

DETAILS OF THE DOUBLE MURDER

Particulars of the Tragedy at La Sal on Wednesday.

WAS COLDBLOODED CRIME.

Charles Bothe Shouts Down His Wife And an Unarmed Man—Arrested in Colorado.

Special Correspondence.
Moab, Utah, March 22.—On the 19th inst., at what is known as the "Old La Sal Ranch," in San Juan county, a German by the name of Charles Bothe, married, in apparent coldblooded manner, his wife Mary Bothe, and a German by the name of William Tibbets.

An old gentleman by the name of Rose told the following story, he being an eye-witness to the entire affair. Bothe had the name of a quiet, unassuming, and industrious man, who, about a year ago, married his wife at Leadville, Colo., representing to her that he had a fine home and property in southeast Utah; however, she learned on returning with him that he was a gross deceiver, for instead of a comfortable home, she found nothing but a rude dugout in a canyon of the southeast La Sal country. Hard work seemed to have been her lot from that time on, digging, sawing, hauling, and cutting wood seemed to have become a part of her daily labor, until life became so unbearable that she left the family in Paradox, Colo., a few miles from her home, and followed her husband to this place and threatened to kill her if she did not return to him; finally she consented, but only remained for a season until she again found herself in the same position, having no place to go, she had made a camp under some cedars, where Mr. Tibbets found her. It seems that he informed her that if she has no place to go, she was welcome at his place, and she might return to her home.

Bothe on learning that his wife was stopping at the Tibbets ranch, armed himself with a 4 Winchester rifle and went to the home of Tibbets and informed him that since his wife had learned the truth about him, he had decided to kill her, and he fired two shots, but missed him. At this Tibbets retreated into a closet closing the door. Bothe following him tore the door open and fired. The ball struck Tibbets just to the left of the head, and he fell point down the small of the back, coming out just to the left of the navel. The woman lived about one hour. Tibbets lived for perhaps six or seven hours. Both expired in great agony.

After Bothe had finished his brutal work, he went some distance and told a Mr. Lackey that the old man Rose had been badly killed by a horse, and that he had better go over and see him. It seems that after Lackey had learned the true state of affairs, and had gone to another ranch for help. Bothe returned to Tibbets' home, to learn, so he said, if he had done a good job. Finding his work satisfactory, he told Tibbets he had been badly hurt, and he was going to "bedrock," and gave himself up, and saying goodbye he left.

All parties at Tibbets' home were unarmed, and taken full advantage of. The bodies were brought to Moab yesterday morning and were buried today at 11 o'clock a. m.

Sheriff Young, of this county, received a dispatch yesterday that the sheriff of Montezuma, Colo., had captured Bothe at Placerville, Colo., and was on his way with him to Montezuma where he will be held until further orders.

NEW DIRECTORY.

Salt Lake City's new directory, for the year 1902, is out and the "News" was furnished with the first copy issued from the press of L. L. Polk & Co. The book is indispensable to business men, as it contains this year better and more complete information than it has in any other issue heretofore. The editorial staff of the house numbering is advocated, as it is a revision of street names for small avenues, many of which exist in duplicate in the city. The street and sewerage systems are also recommended to the attention of city officials for investigation and improvement.

NEW EXPOSITION BUILDING.

The directors of the B. A. & M. society accepted Saturday evening the design of Architect W. E. Ware for the new exposition building of the state fair, and which will cost \$200,000. The building will be 10x150 feet in area, and be constructed of steel and cement plaster. The building will be supported by a steel truss roof, and the style of architecture is the Spanish renaissance. It is intended to connect the structure with a covered colonnade, and it will be completed in time for the next fair which opens in October. The elevation of the building is the work of O. A. Treganza of Mr. Ware's staff.

FREE SCHOLARSHIPS.

State Superintendent Nelson is in receipt of a communication from the National College of Law at Nashville, Tennessee, notifying him that there have been two free scholarships in that institution allotted to students of this state for the next fall law course. Just what the conditions of this gift were not stated in the letter but it is probable that the scholarships will be awarded to the two winners of a competitive examination. The offer is quite an inducement to students intending to study law as it will give them an opportunity to take the course at that institution free of charge.

AMUSEMENTS.

