

SENATOR BURTON IS FOUND GUILTY.

Jury Convicts Him on Every
Count in the Indict-
ment.

SHOWED NO VISIBLE EMOTION.

Unless Verdict is Reversed His Seat in
U. S. Senate Will Become
Vacant at Once.

St. Louis, Nov. 25.—Senator J. R. Burton of Kansas was tonight found guilty on all six counts in the indictment upon which he has been on trial for the past week in the United States circuit court, charging him with having agreed to accept and having accepted compensation from the Rialto Grain and Securities company of St. Louis, to appear for the company in the capacity of an attorney before the postoffice department.

The verdict was brought in at 12:50 o'clock, two hours and 25 minutes after the jury had received the case. Senator Burton was ordered to appear in court Monday morning when, his counsel announced, a bill of exceptions would be presented and an appeal asked for. Court then adjourned.

From the time the jury went out Burton was pacing the courtroom with long, even strides. At 12:40 there was a summons from the inside of the room in which the jury had been confined considering its verdict. The marshal, upon being informed that an agreement had been reached, notified Judge Vandevanter. Senator Burton, today his accustomed seat at the table with his counsel, his features were set, but expressed no visible sign of emotion from the time the jury entered the room until the verdict had been read.

His facial expression did not change during the reading of the verdict and the separate answers by the jury of "guilty" to each count.

Senator Burton, accompanied by his counsel, descended in the elevator to the ground floor and together they departed for his hotel. The senator was permitted by the marshal to have his freedom on the promise of his counsel to produce him in court at 10 o'clock next Monday morning.

The case was given to the jury at 10:35 tonight. For the first time during either this or the former trial of Senator Burton on the same charge a night session of court was held. Arguments by counsel occupied both the morning and afternoon and as Judge Vandevanter was anxious to end the case this week he announced that he would charge the jury tonight. It was intended to convene court at 8 p. m., but it was not until after 10 o'clock that Judge Vandevanter appeared in court.

There had been a consultation, however, between the government attorneys, counsel for the defense and Judge Vandevanter relative to the instructions the prosecution and the attorneys for Senator Burton wished given to the jury, and the court had prepared his charge in writing.

He commenced reading at 10:10 o'clock in a distinct voice that was clearly audible in all parts of the courtroom. Reading slowly and carefully he had completed the part referring to the testimony and how it should be considered by the jury in 20 minutes. Five minutes later the jury had left the room and was considering the verdict.

One of the important points brought out in Judge Vandevanter's charge was that the question of jurisdiction of this court relative to the agreement between Senator Burton and the representative of the Rialto, Mr. Harlan, which the defense contended was made in Illinois, was left to the jury to decide. The charge in part follows:

"The case is of great importance to the defendant because it involves his reputation and his fidelity as a public servant. It is of like importance to the public because it involves the right of a government to inquire whether one occupying high official station has departed from the lines of fidelity and violated a statutory prohibition against secure independent, efficient and just action in the executive departments and, if he has, to impose the punishment provided by law.

"The question which relates exclusively to the counts charging the defendant with having agreed with the Rialto Grain and Securities company at St. Louis to receive from that company a stated compensation for services to be rendered by him to that company in relation to the proceeding before named, are these:

"First—Did he render any service for the Rialto Grain and Securities company before the postoffice department in the proceeding named?" "That question I charge you that if he appeared as agent or attorney of such company before the postoffice department or any of its officers charged with any duty or having any authority for the purpose or with the intent of influencing or obtaining action from that department or any of its officers in said proceeding, and then by any state-ment or representations respecting the business in which it was engaged or conducting such business, endeavoring to obtain any action favorable to such company on the part of the postoffice department or any of its officers in such fraud order proceeding, then he rendered service for said company within the meaning of the statute.

"Second—Did he, at St. Louis, Mo.,

on the 25th day of March, 1903, receive from the Rialto Grain and Securities company any payment of money as compensation for such services?

"Upon finding a verdict of guilty or 'guilty your duty is at an end. The responsibility of fixing the punishment, if there be a verdict of guilty, rests upon the court."

Senator Burton was indicted on eight counts, two of which were quashed before the case went to trial. The penalty provided by the statute is not more than two years imprisonment nor more than \$10,000 fine on each count and a forfeiture forever of the right to hold any position of trust or profit under the United States government.

Unless the verdict is reversed in the supreme court Senator Burton's seat in the upper body of the national Congress will at once become vacant. The term for which he was elected expires March 4, 1907.

AMERICAN EXPORTS TO CANADA ARE VERY LARGE.

Washington, Nov. 25.—The United States sold to Canada last year exports to the value of \$156,000,000. This amount constituted more than 62 per cent of the whole Canadian imports and it was only 11 per cent of the exports of the United States. This statement is contained in a report to Charles M. Pepper, special agent of the department of commerce and labor, resulting from his study of Dominion trade conditions.

