By and has ordered out two brigades; the and by, true to the word of promise, the Troy Citizens' Corps, the Albany Bur-gess Corps, and the civic societies will unite in the procession. Would it be any satisfaction to you if I were to continue and tell you that the sun does spine? It shines in the face of you all. You have no need of my testimony, you have no need of my assurance. It displays its light to all the world, and you behold it, and no one could convince you that the sun does not is all summed up in the excellent quotashine.

So let me say here, that there are faithful Paris.-It is now said that after all, the witnesses, who will testify to the truth, martyred Prophet; and they will continue to live and testify till this kingdom can take care of itself. What do you mean by the kingdom taking care of itself? I mean that the yeil which is now cast over the world will be rent asunder, and every eye will see and every heart feel. Weil, now, we have the consolation to know that, whatever changes may take place in the government of the Church and Kiagdom of God, we shall not be left in the dark nor will our destiny be suspended on the frailty of argument; but I believe that whatever changes take place will be brought about by a power that every child God will recognize.

These are the feelings of my hearl; and consequently I dismiss every anxiety in re-lation to it. It is for me to live my religion and honor my God, and to let Him steady His own ark. Let me do my duty and all will work for the best. This is how I feel, brethren. When I began to speak, I had quite an argument fixed up in my mind; but I cannot touch it now, and it is useless to try. I will say, however, that it tion made by our President,-"My sheet know My voice and will follow Me; but a stranger they will not follow, for they know not the voice of strangers.'

We must learn, brethren and sisters, to be wise. We must learn to let the world alone. The Lord has brought us out from the nations. Said He, "come out of her, my people, that ye be not partakers her sins and receive not of her plagues." Now, why should we ever have any lingering desire for any connection with the world again?
