

FLOATING FRAGMENTS.

D. M. Osborne & Co. advertise their agricultural machinery in today's News.

Carroll's orchestra concert at the Walker Opera House, on Monday and Tuesday nights.

Monthly meeting of the Salt Lake Board of Trade, at the Council House, tomorrow night.

Mr. J. B. Farmer announces a reduction of prices on goods in all the departments of his store.

A New York policeman is said to have killed four men the other night with his pistol. What became of the fifth man was shooting at is not stated.

Buffalo Bill has made nearly \$100,000 this season. A broad-brimmed hat, long hair and fancy topped boots pay as well as trains in some professions.

In stating the scores that were made by the contestants in Tuesday's game ball match between the employees of Mr. B. P. Teasdel and Messrs. Jennings & Sons, an error occurred. The scores were: Teasdel 10; Jennings 24.

On Monday evening, about sundown, Fred Camomille, a boy of 11 years of age, was returning to his home on the corner of First and Young streets, having been at work all day in the potato fields. When passing between the second and third streets, he saw some boys at play and joined them.

He climbed up a tree, and when at a height of 15 feet he lost his grip and fell to the ground, fracturing his right thigh bone—Garden Herald.

LOCAL AND OTHER MATTERS.

Proposed Balloon Ascension.—Prof. Wells, a noted aeronaut, is in town. We understand he has been endeavoring to make arrangements for a balloon ascension in this city at an early day.

Fireman Attention.—The regular monthly meeting of the Wasatch Engine Co., No. 2, will be held in their Engine House to-morrow evening, at 7:30 p.m. A full attendance is requested. By order of the Foreman, R. H. Hardy.

W. R. ADKINS, Secretary.

The Immigrants.—By telegram to President John Taylor, we learn that the second company of immigrants, in charge of Elder W. L. White, left Omaha last night. All well. It is probable they will reach here on Saturday, unless they are put through as rapidly as the previous company, in which case they would get in on Friday evening.

Salt Lake and Western.—The Salt Lake and Western Railroad commenced running passenger trains this morning between Lehi Junction and Doremus, a distance of 42 miles, this morning. Passengers will be able to make the round trip between those points in one day. The trains will connect, both ways, with the new Utah Central special. Doremus is 11 miles this side of Panguitch. Trains will probably be running between Lehi and Panguitch in fifteen days.

Camelionism.—On Monday evening Richard Howell, a Staterville farmer, was driving home from Ogden. He was overtaken on the road by James Stone, of Lynne. A rivalry of speed took place between the farmer's mule and stone's horse. The mule kicked the horse, causing a fight between the owners of the respective animals. Stone inserted his teeth in Howell's ear and bit one half of it off. Stone will be prosecuted for this barbarous use of his mule. The Ogden Herald gives details of the encounter.

John A. Kimball Convicted.—The trial of John A. Kimball, late assistant of the Utah and Northern Railroad, which had been in progress at Ogden for some days, was concluded on Monday night. There were two counts in the indictment; one for embezzlement and another for receiving five dollars from a letter which had been deposited in the United States Mail for transmission to its destination. The jury returned a verdict of guilty on the second count. The Ogden Herald says in its account of the proceedings, that evidence was deferred till Saturday. The convicted man is a son of General Nathan Kimball, well known in this city.

Lucern Culture.—But few people have a definite conception as to the enormous quantity of lucern now raised yearly in Utah. Last season the crop was immense and a large trade has been done in the exportation of lucern seed from last season's yield. Mr. John R. Barnes, of Rayville, has alone purchased close on 100 tons this year, for which he has paid about \$20,000. This enormous quantity of seed has been shipped to different points—east, west and north, principally to San Francisco. He purposes going to that city shortly in the interest of that special branch of trade. He has shipped some of the product to St. Louis, Mo., and other prominent points in that part of the country.

Mortuary Report.—Following is the City Sexton's report for May 1892:

JOSEPH E. TAYLOR, City Sexton.

FATAL ACCIDENT.

MRS. S. C. EASTHOPE INSTANTLY KILLED.

