

MINING, BUSINESS AND STOCKS.

SUNBEAM WAS
HIGHER TODAY.

The Stock Has Advanced 10 Cents
Per Share in a Few Days.

STAR CON. WAS MUCH LOWER

Ajax Firmer-Con. Mercur a Little
Softer—Yale Active—Golden Eagle
Sells—Yankee Strong.

TODAY'S METALS:

SILVER 64
LEAD, \$4.00
CASTING COPPER 154

Upwards of 17,000 shares of stock changed hands on the exchange today for \$10,689. With the exception of 2 or 3 stocks, prices showed a slight downward tendency. Sunbeam, which has been stiffening up for the past 2 weeks, moved up to 41 today with the sale of 1,600 shares. Ajax was also stronger, a sale being recorded as high as 49 cents per share. Yankee Con. was strong at the outset, but weakened toward the close. As high as 24 cents per share was received on the first sale, but with the sale of 4,000 shares, the price declined to 22.

Coin. Mercur was not so firm today. After selling at \$4.67 yesterday, the stock was traded in as low as \$4.64 today. May Day was not very active, but the price was allowed to fall to 36.

After a dazzling performance on the curb yesterday afternoon, the stock was quite weak today. From \$1.04 per share, at which it stood at noon yesterday, it was sent down to 80 cents per share about 4 o'clock. A great deal of stock changed hands.

It is to be noted that the action of those who offered their stock in large blocks and broke the market. The ones who might know, profess that the play is too deep for them. It has seemingly weakened the confidence of the public somewhat, and when the market closed today, sales were few.

Afterwards the price sold down to 54, but the closing sales were made around 57.

Valeo was active again today at better figures. One lot was released on a bid of 154. Daly was traded in at \$1.90.

Golden Eagle was active today after remaining quiet for several months. Sales were made up to 1% per share. Joe Bowers participated at prices ranging from 34 to 35.

Closing quotations were posted as follows:

Selling value, \$10,625.

YANKEE CON. SHIPMENT.

Two Cars Sold on Controls Showing a Gross Value of \$30,50 Per Ton.

Tow Cars are from the Yankee Con.

at the time of writing sold for today on controls which showed \$13 per cent lead, 211 ounces silver, and 37 ounces gold per ton. The shipment of over 52 tons, and returned about \$25 per ton to the company. Another car is being loaded. Captain Eggin expects to visit the mine tonight as pay day falls due tomorrow.

GOLDEN STAR DEAL.

Control of the Gold Mountain Prop-

erty Changes Hands.

The Golden Star on Gold Mountain

in Platte county has practically passed

into the hands of the Kimberley-Huck

society, who own the Annie Laurie.

The details were all agreed to yester-

day afternoon, and with a satisfactory examination made of the titles, the control, which heretofore had been held by Messrs. Patrick Ryan, E. V. Duncan, and others, was now given to the new owners, and brought in \$14,000 shares some time ago. The balance of the \$60,000 shares goes to the syndicate at \$1 per share. It is said that the Golden Star had held the apex to the veins on the company's other property, but with this change, the improved inquiry for fine wool,

both washed and unashed, but mostly

their milled.

"One happy feature of the situation

is that the improved inquiry is not con-

fined to a few houses, but has been

pretty generally shared by the whole

trade. Another feature of the business

is that the improved inquiry for fine wool,

into the market and take stock or close

their mills."

"The latter, for the manufacturers making

a fine quality of goods, which is in quite

a striking contrast to the demand which

had previously prevailed, which was al-

most exclusively for medium and low

The sales of the week in Boston

amounted to 2,151,800 pounds domestic

and 117,000 pounds foreign, making a

total of 2,268,800, against a total of 1,

291,500 in the previous week and a total

of 6,897,000 for the corresponding week

last year. The sales since January

amount to 95,500,500 pounds, against

226,500,100 pounds for the corresponding

time last year."

IN PORCUPINE DISTRICT.

Discovery of Rich Gold Finds Re-

ported on Bear and Clear Creeks.

A dispatch from Victoria, B. C., states

that Provincial Mineralogist Rogers,

who returned today from Porcupine,

reports rich finds have been made

in the two creeks mentioned above.

There are many men of

the district. Fifty-five claims were

staked on Bear and Clear creeks in one

day. Good reports also come from the

headwaters of Stewart's river, where 23

claims a pan is being taken out.

THE MADSEN COMPANY.

WILL Push Work on Its Gold Moun-

tain Property.

The directors of the Madison Gold

Minning Company met last night and

agreed upon the proposition to expand \$8,-

000 in further development work. A

tunnel has already been run some 300

feet on the strike of the vein and the

values in the face of the tunnel average

about \$12 per ton, and the

expansion will be made by pushing

the tunnel back.

SILVER Advancing Fast.

Another jump of 1/4 cent an ounce

was recorded today in the price of silver.

The metal was a little above \$4 early in

the year 1897, but not since that time.

If the metal keeps on advancing at the

present rate this week will not pass

away before the records will be broken

many years back to find a par-

allel.

MINING NOTES.

Two cars of ore from the Red Wing

of Blingham were marketed today.

A special meeting of the Ridge and

Valley Mining company was held to-

day.

A car of ore was on the market to-

day from the Live Yankee in American

Fork canyon.

R. G. Wilson came in from Tintic last

evening looking after the R. G. W.

group and other properties.

R. A. Kirkner and others have located

a twelve-foot ledge of asphaltum a few

miles from Sunnyside station.

The annual meeting of the Eagle and

Blue Bell Mining company of Tintic

was set for Saturday at 10 a.m.

President Allan C. Washington of the

Horn Silver Co. of Tintic will preside.

The Taylor-Brunton sampler reported

one lot of ore from Tintic, 2 from Bing-

ham, and 1 from American Fork can-

yon today.

A new cable some 2,000 feet long is

being placed on the drum of the hoister

at the Mammoth mine at Tintic and a