The only place of amusement in the city open tonight is the Theater, where the noted English actor, Mr. E. S. Willard, will open a week's engagement, rendering for his first bill, "The Cardinal."

CONSIDERING HIGH SCHOOL.

County Superintendent Ashton has arranged a schedule of meetings to be held this week on the high school question. There will be meetings every night this week in the districts interested, and the following is a list of the speakers who will address the different meetings: State Superintendent Nelson, D. O. Ridenour, Albert Matheson, Richard R. Lyon, William M. Stewart, Parley P. Christensen, O. W. Carlson, W. H. Lyman, W. F. Moffat, Heber Sanders, John Hansen and J. W. Smith.

LAST HOURS OF CHAS. WOODWARD

Preparations for the Execution of Condemned Murderer.

STARTLING REVELATIONS.

It is Expected That He Will on the Gallows Disclose the Story of His Downfall.

Special Correspondence.
Casper Wyo., March 22.—Preparations for the execution of Charles Woodward, murderer of Sheriff Ricker, which will occur in the yard of the county jail here next Friday, are nearing completion. The gallows is in place, the rope—a twisted hemp band of pure white—has been purchased, invitations have been issued to the several sheriffs throughout the state and to others who will witness the execution and everything is almost in readiness for the first legal hanging Casper has ever had. No appeal for Woodward has been made to the supreme court and in all probability the murderer will pay the penalty for his awful crime on Good Friday, the execution being the first legal hanging to ever occur in this country on Good Friday.

It is stated here that if Woodward is given an opportunity to make an address on the gallows, and he will undoubtedly be granted the request, he will make some startling statements, disclosing what is alleged to have been a well-laid plot to ruin his body and soul. It is alleged that Woodward will tell the story in full of his troubles and of the trap laid for him by his enemies that resulted in his downfall.

A prominent ranchman, for whom Woodward worked a number of years, claims to know all about this plot. He says Woodward was an honest, industrious fellow, hard-working and law-abiding until he was thrown into jail last fall. Woodward secured a small patch of land in the Rattlesnake mountains and built a comfortable home there. He herded sheep in the winter and sheared in the spring, working on his own place in the summer months. About a year ago parties living near him began to cause him trouble. One man attempted to secure his ranch by filing a mineral claim there, but failed. Woodward complained at the time that the parties were working to ruin him and he would remain with the ranch come what might. He has just been married and the persistence of his enemies to drive him out of the country almost drove him insane.

The claim was reached last fall when Woodward was arrested for robbing a ranch house, an alleged trumped-up charge, instigated by his enemies. Though little evidence was produced against him at the preliminary, Woodward was hurried over to the district court. The ranchman says several parties offered to go on Woodward's bond but that Sheriff Ricker warned them that Woodward would skip out of the country just as soon as released and leave them in the lurch. The claim was reached last fall when Woodward was arrested for robbing a ranch house, an alleged trumped-up charge, instigated by his enemies. Though little evidence was produced against him at the preliminary, Woodward was hurried over to the district court. The ranchman says several parties offered to go on Woodward's bond but that Sheriff Ricker warned them that Woodward would skip out of the country just as soon as released and leave them in the lurch. The ranchman says several parties offered to go on Woodward's bond but that Sheriff Ricker warned them that Woodward would skip out of the country just as soon as released and leave them in the lurch.

MAY RESCIND ORDER.

Gov. Wells this morning received a letter from Senator Kearns in regard to the recent withdrawal by the secretary of the interior, of 5,000 square miles of land from entry in the Wasatch mountains. The communication is in answer to a protest by Governor Wells against the promulgation of the order. The matter has attracted a great deal of attention and is of vast importance to the people of the state. The letter bears date of March 17, and in substance:

"I have already entered a protest against the withdrawal of 5,000 square miles of land from entry in the Wasatch mountains. The secretary of the interior made this sweeping withdrawal in order to better prosecute inquiries, through the geological survey, concerning the actual needs of the situation. I have received petitions urging protection by withdrawal from entry, of tracts of land embraced in the watersheds of various localities. I am heartily in favor of giving to municipalities of the state all the protection possible for their drinking water; but am not going to urge the protection of a watershed to its very source, as that would be a hardship upon the great industries which have done so much to develop the state.