Resides selling goods to Canada, Mr. Pepper says that 25,000 settlers went from the United States to its northern neighbor from January to October, 1905, and that the value of their goods was \$10,000,000. This number of emigrants from the United States is less than for the two previous years.

The new wheat fields of the Dominion's great northwestern are the attraction to those seeking homes in Canada and it is to that section, the report says, that the United States should look for the development of existing and the creation of new markets of trade. The food, clothing and farm implements to which these settlers have been accustomed in the United States constitute the products which may be sold them the easiest in Canada.

The report states that by the controlling body of public opinion in Canada the policy known as fiscal imperialism is regarded as impossible. Nevertheless manufacturers in the United States are warned that in the proposed revision of the Canadian tariff they may expect a further effort to discriminate in favor of goods from Great Britain. The growing markets of the future are declared to be in the northwest.

AUTOPSY ON BRANCH'S BODY.

All Taking Part in It Were Bound to
Secrecy.

Annapolis, Nov. 26.—The body of Midshipman James R. Branch, Jr., who died after a fist fight with Midshipman Meriwether, was dissected today and an autopsy was held by a board of naval medical officers, pursuant to the order of the secretary of the navy. The condition of the body was found to be such that those who made the autopsy will be able to answer questions that have arisen during the Meriwether trial as to the condition of Branch's heart and other organs prior to the fight.

The board performing the autopsy was composed of Surgeon J. C. Byrnes, the ranking medical officer attached to the naval academy, and Passed Asst. Surgeons W. R. Webb and R. E. Hoyt, also of the naval academy staff. As requested by counsel for Midshipman Meriwether, Medical Director Howard Eames, fleet surgeon of the North Atlantic fleet, and Surgeon E. D. Galewood were present, as was also Dr. J. W. Glazebrook, an expert in medical testimony. All those taking part in the autopsy were bound to secrecy as to their discoveries until their evidence is given before the court-martial. Surgeon J. C. Byrnes, ranking officer of the autopsy board, however, made the statement that "the body was in condition to furnish such evidence as was desired."

After the autopsy had been concluded the body was reinterred. That today's examination was not made at the time of Branch's death was due to the objections of his parents.

NO FLOWERS IN CONGRESS.

Washington, Nov. 26.—There will be no flowers in either house on the opening day of Congress. Two years ago soon after Speaker Cannon was sworn in and an attempt was made to bring in large floral pieces and place them upon the desks of members, the speakers issued positive orders to stop the proceeding, and the banks of flowers remained in the lobbies until they were sent to the homes of the members. A resolution of the senate was adopted during the last session of Congress barring flowers from the senate chamber. Mr. Cannon has already given notice that he will not allow the flowers to be brought in as heretofore.

The flower practice started as a tribute to different senators and representatives when they returned to Washington at the beginning of sessions of Congress. Rivalry of admirers of different members of both houses reached a stage where half the desks were buried in flowers and the persons they were meant to compliment were completely hidden behind the productions of the florists.

The officers of both houses have been informed that there will be no floral display and flowers intended for members will probably be stopped at the door of the capitol on the opening day.

ELEVEN LIVES LOST.

Tokio, Nov. 26.—The steamer Buita, bound for the Laotung peninsula, collided with the steamer Fukura near Mitsure, not far from Shimonoeki, last night. The Buita, which was struck amidships, sank immediately. Most of the people on board were saved. Eleven are missing.

CUBA'S TROUBLE IN ISLE OF PINES.

Uncertain as to Treatment of
Americans Who Are Creat-
ing It.

NO INTERVENTION WANTED.

Palma Will Maintain Order and Not
Ask Assistance From Any-
body.

Havana, Nov. 26.—It is understood that the Cuban government is communicating with the United States government as to which government is to deal with the Americans in the Isle of Pines in the event of the latter carrying out their alleged threat to assume territorial offices.

The Associated Press has been informed in the most positive terms that whatever develops in the Isle of Pines dispute, Cuba under no circumstances will ask the United States to intervene, not even to the extent of sending a gunboat to preserve order among the American citizens there. This statement was clearly and emphatically made by Gen. Freyre Andrade, secretary of the interior, after a conference this afternoon with President Palma, at which Gen. Rodriguez, commander of the rural guards, was present.

Asked whether the members of the government all adhered to this view, General Andrade replied: "Absolutely." Why, we would not think of such a thing as to ask the assistance of the Washington government. The Cuban government will maintain order in its territory and will ask no assistance from anybody. The Americans here are considered to be foreigners, with the same status as that of any other foreigners. If they try to assume official functions, we will put them in jail."

The view of Secy. Andrade is confirmed by other government officials and also by Gen. Nunez, governor of the province of Havana, who conferred with President Palma on the subject. There was no news today from the Isle of Pines.

A special messenger of the government left Batabano tonight for the Isle of Pines in the gunboat Arana with instructions to return and report as soon as possible. All that is known here is that a meeting of Americans on the island was held yesterday to confirm what had previously been done, this meeting being considered necessary owing to insufficient notice having been given of the intentions of the Americans to nominate territorial officers.

