to-morrow to be able to march within a short distance of Cabul. The Ameer states the place of Bala Hissar is no longer in possession of people he can trust. His family have moved into the city. The headmen of Chardeh and suburbs of Cabul have asked if they may pay their respects to me. Others will probably follow their example and I am sanguine that the country will quiet down now that the people see that opposition is useless, but at present there is very great excitement in the city and country generally. Special dispatches from Afghan-

istan report that at one time during the attack on the 6th inst. on the principal heights before Cabul, two companies of Highlanders were opposed to 2,000 Afghans. The latter held their ground until the Highlanders were within 20 yards. The total Afghan force is said to have been 11 regiments, with artillery and an immense number of hill-men. The backbone of the resistance is broken for the present, but the whole country is seething with excitement and the people would rise on the slightest reverse to the British. The whole British force was to be within striking distance of Cabul on the 6th inst.

LONDON, 10.—A small parcel of napoleons came from Paris on Thursday, and was purchased for the United States, for which some eagles will probably be taken from the Bank of England to-day.

At the quarterly meeting of the iron trade in Birmingham, the prices were strong all round, and in several instances an advance was obtained. Extensive purchases of tin plates were made by Americans at 4@6 shillings per box advance on recent minimum rates. Americans also made large contracts for raw and old iron.

Infantry will be stationed throughout County Mayo, Ireland.

Advices from Capetown to Sept. 23d are as follows: The presence of the troops and Sir Garnet Wolseley's implicit declaration that England intends to claim Transvaal has produced a quieting effect on the Boers.

Affairs in Zululand are quiet but a report was current that Dabulamanzi, a brother to Cetewayo, had been killed. It seems likely that Zecocent will submit. Mirasi continues defiant.

LONDON, 10.—General Roberts was before Cabul on the 8th inst. Generals Baker and Macpherson have been detailed in strength to attack the enemy who has assembled from the hills above Balachissar. If these forces can be brought into action, General Roberts thinks the enemy will be unable to make another fight. Massy who was sent to cut off the retreat of the Afghans on the road between Bannian and Kohistan, captured 78 guns in Shalpur. The guns were found in an abandoned cantonment and among them 17 Armstrong.

Benihesar is near Cabul. News has been received that the citadel and palace of Balachissar in Cabul has been evacuated by the enemy. There will probably be no further resistance, and a peaceful entry will immediately take place.

The North German Gazette discussing the retirement of Count Andrassy says: He has firmly established relations with Germany founded on the mutual confidence of the two empires, an alliance with Austria in a form corresponding with the positions now occupied by Austria and Germany. He has been from the beginning regarded by German statesmen as a leading factor in the movement for German unity.

LONDON, 11.—General Gough will be established at Jellalabad by Monday. Col. Jenkins will push forward to Gundamuk with his detachment in order to establish communication with Sir Frederick Roberts. The difficulties of transportation have been overcome and the troops of all arms are moving forward from all columns to support Gen. Roberts. A telegram from Simla yesterday states that that Gen. Hughes had halted 14 miles beyond Khat Iglizvi because the country was bare of supplies.

The *National Zeitung* says: Count De St. Valler, French ambassador at Berlin, has been specially requested by Waddington, French minister of foreign affairs, to tender his heartfelt thanks to Bismarck for the kind and friendly way in which he spoke of France during his late visit to Vienna.

LONDON, 13.—Special dispatches from Afghanistan contain the following: The Ameer is strictly guarded in Sir Frederick Roberts' camp. It is hard to believe Yakob was not aware his army had taken up a position to oppose the British advance upon Cabul.

On the 6th inst. the day of the defeat of the Afghan army before Cabul, the Ameer's messengers were passing every few hours to and from Cabul by the road. The loss of the Afghans in the affair of the 6th is estimated at 400 men killed.

A great anti-rent meeting in Novan, Ireland, was held yesterday. Parnell, member of Parlia-

ment, was most enthusiastically received. Thirty thousand people were present and scores of triumphant arches spanned the streets. During Parnell's speech there were shouts in favor of shooting the landlords. Sullivan, O'Connor Power and O'Sullivan also spoke. The last named declared the shooting of landlords could do no good in the future, whatever it might have done in the past.

A Paris paper says: Count de Paris has written a letter to Count de Chambord, declaring that he remains faithful to the fusion of the Orleanists and Bourbons.

There have been two more duels on account of political differences. Persons accused of insulting the Russian consul-general at Salonica have been arrested in accordance with the demand of Russia.

Several shocks of earthquake have been felt in Southern Hungary and Servia.

A special, dated the 10th, from the British camp before Cabul, says: When the cavalry returned from pursuing the enemy on the evening of the 9th, they rode through Cabul. Some shops and bazars were open and the people were sitting about and all quiet. A special from Allahabad says: No quarter was given anyone found firing upon the British and the prisoners taken in the fight were shot. The leaders of the mutineers are the Ameer's most trusted friends.

Economy as a Poor Man Sees It.

I hear and read a great deal about economy, and it sounds well enough as one listens to it. But is it just that the skilled labor of our country shall be only one remove above the beggar in the streets? Nobody objects to economy. We know that we are poor, and we are willing to accept the situation. If a crisis comes we are willing to wear rags and live on husks till it passes; but when the country is full of money, when men are working every day, something is wrong if the tried and faithful workman does not receive for the labor of his hands enough to supply his family with temperate, modest comforts; yes, and with something even for their culture—something to fit them for the future. Mind, I don't undertake to say what this wrong is, or where the fault; only that it is not with the laborer. Why should my life be such a ceaseless hoping against hope—a round of such small economies that the soul shrinks and withers away beneath them? And mine is not a solitary case; there are scores of such right here, and the country can show its thousands; but all the while the great corporations are turning down the screws, and you can scarcely look into a paper that does not speak of a reduction somewhere in the wages of help. It is merciless, merciless.—*Good Company.*

W. G. Young's Herbal Medicines

Are for sale at Z. C. M. I. Drug Store and at John C. Cutler's, Old Constitution Building, Salt Lake City, and are sold in all the co-operative stores throughout the Territory. s47