"I am informed by medical men that running water purifies itself in a few miles. I think the sheep men and the people clamoring for pure water should get together and decide upon some definite plan of action.

"I went at once to the secretary of the interior to protest. After I saw the president, I don't think he will ever sanction the order. The matter is now being investigated by the geological survey. I will not permit the promulgation of the order if I can possibly prevent it."

PHILLIPS EXONERATED.

The county commissioners at their meeting this morning exonerated William Phillips of East Jordan from the charge preferred against him by his step-mother, Mrs. Maria Phillips, of having taken all of her household goods from her. The matter was investigated by the sheriff and it was found that when Mrs. Phillips and her husband separated they agreed that he should have the household effects and it was in pursuance of this agreement that William Phillips took the property. It is said that family quarrels led up to the complaint being made against the son. Mrs. Phillips will be provided for by the commissioners and will probably be returned to the infirmary.

Divorce Granted.

Lottie J. Mounter was today granted a decree of divorce, by Judge Hall, from her husband, John H. Mounter, on the ground of failure to support. Mrs. Mounter was given the custody

of the little woman and fairly worships her husband.

The story of the ranchman is believed by some who claim to be familiar with the circumstances, but among citizens generally there is little sympathy for Woodward, and as a matter of fact Woodward will walk to his death without fear.

GROESBELL ON TRIAL.

When the case of the State vs John Groesbell, charged with assault with intent to commit rape upon Mrs. Annie Nielson, was called in Judge Diehl's court this morning, Dana T. Smith and G. M. Ripley, attorneys for the defendant, asked that the case be transferred to Judge Tanner. Accordingly, Judge Tanner was called in to conduct the proceedings.

This is the second time Groesbell has been placed on trial for the same offense, the first complaint having been dismissed upon motion of Asst. County Atty. Loofboeck.

The first witness was Mrs. Nielson, and her testimony was the same as that given at the previous hearing, and published in the "News."

The hearing was continued until this afternoon and was in progress when this report closed.

SOOT FIRE.

An alarm of fire turned in from the Vey hotel at 10:45 last night caused considerable excitement among the guests of the house.

The blaze proved to be nothing more than burning soot in the smokestack, and it was soon extinguished. The apparatus from department No. 1 responded to the alarm.

TENTH WARD SQUARE SALE.

The committee on buildings and grounds of the board of education met with the mayor of the council committee on public grounds this afternoon in the mayor's office, to talk over the matter of the purchase of the exposition grounds, commonly known as the Tenth Ward square, from the city. The council offered to sell the square for \$40,000, and the offer is now under consideration. At the time the offer was made, the board of education thought the price was a little too high, and a scheme was advanced whereby the block would be cut in halves, and the eastern half sold to the board for high school purposes and the western part retained by the city and the old exposition building converted into an auditorium for public meetings. The matter was thoroughly discussed and some report on the matter will probably be made to the council tomorrow night.

WAS REPENTANT.

There was an affecting scene at the police station this morning when Mrs. Wilson, wife of Hans Wilson, called at police headquarters to bail her husband out of jail. Wilson was arrested last night by Officer Barlow on the charge of drunkenness. The man was in a bad way when arrested and had a big revolver strapped around his body. He was not fully sober when his wife and daughter came to take him home this morning. When husband and wife met, the former broke down and cried like a child. His sobs could be plainly heard throughout the building and it was with considerable difficulty he was quieted. He promised his family and the officers that never again would he be found in such a condition, and as it is the first time he has been arrested, he says it has taught him a good lesson.

THE CHOLERA IN MANILA.

Manila, March 23.—There have been four more cases of cholera here and two more deaths from the plague are reported. The health authorities believe that their rigid precautions have averted an epidemic. Five cases of cholera have been reported from the provinces.

As Gen. Chaffee did not want the men in the Third infantry to run the risk of cholera as a result of contact with the city that regiment has already been taken aboard the United States transport Grant, which will sail for San Francisco one week ahead of her scheduled time.

Brig. Gen. George W. Davis, stationed at Zamboanga, island of Mindanao, reports that a detachment of the signal corps consisting of 17 men had been attacked by 200 Moros near Parangaran, Mindanao. One of the signal corps was killed. The Moros were armed with a variety of weapons, including four pack mules.

