PUBLIC MORALS IN SALT LAKE.

ummittee Makes Report of Its Recent Investigations.

REMEDY FOR EVILS FOUND.

Officials Are Criticised for Neglect of Duty and Morning Paper Makes Wild Statements.

The committee on public morals recently appointed to inculre into the charges of vice in this city met at the office of Attorney F. B. Stephens on Saturday evening and made its report. It was aspreed to by all of the following members of the committee: Mr. Stephens, Mr. John E. Hansen, Mr. B. F Grant, Rev. Mr. Sinpkins, Rev. Mr. Brown, Mrs. Shepard and Mrs. Simpkin. The report was considered conservative and just and while some of the leading officials of the city were severely criticized, and conditional deprecated, the arraignment was alto getter too ralid for the Herald which has shamclessly misrepresented some members of the committee for the reason that they did not see fit to bring in sensational whitewash report or vindication of its course in an exaggera the evils of the tenderloin sec tion. The committee's report follows: THE COMMITTEE'S REPORT.

Your committee appointed to inquire into the moral condition of the city reports that it has made as thorough inestigation as time and opportunity afforded.

It finds a state of affairs that is almost wholly attributable to a non-en-forcement of the law, Upon most careful inquiry, it has ascertained that certain evils which exist might bt easily abated, or at least curtailed, if they were not openly winked at and con-

SALOONS AND GAMBLING.

For instance, saloons continue to do business on Sunday in deflance of law order and Christian sentiment. Gam-blinghouses apparently never close.

When the party in power went before the people at the last election it pledged itself at the polls to enforce and sus-tain the law against open Sunday saloons and gamblinghouses. It has abated neither It could suppress both. A genuine or-

der from those in authority would be sufficient. Women and minors have the entry

to school both day and hight. Arrests for these offenses are so in-frequent and the penalty therefor so light as to amount to practically noth-

Ing. The present license system, under which the inmates of houses of ill-re-pute are permitted to operate, is a blot upon the city's name. Its practice is not only attended with disgrace, but is fraught with the spirit of inhumanity

AS TO MESSENGERS. Regarding the recent charges that

boys were in the habit of frequenting the resorts of Victoria alley, we have

the data gathered for its consideration it found that a report had been pre-pared for its members to sign. This document was written by John E. Hansen, city editor of the Descret News, a paper which has persistently tried to minimize the viciousness of conditions existing in Victoria Alley, notwith-standing the proof which has been ac-

The truth is the report was not the work of Mr. Hansen alone. Mr. Steph-ens had quite as much to do with the framing of it as did that gentieman. More than that, Messrs. Stephens and Hansen were appointed by the commit-tes and instructed to dear the second tee and instructed to draw the report. As to Mr. Hansen being "city editor of a paper that has persistently tried to minimize the viciousness of conditions existing in Victoria Alley, notwith-standing the proof which has been ac-cumulated," it perhaps need only be said in answer that the Herald's member of the committee in question is the manager of " a paper which has per-sistently tried to magnify the vicious-ness existing in Victoria Alley notwith-

tanding proof that has been accumu-lated' to the contrary. It may be stated that one of the man-agers of the Herald was a member of he committee from the beginning and

hat notwithstanding that the commit tee met several times he was always absent, a fact that doubtless enables him to speak without any knowledge of what the committee did, Mr. Stephens is quoted as saying to the Herald

"I made no personal investigation o Victoria Alley and so far as I know no other member of the committee did excepting Mr. Simpkin. Mr. Hansen or the Descret News drew up the report He said one of his reporters had made an investigation and renorted to him there were no boys in the alley or in the resort.'

THE TRUTH TWISTED.