At 7:30 o'clock this morning, Mrs. Sarah Clark Easthope was walking down the Utah Central track, toward Wood's Cross station for the purpose of catching the down freight train. At a point called Barlow's crossing there is a sharp curve in the line. Unfortunately this prevented the engineer on the passenger train which left this city at 7 o'clock, from seeing the old lady until the engine was almost close to her. On observing her he instantly whistled down brakes, but owing to there being an additional car on a heavy Pullman, the train did not stop quite so quickly as usual. There was ample time, however, for a person of ordinary activity to have stepped off the track. It is probable that Mrs. Easthope was "dazed" by the proximity of danger, and did not move. She was struck by the cowcatcher, thrown some distance from the track and instantly killed. Death was evidently produced by the severity of the shock, the visible injuries consisting of a broken wrist, a number of scars on the face, and other apparently minor effects of the deplorable incident.

The remains were conveyed to the nearest home. At 12:15 to-day George Swan, Esq., Secretary of the Utah Central Railroad, and Barton Taylor went up on a special train and returned at 1:30. An inquest was held at the house to which the body was taken, when a verdict was returned in accordance with the facts as stated above.

The affair was purely accidental, and no blame is attachable to the engineer of the train, who is well known to be efficient and prudent.

The remains of Mrs. Easthope were, this afternoon, taken to the residence of Brother Anson Call, where they now are. Deceased was a resident of Bountiful, and had reached the advanced age of eighty years.

Walker Opera House.—In addition to the announcement made yesterday, regarding two grand orchestral concerts, conducted by Prof. Carroll, at the Walker Opera House, on Monday and Tuesday night, we are also enabled to state that the dramatic opening will occur on Thursday night, June 3rd. Arrangements have been made with one of Mr. Haverley's companies to appear on that date and the balance of the week, including a Saturday matinee, at 2 p.m. The fine play of "My Partner" will be presented, with Louis Aldrich and Charles T. Parlove, both noted actors, in the leading roles. The Opera House is finished and its interior presents an exquisitely handsome appearance.

From Bear Lake Valley.—President William Budge, of Bear Lake Stake, arrived in town to-day. He reports everything prosperous in that part of Idaho. The crops are very backward, however, on account of the unusually cold weather.

There are a couple of sloughs in the neighborhood of Montpelier, on the line of the Oregon Short Line Railroad. The company have been considering for some time whether to bridge or fill them. They lately concluded to adopt the latter method of going through the sloughs, and are employing all the men and teams they can get, thus helping to make business brisk.

Broke His Thigh.—Yesterday, Brother George C. Lambert, manager of the Juvenile Institute office, took the employees of the establishment and a number of friends to Caldes to recreate. The party would have had a delightful time but for an unhappy incident that occurred during the day.

Alvin Lambert, aged nine years, was pushing the boat swing, when he accidentally fell. While prostrate upon the ground, the boat struck his leg when it returned, breaking the thigh about midway between the hip and knee joint.

Flocking to the Northwest.—A large company of colonists left Omaha and Kearney, Nebraska, on Tuesday and yesterday. They include mechanics of the various trades, school teachers, both male and female, farm hands and common laborers seeking employment in Washington Territory is their destination, but many will stop in Montana, should inducements warrant them in doing so. They will arrive at Ogden on or about the 6th inst., and proceed to Silver Bow, on the Utah and Northern R. R.

Free Lecture.—Mrs. Wells, M. D., of New York, is in the city. She is associate editor of the Medical Directory Journal, of San Francisco. She is on a trip around the world, accompanied by her husband. This evening she will deliver a free lecture, entitled "A Year in India During the Prince of Wales Visit," in the basement of the M. E. Church. A cordial invitation is extended to the general public.

Desperate Attempt at Suicide.—Considerable excitement was caused at Phillipsburg, Montana, on the 25th of May, by a desperate attempt of James Boyd, well known in western mining circles, to commit suicide. He was found with a horrible gash in his throat, but still breathing. The surgeon called in to attend to him gave no hope of his recovery.

Mail changes.—The southern mail will, in union with the new U. C. special, now leave this city at 7 a.m. each day, arriving at 8 p.m., instead of leaving at 2 p.m., and arriving at 10 a.m., as heretofore. The postoffice of this city will remove to its proposed new location, south end of Washach block, during the present month.

"Our Gobblins."—A company called "Mitchell's Surprise Party," are announced to perform at the Theatre on Monday night, when they will appear in "Our Gobblins," which is a somewhat peculiar title. We received a call to-day from the agent, Mr. Dan McCullough.