The United States transport Buford has arrived here. She has on board a detachment of the Twenty-seventh infantry, a squadron of the Eleventh cavalry and 50 pack mules.

DUFFY'S PURE MALT WHISKEY.

The World's Famous Medicinal Whiskey

Grip, Coughs, Colds, Bronchitis, Asthma, Consumption, Catarrh, Diarrhea, Fever, Chills and Dyspepsia, of whatever form, quickly cured by taking Duffy's Pure Malt Whiskey. A tablespoonful is a wonderful cure of water three times a day.

Gentlemen: I have had nervous dyspepsia for over ten years. I was so weak I could hardly walk, and night after night could not sleep. I tried many remedies, but took my case in my own hands, saying nothing to my doctor, and began using Duffy's Pure Malt Whiskey. I have taken the third bottle of it. I feel better, and my appetite is splendid. I feel I can never say enough in praise of Duffy's Pure Malt Whiskey. I take it hot water nearly every morning before breakfast. When I started taking it I only weighed 100 pounds, and now I weigh 150 pounds. I feel like a new man.

MARGUERITE F. HUBERT.

CAUTION: Duffy's Pure Malt Whiskey is sold in sealed bottles. If offered in bulk it is a fraud. Be sure you get the genuine. It is the only whiskey recognized by the government as a medicinal. All druggists and grocers or direct. Medical bottles sent from Duffy's Malt Whiskey Co., Rochester, N. Y.

FREE: Send 6 cent counters for what you want. Send 4 cents in stamps to cover postage.

Nelden-Judson Drug Co., Salt Lake City, Wholesale Agents.

GREAT INTEREST IS NOW DISPLAYED

Salt Lake Business Men Convinced Line Will be Built.

DENVER TO SALT LAKE CITY

Railway Mapped Out for Utah Is Assuming Great Importance—Much of It Begun.

Since the dispatches and the Denver papers, containing repeated assurances of the building of the new line between that city and Salt Lake have come to hand and been given circulation here, people are beginning to awaken themselves to the fact that although times have been exceptionally good for some time past they are likely to see still greater improvement during this summer. The amount of railway work mapped out for the summer that will contribute to Salt Lake's prosperity is scarcely realized. Already the Short Line has spiritedly entered into the work on the Leaning cut-off, as has the Southern Pacific on the Ogden-Lake cut-off across the north end of Salt Lake. These dispatches to the officials of which have given assurance that a thousand men will be at work south of the city this summer. Now, if this Denver line is to be built, the benefit to this city will be almost incalculable, and business men here are looking forward with some anxiety to the next move in that direction. Salt Lake is thoroughly interested.

After Chilean Connection.

New York, March 24.—Manager Henderson of the Southern railway has just returned from a trip to Chile, where he has been studying the manner in which his road can be joined to the Chile-Victoria line, thus connecting the Atlantic and Pacific oceans by rail.

He will present this plan for transatlantic railways had in view connections by the Northern route to Valparaiso. Mr. Henderson says his company will extend its line by the Southern passes via Las Lajas and Victoria. There will be a tunnel five hundred metres long.

The Chilean government approves of Mr. Henderson's scheme.

Time Record Broken.

New York, March 24.—President A. J. Cassatt of the Pennsylvania railroad, his counsel, John G. Johnson, and three others, have broken the running record between Philadelphia and Jersey City for four minutes. The special train on which they made the remarkable run covered the 90.15 miles in exactly 50 minutes. The best previous record was made by J. P. Morgan's special on Feb. 7, which covered the same route in 54 minutes. President Cassatt came to this city to confer with President Baldwin of the Long Island railroad—now called the New York and New England—on the proposed tunnel bill of the Pennsylvania railroad tunnel bill by the New York legislature.

Going Right At It.