Mr. Stephens today sent the following letter to the city editor of the "News," which, supplemented by a ersonal conversation which shows inat he, too, was made victim The city editor of the Herald mis-

understood me as reported in the Her-ald this morning. I did not say that

ald this morning. I did not say that you wrote the report. I said that on the question of the frequenting of houses by boys I made no personal in-vestigation, but adopted the report made by you, and I have written the Heraid making this correction, and snying that I prepared the report joint-ily with you, and concurred fully in all that it contained and eaching further that it contained, and saying further that it contained, and saying further that I adopted your report in preference to that of the officer referred to by Mr. Simplific: that I would not give credence to the statement of an officer so dead to sense of moral responsibility

that he would admit having witnesses such occurrences without reporting reporting them or taking any means to stop them. I am perfectly willing to accept my share of the responsibility of the report.

Yours truly, "FRANK B. STEPHENS."

CHIEF PAUL MISQUOTED. That Chief Paul has also been a vic-

tim to an outrageous effort to mislead the public is evident from what follows. The Herald says:

"Chief Paul was found yesterday afternoon at his livery stable on West Temple street, between South Temple and First South streets. After telling one of his employes that his coachmen need not wear their silk hats while the weather was so threatening, a privilege

which the men received with evident glee, he applied himself to the discus-sion of the vice committe's manifesto. "The W. C. T. U. has treated me in a very ungentlemanly manner-very ungentlemanly manner,' said the chief gravely. Not the remotest suggestion of a smile illumined his features. They have said some very ungentlemanly things."

CHIEF'S STRONG DENIAL. Concerning the above Chief Paul sent the following to a member of the com-mittee today:

the apostolic faith. She is not here a antagonize but to edify. She stands or tolerance and breadth; for reverence and dignity in worship; for the sufficiency of the Holy Scriptures as a guide to our faith and practice; for the two great sacraments as of perpetual obligation, and for the absolute conse-quence of the historic ministry; and while it is ours to contend in an uncompromising measure for these funda mental principles, we are to do it with malice to none, but in loving charity to every one. This is a case where num-bers are insignificant as compared with that Christ-likeness which makes an argument for God which cannot be effectually resisted. Brethren, my heart's desire and prayer to God is that this spirit may pervade all of our people.

CHURCH AT LARGE.

While we have not grown very much materially, the church at large has made steady advances. You may be interested in a few comparisons. When I was consecrated, the house of bishops numbered 60 mem-bers. Now it numbers 33, with two oth-ers elected. Of the 60 in the house at my consecration, thirty have fallen asleep; and of the whole number of 95, I stand thirty-second on the roll. Within these fifteen years the clergy have increased in round numbers twelve per cent, parishes and missions thirty-three and one-third per cent, and the communicants forty per cent; and our contributions for maintaining our work have risen from \$11,000,000 in 1888 to \$15,000,000 In 1902. As compared with this growth the population of the United States increased in the decade from '99 to 1900, from twelve to fourteen per cent. These figures may not of themselves be vry significant, but it is pleasing to know that the church commends herself to our countrymen, and grows. It will grow faster roportion as we are found faithful to duty, and exemplify in daily life and conduct the precepts of the blessed gospel.

DEPARTED BISHOPS.

During the past convocation year a number of bishops have passed away. Conspicuous among these was Dr. Temple, the late archbishop of Canter-He was a marked character in the Anglican church. No man among English-speaking people was more widely known, and not only so, but he as a power for good in the state as well as in the church. He will pass into the history of the English church as one of the great archibshops of the see of Canterbury. He has been suc-ceeded by Dr. Davidson, Bishop of Winchester, probably the youngest bishop who has ever occupied that important see.