CITY COUNCIL.

Proceedings in the City Council on Wednesday evening, May 31st, 1892, Mayor Jennings presiding.

The following petition was presented, signed by Joseph Pollard and 62 others:

SALT LAKE CITY, Utah, May 31st, 1892.

To the Hon. the Mayor and Members of the City Council of Salt Lake City.

Gentlemen—We, the undersigned, real-estate and property owners on Sixth West Street, Salt Lake City, hereby request the granting of the petition of Henry Wood, in behalf of the Denver & Rio Grande Western Railroad Company, asking the privilege of laying a railroad track from their depot grounds northward along Sixth West Street, for the reason that the running of railroad trains must necessarily endanger the lives of children and obstruct the passage into and from all lots occupied along said railroad track.

We respectfully suggest that in our judgment such railroad track must not properly be extended to and laid along Eighth West Street, as said street has not been opened south of First South Street, and hence has but few residents.

Further, that the public thoroughfares are greatly obstructed by the crossing of road trains and leaving cars on the streets to the hindrance of pedestrians and teams.

While we are ready to concede all legitimate enterprises, we think that private corporations should not be allowed to encroach on the rights of the general public; and that your honorable body will not repeat the errors of a previous Council, in permitting railroad companies to monopolize the public highways.

Therefore, in view of the above reasons, and the fact that we already have three lines of railroad running through the principal streets of the western part of this city, we respectfully ask that the aforesaid petition be not granted.

Referred to the committee on streets and alleys.

A petition was submitted signed by Mrs. J. Richardson asking permission to raffle off a piano at a season on Main Street, said piano to be played on only at the request of purchasers of tickets. The petition was received and prayer thereof not granted, it being contrary to ordinance.

A petition was submitted from O. P. Miles asking the privilege of using a portion of the street and sidewalk opposite the building now being erected by him on the east side of Cook & Grand streets, between First and Second streets, for the purpose of erecting a building.

The mayor stated that he had been interviewed by a number of gentlemen in behalf of certain citizens who desired to give a public celebration on the fourth of July, and who requested the use of the Liberty Park for the occasion. The Mayor had informed the gentlemen that individually he had no authority to act in the premises without the sanction of the Council. The Mayor also stated that the same committee of citizens desired to set off some fireworks at Washington Square on the night of July 4th.

In view of the fact that Liberty Park had not been formally opened and that it was contrary to the general interest to grant special privileges in relation to public grounds on public holidays, it was agreed that the petition of the gentleman be not granted so far as it related to the Park. The matter of using Washington Square for the exhibition of fireworks was referred to the Mayor with authority to act.

An appropriation of \$50 was made to Wm. G. Ferrell, Clerk in the City Recorder's office, for extra services since January last.

The committee on public grounds to whom was referred the petition of R. N. Williams, Agent Vigorito Powder Company of San Francisco, asking permission to build a magazine, reported in favor of granting the prayer of the petitioner, provided the magazine be erected within the district prescribed by ordinance and east of the first bluff above the railroad leading into the city from the north. Adepted.

Councillor Ritter, of the committee on water works, to whom was referred the petition of the Denver & Rio Grande Western Railway Company in relation to an extension of water mains to their depot, etc., stated that owing to certain legal questions pertaining thereto, which had arisen and were not decided, the committee were not prepared to report, and in order to obtain a definite understanding of the various points involved, the subject was referred to the city attorney for his opinion.

The following bills for the month of May were allowed: Marshal's expense bills, \$250.25; expense of fire department, \$146.10; boarding prisoners, \$415.80; assistant water masters, \$388; medical attendance, etc., for prisoners, \$37.75; coal delivered at City Hall, \$12; repairing and attending to city clock, \$10.

The marshal was instructed to employ a competent person to attend to the winding, cleaning and regulating of the city clock.

A bill for clerk's fees, \$14.60, connected with the appeal to the Superior Court of the city of Salt Lake against O. J. Hollister, was allowed. The subject of obtaining clerical assistance for the city recorder, was referred to the committee on finance.

Adjourned to Tuesday next at 7 p.m.

SPECIAL BUSINESS NOTICES.