Denver, March 23.—The Times today says: It is stated that David H. Moffat, at a conference with New York capitalists, who met with New York for the new Salt Lake road, announced positively his intention to see that the road is constructed and that in bringing the project to their attention he was simply giving them the opportunity to become interested, but the opportunity would not be open to them. Capital for the road is available and the awarding of contracts April 2 for the first 10 miles of the Denver & Northwestern Pacific road, where Croes will be the beginning of construction work on the lines that will establish Denver's permanency as a railroad center. Mr. Moffat pointed out that Denver is not at present on the line of the transcontinental system. The Denver & Northwestern will be an independent line that will make the link between the Rock Island and Burlington roads reaching from Denver to the east and the new San Pedro, Los Angeles & Salt Lake road, where Croes will be the beginning of construction work on the lines that will establish Denver's permanency as a railroad center. Mr. Moffat pointed out that Denver is not at present on the line of the transcontinental system. The Denver & Northwestern will be an independent line that will make the link between the Rock Island and Burlington roads reaching from Denver to the east and the new San Pedro, Los Angeles & Salt Lake road, where Croes will be the beginning of construction work on the lines that will establish Denver's permanency as a railroad center.

As surveyed, the line will cross the front range of the Rockies by means of a tunnel about two miles in length north of James Peak, and crossing the Middle Park and Grand valleys, and the river has its source. The line will virtually follow the drainage of Bear river throughout that country, touching at Steamboat Springs, thence westward in almost a direct line to Coal Valley, and on to Salt Lake City. By this route the distance will be about 322 miles from Denver to Salt Lake, or more than 200 miles shorter than any line existing at present.

The projected road will require from one to two years, and its approximate cost will be not far from \$15,000,000.

Harriman in Texas.

Eagle Pass, Tex., March 23.—The Harriman special, returning from Mexico, passed the frontier here today. In the party were E. H. Harriman, S. M. Felton of the Chicago & Alton, Julius Kruttschnitt and Dr. Lyles. Mr. Harriman's private secretary, their trip embraced the principal cities of central and southern Mexico, including Durango, Guadalajara, City of Mexico, Cuernavaca, San Luis Potosi, Tanguay and Monterey. The party was met here by First Vice President Markham and Manager Van Vleet of the Galveston, Houston & San Antonio. The special train left for San Francisco, via El Paso, tonight.

Proposed Suit in Washington.

St. Paul, March 22.—Atty.-Gen. W. B. Stratton of Seattle, Wash., has been for several days in consultation with Atty.-Gen. Douglass of this state regarding a proposed suit against the Northern Securities company on behalf of the state of Washington. The bar which kept Minnesota out of the federal supreme court will not operate against the state of Washington. The suit refused to take jurisdiction on the Minnesota case because one of the parties defendant is a citizen of this state. None of the corporations interested in the merger are citizens of either of the states to the west. Both Montana and Washington may bring suit, but it is stated the former will act first. The Minnesota authorities will soon begin an action in the state courts with a view to dissolving the merger.

SPIKE AND RAIL.

Ties for the Leaning cut-off have been sent south.

Chicago has it that Harriman has secured control of the Rock Island.

A Rio Grande Western special carried the Maccabees to Park City last night.

Supt. Dunn of the Oregon Short Line

motive power department has gone on an eastern trip.

John Reed is now chief clerk in the office of motive power superintendent of the Oregon Short Line, vice William H. Keegan, resigned.

The Railway Age expresses the belief that 1902 will see an increase in railway building over that of 1901, although last year was the biggest since 1899.

Twelve new compound engines for the Oregon Short Line have been completed by the Baldwin locomotive works, and are now on their way west.

Senator Clark is of the opinion that the building of the San Pedro road will be of greater benefit to the people than libraries and that it will prove to be a creditable and lasting a monument.

Some quarters in Denver are running over with rumors to the effect that the Colorado Fuel & Iron company is now the owner of the Colorado & Southern railway and that it intends to purchase all the coal mines of the west. It certainly has mapped out for itself a gigantic task—if the rumor be true.

MINISTERIAL ASSOCIATION.

Chaplin Marvin Reads Interesting Paper on Chinese Campaign.

At this morning's meeting of the Ministerial association, the president, Rev. F. Barnett, appointed as committee on public morals for the current year, Revs. R. Wake, P. A. Simpkin and Dr. W. M. Padon.

The feature of the meeting was an able paper from Chaplain Marvin of Fort Douglas on "Some Incidents in the Chinese Campaign." The chaplain was with the famous Ninth infantry under Col. Liscum during that remarkable march and saw about everything there was to be seen.