A reports seems to have been spread among the Cubans at Nueva Gerona that his meeting will be a profitable one, which will culminate tomorrow, when the Americans assume the offices in defiance of Cuban authority. This report, however, lacks confirmation.

MISSOURI CONVICTS' REVOLT.

Gov. Folk Obtains a Confession From
One Who Was in It.

Jefferson City, Mo., Nov. 26.—Gov. J. H. Folk today secured a confession from Edward Raymond, one of the convicts who participated in the mutiny at the state penitentiary here Friday, as to the fire arms and explosives used by the mutineers. Raymond told the governor that Vaughn came to Blake, Ryan and himself a month ago and told them if they would join him he would enable them to make their escape. Vaughn told them that he had explosives by which he could blow up the stockade. Raymond told the governor that he only knew of the existence of the firearms when, just before the plot, Vaughn took the other convicts to the shoe factory and showed them the pistols and ammunition, which he had hidden there.

At the grave here today of John Clay told in the mutiny, Gov. Folk, before 3,000 persons, delivered an eulogy, in which he said: "The greatest honor a man can attain is to die at his post of duty. The brave man whose martial remains we return to mother earth achieved that distinction. I would rather far be this man in his grave than be the richest man in the world with a coward's heart. I want the state of Missouri, through the next assembly, to erect a monument here and at Clinton, where Capt. Allison, who also gave his life at the same time, is being buried today, and on each of these monuments I want inscribed the words: 'He died at his post of duty.'"

LET YOUR STOMACH HAVE ITS OWN WAY.

Do Not Try to Drive and Force it to
Work When it is Not Able or You
Will Suffer all the More.

You cannot treat your stomach as some men treat a balky horse; force, drive or even starve it into doing work at which it rebels. The stomach is a patient and faithful servant and will stand much abuse and ill-treatment before it "balks," but when it does you had better go slow with it and not attempt to make it work. Some people have the mistaken idea that they can make their stomachs work by starving themselves. They might cure their stomach that way, but it would take so long that they would have no use for a stomach when they got through. The sensible way out of the difficulty is to let the stomach rest if it wants to and employ a substitute to do its work.

Stuart's Dyspepsia Tablets will do the work of your stomach for you and digest your food just as your stomach used to when it was well. You can prove this by putting your food in a glass jar with one of the tablets and sufficient water and you will see the food digested in just the same time as the digestive fluids of the stomach would do it. That will satisfy your mind. Now take one of these tablets and body take one of Stuart's Dyspepsia Tablets after eating—eat all and what you want—and do your work. The stomach that you feel no disturbance because you will feel no disturbance or weight in your stomach; in fact, you will forget all about having a stomach, just as you did when you were a healthy boy or girl.

Stuart's Dyspepsia Tablets act in a natural way because they contain only the natural elements of the gastric juices and other digestive fluids of the stomach. It makes no difference what condition the stomach is in, they go right ahead of their own accord and do their work. They know their business and surrounding conditions do not influence them in the least. They thus relieve the weak stomach of all its burdens and give it its much-needed rest and permit it to become strong and healthy.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box. They are so well known and their popularity is so great that a druggist would not think of being out of alcohol or quinine as of them. In fact, physicians are prescribing them all the time. If your own doctor is real honest with you, he will tell you frankly that there is nothing on earth so good for dyspepsia as Stuart's Dyspepsia Tablets.

CYCLONE AT SEA.

Victoria, B. C., Nov. 26.—The steamer Athenian arrived today from Japan with a life-boat wrecked and Davis broken by a heavy cyclone storm, with high, confused seas, encountered on Sunday last. The steamer brought news that Russian authorities at Vladivostok are refusing to allow Japanese to land in retaliation for the Japanese refusing to allow Russians to land at Port Arthur. Four Japanese took the steamer Nohma to Vladivostok, loaded with supplies, but were not permitted to unload them.

Standard

of the World

Steinway Pianos are known and admired the
world over as the final standard of piano excellence.

The Crowned Heads of Europe have acknowledged their pre-
eminence by royal patents appointing Steinway and Sons as makers
to their courts.

The preference of the greatest musicians sets upon the
Steinway the supreme tribute of artistic approval.

In the salons of trans-atlantic liners, in the parlors of palatial
hotels, in the great art-centres, in remote cities, travel where you
will, you find

STEINWAY
PIANOS

universally recognized as the standard of piano perfection.

The New Miniature, reproducing the wonderful attributes of
our larger Grand Pianos, is the standard for all Small Grands. We
recommend a thorough examination of this unique instrument to any
one desirous of possessing a Grand Piano, but not wishing
to exceed an investment of \$750.

The Vertegrand, the new model in upright
form, represents the highest piano value for
every dollar expended. Price \$500.

Time Payments Acceptable.