That committee has referred the matter to all bishops, as well as the dioceses and missionary districts, for an expression of their opinions. The matter comes before us then at this session of our convocation. I ask you for an expression of your opinion upon subject. Inasmuch as I am expected to express my own conviction, University Students Plan a Mido so now. At the same time I have no desire to influence you in any small de-gree. We shall hope to have an emphatic declaration from you. There is no doubt that our present name "Protestant Episcopal" is an un-fortunate one, and absolutely inexpressive of what we claim to be. I am of the her corporate name? I am of the opinion that such agitation will be harmful in view of the difference of opinion upon the subject which exists in the church today. We are just be-ginning to put our misionary work on the wisest basis we have ever seen All of our people are pro-foundly interested in the matter, and are manifesting that interest in a practical manner. More practical and important questions are before the church than have been considered for years. The provincial system: a proper eccleciastical, judiciary system; mis. sionary extension, the church building

fund, and the care of our aged and in-firm clergy. These are all matters pressing upon the mind of the church at large. Why inject questions which will disturb this harmony? As I have already observed, I do not see that this estion will be a helpful one to conas usual, when they reached the scene the culprits were non est. Federal Judge Marshall in Important Opinion Holds That Utah Flockmasters May Graze Their Herds on Gov. ernment Forest Reservations.

ing Judge Marshall handed down an opinion in the case of United States vs. Frank Martinus, which will be of vital interest to all sheepmen, bearing as it does upon the constitutionality of the regulation of the secretary of the interior in respect to the trespassing of sheep on the forest reserves. The opinion not only is of interest to the defendant in this case but to many others who have been prosecuted for grazing their flocks on the forest reserves of Utah

Going to a nearby livery stable The opinion delivered today by his honor is in regard to a demurrer filed by counsel on behaif of Frank Mar-tinus, who is charged that on June he sent in a hurry up call to the police. The bluecoats responded quickly, but , 1902, he wilfully and unlawfully pas-tured about 2,000 sheep on the Fish Lake forest reserve, a public reserva-tion. To this information defendant interposed a general demurrer, Judge Marshall, in his opinion says

Both Pratt and Gibbs originally de that "It is not claimed that any law of Congress in terms makes it unlawful clared their intention to swear out warrants for the arrest of some of the o graze sheep on reservations suspended sophomores, but on learning indirectly from members of the gang but it is contended that the secretary of the interior under statutory authority invested in him has made regulations forbidding the grazing of sheep on forest reserves except by his express permission. The information does not allege that the reservation in question was a forest reserve or that the secretary of the in-terior had made any such rule or reguest reserves, and before that act can h lation, or that the defendant did not fall within the exception, if the reguheld to constitute a crime there may be some public law forbidding it." lation was such that the exception had This decision of Judge Marshall I to be negatived. "It is doubtless thought that these matters are within the judicial knowl edge of the court. Admitting this to be true, the necessity of pleading them is not obviated. Judical knowledge can only be relied upon to prove facts properly alleged; it does not dispense with averment. Such regulations as the secretary of the interior may have made are executive acts and public records; but are matters of fact as distinguished by matters of law. The demurrer might well be sustained on this ground, but the only question argued has been the contention that th falure of defendant to obey a regulation of the secretary of interior in

thereon, or to obtain any information that will substantiate the claim that boys other than messenger boys ever visit houses of this character, either upon this or other avenues in the socalled tenderioin district. We condemn unreservedly the practice of allowing enger boys to enter houses of protitution or saloons, and think it should be prohibited by law. We likewise are of the opinion that the all-night sa-loan should be abolished, and that the closing hour should be 11:30 p. m. It is a notorious fact that many of the worst characters with which the city is infested are the frequenters of these all-night saloons, and that many rob and other crimes are committed in them.

BOYS DO NOT VISIT RESORTS.

Under existing conditions they are veritable nests of crime. With reference to the recent murder of Daniel Ryan on Victoria alley, it is a notable fact that following the public agitation, an air of order and semi-respectability has ded the lawlessness which tained prior thereto. The publicity that was given it appears to have had a deterring effect upon the element that plies its vocation in this thoroughfare. With an increase of light and more reg-ular police patrol for the future, both of which are promised, conditions will be greatly improved.

AS TO POLICE INCREASE.