The speaker mentioned first the attitude of the missionaries in the English church, whose self-denial and strict carnelities led any breath of scandal to besmirch their sacred office. He said no one might accuse any missionary of looting, took the position that not one of them should ever purchase land. And this was at a time when costly furs, elegant embroideries, superb silks and the like were being sold at the nearest fraction of their real value.

But the mission field occupied by the missionaries of the American board lay in the city. He said that he had seen their converts who to the number of 500 men, women and children had flocked into Pekin for protection, and whose labors proved so effectual in affording protection to the missionaries.

SUSPICIONS CONFIRMED.

Definitely Established That Miss Brantling's Death Caused by Criminal Operation.

County Attorney Holds Interview With Nurse Gordon Today—Arrests May Follow.

The suspicions of the authorities, in regard to the death of Miss Mary E. Brantling having been caused by a criminal operation, were confirmed yesterday when the young lady's body was exhumed from its grave in the cemetery at Ogden and an autopsy held which disclosed the fact that a very unskillful and careless operation had been performed, a portion of the instrument used having been broken off and left in the abdominal cavity.

County Physician Mayo, Dr. Ellerbeck and Dr. McCurtain, of this city, assisted by Dr. J. H. Powers and Dr. H. B. Forbes, of Ogden, held the autopsy which was conducted in a small house near the open grave in the cemetery. The examination disclosed the fact that the person, in performing the operation, had, in some way, broken off about three inches of the instrument which had been forced into the abdominal cavity, the presence of which caused peritonitis to set in thereby causing the death of the young lady. The broken instrument was removed and sent to the coroner's office. The county Atty. Christensen as evidence to be used in convicting the perpetrator of the foul crime.

The point as to when the operation

We have now in stock a splendid lot of the above goods of the celebrated Heywood and Wakefield make. We can confidently recommend these goods as being the best on the market. We invite you to call on us and inspect them. We have such a large variety that you are sure to be suited.

PRICES THE LOWEST.

H. DINWOODEY FURNITURE CO.

America, a fraternal order with headquarters at Peoria, Ill., has been filed in the office of the secretary of state. The board of managers is composed of the following parties: Liza G. Franks and L. L. Maxson.

Richard S. Horne and W. J. Horne, executors of the estate of Joseph Horne, deceased, have transferred by warrant to Zion's Savings Bank and Trust company \$3 by 10 rods of ground in lot 10, block 4, plat 1, for a consideration of \$3,000.

AFTERNOON MINING CALL.

Heavy Trading Continued on the Exchange This Afternoon.

Stocks were quite actively dealt in this afternoon at the higher prices of the morning call. Carissa was heavily dealt in and Daily West ruled at figures about \$24.40.

At presstime the following transactions had been recorded:

Ajax 7.00 24 1/2
Carissa 23 1/2 23 1/2
Con. Mercu 1.70 1.90 1.8

NEW YORK PRICE METALS.

Lead and copper quiet and unchanged.

NEW YORK STOCKS.

(By leased wire to the Central Stock Exchange, 215 Main street.)
Monday, March 24.

County Attorney Christensen held a long interview with Nurse Gordon this forenoon with the result, it is stated, that some arrests may be made tomorrow.

SPECIAL CONVENTION

UTAH WOOL GROWERS.

There will be a special convention of the Utah Wool Growers' association on April 5 next, in this city, immediately following the special convention of the Utah cattlemen; and President Jesse M. Smith and Secretary Callister of the Wool Growers' association urge that all of the sheepmen in the state be represented. The reason for this call is to take into consideration the demands the government will become less restrictive in its forest reserve policy, and to open these reserves more to sheep grazing. It is also urged that it will be best for all sheep owners in the state to join into the association, as this will not only strengthen that body, but bring them under its protection in looking for the maintenance of their own rights.

POOL IN A BAD WAY.

More charges are piling up against Harry Pool, the young "parlor robber," and at least three terms in prison is likely to be his lot were the police get through with him.

These being identified as the man who held up the bartender and a patron of the Hermitage saloon, and the bold invader of Dr. C. W. Higgins' home, he has been partly identified as the man