In conclusion we regret to say that we cannot consistently recommend an increase of the present police force. While we concede that the number of men in the department is wholly inadequate to the needs of a city of this size, we fail to see where the public would be benefited by an augmentation of the force under the present executive officials. In the language of the day it is a question that is up to the people After all that this or any other commit-fee can do; after all that has been said in the past; after all that can be said in the future, the fact remains that the people alone can solve the question. They are the final arbiters. It is for them to say whether the moral tone and status of our city shall be kept pure. The place to do this is in con-vention assembled. The means: The ction of good men will solve the blem better than all the committees that can be named.

FOR THE VOTERS TO DECIDE.

In the meantime we recommend that every fellow-citizen interested in good government should continue to insist that city representatives exert their en-ergies at this time to continue that improvement of conditions springing out of the recent agitation, and we furor advise that following this action all good citizens should seek at the election to secure a city executive whose departments shall enforce

HERALD MISREPRESENTATION.

This morning the Herald contains a long saffron hued story on the work of e committee, and in glaring first page addines says that "Truth was Killed of Vice Report," and that the mittee was Hoodwinked to Suppress Facts." It stated further that the only member of the committee who had made a personal investigation of con ditions on Victoria Alley was the Rev Mr. Simpkin, and that in spite of what told the committee his views were not set forth in the report. This state-ment is whoily untrue. Mr. Simpkin was not the only member who made a personal investigation. What that genman had heard he admitted he did theman had heard he admitted he did not know, saying that it cause to him second hand. After some discussion he agreed to its omission. CONCLUSION.

And now, brethren, I have detained you longer than I should have done, in thus reviewing our work. To me the outlook is bright: the field is large and witing; our surroundings are in large part peculiar and different from those scen elsewhere; our efforts will not show largely in figures; there is thereore the greater reason why we should be unceasingly active, strong in the conviction that by the blessing of God, our efforts will be crowned with such ccess as He deems best who doeth all things well. If conscience convicts us of duty unperformed, and stimulates us to greater activity, let us with strong purpose push on to larger and better things. Let our determination be to make this church a real benefit to the

community. Has it been, and is it now, a real power for good? Is it such a power that no community will be satis-fied in the absence of its ministrations? We shall be happy indeed if we bring about such conditions. Is it can Is it not condition which we should desire, and for which we ought to use every ener-May God who puts such desires nto our hearts help us to bring these things to pass. As you return to your homes may the God of peace go with

you and bless you always. The convocation adjourned until 2 lock this afternoon, when the first asting most of the session was taken up, this evening comes the annual parish day service, to be followed by a public reception. The convocation continues through Wednesday, and tomorrow night there will be a banquet tendered Bishop Leonard at the Knutsford which will be largely attended by both clergy and faity.

BEET SUGAR INDUSTRY.

Austin Would Have Association for Interchange of Ideas.

MINISTERS MEET.

aper by Dr. Pinkerton-Nothing About Smoot or Temperance.

The Ministerial association met with a full house today. The feature of the session was a paper from Rev. Dr. Pinkerton on Spiritual Power In Christian Service; and especially in preaching service. The speaker held that spiritual power must find its focus in personality. Moreover, this power is not placed in propositions or abstractions theological formalities, creeds or organ izations, but into men

The matter of a temperance legisla-tion was discussed, but no action was taken. Several members of the asso ciation were asked if the written pro test against Senator-elect Smoot had been sent to Washington, but not a committee and very much interested word would anybody say-nothing but in the beet sugar industry, thinks it a quiet and unobtrusive smile,

(Special to the "News.") Boise Ida., Jan. 26.-Fremont county cored the initial victory in the fight for the location of the state reform school by the legislature today. There is a determined effort to secure the establishment of a reform school by the present session, as such an institution is badly needed. Two main bills have been introduced, one for its location in Fremont county and the other

for its location in Ada county. The house committee on education today submitted majority and minority ! perts on these bills. The majorit favored its location in Fremont count and the minority in Ada. The house a lopted the majority report. As county workers state that the fight has only begun and they will yet secure school, but the victory won by F mont is a substantial one and it less like Fremont would secure the location
